PIE EATING was one of the entertainment features of the Pennigton county 4-H fall festival Saturday at the county fairgrounds in Thief River Falls. Actively engaged in the competition above are Paul Lendobeja of Smiley, Christine Szymanski of Mavie and Nancy Newton of Smiley. The winners received pies as their prizes.

5 from Here at Jr. Livestock Show

A big event for many county 4-H club members and others throughout Minnesota will be the 1962 Junior Livestock Show in South St. Paul Oct. 1-4.

More than 700 Minnesota 4-H'ers have won trips to the show to exhibit market livestock. Attending the show from Pennington County will be Gene Legg, Happy Acres, showing beef; Gary Oen, Happy Acres, showing swine; Robert Parnow, Star; Gary Aandal, Mavie; and Spencer Oen, Happy Acres, all showing wethers.

Animals to be exhibited at the show include 311 beef steers, 202 market wether lambs, 178 barrows and 15 trios of lambs. All livestock were selected from among the best exhibits at the county fair or a local achievement day. Counties receive a quota of trips to the show based on the number of members enrolled in the steer, barrow, wether lamb and trio projects.

Today, Monday, is entry day. Entries must be in place and registration completed by 6 p. m., according to Osgood Magnusson, coordinator of the show and assistant state 4-H club leader at the University of Minnesota.

Swine and sheep will be judged Tuesday morning, Oct. 2, and beef will be judged Wednesday morning. Showmanship contests for barrows and lambs are scheduled for Tuesday afternoon and for beef Wednesday afternoon.

Approximately 150 of the top-ranking exhibits will be sold at auction on Thursday afternoon, beginning at 1:15. All other animals are sold by the commission companies to which they are consigned. Selling by commission companies starts at 8 a. m. Thursday.

Exhibitors will be guests of the St. Paul area Chamber of Commerce at a banquet at Hotel St. Paul Wednesday evening. Other activities planned for the 4-H'ers include special tours, a 4-H roundup program in South St. Paul High School and an evening at the Cow Palace in South St. Paul with entertainment by the St. Paul Figure Skating club. Tours are being arranged to the capitol, state highway building, State Historical society, Museum of Science and Natural History and the Coca Cola plant.

Sponsors of the Junior Livestock Show are the Minnesota Livestock Breeders' association and the University of Minnesota agricultural extension service, in cooperation with the South St. Paul Chamber of Commerce, and South St. Paul Jaycees. Businessmen in the Twin Cities and throughout the state help support the show and sale.

Council Group Is Studying Federal Aid Projects Here

A list of city improvement projects that may be eligible for federal aid under the provisions of the accelerated public works program recently approved by Congress, is now being prepared by a special committee of the city council and City Engineer D. H. Stewart. Under the provisions of this, one of the emergency measures enacted into law, $900 million was made available for projects that meet the federal requirements and can be gotten under way speedily.

Week Proclaimed as Eye Bank Week

Supporting the Minnesota Lions Club Eye Bank in its efforts to relieve the condition of the blind, Governor Elmer L. Andersen today issued a proclamation enlisting the support of Minnesota citizens in the eye bank project. He designated October 1 to 7 for the observance of Eye Bank Week, and he praised the efforts of the state's 8,770 Lions Club members, as well as the committee on ophthalmology of the Minnesota State Medical association.

Harding Noblitt Chides Langen in Talk Here Friday

DFL Candidate for 9th District Congressman Backs Kennedy Program

Speaking at a luncheon at the Rex Cafe in Thief River Falls Friday, Harding Noblitt, DFL candidate for Congress, lashed out against his Republican opponent, Rep. Odin Langen.

He said, "The present Congressman is an obstructionist who votes against the best interests of our district. Langen voted against the 1961 feed grain bill, the Kennedy-Freeman farm program and now a reasonable compromise farm bill. This obstructionism will lend to no farm program at all, a situation which will cut farm income in half and drive two million farmers off the land.

"Thief River Falls is today suffering because of Republican opposition," Noblitt continues. "The present Congressman voted against a bill which would have provided aid for school construction—something badly needed in this town."

Noblitt presented his own program of support for the Kennedy Administration, "because the President's program is one that is concerned with people." Noblitt called for long-term FHA loans, from five to seven years. "After disastrous years long-term loans are absolutely essential."

State Senator Louis Murray of East Grand Forks served as toastmaster at Friday's luncheon, and Stanley Radnicki, DFL-endorsed candidate for the state legislature from Pennington and Red Lake counties, also spoke briefly.

Local Artist in Concordia Show

The 1962-63 exhibition calendar at the Berg Art Center at Concordia College, Moorhead, opened Sunday, Sept. 30, with a collection of works by outstanding alumni. The collection, which is the fourth annual alumni exhibition, will be shown through Oct. 28. It is composed of oils, sculpture, water colors and graphic media. Among the exhibitors from Minnesota is Leroy Aasland '57, Thief River Falls.

Welfare Staff to Go to Conference in Red Lake Falls

Boards and Staffs from Ten Counties to Attend Session Tuesday, Oct. 9

The annual fall meeting of the Minnesota Welfare Association for Region Three has been scheduled for Tuesday, October 9th and will be held in the courtroom of the courthouse in Red Lake Falls. Region Three is composed of ten counties of Northwestern Minnesota.

The theme for this year's conference is "Welfare — Looking Ahead" and slated for speaking assignments are Miss Alma Leigh, judical social consultant from the department of public welfare in St. Paul; Lester M. Dale, M. D., chairman of the state public policy committee of the Minnesota Medical association; Ove Wangensteen, deputy commissioner of the department of public welfare; and State Senator William S. Dosland of Moorhead, a member of the Senate welfare committee.

The conference is open to the public and it is felt that this year's program will be of real interest to anyone wishing to attend. Registration is from 9 a. m. until 10 a. m. with a registration fee of twenty-five cents. The conference luncheon will be held in the St. John's Lutheran Church basement at noon. Adjournment will be at 3:00 p. m.

Attending from Pennington county will be Donald L. Olson, chairman of the welfare board; and members Odin C. Hanson, Merle Lindberg, Mrs. Hans Chommie, Mrs. Arvid Dahlstrom, Glen Tasa and Woodrow Almquist; also staff members Ralph T. Hunt, director; John Lynskey, Burton Kvernevig, and Marianne Rennquist.

Co-op Session Set in TRF October 10

Leaders in Six Counties to Meet at Rex at 8 p.m.

Representatives of co-ops in this region will attend a district meeting of the Minnesota Association of Cooperatives in Thief River Falls on Wednesday, Oct. 10. The meeting is scheduled for the Rex Cafe and will begin at 8:00 p. m., according to Gunsten Skomedal, Thief River Falls, MAC director for District Seven.

Co-op leaders from Kittson, Marshall, Pennington, Polk, Red Lake, and Roseau counties will take part. Speakers will be Brynolf C. Peterson, Aitkin, MAC president, and Edward E. Slettom, St. Paul, executive secretary who will report on activities and legislation affecting cooperatives.

The Thief River Falls meeting is one of 15 district meetings leading up to the annual MAC meeting and youth conference which will be held Oct. 29 and 30 at Hotel Leamington, Minneapolis.

ELECTED president of the 13th District Horticultural Society at the annual meeting held Saturday at Oslo was Mrs. Orlando Chervestad, Oklee, member of the Deer Park Garden club. She succeeds Mrs. Selvin Bertilrud of Roseau as head of the organization. Mrs. John Thompson, Viking, member of the Town and Country Garden Club, was named vice president.

Ole Ekeren Buys Lot on LaBree av.

Building Used for Shoe Repair Shop to Be Razed

The property fronting on LaBree Ave. immediately north of the Elks' Building that has been occupied by the John Vielguth shoe repair shop, has been purchased by Ole Ekeren, proprietor of the Ekeren Rexall Pharmacy and for the time being will be made available for automobile parking.

Mr. Ekeren has sold the building to Solheim & Ness and it will be removed shortly. The owner of the property was Mrs. O. L. Monson.

Mr. Vielguth moved his shoe repair shop to the Carlson Bldg. on LaBree Ave. at Fourth St. He and his partner, George Peterson, have announced the sale of the business to Donald Johnson of Grand Forks, N. D., who will take possession on the first of the year.

Movie Theater at R. L. Falls Closes Doors Last Week

The State Theatre in Red Lake Falls which has been operating for the past 24 years, closed its door last week, says the RLF Gazette.

The announcement of closing was made by Mr. and Mrs. Wm. Schultz who have operated the business for the past several years. No more shows are scheduled and the theatre building will be remodeled for use by the International Tool and Engineering Corp. as an assembly plant for its tire changing machines.

The State Theatre building was completed in August 1938 by C. P. Knudsen.

TOP - SELLING PUREBRED cow at last year's Top-of-the-Nation sale will be pictured in the sale bills that will advertise this year's event to be held Thursday, October 18. This animal was bought by Clyde Christensen and Martin Carrico of Thief River Falls for $500 and was later sold to Guy Lewis at Perham. She has just completed her period of lactation with a production record of 557 pounds of fat. In the picture above are, left to right, Warren Gast of Beltrami, who consigned the cow for last year's sale, along with Christensen and Carrico.

To Distribute $728,000 Soil Bank Payment

Culkins Says Other ASC Checks to Bring Total to $900,000

Pat Culkins, office manager of the Pennington County Agricultural Stabilization and Conservation agency, reports that final payment checks are now being issued for feed grain acreage reduction and wheat stabilization payments.

Starting October 8 the office will also start issuing the final soil bank checks for the year 1962. He estimates the total to be distributed in Pennington County during the next few weeks at approximately $900,000.

Of this total, the largest item will be for soil bank reimbursement which Mr. Culkins estimates at $728,000. The wheat stabilization payments, reimbursing farmers for wheat acreage reduction, will be about $95,000. Feed grain checks for reducing barley and corn acreage for 1962 are estimated at $80,000 for the country.

The total of government payments in the area served commercially by Thief River Falls would be several times greater than the Pennington county total alone and probably would be well over three million dollars.

Pennington county was second high in the state in the number of growers who participated in wheat acreage reduction, being second only to Kittson county and that by a very narrow margin. The participation in Pennington county was 88.17 per cent.

500 Attend 4-H Fall Festival Saturday Night

More than 500 members of 4-H clubs, parents and friends of the organization took part in the annual Pennington county 4-H fall festival held Saturday at the county fairgrounds in Thief River Falls. Novelty acts were presented by Silverton, Deer Park, Steiner and Kratka 4-H clubs.

A pie eating contest was one feature of the evening's entertainment with other contests including apple bobbing and balloon scramble. Cartoons and movies were shown and older members participated in games and square dancing.

Awarded prizes for being the best-dressed hobos were Eileen Gjernes, Lucky Four club; Kenneth Larson, Kratka; Mrs. Silas Hanson, Silverton; and Raymond Bren, City View.

OLAF OLSON SHOOTS LYNX IN HICKORY TOWNSHIP

Olaf Olson of Hickory township shot a lynx in his farmyard Thursday. The animal had been treed by the dog after having killed one of the Olson's chickens.

Business Climate in State Is Topic Oct. 4

SUPPORT of the project for aid to retarded children carried on by the Thief River Falls chapter of the B.P.O. Does was noted Wednesday at a meeting of the Pennington-Red Lake Association for Retarded Children. A check for $40 was presented to the association from the Does as a result of the coin march held at the recent state convention. Pictured left to right are Mrs. Mildred Booren, Does president ;Mrs. Morris Odegaard, association president; and Mrs. Polly Haroldson, first councilor of the Does.

Chamber to Be Host to N. W. Minnesota Meeting Thursday

Results of a business-climate survey conducted recently in Minnesota will be reviewed at a northwestern Minnesota job-climate conference to be held at the Elks Club rooms Thursday, October 4. The reports will reveal the thinking of leading Minnesota manufacturers and businessmen on taxes, labor, community facilities and general attitudes of the public, along with other matters pertaining to the development of a healthy business climate and increased employment.

Host organization will be the Thief River Falls Chamber of Commerce and president Joe Holter will extend the welcome at the opening session which will start at 10:30 a. m., following registration. Representatives of all northwestern Minnesota communities have been invited to attend and local people interested in the problems are urged to be present. A noon luncheon will be served at the Rex Cafe

Speakers will include John T. Hay, chairman of the business climate committee and executive vice president of the St. Paul Chamber of Commerce, who will discuss "The Anatomy of a Business Climate." Dr. Marvin J. Taves, director of the rural sociology department of the University of Minnesota St. Paul Campus will tell of "The Out migration of People from Minnesota Communities," based on a University of Minnesota study.

Following the noon luncheon the afternoon session will get under way at 1:15 o'clock, with Charles Stone, general counsel for the Minnesota Taxpayers Association, reporting on the state's fiscal condition. Lloyd Brandt, manager of the legislative department of the Minneapolis Chamber of Commerce, will lead a general discussion period; and Kenneth A. Synder, secretary-treasurer of the Minnesota Farm Bureau, will close the formal program with a summary of "Where Do We Go from Here?"

United Fund Drive Plans Set Tonight

Dick Bjorkman Has Accepted Post of Campaign Chairman

The Pennington County United Fund organization has moved into action and preliminary steps have been taken to get the drive for funds under way along with the national solicitation. At a meeting of the board of directors last week Sig Sinding was reelected president, Dr. R. G. Anderson vice president, and Gene Beito secretary-treasurer. Dick Bjorkman has accepted the assignment of drive chairman.

Officers and directors will meet again tonight to complete fund allocations and organization details and it is hoped arrangement for the kick-off can be completed and an early starting date agreed upon. A survey of sentiment in the community indicates a general preference for the one-drive method of solicitation and workers are now being lined up for various groups.

Mr. Bjorkman accepted the assignment as drive chairman reluctantly, pleading that he is practically a stranger in his old home town. Having accepted the job he is going all-out to get a good result. "But," he says, "I need lots of help."

The payroll deduction plan is essential to a successful drive, Bjorkman believes, and he urges that both employer and employees encourage this method of pledges and payments.

American Crystal Sugar Co. to Build Plant at Drayton

The American Crystal Sugar company, which operates sugar beet refineries at East Grand Forks, Moorhead and Crookston has announced that it will build another plant at Drayton, North Dakota, to be ready for the harvest of 1965.

The company has also asked for acreage allocations to support production for new facilities for the Wahpeton and Breckenridge area at the southern end of the Red River Valley. Hearings on proposals for expanded facilities are now under way in Washington, D. C.

Johnson, Badger, and Ralph Messelt, Roseau, architectural drafting; Alex Millner and Gordon Hipsher, both of Roseau, auto mechanics; James Haupt, Red Lake Falls, and Rodney Wilcox, Shevlin, carpentry.

Others elected are Edith Tvelt, Crookston, and Vera Thingelstad, Roseau, cosmetology; Dave Langseth and Orville Olson, both of TRF, electronics; Donna Runger, TRF, and Phyllis Geray, Mahnomen, practical nursing; Glenn Hanson, Gonvick, welding; and Clayton Mack, East Grand Forks, and Dale Elseth, Newfolden, auto body repair.

Junior High FHA Elects Officers

New officers of the junior high school chapter of the Future Homemakers of America at Lincoln high school were installed at a candle-lighting service held last week. Each new officer was presented with a rose and the business meeting centered on discussion of fund-raising ideas.

September Fades On Balmy Note Over Week-end

September faded into history on a balmy note Sunday with a near-perfect autumn weekend being noted. Total precipitation for the month was 2.24 inches with only traces being recorded on two days after September 10 to mar a total of 20 moisture-less days.

Weather during the past several days was extremely nice with high and low temperatures respectively being 64 and 31 on Thursday, 66 and 41 on Friday, 72 and 46 on Saturday and 68 and 52 on Sunday with a low last night of 38 degrees.

The forecast calls for mostly fair today, continued fair tomorrow, cooler tonight with little temperature change. Winds will be light and northerly with low humidity. Highs will be in the mid 60's today with lows of 38 to 44 tonight.

Re-development Agency Board to Be Named Tuesday

County Board to Name to Coordinate Efforts to Boost Employment

The regular meeting of the Pennington county board will be held at the court house Tuesday, and, according to County Auditor C. W. Rodekuhr, the day will be spent largely dealing with routine matters. The one exception, he says, will be the appointment of the governing board for the Pennington county Area Redevelopment which has been authorized.

The governing board will consist of a five-man committee which will act as a clearing house for the action of several other community development organizations. The emphasis will be on, but efforts will not be limited to, those areas where unemployment is prevalent.

Local county or area initiative and leadership is the prime mover for anything that is done. Within the U. S. Department of Agriculture, the secretary has assigned specific responsibilities to designated agencies.

The ARA has been given the responsibility for coordinating the work of all department agencies that can contribute to rural area development. Types of projects that may be given financial assistance by grants or loans include public facilities which contribute directly to new, permanent commercial or industrial employment. Organizations that can qualify for loans and grants include public bodies such as state or local government, or a local nonprofit corporation.

Peter Vistaunet, Former Resident, Wed In Calif.

An impressive candlelight ceremony at Our Savior's Lutheran Church in Los Angeles, Calif., recently, joined Sharee Van Wagenan and Peter Vistaunet in marriage in a double-ring service. There were about 500 friends and relatives present as Rev. Myrus Knutson, assisted by Rev. James Nesheim, performed the ceremony.

The bride is the daughter of Mr. and Mrs. Harold Van Wagenen of Provo, Utah; the groom is the son of Mr. and Mrs. Alv. P. Vistaunet of Los Angeles, and the grandson of the late Dr. and Mrs. P. L. Vistaunet of this city. He was born here, and is the nephew of Mr. and Mrs. Matt Guttu, former residents, who recently moved to the west coast.

On the arm of her father, the bride entered the church and proceded down the candelabra-ribbon-and-flower-decked aisle. Her gown was of peau de soie with re-embroidered Alencon lace, and was of floor-length. Her jewelry was a diamond lavaliere, the gift of the groom. The bridal bouquet was a cascade of white butterfly orchids, edged with lily of the valley and stephanotis. Her sister was maid of honor, and she was attended by five bridesmaids.

Al Vistaunet was best man for his brother. Six friends carried out ushering duties.

There were two flower girls and ring-bearers, one of the latter being Mark Guttu, grandson of the Matt Guttus.

The bride's mother wore a gown of pure silk in steel blue, and the groom's mother was in Periwinkle blue silk organza. Both wore corsages of cymbidium orchids.

The bride's parents honored the young couple at a reception at the church following the ceremony. Highlight of the reception was the beautiful five-tier cake built atop a flowing fountain. The newlyweds were further honored at a reception at the Provo, Utah, Riverside Country Club.

Special guests were Mrs. Alma Van Wagenen and Mr. and Mrs. J. G. Salisbury, grandparents of the bride, and Mrs. H. J. Guttu, grandmother of the groom.

For her going-away outfit, the bride selected a two-piece ensemble of avocado green linen with white accessories and a white butterfly orchid corsage. The couple are making their home in Los Angles, California.

PLANNING a November 3 wedding is Miss Cecile Prudhomme of Crookston, according to the announcement made by her parents, Mr. and Mrs. Leonard Prudhomme of that city.

The prospective bridegroom is Bill Marcinlak, son of Mr. and Mrs. William Marcinlak of Thief River Falls.

November 3 is the date chosen for the wedding, which will take place at St. Peter's Catholic Church of Gentilly.

The bride-elect attended St. Joseph's Academy in Crookston, and is presently employed at Polk County State Bank in that city. Her fiancee is employed at St. Hilaire.

Mrs. J. Dostal, Sr. Observes Her 94th Birthday

Mrs. Joe Dostal, Sr., who reached the rare age of 94 on September 14, was guest of honor at several birthday observances held belatedly here and in Plummer. On Saturday, September 22, she was honored by about 20 well-wishers at the latter town at the home of her grandson, Wallace DuChamp, assisted by Mrs. Jesse DuChamp. That evening, Mrs. Dostal was again the guest of honor when her daughter, Mrs. Agnes DuChamp of this city, entertained for her.

The children, grand-children and great-grandchildren presented her with gifts, money, and flowers, and her son and daughter-in-law, Mr. and Mrs. H. E. Dostal, of Chisholm, brought a decorated cake with them. There were also 20 guests at the second party. Only one of her children was not present, Mrs. Henry Demlott, of St. Paul.

Mrs. Dostal has ben a resident of the city for 64 of her 94 years. Still remarkably active, and in possession of her sight and hearing, she accompanies family members on trips, occasionally visiting on the Range and elsewhere.

Sorter Family Honors J. Jernbergs of Mont.

A group of relatives, gathering at the Floyd Tanner home near Middle River Sunday, September 23, honored Mr. and Mrs. John Jernberg of Butte, Mont., who have been visiting relatives in the vicinity for the past week. Since it was also Mrs. Jernberg's birthday, there was, in addition, a birthday observance in her honor, featuring a decorated cake baked by her niece, Junice Tanner, and the singing of the birthday song by her two small grand-nieces.

Mrs. Jernberg, the former Nellie Sorter, of the Ringbo community, is a sister of Ellef and Pete Sorter.

In addition to the honored guests, those in attendance were: Mr. and Mrs. Ben Torfin and Mr. and Mrs. Yenne Magnuson and family of Roseau, Mrs. Minnie Sorter and Lloyd, and Mr. and Mrs. Newell Dunham and family of Wannaska, Mr. and Mrs. Walter Sorter of Goodridge, Mr. and Mrs. Pete Sorter, Mrs. Orville Gillespie of Thief River Falls, Mr. and Mrs. Merle Sorter, Sylvia Sorter and Marie Dunham of Minneapolis, Annette Davidson of St. Paul, Mr. and Mrs. Melvin Sorter and Mrs. Hilmer Davidson of Holt, Mr. and Mrs. Ellef Sorter and Myron, Mr. and Mrs. John Sorter and James, Mr. and Mrs. Luverne Sorter and Patty, Art Sorter, Martha and Willard, Mrs. Emma Brenna, Mr. and Mrs. Floyd Tanner and family, Marvin Moen, and Mr. and Mrs. Selmer Sorter and Julie.

Lloyd Quesnells at W. P. Kennedy Dinner

Mr. and Mrs. Lloyd Quesnell of this city attended the dinner Saturday evening at the Leamington Hotel in Minneapolis, honoring William P. Kennedy, retiring president of the International Brotherhood of Railroad Trainmen. Driving down Thursday afternoon, they were accompanied as far as Wadena by Mrs. Ed Jaranson who visited relatives there. The Kennedy banquet was attended by the presidents of four railroads and many other prominent railroad and public officials. Mr. Kennedy, who attended a meeting in Thief River Falls two years ago, started railroading in Grand Forks in 1910.

Madelene Vaudrin Notes 8th Birthday

Miss Madelene Vaudrin, who was eight years old on Thursday, September 27, was honored guest at an outdoor, after-school birthday party given at her home by her mother, Mrs. Raymond Vaudrin. Outdoor games were played, with prizes being awarded the winners.

Newcomers Enjoy Interesting Session

New families in town were very well represented at the Newcomers' Club meeting held on Wednesday evening, September 26 at the courthouse.

Mrs. Herman Dargus, club president, reported that 58 families have ben visited since last May 18, and that the newcomers expressed pleasure with the packets presented them. Mrs. Dargus further states that over 100 letters were sent out last week to local businessmen, explaining further the club's visitations of new families. She hopes that those not yet replying will do so in the near future.

The newcomers' constitution was read to acquaint the new people with club rules. The forthcoming bridge marathon, planned for this month, was explained, and those planning to participate were signed up.

Mrs Gunder Legvold showed slides of her Hawaiian trip, along with a number of souvenirs. Christmas decorations, some of which the group will make at the next meeting, were shown.

Door prize was awarded to Mrs. Ken Taylor. Hostesses were Mrs. Dick Williams and Mrs. Laurel Lappegaard.

The club will next meet on Wednesday night, October 10, at the courthouse meeting rooms, at 8 o'clock.

Those interested in learning more about the club are invited to call Mrs. Dargus, MU 1-4139.

KITCHEN KARNIVAL

Features from the kitchen of

MRS. VICTOR KALINOSKI

The picnic table's passe for another summer (it didn't get much of a workout this summer, anyway, did it?) and potato salad and beans are replaced by other foods as the entertaining moves indoors to the buffet table or snack tray.

One salad that makes a hit, it seems, with everyone, and can be set aside before the party, leaving the hostess free to join the chit-chat of her guests, is this one. We tasted it at a party where it was served in a huge wooden bowl and made bright with sprigs of parsley. The pink of the meat dressed up the white rice and made everyone eager to wrap herself around a goodly portion of it. The taste lived up to the eye-appealing build-up, and from all sides came the comment that the guests "had to get that recipe." (You know how women are about those things!) So here it is, for all of you to enjoy.

Mrs. Victor Kalinoski generously shared it with us. Tell her how you liked it.

RICE-HAM SALAD

1 cup uncooked rice
2 cups diced, cooked ham
1 cup frozen peas, cooked
1 cup diced celery
1 tablespoon minced onion
1 cup mayonnaise
2 tablespoons lemon juice
2 tablespoons prepared mustard

Cook, drain, and cool rice and the ham and peas. Mix mayonnaise, lemon juice, and mustard until well-blended. Combine with other ingredients. Chill, and serve.

Ham can be replaced by Spam, pork, chicken, turkey, or whatever cold, cooked meat you happen to like.

The Kalinoskis are the parents of three sons, Ricky, Ronnie, and Tommy.

Mr. Kalinoski is owner-manager of the Ace Hardware in this city. They live in Rustad's addition, where the youngsters can let off steam after a day at school and, no doubt, get set for a pretty hefty supper.

Their mother helps out at the store on occasion, is active in church work, in keeping their big yard and garden neat, in bowling, and somehow she even finds time for scout-work. They are members of St. Bernard's Catholic church. Mrs. Kalinoski was born here, but they lived for awhile at Waukeegan, Ill. where her husband managed an Ace hardware store until a year ago in August, when they purchased the local store. Mrs. Kalinoski says she feels as if they are settled here for life. We hope so. We like it here, too.

Marshall 4-H Federation Has Meeting at Argyle

Evaluation of the 4-H Fat Animal show was heard when the Marshall county 4-H federation met September 24 at the Argyle school multi-purpose room, according to Harlem Sandberg, county 4-H club agent.

The following were appointed to the nominating committee: Alvin Smidt, chairman, Argyle Hustlers; Selmer Sorter, Cedar; and Barbara Augustine, Holt. There was a discussion on the 4-H Cloverleaf Review (the monthly 4-H newsletter) and on 4-H graduation. Also announced was the fall enrollment due date which is November 1.

A panel composed of Bonita Halfmann, moderator, Happy Corner; Barbara Augustine, Holt; Faye Erickson, Vega; Joyce Knoll, Tamarac Tacklers; and Lester Bakke, Viking, discussed the topic "Should We Have a Fifth H?"

Points brought out in the discussion included: The basic principal behind club work is education; members learn the most by doing and the adults, relationship is to help, show and guide; 4-H is one organization which the whole family can attend; education can be fun and the boy or girl will learn easier in an acceptable atmosphere; the important part of club work is what the member learns by participating and not the award of the trip, but awards can furnish the necessary stimuli to encourage the individual to seek larger and more helpful goals; 4-H is also a place to develop good citizenship.

Judy Gunderson of Woodland was mistress of ceremonies. Plainview served lunch. Junior and adult leaders totaling 67 from the following clubs attended:

Argyle Hustlers, Boxville, East Folden, Florian Friskies, Happy Corner, Holt, McCrea, Plainview, Riverside, Tamarac Tacklers, Vega, Viking, West Prairie and Woodland.

Mrs. Headley To Attend Methodist Women's Meeting

Mrs. A. Dean Headley of Community Methodist church in Thief River Falls, will be one of six delegates from Minnesota attending a nine-state meeting of Methodist women in Minneapolis October 3-7. The session is the 21st annual meeting of the North Central Jurisdiction of the Women's Society of Christian Service, Wesleyan Service Guild and Deaconess association.

Sessions at Hennepin Avenue Methodist church will feature addresses, panels, workshops, business and worship services. The nine states represented include Minnesota, Iowa, Wisconsin, North Dakota, South Dakota, Michigan, Illinois, Indiana and Ohio.

As youth secretary of the Minnesota conference, Mrs. Headley left Friday evening to attend the youth council at Camp Decision Hills during the weekend. She will visit her daughter Joan at the University of Minnesota before attending sessions of the conference board of education at Hamline University on Tuesday.

Teen-age CCD at St. Bernard's Has Held Its Election

The initial meeting of the St. Bernard's Teen-age CCD was held last Thursday evening at St. Bernard's school. The youth program is designed to instruct the high school members of St. Bernard's Church in Christian truths and ideals.

There were 82 students present from the senior, junior, sophomore and freshman classes. 126 students are registered. They will meet weekly.

The following were elected to membership on the Teen-age CCD Board: seniors, Rae Carlson and Tom Marben; juniors, Vickie Goulet and Pat Munt; sophomores, Cyril Fisher and Lois Benson; freshmen, Joanne Bruggeman and Mike Kusmak. These members of the Teen-age CCD will be in charge of social activities throughout the school year, and will make recommendations to stimulate a vital high school religion program.

Instructors of the young people are Father Keough Patnode, Father G. Robert Pryor, Mrs. Robert Wurst, and Gene Sack.

The high school program is a part of the Confraternity of Christian Doctrine.

Square and Round Dancing Classes Open This Week

All couples who wish to learn dance steps used in various round dances and several current dances are encouraged to enroll in the round dancing course of five weekly lessons which begins Tuesday at 8 p. m. in the old gymnasium at Lincoln high school. Mrs. Catherine Simon will be the instructor.

Take samples 50 to 100 steps apart. Mix the soil in a pail. A mixture of the 15 to 20 samples then makes a composite sample of the field. Sample the low and the unusual areas separately. After the soil is well mixed in the pail take out about a cup full and this sample then represents the whole field.

Now Is Time to Take Soil Samples to Test, Stelmaschuk States

Soil testing is a very basic and important tool in getting good crop and hay yields. A bad year makes soil testing even more important so that loses may be recovered another year if the weatherman co-operates, states county agent Paul Stelmaschuk.

Three days are set aside this month to help farmers in the area with soil sampling. Fertilizer dealers in Pennington County will again co-operate in staging a soil testing promotion. They will refund the cost of the soil test to the farmer when he buys his fertilizer.

The dates to bring the soil samples to Thief River Falls are Oct. 18, 19, and 20. But now is the time to take your soil samples, as long as the weather is good. Don't wait until mid October. It may be raining again, said Stelmaschuk.

As you pick up the samples, mark all the samples and the fields so you don't forget which fields the samples were taken from. You can bring in the samples to the trailer on the street in coffee cans, pint jars, or any other container. The samples will be packaged for you at the trailer and shipped to a University of Minn. Soil Laboratory for analysis.

What will each farmer get from his soil test:

1. pH (acid, neutra, or alkali soil)
2. phosphorus content (in pounds per acre and its range),
3. potassium content (in pounds and range).
4. organic matter content (in percent and range).
5. soil texture (range from sand to clay).

There isn't much point in just putting on fertilizer. First a farmer needs to find out how much "plant food power" there is in the soil. Then he needs to add the right kind and amount of fertilizer to get the most profitable yield.

Nursing Students to Be Recognized Week of Oct. 8-15

Minnesota Nursing Student Week will be observed throughout the state October 8-15 according to a proclamation by Governor Elmer L. Andersen. Sponsored by the Minnesota Nursing Students association, (MNSA), it will be the first nursing student week to be observed in the state.

Climaxing the week will be the selection of the Minnesota Nursing Student of the Year from district candidates. The presentation of this student will be made on October 15 at the annual MNSA convention in St. Paul. Approximately 300 nursing students are expected to attend the October 15 and 16 convention.

One of the aims of the week-long observance, according to Charleen Tim, president of MNSA, is to increase public understanding of the role played by nursing students in hospitals and especially in the community.

Goodridge PTA to Stage 'Fun' Night Wednesday, Oct. 3

The Goodridge PTA unit will have 'fun' for its theme when it meets in the school gymnasium Wednesday evening, October 3, at 8 o'clock, Mrs. David Brown, publicity chairman, announced today. She added that the program also will include the introduction of the teachers, starting a membership drive, a discussion of Amendment II to be voted on in the election November 6, and community singing. Bus service to the meeting from Grygla will be provided, leaving that village at 7:40.

Planning Group Is Given 2 Proposals

FARMING TODAY

by your County Agent

Paul Stelmaschuk

Markets, Meetings, and Millet

MARKETS: Have you been wondering about prices of livestock and livestock products for the coming year? If you have then you will want to tune in to a TV series. The liely range of prices for farm products will be discussed Oct. 8 and 9. Two programs will be telecast on Monday and Tuesday of next week, at 12:45 noon over WDAY Fargo. University of Minn. and N. D. State University specialists have teamed up in the preparation of this series. Don't miss it.

MEETINGS: On Oct. 18 through 20 Pennington county agriculture will receive the spotlight. Thursday, Oct. 18 is set as the day of the Dairy Sale. DHIA tested cows, and progeny of DHIA tested cows will be sold. Grade cows will have records of 400 pounds of butterfat or higher. Registered cows will have records over 450 pounds of butterfat.

Thursday, Oct. 18 and Friday, Oct. 19, the soil sample collection depot will again be set up on the street by the post office. The dealers will again allow the cost of the soil testing to be taken off the fertilizer bill when you buy your fertilizer for next year. You will also get help in filling out the information sheets, and in packaging the soil. The samples will be delivered free of charge to the University Soil Testing Laboratory. Pick up your soil samples now while the weather is good.

Friday, Oct. 19, at 8:00 p. m. at the Thief River Auctionmart, there will be a livestock clinic. Several grades of feeder cattle, including dairy stock, will be on display. One University of Minn. specialist will discuss possible profits which may be expected, in the coming year, on beef feeders, sheep, hogs, dairy and poultry products. Another specialist will discuss feeding programs best suited for the various types of cattle. Keep these dates in mind and watch for further details.

MILLET: I checked in with Art and Darryl Bartelson last week. They were combining millet on their farm six miles east of Thief River Falls. The six acres they harvested yielded about 3,000 lbs. Several other loads were delivered last week. All farmers to date report problems with high moisture in millet.

Watch for next week's edition of the Times for a further report on millet. By the way, millet is not poisonous, like the sorgums, after freezing.

Miss Minnie Sorum, Hayward, Calif., arrived here Sunday to attend the funeral of her sister, Mrs. Enos Whitson of Grygla. She returned to her home on Saturday.

Fourteen cases were tried in Thief River Falls municipal court before Judge Stanley N. Mortenson on Monday and one case each on Saturday and Tuesday. Law violators were brought to trial by the state highway patrol and city police department.

In highway patrol cases, the following defendants were tried: Samuel Hartman, Detroit Lakes, speed, $20 bond forfeited, Ralph Grembowski, rt. 3, Argyle, no Minnesota registration, $25 fine; Rodney Klein, rt 3, TRF, driving while under the influence of liquor, $100 fine or 30 day jail sentence, in custody; and Laures Kleinwachter, rt. 1, Strandquist, follow too close, accident involved, $25 fine.

Police cases included the following: Wayne Helgeson, city, careless driving, $30 fine: no driver's license in possession, $15 fine with $7.50 suspended; and litter the highway, $30 fine with $15 suspended; Elmer K. Johnson, St. Hilaire, leave the scene of an accident, $50 bond forfeited; Alona Anderson, Strathcona, speed, $20 fine and no driver's license, $25 fine with $15 suspended; Thorval Hamness, Strathcona, careless driving, accident involved, $50 fine; and James Swan, Newfolden, speed, $35 bond forfeited.

In two cases where defendants pleaded not guilty and a trial was held, Oscar Harry Johnson, city, was found guilty of making an improper turn and fined $15 with $5 suspended and Daniel Ramstad, city, was found guilty of driving while under the influence of liquor and fined $100.

On Sept. 22 Keith Davis, city, was fined $15 with $10 suspended on a speeding charge and on Tuesday, David R. Erickson, city, was fined $50 and his license plates and title card ordered impounded on a charge of driving after revokation of his driver's license.

Mrs. B. D. Bjorkman Rites Held Sunday

Succumbs at Home Friday; Had Lived Here Since 1906

Funeral services for Mrs. B. Dan Bjorkman, age 82, long-time resident of this city, who passed away at her home on Friday morning, were held Sunday, September 30, at 3 p. m. at the Community Methodist church. Rev. A. Dean Headley officiated; Sinding's Funeral Chapel was in charge of arrangements, with burial being made in Greenwood cemetery.

Mrs. Bjorkman was born in Underwood, Minnesota, October 10, 1879, where she received her education. She was employed for a time at Fargo, N. D., and on Jan. 3, 1906, was united in marriage to B. Dan Bjorkman at Underwood. The Bjorkman family made their home for a short time in Grand Forks; later the same year they came to Thief River Falls, and have lived here since.

Mrs. Bjorkman was a member of the Community Methodist church; the W. S. C. S. ladies aid; and for over 50 years she was a member of the W. C. T. U.

Survivors include her husband, one daughter and two sons: Mrs. Margaret Race and Lawrence and Clifford Bjorkman, all of Thief River Falls; two sisters, Mrs. Ragna Osternas, Willmar; and Mrs. J. H. (Nettie) Sem, Underwood, Minn.; one brother, Olaf Quam of Fergus Falls; seven grandchildren and four great-grandchildren.

Andrew Robinson, Retired Employee of Soo Line, Dies

Final rites for Andrew P. Robinson, 78, retired railroad worker, who served 35 years as yardman with the Soo Line here, were conducted at Saratoga, Calif., on September 18 at Oak Hill mortuary's Chapel of Roses. Interment took place in Oak Hill Memorial Park.

Mr. Robinson was a native of Ohio, having been born there on July 27, 1891. Later he moved to Thief River Falls. After living and working here thereafter until retirement 13 years ago, he moved to California, with his wife, Anna, who survives him.

He was a life-long Mason, a 50-year member of the IOOF Lodge, and a member of the Order of Railroad Trainmen.

In addition to his wife, Mr. Robinson is also survived by two brothers.

HAPPY HOMEMAKING

PENNINGTON COUNTY HOME AGENT

Snack foods can play an important part in a teenager's diet. Teenagers are perpetual snackers, since three meals a day often do not furnish enough of the foods they need. From 15 to 17 per cent of their food intake is through these extra meals.

But too often snack foods contain "empty calories" — that is, they contribute calories without any important nutrients. Surveys show that many teenagers have diets that are inadequate for health & for the vitality and pep typical of this age group. Skimpy breakfasts and poorly chosen snack foods add to the problem. The less a teenage girl eats at breakfast, the more snacks she is likely to eat.

Much of the newest diet research points out that frequent nutritious nibbles are better than extra-large meals widely spread. If snacks are nutritious they help to maintain good general and dental health.

Your body should have these foods every day: meat, fish, eggs or legumes; milk or milk products; vegetables; fruits; breads or cereals. Snacks should be chosen from these groups of foods. They should be counted with the total daily calorie intake.

Here are some suggestions for snacks for the teenager in your family and maybe even you who are attempting to keep the weight down.

At home or for parties, serve meat or meat products dressed up as barbecues or chiliburgers, hamburgers smothered in chili or roasted frankfurters stuffed with cheese and wrapped in bacon.

Milk shakes with ice cream and fresh fruit flavoring are delicious and nutritious. Or try making a punch with frozen orange juice and crushed fresh fruit blended with finely chopped ice.

Ice cream, milk, potato chips with dips and small sandwiches with meat or spreads are always good. And don't forget fresh fruit.

Try arranging a cheese, cold meat or fruit platter. The platter will decorate your table and will furnish tasty, appealing and nutritious snacks.

CHAMBER L.I.F.E.

Living-Industry-Farming-Education

By Rolly Larson

Manager Chamber of Commerce

There are some ailments that afflict the human being for which our leading medical experts prescribe the "shock treatment" as a remedy. Sometimes it appears that the same prescription is necessary to motivate people in the field of community development.

Here in the State of Minnesota one of our most serious problems is that of providing enough jobs to satisfy our growing population. The ugly truth is that we are unable to do that. Even more ugly is the fact that there is an obvious reason why we are unable to provide enough employment and our people are unwilling to solve the problem.

It does seem strange that the economic intelligence of our citizens should be at as low a level as it is. There is no excuse for economic ignorance in this day and age when we all like to consider ourselves "thinkers". Yet, the fact remains that the majority of Minnesota citizens refuse to admit that there is a problem and those that do have not organized sufficiently to solve it.

We can take the personal property tax or inventroy tax as a prime example. It is not only impossible to enforce equitably but it is diametrically opposed to sound business development incentive. We do not have the answer although there are groups who have recommended a sales tax or a business activites tax and there may be other proposals as a replacement for this beast of an excuse for providing funds for the State of Minnesota. The thing we should recognize is that an undesirable situation exists and that we should do something about it.

If we're frank enough to admit it to ourselves, we must also recognize that the power of labor in the State of Minnesota has reached proportions that are out of line with other states that are competing with us for industrial expansions. This is a serious problem and it does not mean to abolish unions. It merely means that there is a need for a balance of power that every citizen should recognize.

Our main point is that labor and government should be taking a different approach to their problems in realization of the fact that business needs increased advantage of it is expected to expand sufficiently to provide the jobs that the State of Minnesota needs to maintain and strengthen its position as an economic unit in *this country called America* that we all want to look up to. If we are "thinkers" we shouldn't need the "shock treatment" to realize that. None of us would like to wake up some morning and hear that one of our local industries is leaving us. None of us want to lose our jobs. When we look at it that way it might be easier to understand this problem. It is basic, it deserves attention right now, and the attention it receives cannot be based on prejudice, selfishness, or ignorance. We must be frankly objective if we expect this state to be what it should be.

These thoughts can be well applied locally as we try to strengthen our position Here in the Heart of Northwest Minnesota, Thief River Falls.

NORDEN . . .

Sunday services at the Norden church were enjoyed by all those present. A social hour following the service was given in honor of Mrs. Sadie Ayers for her 76th birthday. Special music was rendered by Rev. and Mrs. M. J. Vettrus of Grand Forks and a delicious lunch was served. The center of attraction was a beautiful birthday cake. Those present wished Mrs. Ayers many more years of fruitful living in the Lord.

Dear Joe,

It's Co-op Month! Our Governor made it official with a proclamation that calls attention to the importance of co-ops in our state's economy.

Co-op Month shines the spotlight on some basic principles of doing business the co-op way, Joe — one vote per member...savings go back to patrons according to amount of patronage...membership is open to all.

Let's hope that more people will stop and get acquainted with us during Co-op Month!

Prowler Eleven Tips Roseau Friday 20-6

Coach Joe Mrkonich's football Prowlers, after spotting the Roseau Rams an early 6-0 lead on halfback Gary Brandt's 87-yard touchdown jaunt, came back to defeat coach Ray Kavanagh's Rams, 20-6, in a Northwest conference game played at Roseau Friday night.

On Friday night, Oct. 5th, on the Lincoln high school field here, Coach Haldo Norman's Detroit Lakes Lakers will face the Prowlers. The Lakers, who dropped a 13-7 decision to Park Rapids on Friday, will attempt to run their win streak over the Prowlers to three games. In 1960, the Lakers defeated the locals, 19-6; and last year coach Norman's squad marked up a 33-19 win.

Against the Roseau Rams on Friday night, the Prowlers were sparked to their well-earned 20-6 win by the splendid play of fullback Steve Mittelstadt. The hard-driving Prowler back exhibited crunching power as he drove for a pair of touchdowns, and picked up fine yardage on blasts through the line.

The Prowlers failed to capitalize on an early break when Roseau's Gary Brandt, returning the game-opening kickoff, fumbled on the Roseau 26-yard line, with the Prowlers recovering. The Roseau line held the Prowlers to but five yards on three running plays, and when a pass was incomplete, the Rams held four downs.

Early in the second period, after Paul Klungness had kicked out-of-bounds on the Roseau 13-yard line, Brandt, on a slice through right tackle, swiveled through the secondary and scampered 87 yards for a touchdown, crossing the north goal-line. On the try for the conversion point, a pass, Bryan Grand to Bob Lillo, was incomplete.

The Prowlers moved into the lead by scoring a touchdown midway in the period, capping a drive that started on the Roseau 40-yard line. Mittelstadt, from less than a yard out, hit left guard for the touchdown, and when John Aune slanted off left tackle for the conversion point, the Prowlers held a 7-6 lead.

In the opening minutes of the third period, and from the Prowlers' 49-yard line yard, Aune hit Paul Klungness with a pass, and the Prowler co-captain gathered in the ball near the east side line at the Rams' 25-yard stripe, and outsped the defense to score a touchdown. Aune added the conversion and the locals held a 14-6 lead.

The Prowlers final touchdown, scored in the fourth period, was set up a pass interception deep in Roseau territory by Terry Nelson. From the Roseau 10-yard line, on third down, Brandt attempted a pass, which was intercepted by Nelson, who was downed on the Roseau 3-yard line. Mittelstadt pounded through right guard for the touchdown. The conversion point failed, with Mittelstadt being stopped a yard from the goal-line.

During the game the Prowlers held a marked advantage in downs, tallying sixteen first downs to the Rams' seven. The Prowlers racked up twelve first downs by rushing, two by passing, and gained two by penalities; while the Rams had five first downs by rushing, one by passing, and one on a penalty.

Child of Former Area Couple Killed

Vicki Uglem, 3, Struck by Car at Street Crossing

Vicki Uglem, three-year-old daughter of Mr. and Mrs. Harvey Uglem of Hastings, Minnesota, was the victim of a highway crossing accident near her home Thursday. As reported by the St. Paul Pioneer Press, the Uglems' well had gone dry and the mother, holding Vicki by the hand, and pulling a son, 1½, in a coaster wagon, crossed highway 61 to get water from a neighbor.

As they returned, Vicki slipped from her mother's hand and darted into the northbound lane of traffic and was hit by an auto. She was rushed to the Salve Regina hospital at Hastings but was pronounced dead on arrival. Funeral services are being held today at Hastings.

Both of the parents are from this area. Mrs. Uglem was Margaret Swaleson, the daughter of Mrs. Mary Swaleson of Deer Park township, and Mr. Uglem is the son of Mr. and Mrs. Harold Uglem of Kratka township and the grandson of Mr. and Mrs. Ole Uglem of Reiner. Ole Uglem and Mr. and Mrs. Harold Uglem are attending the funeral services.

Police Refute Rumors Started About Robbery

Apparently it doesn't take a great deal of unusual activity by law enforcement officers to start rumors and little effort to cause the rumors to spread. Such is the case in Thief River Falls this week.

When local police conducted some fingerprinting on the window of Schlechter Paint company in the city on Tuesday, rumors began circulating that the store had been robbed. The story was also circulated that several boys of high school age were being fingerprinted on the street.

In actuality, the fingerprinting being done on the store window was in connection with a possible lead in solving the Piggly-Wiggly robbery which occurred last Saturday. The boys were assisting the police by providing information. When checked out thoroughly, however, the lead proved to be false.

The facts: No robbery at Schlecter's; no boys being fingerprinted on the street; no cause for excitement or rumors.

Beaver dams were removed from this portion of the ditch at the Eckvoll Wildlife Management Area administered by the Minnesota Department of Conservation and adjoining Agassiz refuge.

Argyle Girl Wins Editorial Award in Bemidji Event

Sharon Steffen of Argyle high school won first prize in the Bemidji State College — Bemidji Daily Pioneer high school journalism conference editorial contest held last week at BSC.

More than 600 high school newspaper and yearbook staffers from 62 northern Minnesota high schools attended the conference which has been held for 16 years at BSC.

Miss Steffen wrote on the topic, "My High School Newspaper, Its Purpose." Winning second prize was Patricia A. Lizotte of Bemidji high school. Third place was taken by Mary Dexter of Bagley high school and honorable mention was given to Patsy Gordon of Littlefork - Big Falls high school.

Refresher Course for Registered Nurses Offered

Registration for a refresher course for registered nurses to be held in late October or early November will take place Tuesday from 3 to 4:30 p. m. in the cafeteria of Northwestern Hospital, according to Miss Helen Black, R. N., director of nursing service.

Miss Black noted that there are a number of registered nurses in the city who have not been practicing the nursing profession for several years and that the refresher course would include a review of nursing procedure, information on new equipment and medications and instruction on changes in the profession during recent years.

Police Report Traffic Mishap

One traffic accident was reported by the Thief River Falls police department over the weekend with a total of $375 in damage being done to the two cars involved. The case is under investigation by the department.

At about 10:15 a. m. Sunday, a car driven north on Kendall avenue by Harold Horn, city, was struck on the right rear fender by a car driven by Gladys Johnson, city, and traveling west on Michael street. About $125 damage was done to the Horn car and $250 to the Johnson vehicle.

Keeping Score with "Huck" Olson

Some Attractive Features

Reid Stromberg and I were in the crowd of 17,000 football fans in the Winnipeg Stadium on Thursday and witnessed the game between coach Bud Grant's Blue Bombers and the Montreal Alouettes. The Winnipeg team, the defending Canadian football champions, defeated Montreal, 31-23.

Playing with the Montreal team, and turning in a fine game at quarterback in the first half was Sandy Stephens, the Minnesota All-America quarterback last season. Stephens played only the first half, and directed the Montreal team to fourten points. Sandy ran real well, and he passed for one touchdown. On the demerit side, though, one of Stephens' passes was intercepted and returned for a touchdown, one of the "key" plays of the entertaining and closely-contested game.

In the second half, Joe Francis, who is rated as a better passing quarterback than Stephens, quarterbacked the Montreal club.

The offensive star of the game, though, proved to Montreal's George Dixon, a graduate of Bridgeport University. The quick-starting halfback with a deceptive change of pace, carried the ball 22 times and picked up 191 yards and scored a pair of touchdowns that was nullified by a penalty.

There are some interesting and attractive features to the Canadian style of football. For instance, there are not any of those strategic time-outs, for the purpose of stopping the clock, that are too prevalent in American football. The clock is stopped in pass incompletions, plays run out-of-bounds, touchdowns or other scoring plays, penalties, injuries, and when the ball possession changes. The game moves with great dispatch.

Another feature that has merit, and which brings the foot back into football, is the kick into the end zone. The ball must be run out of the end zone, which is twenty-five yards deep, or the kicking team gains a point. There were four of these points, called "rouges", marked up on Thursday.

On Saturday night, October 6, coach Dave Skrein's Vancouver Lions, with former Minnesota star Tom Brown as a defensive star, will invade the Winnipeg Stadium for a game.

Correction

In commenting on Joey Poole's season-high three-game bowling series, a 690, last week, I mentioned that Wally DuChamp was bowling at anchor for the Hamm's Beer team. Not so. Wally, through an off-season transaction, was traded to the Hamilton's, and it was as anchor man for the Hamilton's — that — he out-scored Joey last Tuesday night. Wally's brother Jesse was also signed to the Hamilton's for this season's bowling, but according to team publicist Stan Cockrell, Jesse has been placed on the "inactive" list. And, adds Stan, that's where Shorty Perkins' finger-tip ball should be too!

Wally, long one of the local bowling association's top-ranked bowlers, is having difficulty getting his ball to "work" right this season. Wally will roll games in the 200's in open bowling, but when he gets into league play he labors hard to keep in the 170's.

Look's All-Star Baseball Squad

The current issue of Look magazine publishes the results of a poll taken of fifty-nine broadcasters and telecasters of major league baseball games as to their opinions on the best baseball players of the season. And there isn't much aid and comfort for the American league fans in the All-Star team that was selected as only two of the ten players chosen were from the American circuit, Earl Battey of the Twins and Mickey Mantle of the Yankes.

The squad had Tom Davis of the Dodgers in left field, Willie Mays of Giants in center field, Mantle in right field, Orlando Cepeda of the Giants at first base, Bill Mazeroski of the Pirates at second base, Maury Wills of the Dodgers at shortstop, Ken Boyer of the Cardinals at third base, Battey of the Twins as catcher, and Don Drysdale and Sandy Koufax of the Dodgers as pitchers.

The only two players from the National league squad that were not named to the All-Star group were Frank Robinson of the Reds in right field, and Del Crandall *of the Braves as catcher.* Named to the American league squad, in addition to Mantle and Battey, were Leon Wagner of the Angels in left field, Roger Maris of the Yankees in right field, Jim Gentile of the Orioles at first base, Bill Moran of the Angels at second base, Tom Tresh of the Yankees at shortstop, Rich Rollins of the Twins at third base, and Dick Donovan of the Indians and Camilo Pasqual of the Twins as pitchers. The Yankees' superb second baseman, Bobby Richardson, must have been lost in the shuffle.

How About That!

After playing a schedule of one hundred and sixty-two games the National league race ended in a two-team tie for the championship. The St. Louis Cardinals, on a home run by Gene Oliver, defeated the Los Angeles Dodgers, 1-0, at Los Angeles on Sunday; and the San Francisco Giants, on home runs by Ed Bailey and Willie Mays, edged out the Houston Colts, 2-1, at San Francisco. The Dodgers and the Giants are tied for league championship, and will engage in a three-game playoff to determine the league champion.

The first game of the playoffs will be played today, Monday, in San Francisco, with the remaining games being scheduled for the Los Angeles stadium.

Bemidji 'B's Again Whip Prowler 'B's

Lumberjacks Win Game Here Saturday 38 to 14

The Bemidji Lumberjacks 'B' squad scored their second win of the season over the Prowler 'B's on Saturday afternoon when, in a football game played on the Lincoln high school field, the Jacks marked up a 38-14 win.

On Tuesday, October 2, with kickoff time at 4:00 p. m., the Prowler 'B' squad will meet the East Grand Forks 'B' squad on the East Grand Forks field.

In Saturday afternoon's tilt here, the local 'B's, coached by Gene Sack and Jerry Foley, held a 7-6 first half lead. Bemidji's Ralph Lovering, on a 55-yard sweep around right end, gave the Jacks an early 6-0 lead. But the locals, on a pass completion, Dick Nelson to Rod Carlson, and Nelson's successful plunge for the conversion point, took over the lead in the second period.

Two quick touchdowns in the opening minutes of the second half, one on a 70-yard run by fullback Jerry Phillips, and the other on a pass completion, Jim Hoffman to Don Erickson, moved the visitors into the lead.

And the Jacks continued to add to their point advantage as Jeff Musburger, Hoffman, Lovering, and Saeger added touchdowns to boost the Bemidji lead to 38-7. In the final minutes of the game a long pass, Buzz Olson to Dick Nelson, was completed for a Prowler touchdown. Nelson, on a line plunge, converted the point to bring the game score to 38-14.

In a previous encounter betwen the two 'B' squads, and played on the Bemidji field, the Lumberjacks scored a 44-0 win.

MAKING PLANS for the 1962 campaign of the Minnesota Tuberculosis and Health association at a district conference held in Thief River Falls Tuesday evening are county officials from five area counties. Standing left to right are Mrs. Lois Ogden, Park Rapids; Mrs. Mae Barness, Bagley; and Mrs. Olga Peterson, Warren. Seated left to right are Mrs. Mary Drees, Red Lake Falls; Herman A. Kjos, Thief River Falls; and W. A. "Ozzie" Ostrem, fieldman for the state association. Campaign portfolios were distributed to county chairmen at the session held at the Dina-A-Mite Cafe.

3 State Amendments to Be Voted on Nov. 6

Minnesota voters will get three chances to amend the century old state constitution at the Nov. 6 general election.

The proposed amendment regarded as most important by its supporters — including leaders of both parties — deals with the state debt limit. This is Amendment No. 2.

Since the constitution was adopted it has contained a provision limiting the state debt to $250,000.

The amendment would permit exceeding this limit with the approval of three-fifths of the members of each house of the legislature to borrow money for "buildings and improvements of a capital nature."

With the legislature at its present size, borrowing would need the approval of 41 of the 67 senators and of 81 of the 135 house members.

The debt situation reached the crises stage in 1958 after the state Supreme Court, in approving a bond issue for buildings, said it would no longer countenance what some members described as a subterfuge.

This referred to the practice of saying that borrowing in cases where the legislature set up specific taxes to repay the debt did not create debt within the meaning of the constitution.

Amendment No. 1 would make it possible to invest part of the funds held in trust for schools in corporate stocks and bonds.

And Amendment No. 3 would lengthen biennial sessions of the legislature from the present limit of 90 days to 120.

The third proposal is a recognition of the increasing difficulty legislators experience in getting their job done in the time now allowed.

Hire Handicapped Workers, Is Plea

Governor Asks Observance of Special Week Oct. 7-13

Gov. Elmer L. Andersen today urged all Minnesota employers to join a statewide drive to hire the handicapped, calling for "full participation by all our citizens, with maximum use of their energies and talents."

At the same time Andersen stressed that "many disabled and older workers are unable to return to their jobs or secure new positions because of a very important factor: architectural barriers in buildings which present formidable problems to the handicapped.

"Frequently these people have been rehabilitated, often at considerable expense, to the point of employability only to find placement on a job difficult or impossible because of architectural barriers."

Andersen designated October 7-13 as 'Employ the Handicapped Week."

The Governor urged "all citizens to cooperate in the employment of the handicapped and in the planning, designing and construction of public buildings, industrial plants, office buildings, schools, and all other buildings and facilities that are not only beautiful and graceful, but functional for everyone, including the handicapped and aged."

New Law Expands Eligibility for VA Hospital Care

John Parrish, Director of Fargo VA Center, Calls Attention to New Rules

Peace time veterans with non-compensable service-connected disabilities who have just become eligible for Veterans Administration medical and dental treatment under a new law, must secure approval from the nearest VA regional office before they go to private physicians and dentists for treatment at VA expense.

John R. Parrish, director of the Fargo VA Center, said that if this prior approval is not obtained, the agency may be unable to pay for the treatment.

The law, signed by the President August 14, makes peacetime veterans, with a service-connected but non-compensable disability (less than ten per cent), eligible for VA outpatient medical and dental treatment and for VA hospitalization.

Parrish said those with service-connected dental conditions must apply for treatment within one year from discharge. They receive one-time dental treatment.

Those needing hospitalization for service-connected conditions will have a high priority for VA hospital care.

Parrish pointed out that peacetime veterans who have no service connected disability did not become eligible for VA medical, dental or hospital care under the new law. Peacetime veterans with compensable service-connected disabilities already were eligible.

For more information about benefits under the new law, or to make application for VA medical, dental or hospital care, peacetime veterans should contact the Fargo VA Center.

Concert Series at Crookston to Open October 27

The first number in the 1962-63 Crookston Concert Series will be presented in that city October 27 by Jean Graham, internationally known pianist. For Tuesday, November 30, the program will be presented by the Gregg Smith Singers, a mixed choral group which sang last year at the Edinburgh and Salzburg festivals.

On January 30 the artists will be Leyna Gabriele, grand opera soprano, and William McGrath, who has soloed with the NBC symphony orchestra and with the Robert Shaw Chorale. The final number in the series will be presented April 30 by the Indianapolis Symphony woodwind quintet.

Season tickets may be obtained in Thief River Falls from Ione Stone, 605 Main av. N.,

2 from Area at UND Law School

Two area young men are listed among 54 students beginning their first year of law school at the University of North Dakota. They are William E. Walker of Thief River Falls and Peter Quist of Greenbush.

Only four of the new students are sons of lawyers, the university reports, with 16 of the men coming from farm families. Fathers' occupations of other students include contractors, bankers, dentists, service station employee, physician, newspaper publisher, salesmen, soil-conservationists, livestock auction operator, grain buyer, merchants and business executives.

Goose Hunters Urged to Learn of Varieties

Minnesota goose hunters were told today that to avoid violating the law and to get all the geese they are entitled to under existing limits, they had better know how to identify the various species.

The goose season opens at 12:00 noon on October 6, one week before the 12:00 opening for ducks on October 13. After the opening day, shooting hours are sunrise to sunset except on Saturday, Oct. 13, when no goose hunting will be permitted until duck season opens at noon.

There has been no cutback in the bag limit of geese this year with the limits remaining at 5 daily and 5 in possession. However, only 2 Canada geese, or 2 white-fronted geese, or one of each (one Canada and one white-front) are allowed in the 5 bird limit.

This poses a problem. Unless a hunter wants to limit himself to two geese, regardless of the opportunity that might come up, he will need to know how to identify the kinds of geese that are commonly found in Minnesota during the hunting season.

Don't shoot! It's a swan! This is the cry Minnesota hunters should be ready to take up at a moment's notice for every year these huge white protected birds are shot in the mistaken belief that they are snow geese.

According to Norman J. Ordal, waterfowl biologist for the state division of game and fish, snow geese and swans are easily distinguished if one knows what to look for. Swans are very large; adults reach a length of over four feet and weigh up to twenty pounds. The entire plumage of swans is white and their necks are much longer in proportion to their bodies than the necks of geese. In contrast, snow geese are much smaller with a length of about thirty inches and a weight of about five pounds.

Also snow geese have black wing tips which are readily seen at shotgun range.

To assist hunters in learning to know the geese, the section of research and planning of the Minnesota division of game and fish has prepared a sheet for distribution that presents sketches of the various geese, clearly showing off their identifying characteristics. They also have on hand, a limited supply of Waterfowl Identification Guide Booklets that can be used to identify both ducks and geese. These materials can be obtained free of charge by writing to: Department of Conservation, Bureau of Information, 350 Centennial Office Building, St. Paul, Minnesota.

Speakers at the conference will be Dr. Dean F. Berkeley of the University of Indiana and Dr. Sam Popper of the University of Minnesota. *The last regional conference* was held in 1960 at Cedar Falls, Ia.

Hamerlinck Takes Part in Jr. High Education Event

Francis Hamerlinck, junior high school principal at Lincoln high school, left Wednesday to attend the second Upper Midwest Regional Conference on junior high education which is being held Thursday through Saturday at Wisconsin State College at LaCrosse, Wis. Junior high school principals from Wisconsin, Iowa, Minnesota, Nebraska and North and South Dakota will be in attendance.

Included in the conference will be new developments in instruction such as team teaching and program learning, junior high teaching personnel, functions and purposes of junior high school and junior high principalships, community relationships, programming and scheduling.

Marshall County Home Program Is To Begin Soon

East Marshall Group To Meet October 8 at Eddie Anderson Farm

Plans are underway for the coming year in the Marshall county home program, according to Sandra Saranen, Marshall county home agent. The East Marshall Home Council has scheduled its first meeting for October 8 at the Eddie Anderson farm (4 miles east and 3 miles south of Holt).

Preparation has also begun for the first leader training lesson to be held in October. The topic is "Christmas Ideas." The training centers will be at Holt, Gatzke, Warren, Argyle and Stephen.

The extension home program is a nationwide educational activity planned by local women and conducted cooperatively by the Agricultural Extension Service of the U. S. Department of Agriculuture, the University of Minnesota and the county. In Minnesota more than 48,000 women are members of the organized groups in the extension home program. In Marshall county, present enrollment is 470 in 36 groups.

The remaining lessons planned for the year are: freezer meals, a clothing lesson on aprons, traffic safety and choosing home accessories. This year the program also includes a topic in world affairs — the explanation of the European Common Market.

Bankers Support 4-H Foundation

294 Minnesota Banks Contributed in 1961

Minnesota bankers will join a nationwide drive during October to support the "Service to Youth" educational programs of the National 4-H Club Foundation.

Paul W. Gandrud, vice president of the Swift County bank, Benson, is leading the drive for the second consecutive year.

For several years Minnesota has set a record among states in the number of banks contributing to the National 4-H Foundation and in the amount of their contributions. The Gopher State again led the nation in 1961 in both in the number of banks participating — 294 — and for the largest total contribution, Gandrud reported.

For many years Minnesota banks have given support to 4-H work locally, and the bankers' association has sponsored trips of club members to the National 4-H conference in Washington each year, according to Leonard Harkness, state 4-H club leader at the University of Minnesota and a member of the 4-H Foundation's board of trustees. By contributing to the programs of the National 4-H Club Foundation, the Minnesota banks are extending their support of the 4-H movement to the national level, Harkness said.

The National 4-H Club Foundation conducts active programs for 4-H in citizenship education and leadership development, sponsors the International Farm Youth Exchange and operates the National 4-H Center in Washington D. C. It is currently conducting special studies in science education in 4-H and in potential service for urban youth.

Editorials . . .

“It isn't always advisable to be satisfied with things as they are. It is all right to advocate optimism and smiling faces and serene confidence for the future, but some times it's a good idea to be a grouch and register an occasional kick. In other words, don't accept halfway results and compromises as an easy way to solve problems. Be the devil's advocate and try to find out what is wrong with your surrounding conditions instead of taking it for granted that everything is “O.K.”

Committee Abuses

Writing in the Christian Science Monitor, Richard L. Strout comments on the controls over the legislative processes that are maintained by several standing committees in Congress. He points out that the House Rules Committee has 22 bills bottled up “and won't let them come out.” Mr. Strout cites several examples of what appear to be abuses of committee authority.

There no doubt is jutsification for some of Mr. Strout's complaints. There are abuses of power. But it should be remembered that Congress makes its own rules and establishes its own procedures. The rules and the procedures are as they are because that is the way the majority group wants them to be.

Many bills are killed in comittee with the consent and sometimes on the request of the author, who may stage quite a sham battle for their passage to prove to the folks back home that he is working hard in their interests. And there sometimes are bills that the executive department opposes secretly but fears the effect of a veto. There are many situations in the law-making business that call for special handling. The majority group that controls the committees could adopt reform measures pertaining to rules and procedures but they are not likely to rule out any abuses that serve their own interests. The Teddy Triumph

Teddy Kennedy won, the Democratic nomination for U. S. Senator in the State of Massachusetts and probably will be elected to that high office. He has had no experience in government. He has bothered to vote only three times, which might indicate that he had no real interest in government. His campaign appeal was that he had influential relatives holding high offices in Washington, and that he could get a lot of things for the home state. On the strength of such an appeal he won.

It is encouraging to note that his victory was not the cause for widespread celebration among Democrats. Party leaders are concerned about the long range implications. Too many Kennedys and more talk of a Kennedy dynasty could be bad. And the Kennedy brothers do not dodge headlines.

Under the circumstances the observations of James Reston, writing for the New York Times Service, a friendly commentator writing for a friendly paper, are interesting. He states:

> “Washington has its own special reasons for resenting Teddy Kennedy's spectacular victory in the Massachusetts primary election.
>
> “This city lives on political influence. Nobody blushes about that. There is scarcely a man in the Senate who did not get there because he knew somebody who did something to get him the nod. But Teddy gave the whole influence game away. He was so obvious, the terms of the battle were so unfair, and the margin of his victory was so large that even many of the President's most loyal aides here find the whole thing distasteful.
>
> “If the President himself had come to office defending the old familiar rules of political patronage and influence, Washington might have taken Teddy with a cynical shrug. But the President didn't do that.
>
> “He came proclaiming a new pragmatism for a new age. Ability was to be the test in all things. Even political advantage was to stand aside for talent. The best man for every job. This was his theme in the election of 1960, and he followed it better than most.
>
> “It is noted here, however, that this impersonal and non-political approach vanished whenever the President's own family was involved. His brother, Robert, competent as he is, certainly did not meet the test as the best man available for the attorney general's post. The same things can be said, perhaps with less force, about his brother-in-law, Sargent Shriver at the Peace Corps and, of course, Teddy's bid for the Senate, at 30 years of age, with the careful connivance of the President, is widely regarded here as an affront and a presumption.
>
> “This is not to say that the Senate of the United States is spangled with genius. In fact, it is virtually impossible to push through the swinging doors of the illustrious chamber without knocking over some character of less ability than Teddy. But that is not the point.
>
> “The point is that the Kennedys have applied the principle of the best man available for the job to almost everybody but themselves. Teddy's victorious headlines are resented here partly because he is demanding too much too soon on the basis of too little.
>
> “It is distasteful to pursue this personal line of criticism but it is also unavoidable, for the personal activities of the first family have important political consequences. These activities are the talk of the town. They influence political judgements about the President and his programs. In fact, there is now so much discussion of the Kennedy family here that many people seem to have little time left for the Kennedy program. What is particularly surprising about all this is that the Kennedys do not see this line of criticism at all and in fact deeply resent it. They have invoked the new pragmatism but cannot see that, where the family was concerned, they applied the old nepotism.

On Making Friends

How will European nations react to our application for membership in the Common Market? A few years ago we would have been sure that our application would have received friendly consideration. Competent observers now are not sure the consideration would be so friendly.

Historically we have strong ties of friendship with the European nations that we have served with as allies. Our recent policy in foreign affairs however has offended some of our former friends. They feel that we have let them down in our efforts to gain the support of neutrals. There is a strong undercurrent of resentment. Ray Vicker, writing in the Wall Street Journal, is not optimistic. He says:

> “What is America's score with these individual countries? Well, right now, as the Common Market steadily grows in power and in its ability to have a big hand in shaping world trade and political policies, American relations with the individual Common Market countries have not been at such a low ebb in years.
>
> “Item: The Dutch are bitter against an alleged “sell-out” of their position in New Guinea by the U.S.
>
> “Item: France feels it is being discriminated against by the U.S. because America refuses to share atomic data with its continental ally.
>
> “Item: Belgium has contended all along that it was U.S. pressure which hastened independence for an unready Congo, and it hasn't been especially happy with recent American attempts to force Congolese unity even at the risk of more bloodshed.
>
> “Item: West Germany is suspicious of American insistence on a conventional weapons military plan which most European nations regard as suicidal in the face of Russia's known atomic capabilities.
>
> “Little Luxembourg is too small to have any foreign relations beefs. Italy doesn't have any complaints either, but its leftward-swinging government could show an independence of American policy in the future.
>
> “Britain now is negotiating to become the seventh nation in the Common Market. The United Kingdom is a staunch American ally, so it might be counted on as a firm friend in Common Market circles should its entry bid be successful. But American diplomats soon may have an opportunity to kick Britain in the teeth, too, some sources in London fear.
>
> “Britain is heading for a showdown over its colonial policies in the Federation of Rhodesia and Nyasaland. African nations contend Britain is not moving fast enough in transferring power in Rhodesia to the African majority. This is a view the United Nations seems to share even to the point where the UN would like to inject itself into the picture. America has seemed to side with African nations on this question. It may be confronted with another choice soon—whether to continue backing African nationalism even if that nationalism becomes hostile to British Rhodesian policies, or whether to support its British ally.”

Vicker thinks that the European nations may be doing a better job of winning friends among he neutral countries than is our country. As he sees it:

> “Indeed, European nations could make a very good case for the contention that they are dealing with neutral opinion in a more mature manner than is the U.S. Their methods might be summarized as: Recognizing that neutral opinion as a cohesive force doesn't even exist, and dealing with individual problems in a way that looks after their own interests and with proper regard for the rights of individual nations concerned.
>
> “It may be indicative that 18 African nations have just about completed negotiations for association with the Common Market, while at least a dozen more might be associated in some manner should Britain join that market. This wouldn't seem to indicate that policies of the European countries are arousing resentment where it counts.
>
> “The U.S., on the other hand, would be hard put to list solid benefits it has achieved through siding against its allies. Indonesia hardly will be any more receptive to American capital now, nor less willing to take all the military arms it can get from Russia.”

Roadside Beautification

Maybe you have already read of some of the work going on in cooperation between our Highway Department and the Conservation Department to beautify the highways of the state. What is more *significant, is to see the actual evidences of it out on the highways.*

“What are called “living snow fences” of evergreens are beginning to take the place of the old traditional snow fences used for many years to halt drifting. The planting has obvious attractions, in the summertime there is nothing more beautiful than to drive on a highway that is lined with beautiful evergreens and other trees and shrubs.

In the wintertime it it also beautiful, but in addition serves the practical advantage of catching snowdrifts.

There is a safety factor that as more of our highways become divided, the center area planting is not only a beautification but also a safety protection from cars dashing across the divided area into the other highway. This can happen when drivers fall asleep or when drinking and driving are mixed. Trees that grow up to have heavy trunks will be avoided because they could be a traffic hazard. Instead, coniferous trees and shrubs will provide a cushioning obstruction that could stop vehicles if necessary without having the effect of crashing into a stone wall.

So for safety, for year-around beauty, and for catching snow drifts, our Conservation Department and Highway Department are actively cooperating in what is a marvelous project. There are hundreds of miles of highways in the state where this should be done and we're moving to get it planted as quickly as possible.

Educational Opportunity for All.

In 1955 I became Chairman of an interim study commission on problems of handicapped children in Minnesota. Out of this study came a number of recommendations to the 1957 legislative session and every one of them was passed. It was one of the most remarkable performances of our state legislature that they so comprehensively met a substantial need when it was presented to them.

The program included setting up an advisory board to study problems of handicapped or exceptional children as they are more commonly called now, providing incentives for attracting teachers into the field and having good programs for training them, providing special aids to local school districts to encourage them to provide opportunities in the local school district, and then a mandatory law, to require that every educable child be given an educational opportunity.

Every parent of a handicapped child should be aware of this provision in our law. It used to be felt that a mentally retarded child, or one handicapped in some other way, was the sole concern of the parents. In fact, there was a time when it was even considered that it was some kind of a punishment that such a child should be born into a family. We don't look on it this way any more. We feel that every child is equal to the same consideration as every other child, and every effort should be made to provide opportunity to develop each child's ability, however limited or however great it may be.

Our school districts have made tremendous strides in providing classrooms for the educable mentally retarded, even for the trainable mentally retarded, special instruction for the deaf or hearing handicapped, for the blind or visually handicapped. A parent should check with the local school district to find out what the facilities are and how that school district is complying with the law. Frequently school districts cooperate to pool their programs for handicapped children. In many counties the county superintendent of schools is very much involved in this procedure.

If any family feels that their handicapped children who are educable are not receiving an educational opportunity, the law provides that the parents should write the Commissioner of Education, Mr. Erling Johnson, in the Dept. of Education in St. Paul.

Of all the projects I have worked on, I believe this gives me the *most satisfaction, that of seeing* to it that every educable child in our state gets an educational opportunity. This has not always been true in the past, now it is the law of our state. Everyone can help by seeing to it that this knowledge of our law is extended to every family which may have reason to use it.

# of Rhyme & Reason

by MARY LUNDIN

THIS IS THE SEASON FOR PLAY. There are all sorts of games taking place for the public to enjoy. Major league baseball is in its seasonal death throes. The World Series, which generates much more interest than little things like H-bombs or heart disease, is in the offing. High school football is in full swing, major colleges are parading their low-salaried professional gridiron talent and the full-scale pros are knocking heads and fans across the nation.

But the biggest game, and an intensely interesting one for the day-to-day fan, is taking place every day all around us. It is a game which nearly everyone can play in some form or another and one in which the players make their own rules. It perhaps isn't followed as intensely as it once was in some ways, perhaps more so in others. It is the never-ending game of politics.

To the main participants in this seasonal sport, those who are competing for spots on political squads, it is a very serious matter. To the wives and families of these men it is a question of the beginning, continuance or ending of another hectic term. To the sideline kibitzer, like myself, it is a good time for second-guessing and criticism.

Life as a politician must be a grueling existence. At times it must be quite embarrassing. At other times it must be humiliating. At still other times it must be sacrificial or even superficial. And maybe just once in a while it may be just a bit gratifying.

In the political season, hunting season for hopeful candidates and hiding season of incumbents, it is common practice to take pot-shots at the opposition, hoping that one pellet from the barrage may hit a voter where it hurts. This leads to a mass of accusations, denials, counter-charges, defenses, name-calling and mud-slinging. Apparently the professional politicians believe that this is what the voting public wants and expects.

As one small member of the voting public I object to the lack of value placed on my intelligence. I object to being submitted to a bunch of stupid malarkey about whether or not the Governor is pictured with a fresh fish or a stuffed or frozen one. I object to an loud-mouthed, highly-subsidized candidate spending his campaign time making mud-pies. I object to a campaign based on supposed weakness of incumbent office holders.

When will some brave soul arise from the midst of penny-ante politics with a fresh, clean approach to campaigning? When will he state his convictions and campaign on them — pledging himself to the service of the voters — promising nothing but to do his best — accepting no compromise and asking no quarter? When will the gullible public realize that one man in government, our great government, can do as little by himself as a bobber can catch fish by itself?

Politics moves some people to great extremes. It makes rabid workers of some—public speakers of others—controversial figures of a few. It stirs the imagination—stimulates the mind—quickens the step—brightens the eye. That is, for some. It makes me sick.

●

No politics in the Mrs. Jaycees campaign to have as many grade school children as possible secure and wear Civil Defense identification bracelets in Thief River Falls. Orders will be taken at all elementary schools in the city for one week, beginning today. The program deserves all out support.

●

The benevolent grocer had just filled a large sack with goodies for the ragged man who had wistfully browsed around the store, “These are on me,” he said, “hope they help.” Tears in his eyes, the man started to leave, then turned back. “Need something else?” the merchant asked. “Yes,” the man replied. “You forgot my trading samps.”

HUNTER'S LAMENT

Fly on, oh wary, winging grouse,
Soar off into the blue,
Cackle like a demon witch
Who made me miss my cue.

Flap your frantic, fanning wings
Around your body stout
And sail on for ever more
Although your heart's shot out.

9th Federal Reserve Bank Cites Progress

The picture of Ninth district economic activity points to a rate of expansion currently higher than that shown for the U. S.. the Federal Reserve Bank of Minneapolis noted in the current issue of the Monthly Review.

Some indication of a pickup in the pace of U. S. economic expansion appeared in July, with a corresponding suggestion of a lessening in the threat of recession. For the first time this year a majority of the statistical indicators pointed upward. Increases were noted in industrial production, total nonfarm employment, personal income, new orders for durables, unfilled orders, building permits and retail sales. The seasonally adjusted rate of unemployment declined from 5.5 per cent of the civilian labor force to 5.3 per cent during the month, the bank said.

Economic activity did not maintain the July rate of expansion during August; firgures for the month appeared substantially to duplicate July's figures and to indicate a "sideways" movement in the nationwide economy. An August rise in steel production, which resulted from the running off of excessive steel inventories built up in anticipation of a steel strike that never materialized, led to expectations of a continued rise in that sector.

Industrial production on the whole, however, remained at the July level, while nonfarm employment declined and the seasonally adjusted rate of civilian unemployment rose from 53 to 5.8 per cent. Residential construction also declined during August, while the total value of new construction remained unchanged. Despite slight gains in personal income and advances in department store sales, total retail sales, represented primarily by a decline in automobile sales, fell slightly below the July peak.

Available district indicators maintained their upward slants to a large extent, showing an August rise in nonfarm employment, particularly in manufacturing, mining and construction. The bank reported a continued gain in personal income, and a decline in the rate of unemployment. The favorable agricultural situation also remained an important source of strength for Ninth district economic operations, the bank concluded.

7 from Marshall at Junior Stock Show

To Attend South St. Paul Event October 1 Thru 4

Marshall county will be represented by 7 4-H members at state Junior Livestock show October 1-4 at South St. Paul, reports Harlem D. Sandberg, 4-H club agent.

Beef steers will be shown by Lowell Sedlacek of Comstock and Noel Labine of West Prairie; a trio of lambs by Phyllis Edgar of McCrea; a barrow by Wesley Grandstrand of Viking; and single wethers by Dennis Hjelle, Argyle Hustlers; Courtney Abel, Happy Corner; John Larson, West Prairie.

The group will leave on Monday morning and will return on Thursday night.

While attending the show members will participate in educational tours of the stockyards and meat packing industry, the state capitol and other points of interest.

Approximately 700 4-H'ers from the entire state will participate in the 44th annual event. It is sponsored by the Minnesota Livestock Breeders' association in cooperation with the agricultural Extension service.

State Trust Fund Land Sales Slated

Scheduled in Marshall County Tuesday, Oct. 23

Certain tracts of state trust fund lands in 10 Minnesota counties will be offered for sale at public auction during the month of October, according to an announcement by the conservation department's division of lands and minerals.

The sales will be held at the courthouse of the county in which the lands are located. Copies of the sales list and other details may be obtained before the sales from the auditors in the respective counties or from the Department of Conservation, division of lands and minerals, 345 Centennial Office Bldg., St. Paul 1, Minnesota.

All of the lands offered at this year's sales are located in northern Minnesota counties.

The schedule of land sales in this area is as follows:

Marshall county, 10:00 a. m., Tuesday, October 23; Kittson county, 10:00 a. m., Wednesday, October 23; Roseau county, 10:00 a. m., Thursday, October 25.

More DFL Votes Than Republican Cast in Primary

The Democratic-Farmer-Labor party outpolled the Republicans by 9,749 votes in Minnesota's Sept. 11 primary election, the official count showed Tuesday.

The state canvassing board announced that the DFL total was 300,884 as compared with the GOP's 291,135.

The total vote cast was 625,597. This compares with 623,119 in the 1960 primary. The total included spoiled ballots and voters who chose to cast only a nonpartisan ballot, such as for district judges and members of the Legislature.

Two years ago the DFL vote was 304,011, or 11,740 votes more than the GOP total of 292,271.

The governorship produced the greatest number of votes. Gov. Elmer L. Andersen, unopposed, led the Republican column with 275,351. His DFL opponent, Karl Rolvaag, received 271,818.

Minnesota Twins Owner Heads Yule Seal Sale Again

Calvin Griffith, president of the Minnesota Twins Baseball club, again will be the state's honorary chairman of the 1962 Christmas Seal campaign.

Mr. Griffith, who has brought baseball fame to Minnesota, will have his signature on hundreds of thousands of appeal letters to be mailed in November by the Minnesota Tuberculosis and Health association, St. Paul.

In accepting the chairmanship for the second consecutive year, Mr. Griffith said, "I'm glad to be associated again with an organization dedicated to the eradication of tuberculosis and the control of other respiratory diseases."

AUGUST TRAFFIC RECORD SHOWS GAIN IN MINNESOTA

A 5.6 per cent increase in the state's traffic count for August over that of a year ago was recorded by the 31 automatic traffic recorders stationed at as many rural trunk highway locations and compiled by the Minnesota highway department. The increase reflected a state-wide steady rise in traffic flow.

President Signs New Farm Bill into Law on Thursday

Bill Continues Wheat and Feed Grain Program with Some Revisions

President Kennedy signed the farm bill Thursday. A far cry from what he originally asked, it carries the seeds of a possible victory for tight production controls next year.

The bill continues for one year the present emergency wheat and feed grains programs, with the difference that both include an 18-cent direct payment as part of the price support farmers can get.

For instance, corn would be supported at $1.20 a bushel, but 18 cents of that would be paid in kind from Government surplus corn stocks. The farmer could get the actual grain or the equivalent in cash. Wheat comes under a similar payment in kind plan.

But more important from the administration point of view are the provisions that come into effect in 1964 if Congress fails to enact new farm legislation before then.

Had this bill not been passed, the law would have reverted to the 1958 program of former Secretary of Agriculture Ezra Taft Benson, which provided relatively high price supports with little or no production controls. Democrats blame the Benson program for the present mountain of surpluses.

Now the 1958 law has been repealed once and for all. If Congress fails to act next year, the present law provides that in 1964 the secretary of agriculture can set price supports for corn at 50 to 90 per cent of parity. He is to choose a figure that will not result in an increase of surplus stocks held by the government.

Pres. Kennedy to Talk at Bean Feed in St. Paul Oct. 6

More Than 17,000 Persons Expected to Attend DFL Event at Fair Grounds

Beans and wieners will be on the menu for the DFL Bean Feed and Rally for Victory, Saturday, October 6, at the Minnesota state fair grounds hippodrome. The doors open for serving at 5:30 p. m. President Kennedy will deliver the main address at 9 p. m.

Lt. Gov. Karl Rolvaag will introduce the President. Also on the program will be Senators Hubert Humphrey and Eugene McCarthy. DFL candidates for state-wide and Congressional offices will be introduced.

DFL Bean Feeds have been recognized as the largest political rallies in the history of Minneota. DFL officials predict that this year's Bean Feed will set a new attendance record, topping that of 1960 when 17,000 people completely filled the Minneapolis auditorium to hear John F. Kennedy as a candidate for president.

The Bean Feed is open to the public for a one-dollar admission.

U.S. Public Health Service Warns of Asian Flu Attack

While the U. S. Public Health Service warns that the nation may face widespread Asian flu epidemics this fall and winter, flu vaccine makers fear a vaccine shortage. The extent of the shortage, if any, would depend on how widely the epidemic spreads.

According to a Public Health Service official, "While no one knows yet precisely how serious the Asian flu threat is, we think it is going to be a particularly bad year. More than half the deaths in the past two epidemics occurred in age group above 65 years with those between 45 and 60 a heavy second. The government this year is putting all people over 45 on the list for priority vaccination."

New Duck Booklet Is Now Available

The Minnesota department of conservation's game research unit announced this week that it has received a supply of the "Minnesota Waterfowl Identification Guide" which is published by the Mississippi Flyway Council.

The booklets will be distributed free to duck hunters upon request as long as the supply lasts. Requests should be addressed to the Bureau of Information, Department of Conservation, 350 Centennial Bldg., St. Paul 1, Minnesota.

Waterfowl researchers also urged duck hunters to study the sketches and descriptions of ducks contained in the 1962 synopsis of hunting and trapping regulations in Minnesota.

PULP AND FOREST PRODUCTS WORTH QUARTER BILLION

Pulpwood is by far the most valuable single forest product harvested in Minnesota, reaching a value in 1961 of $193,720,464; lumber was second among 14 major divisions listed by Forest Industries Information Committee of Duluth, valued at $20,587,500. Fuel wood topped $9 million, Christmas trees reached almost $7 million, followed by "matchwood, cooperage, etc.", posts, shavings-sawdust stakes, novelties, and poles, each valued at more than a million; tapering off under $1,000,000 are veneer wood, chemical by-products, mill refuse used as fuel, railroad ties, mining timber, piling. Not counting wild berries, nuts, fruits, cones, maple syrup, and other forest "by products" the total value of these 14 major items was $242,383,364. Nine pulp and paper companies with 12 mills employed 9,079 persons to manufacture 529,661 tons of newsprint and 293,462 tons of building board and insulation valued at $188,349,231.

BEEF FEEDING will be getting underway in late October at the Penn-Co Feed Lots, Inc., area located seven miles west and one mile south of Thief River Falls. Shown above are two of the four pole-type buildings being constructed for cattle shelters. Each of the buildings is 36x90 feet in size and will have a bituminous surfaced feed lot 40x90 feet in size. Feeding and watering will be automatic and the maximum capacity will initially be about 480 head of beef cattle. The feed lot covers an area 114x308 feet and is located on 160 acres of land purchased by the corporation.

Penn-Co Feed Lots, Inc., To Begin Operation Soon

Facilities Planned To Feed 480 Head of Beef Cattle

Organization of a corporation which will fatten and finish cattle for market has recently been completed at Thief River Falls and facilities for the operation are now in the process of construction. Site of the lots of Penn-Co Feed Lots, Inc., is seven miles west and one mile south of Thief River Falls where 160 acres of land have been purchased.

Being constructed are four pole-type buildings, each 36x90 feet in size and each having its own feed lot which is 40x90 feet. The entire area will be 114x308 feet and will also include a holding pen for newly purchased cattle. Rated capacity at present is about 480 head of cattle with 100 to 120 handled at each of the four lots.

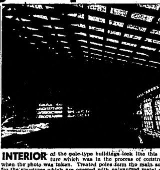
Ted Kusmak, stockholder in the corporation and manager of the operation, stated that it is expected to take delivery of the first cattle for the lots near the end of October. Feed lots are to be surfaced with hot-mix bituminous to provide a good wearing surface, facilitate cleaning and aid in disease prevention.

Automatic Operation

Automatic feeding and watering for the cattle will be labor-saving features of the feed lots. A well is being drilled and pressure system installed to provide water for the four-unit watering units located in each feed lot. Feeding will be done from V-shaped hopper self-feeders or auger-type feed bunks so that feed will be available to cattle free-choice at all times. Water will be heated so that it is no colder than 45 degrees to prevent frost-free winter operation.

While the operation will basically be for the fattening and sale of cattle purchased by the corporation, some custom feeding will also be done. Breeders will furnish stock and all feed under this plan and pay a daily rate per head for work involved in custom feeding.

(Continued on page 4)



INTERIOR of the pole-type buildings look like this structure which was in the process of construction when the photo was taken. Treated poles form the main support for the structures which are covered with galvanized metal sheeting. Feed lots at the open end of the building will be surfaced with hot-mix bituminous while the interior of the sheds will not have surfaced flooring. Advantage of the pole buildings is that tractor-mounted equipment can be used for cleaning and construction is relatively economical.

Town & Country Days Arranged for October 18-19-20

Northwest Town and Country Days, a three-day event being organized by the Thief River Falls Chamber of Commerce, will be held in this city October 18, 19 and 20. A number of special events, including a turkey barbecue free to the public on Saturday, October 20, are being arranged for the event.

Princess Kay of the Milky Way, Kathleen Hjelle of Argyle, will be in the city for two days during the promotion. On Thursday, October 18, she will make a morning appearance at Lincoln high school and an afternoon appearance at the Top of the Nation dairy sale being held in the livestock pavilion at the Pennington county fairgrounds.

Friday will be devoted to promotion and sale of dairy products as Princess Kay visits the city's supermarkets and banks. Her schedule includes the following places: Hartz Supermarket, 10 to 11 a.m.; Union State Bank, 11 a. m. to noon; Northern State Bank, 1 to 2 p. m.; Red Owl store, 3 to 4 p. m.; and Piggly Wiggly Supermarket, 4 to 5 p. m.

At 8 p. m. on Friday a new innovation will be inaugurated—a Northwest Livestock Clinic will be held at the Thief River Sales Barn located just west of the city on Highway 59.

Beginning at 11 a. m. on Saturday, October 20, the free turkey barbecue will be served at the city arena and everyone is welcome to join the crowd and receive a free meal. At 2 p. m. a free movie will be shown at the Falls Theater, giving parents an opportunity to have their youngsters entertained while shopping Thief River Falls stores.

Special attractions during the event will be an auto show at the city arena all three days; Northwest industrial show featuring items of area manufacture at the city auditorium; soil sample collection depot located in trailer near the post office; and registration for free turkeys in participating stores during all three days.

Further details of individual phases of the event will be given in later editions of the Times.

New Grace Church Edifice in Grygla Dedicated Oct. 7

The service of dedication of the newly completed Grace Lutheran church in Grygla will be held Sunday, Oct. 7, at 3:00 p. m. Dr. A. E. Hanson, president of the Northern Minnesota District of the American Lutheran Church, will officiate and bring the message. The Grace Lutheran church Women will serve a supper following the service.

Grace church is the result of the merger of the former Northwood, St. Olaf, and Valle congregations. For the past four years the congregation has been worshipping in the former St. Olaf building at two seperate services each Sunday.

However, the congregation has come to feel the need for a sanctuary of sufficient size that all may worship together at a single service. The new redwood building, with a seating capacity of 200 and overflow space for 100 more, is a result.

Everyone in the area is invited to attend the service, said Julius L. Erickson, pastor.

Board Names ADA Board to Serve County

Also Appoints Dr. David M. Brown as Co. Supt. of Schools

An Area Redevelopment agency board to supervise activities in Pennington county was appointed by the county board at its October session Tuesday. Named were James Winjum, Sr., Cy Carpenter, Dr. O. D. Belch, Harry Sjulson of St. Hilaire, and P. W. Culkins, manager of the Pennington county Agricultural Stabilization and Conservation office.

The ADA board will serve as a clearance agency for several other community development organizations, with special emphasis placed on areas where unemployment is prevalent.

Types of projects that may be given financial assistance by grants or loans include public facilities which contribute directly to new, permanent commercial or industrial employment. Organizations that can qualify for loans and grants include public bodies such as state or local government, or a local non-profit corporation.

Following a conference with Dr. David W. Brown, superintendent of schools at Goodridge, and members of the Goodridge school board, the county board appointed Dr. Brown to serve as county superintendent of schools from January 1 to July 1, 1963, at a total salary of $400 for the period, in addition to $100 for clerk hire. Dr. Brown, who will succeed Mrs. Martha Matheson, will supervise the four rural school districts in the county which are still operating.

Much of the board's time Tuesday was spent in hearing requests for aid in solving drainage and road problems, no official action being taken.

Feeder Pig Enterprise Is Profitable Program

First-hand information in regard to the Wisconsin Feeder Pig Cooperative and what it has to offer to local area farmers was given by Norval Dvorak, general manager of the cooperative, at a meeting held recently in the Rex Cafe in Thief River Falls. The feeder pig enterprise has met with considerable enthusiasm locally since the cooperative began its twice-monthly pickup at Thief River Falls.

Also present at the meeting, attended by about 15 interested farmers and businessmen, were Norbert Brandt, production and procurement director, and Joe Raine, Minnesota manager of the cooperative.

Since the cooperative began in 1957 with about 500 producers marketing 47,000 pigs, the operation has expanded to include 6,800 producers selling about 350,000 feeder pigs in 1962. This makes it the largest feeder pig cooperative in the United States and it has about 25 members locally. The outlook is for a continued good market for quality pigs.

While raising pigs may not appeal to a number of farmers, it may be well for them to look at the records a second time, it was pointed out at the meeting. Of all livestock enterprises, the feeder pig operation offers the greatest return per hour of labor and the greatest return per dollar invested. The cooperative holds management and information metings to help improve practices and increase profits. It also has set up a breeding research program to procure, breed and merchandise the kind of breeding stock the market wants. Low cost farrowing houses are also sold by the cooperative to encourage farmers to go into feeder pig production.

Statistics on the cooperative's average purchase price for 40-pound pigs since 1958 are as follows:

United Fund To Seek $17,619 As Drive Opens

Payroll Deduction Is Listed As Important Portion of Campaign

Officially getting underway today, the Pennington County United Fund campaign is seeking a goal of $17,619.50 to benefit 11 organizations taking part in the campaign. Richard Bjorkman, fund drive chairman, stated that a completion date of October 27 has been set and all donations and pledges should be turned in by that time.

Receiving the major portion of the budget will be four primarily local organizations. Budgeted funds for these organizations include Red Cross, $2,360; Boy Scouts, $4,000; Girl Scouts, $1,800; and Salvation Army, $4,750. Other charities in the budget are U. S. O. $160; Minnesota Society for Crippled Children and Adults, $1,100; Association for Retarded Children, $1,000; Arthritis and Rheumatism Foundation, $420; Children's Home Society of Minnesota, $480; Sister Kenny Foundation, $1,000; and Minnesota Community Research Council, $49.50.

Can't Include All

"We recognize that the United Fund does not include all organizations which seek contributions during the course of a year," Bjorkman said. "Since the fund is voluntary, there is no way to force these charities to join in the fund. For the most part, these groups do not join because they feel it is more profitable to conduct their own campaigns. Wholehearted support of the United Fund, enabling it to surpass its goal, combined with the public's giving only through this united effort, may cause them to affiliate in the future."

Success of the campaign this year is being aimed at increased use of the payroll deduction plan. Business places have been the main supporters of the campaign since it began, statistics indicate, and a little extra support from the average worker could easily boost the fund over its goal. Both employers and employees are being encouraged to adopt this meth-

Marshall Co. Board Firms Position on Land Transfer

ONE OF NINE yearlings consigned to the Top of the Nation dairy sale to be held in Thief River Falls October 18 is this grade calf from Sheldon Erickson's herd at Badger. It's dam has a production record of 20,569 pounds of milk and 647 pounds of butterfat in an incomplete 303-day lactation. This year the sale will include a number of animals ideally suited for 4-H and FFA projects. Dams of nine yearlings average 521.2 pounds of butterfat while dams of five calves average 501 pounds of fat.

Marshall county board of commissioners, meeting in regular session Tuesday at Warren, unanimously adopted a two-page resolution condemning action and inaction by the Minnesota Department of Conservation and calling for three phases of retaliatory activity. The resolution arises out of the transfer of 33,000 acres of land in eastern Marshall county to the Division of Game and Fish—a subject which has been kicked back and forth between the conservation department and county commissioners more often than a football in a defensive gridiron contest.

The three requests set forth in resolution call for the following:

That the state legislature be requested to enact legislation restoring the 33,000 acres to the Division of Lands and Minerals and further prohibiting the Commissioner of Conservation from removing these lands from the list of eligible lands for sale;

That until and unless Clarence Prout, commissioner of conservation and Governor Elmer L. Andersen demonstrate their good faith by re-transferring the controversial 8,000 acres to the Division of Lands and Minerals as agreed, no further negotiations or cooperation be extended to them; and

That the farmers of northwestern Minnesota be urged to post lands and prohibit hunting, "especially as to members of certain Twin City sportsmen's clubs, fronting for and lobbying on behalf of the Department of Conservation, which clubs have publicly and irresponsibly maligned the farmers of this area and have exercised influence upon Governor Andersen to the extent he has now deemed it politically expedient to repudiate his commitment to the people of this area".

Presented by Roy Edman of Alvarado and seconded by Andrew Korgen of Newfolden, the resolution included eight statements reviewing the situation as it appears to the county board.

History Cited

These include the initial transfer by Commissioner of Conservation George Selke in December of 1960, thereby permanently removing the 33,000 acre area from the list of eligible lands for sale; that the 33,000 acres "contains many thousands of acres of valuable farm lands ideally suitable for agricultural purposes"; and impossibility to place these lands on the county tax rolls.

Also cited was an agreement to transfer 8,000 acres back to the Division of Lands and Minerals which was never carried out; Governor Andersen's promise that the transfer would be made; Commissioner Prout's confirmation that the lands would be transferred; the lack of such transfer and the Governor's statement that he would support legislation permanently placing the entire area under the Division of Game and Fish.

Copies of the resolution were mailed to local area news media and the Twin Cities daily newspapers.

Howard Brandt Heads Pennington 4H Club Council

Howard Brandt

Howard Brandt, adult leader of the City View 4-H club, was elected president of the Pennington county 4-H leaders council at the annual meeting held Monday evening at the Pennington county courthouse in Thief River Falls. Coming 4-H activities were also reviewed and committees appointed or elected to function in carrying out these projects.

Other officers elected to serve for the coming year were Donovan Bruggeman, City View, vice president; Mrs. Silas Hanson, Silverton, secretary; and Harold Halvorson, Steiner, treasurer. Junior leaders elected Nancy Newton of Smiley as roll call secretary and Kenneth Larson of Kratka as reporter.

Elected to serve on the awards committee in an advisory capacity for 1962-1963 were Robert Parnow, Star; Harold Halvorson, Steiner; Mrs. Malcolm Stucy, Deer Park; Edgar Naplin, Black River; and Mrs. Lloyd Howick, City View. The group aids decisions in accepting or rejecting various awards sponsored by various agencies.

Program Committee

Selected to help plan the 4-H council program for the 1962-1963 year were Mrs. George Breznay, Mavie; Donovan Bruggeman, City View; Kathy Wold, Sanders; and Faye Stucy, Deer Park. A meeting of the committee will be called by county extension agents in the near future to begin program planning for the year.

Volunteers to make plans and assist with the decorations for the annual 4-H awards banquet to be held November 1 were Mrs. Leonard Melin of Black River and Mrs. Paul Furuseth of City View. Tickets for the event, to begin at 6 p. m. in the armory, will be mailed to all club members who have completed all their records for the year. Tickets for organizational 4-H leaders are to be purchased by the clubs at $1 each. Serving the head table will be Linda Tollefson, Black River; Kathy Svendsgard, Mavie; Nancy Newton, Smiley; and Faye Stucy, Deer Park.

Announcement was made of the Top of the Nation dairy sale to be held on Thursday, October 18, at which a number of calves ideally suited to 4-H club project work will be sold. Leaders were asked to relay the information to their club members.

Serving on the general committee for the dairy sale luncheon will be Mrs. Vernon Wold and Mrs. Elmer Wold of Sanders, Mrs. Charles Svendsgaard of Mavie and Mrs. Benhard Wold of Lucky Four.

Distribute Planning Books

Club leaders were given program planning books which are to be completed as soon as possible.

Northwestern Bell Announces Change In Monthly Bill

There will be a "new look" to telephone bills received this month by customers of Northwestern Bell Telephone company, according to James Wilson, local manager. Major change in the format will be a combination of the bill and the long distance statement on a single sheet of paper.

Wilson explained that for some time customers may receive an additional long distance statement listing calls which are not now processed mechanically. Eventually, however, all calls (to a maximum of 12) will appear on the one-piece bill. Customers who make more than 12 calls in a month will then receive a continued statement on a similar form.

"Another advantage of the new bill is more easily understood billing information," Wilson said. "We do not expect customers to have any trouble understanding the bill, but we're enclosing a folder explaining it along with the first bill of the new type that the customer receives."

Cliff Bugge Sells His Food Market to Bea Zachar

Clifford Bugge, for the past ten years proprietor of Cliff's Food Market east of the First st. bridge, today announced the sale of the business to Bea Zachar, who will operate the store under the name of Bea's Food Market. The new owner announced that the store will remain open until 10 o'clock each evening, including Sunday.

Fire Prevention Week Observance Set October 7-13

In observance of National Fire Prevention Week October 7-13, a number of activities will take place in Thief River Falls. These will include special visits to organizations by local fire-fighter officials, tours of the fire department by kindergarten youngsters and fire drills at the city's schools.

Appearances will be made at the Rotary club on Monday and Lions club on Wednesday by Roy Langevin, Thief River Falls fire chief, and Patrick Barry, state fire marshal stationed in Thief River Falls. Further details will be printed in Monday's edition of the Times.

Lions Club Views Dairy Day Slides

Official slides depicting all phases of the 12th annual Northwest Dairy Day held June 12 in Thief River Falls were shown at the Lions club luncheon meeting Wednesday noon by Marvin Lundin, who also supplied the commentary. The colored pictures were taken by Lundin.

Sharon Anderson, Gatzke, Bride of Kenneth Wagner

Miss Sharon Anderson, Gatzke, became the bride of Kenneth Wagner, Middle River, in a September wedding at United Lutheran Church of Gatzke. Rev. Duane Thompson performed the double-ring service before 400 friends and relatives.

The couple's parents are Mr. and Mrs. Ingvald Anderson of Gatzke, and Mr. and Mrs. Anton Wagner, of Middle River.

Decorating the church were large floor baskets of yellow and tangerine mums, carnations, and roses. Richard Shager, organist played traditional wedding music, and accompanied soloist Rebecca Shager in "The Wedding Prayer," and "The Lord's Prayer."

The bride, given in marriage by her father, was gowned in a full-length dress of nylon lace, featuring a bustle back and long, tapered sleeves. The sweetheart neckline was detailed with sequins. Her nylon illusion veil was secured by a pearl-and-sequin crown. Yellow roses and white carnations formed her crescent bouquet.

Maid of honor was Karen Anderson, the bride's sister. Other attendants to the bride were Renee Larson and Mrs. Ray Wagner, both of Minneapolis, both in street-length dresses with lace tops and net overskirt over taffeta. They wore matching headpieces and heels, all in September blue.

Flowergirl Lenay Davidson wore a white nylon dress.

Attending the groom were three brothers, Virgil Wagner, as best man, and Lloyd and Ray Wagner as groomsmen. Carrying the rings was Wayne Wagner.

The bride's mother was in a brown and black knit suit-dress with matching brown accessories. The groom's mother chose a navy blue suit-dress. Both wore corsages of roses and carnations.

A wedding reception honoring the newlyweds was given by the bride's parents immediately following the ceremony. It was held in the church parlors and was for about 350 guests with the bridal table set for 23 guests, the remainder being served buffet-style. The wedding cake, formed like a cloverleaf, was baked by the bride's mother, with the assistance of Ruby Larson.

Mrs. Peter Aune was hostess. Cutting the cake were Mrs. Hilmer Anderson and Mrs. Cliff Haugen, aunts of the couple. Two other aunts, Mrs. Petra Larson, and Alma Wagner, poured. Serving punch were Clarice Aune and Maureen Peterson. Judy Anderson registered the guests. Janet Aune and Lois Wagner served as waitresses, while Myrna Peterson and Carol Biskup opened and displayed the gifts, assisted by Leland Larson and Elroy Aune.

Guests were from Minneapolis, Coon Rapids, Paynesville, Red Lake Falls, Goodridge, Middle River, Thief River Falls, Crookston, Holt, and Newfolden.

Mrs. Wagner is a graduate of the Middle River high school, and later completed the secretarial course in the local vocational school. She is employed as a secretary in Red Lake Falls. The groom, who also graduated from Middle River High and from the auto body school of the local area vocational school, is employed as a body man in Red Lake Falls.

Sandy Sjulstad Gifted At Kitchen Shower

Hosting a kitchen pre-nuptial shower this week for bride-elect Sandy Sjulsad were Betrice Dargon and Nadine Eidelbes, at the Evelyn Prigge home.

The guest of honor received her gifts in a room decorated in blue and white, the color scheme which will be carried out at her wedding.

Games were played, and the hostesses served lunch.

Attending were the following guests from Thief River Falls and vicinity: Mrs. John Eidelbes and family; Mrs. Arlie Uggerud, Mrs. Jarvis Torgeson, Mrs. Swen Sjulstad, Aniell Nygaard, Connie Anderson, Mrs. Bill Kvalsten, Mrs. Thomas Landowski, Mrs. Myron Gutterud, Mrs. John Uggerud, Mrs. Helen Dyrdal, Mrs. Bob Bakke, Irene Johnson, and Esther Overbye.

Mrs. Allan Paulson Entertains For Larry

Larry Paulson celebrated his tenth birthday at the home of his parents, Mr. and Mrs. Allan Paulson, on Thursday afternoon, September 27, with a birthday party.

Games were played, and lunch served, with a blue and white cake, baked and decorated by his mother, featured. Larry received numerous gifts.

Among Larry's guests were his cousin, Jon Mostrom; Michael Gillespie, David Tyson, Rory Anderson, Mark Kays, Dale Gilbertson, Gary Reed, John Fitzgerald, Tony Brennee, Thomas Gull, Dale Knutson, Bruce Anderson, Ronnie Harger, Ricky Harger, and Roy Harger.

Those who came in the evening were his grandparents, Mr. and Mrs. Willie Rondorf, Sr., Mr. and Mrs. LeRoy Groven, and his paternal grandmother, Mrs. Roman Paulson.

Sundquist Infant Is Baptized September 30

Patty Marie, infant daughter of Mr. and Mrs. David Sundquist of Thief River Falls, was baptized on Sunday, September 30, at the afternoon services of St. Alban's Episcopal Church, with Rev. Harry Kirkham of Crookston officiating.

Sponsors for Patty Marie were Mr. and Mrs. Joe Poole, and Mrs. Herman Dargus, all of this city.

Judith Messerschmidt Plans Fall Nuptials

Mr. and Mrs. George Messerschmidt of International Falls announce the engagement and approaching marriage of their daughter, Judith, to Garald Landowski, son of Mr. and Mrs. Thomas Landowski of this city.

Miss Messerschmidt is employed as a beautician in St. Paul, while her fiancee is employed in Minneapolis.

The wedding will be an event of October 20, and will be solemnized at Trinity Lutheran church in this city.

Zion Women To Map 1963 Program Tuesday

A program on "Reformation" will be the feature of the next meeting of the Women of Zion, which will be held on Tuesday evening, October 9, at 8 o'clock in the church parlors.

In charge of the program will be the Mary Rachel Circle; Ruth Circle will be hostesses, and hospitality will be handled by Rebecca Circle.

Since many important decisions concerning next year's program will be made at this meeting, and every woman of the parish will want a chance to help make them, a large turnout is especially urged.

Initiation At Eastern Star October 10th

Initiation of new members will be the order of the evening when Winslow Chapter No. 182, Eastern Star, meets Wednesday night, October 10 at the Masonic temple.

Following the business session, lunch will be served.

It is announced that a school of instruction for all officers will be held at Warren on October 8, at 8 p. m. and all officers are urgently requested to be present.

DISCLOSURE of the engagement of their daughter, Miss Viola Ann Scott, to Erwin C. Melvie of Viking, is made by her parents, Mr. and Mrs. Donald Scott of this city. Her fiancee's parents are Mr. and Mrs. Ernest C. Melvie of Viking.

The prospective bride, a graduate of Lincoln high school and of the local vocational school, is employed by the Union State Bank of Thief River Falls.

Mr. Melvie graduated from Newfolden high school.

The date of their wedding is indefinite.

Miss Rosemary Votava Addresses Legion Aux.

Girl-stater Miss Rosemary Votva greatly impressed the members of the American Legion auxiliary when she appeared as guest speaker at their Monday, October 1st meeting. She told of her experience at the Minnesota Girls State session held this summer, and convinced the group that she was a well-qualified representative of this city.

Luncheon followed the session, with hostesses Mmes. John Borgen, Ed Olson, Elmer Andersen and Allen Steenerson, serving. Door prize was awarded to Mrs. Thomas Donarski. Attendance prize was forfeited by Mrs. A. C. Matheson.

Miss Sara Howick Has Birthday Party

Miss Sarah Howick was honored guest at a birthday party held at the home of her parents, Mr. and Mrs. Lloyd Howick on Saturday afternoon, September 29, to note her 10th birthday.

The guests played games, later having lunch which featured a decorated birthday cake. Sarah received a number of gifts from her friends who were present, and from those who could not come.

Those present at her party were Misses Jan Hakerson, Connie Hillyer, Judy Lawson, Linda Robinson, Kathy Olson, and Nancy Hallan.

President Speaks in St. Paul Oct. 6 & St. Cloud Oct. 7

President Kennedy will fly by helicopter from the Twin Cities to St. Cloud Sunday for a ball park rally expected to draw more than 10,000 persons.

A change in plans and time for the St. Cloud rally was announced Tuesday by DFL officials who met in St. Cloud to make final arrangements.

Originally the President was to fly to St. Cloud by plane, take part in a parade through town and speak at 2 p. m. at the Municipal Ball Park.

The rally has been moved up to 11 a. m., with Mr. Kennedy scheduled to speak sometime between 11:30 and noon.

The change was made to enable the President to return to Washington, D. C., earlier in the day, according to Ray Hemenway, DFL national committeeman.

Mr. Kennedy will appear at a DFL bean feed at the State Fairgrounds Hippodrome in St. Paul Saturday night.

Soil Sampling Is Again Encouraged

Soil sampling for improved crop production will again be promoted in Pennington county this fall. A trailer headquarters will be located near the Thief River Falls post office October 18, 19 and 20 as part of Northwest Town and Country Days being staged by the Thief River Falls Chamber of Commerce.

Information on soil testing is provided in the following story prepared by Paul Stelmaschuk, Pennington county agricultural agent. This county has rated high each year in the number of soil samples taken for analysis at the University of Minnesota college of agriculutre.

Farmers ask, "Why test soil if I had little or no crop?" The answer to this question is that you don't need a test every year except where you want to check a special condition, Stelmaschuk said. Soil tests are good for about two years.

Expect High Carryover

Last fall many farmers tested to see if the fertilizer they applied carried over after a dry year. What about these fields after a year like this when there was little or no crop because of rains? Chances are that plant food on the fallowed fields increased, if anything, due to plow-down of organic matter. Many fields tested last fall can be treated with about the same kind and amount of fertilizer in the spring of 1963.

There are many fields, however, on many farms which have not been tested in the last two years. These are the fields where soil samples should be taken. Hay fields and pasture land should also be tested. Soil bank acreage coming into production should be sampled.

Farmers would do well to get soil samples from the above fields as soon as possible, the county agent added. Bring in these samples to Thief River Falls on Oct. 18, 19 or 20. The soil collecting depot will be set up on the street by the Post Office for the three days.

How to Sample

Samples may be brought in coffee cans, pint jars or other containers. Take your soil sample from a 20 acre field, from 15 places in the field. Make sure to cover the field well. Dig the spade down to plow depth. Take a pinch of dirt from the top, middle, and point of the spade, and throw it in a pail.

Mix the dirt well in the pail and take about one pint of this mixed dirt. This sample now represents your field. Remember that the soil test is no better than the sample you bring in. Bring all the samples you need to the trailer October 18-20.

Fertilizer dealers in Pennington county will refund the cost of one dollar per sample to you, when you buy your fertilizer. Farmers from Pennington, Red Lake, East Marshall or any other part of the Thief River Falls trade area are urged to bring in their soil samples on the above dates.

Red Lake River Basin Meeting Slated Oct. 16

To discuss plans for making a survey of the Red Lake River Basin, a meeting of the Red Lake River Improvement association directors and the U. S. Army Corps of Engineers will be held Tuesday, October 16, at 7:30 p. m. in the Elks club rooms at Crookston. Discussion will cover the progress made to date and what can be expected in the future.

Beef Feed Lots Organized; Will Begin Work Soon

(Continued from page 1)

Aide Area Farmers

Kusmak stated that the lots are not being manged in competition with rea farmers but will rather help the local area agricultural economy. Whenever possible, the lots will purchase feeder cattle from breeders of beef cow herds in the area. This will provide an outlet for these animals without forcing breeders to pay large shipping and shrinkage costs to bring their cattle to distant markets.

A large amount of the feed grain and forage will also be purchased from local growers, Kusmak said.

Construction of the lots is being carefully planned for adequate drainage, easy cleaning and ease of handling in feeding and loading. Cattle received must be vaccinated or will be vaccinated and held for seven to 14 days before being turned out on the lot with other cattle. Lots will be thoroughly disinfected after sale of each group of cattle and before the lot is filled agin.

Kusmak said that the investment in the facilities is a long-term proposition and that statistics on cost of facilities and related information will be made public when construction is completed.

1963 Cadillac to Be Shown Friday

New Model Cars to Be Displayed at Wiener's

The Cadillac story for 1963 is one of increased size, significant engineering accomplishment with a new engine and drive line plus still greater emphasis on comfort and convenience.

"Designed to leave no question as to its identity, the 1963 models say Cadillac from every angle," says Harold G. Warner, general manager of Cadillac and vice president of General Motors.

The 12 Cadillac models, in three basic series, go on sale Friday, October 5, at Wiener's garage in this city.

"Cadillac's 1963 look is a blending of clean unbroken side metal with bold and definite components such as the hood, front fenders, grille, head lamps and roofs," Mr. Warner said.

Eleven models are one inch longer with nine of these 223 inches in over-all length. One is 215 inches and the two series 75 models are 243.3 inches. Wheel base is unchanged on all models

Sharing the spotlight with the Sixty Special are the two-door models, the Coupe de Ville and the series Sixty-two coupe.

Larry Evenstad Promoted with Penney Company

Larry W. Evenstad, Lincoln high school graduate and an employee of the J. C. Penney store in this city, has been promoted to management trainee at the Fargo store. He has been assigned to the piece goods, drapery and home furnishings departments of the downstairs store.

Evanstad holds a B. S. degree in marketing from the University of North Dakota. He was a member of Trinity Lutheran church in this city and a director of the Junior Chamber of Commerce. His wife, Marilyn, is a past president of the local chapter of Mrs. Jaycees. He and his family moved to Fargo on Wednesday.

Northern Region Firemen to Meet Here October 10

The Northern Region Firemen's association will hold its annual fall meeting Wednesday evening, October 10, in the Eagles Hall in Thief River Falls, Roy J. Langevin, secretary, announced today. In addition to several talks and the showing of movies, officers will be ejected to serve during the coming year.

CADILLAC The new silhouette of the Cadillac Coupe de Ville for 1963 results from this new roof design. It combines a more sporty look with an air of formality and is responsible for an additional seven inches in the rear deck which adds greatly to the appearance of greater length. In actuality the Coupe de Ville is only one inch longer than last year at 223 inches. The 1963 Cadillac is being shown at Wiener's Garage.

Rev. H. R. Collver To Be Installed As Pastor Here

Succeeds Waldo Trask At Assemblies of God Church in T. R. Falls

Rev. H. R. Collver

Rev. H. Ray Collver, a native of the Niagara district of Ontario, Canada, will be inducted as pastor of the Assembly of God tabernacle in Thief River Falls on Sunday at the 11 a. m. worship service. Rev. H. H. Rohde, secretary of the Minnesota District Council of the Assemblies of God, will conduct the installation.

Rev. Collver attended McMaster University at Hamilton, Ont., served overseas with the Royal Canadian Air Force as a heavy bomber pilot and was awarded the Distinguished Flying Cross. He spent two and one-half years as a missionary with the Presbyterian church in northern Canada and was at once time director of one of Canada's largest Youth for Christ rallies.

Before coming to Thief River Falls Rev. Collver had been pastor of a church in Fort Frances, Ont., for four years. Active in community affairs, he served as president of the ministerial association, president of the Rainy River Musical Festival and served four terms as chaplain of the local branch of the Royal Canadian Legion.

With his wife and eight children he has moved into the Assembly of God parsonage at 406 Arnold av. S. In his position as pastor of the local congregation, he succeeds Rev. Waldo Trask who has gone into traveling evangelistic work.

Wiener Displays '63 Pontiac Today

New Line of Cars Offers Big Variety of Models

Styling and engineering developments found in the new 1963 Pontiacs are more impressive than ever before, company officials stated. The wide track models in the three all-new Pontiac series, reflect the highest standards in body styling, performance ride and handling, dependability and serviceability. The new models are now on display at Wiener's garage.

In announcing new 1963 models, E. M. Estes, general manager of Pontiac Motor division, said the new roof lines and clean front and rear end styling "create a fresh visual image of quiet elegance". The new styling looks graceful, massive and substantial, yet definitely Pontiac, he said.

Pontiac's high volume production series, the Catalina, is available in seven models; two and four-door sedans, two and four-door hardtops, six and nine passenger Safaris and a convertible. The Star Chief is offered in a four-door hardtop Vista and four-door sedan models. The luxurious Bonneville is available in four models; two and four-door hardtops, a six-passenger Safari and a convertible.

4 Student Nurses Now in Taining at TRF Hospital

Four student nurses from Lutheran Deaconess Hospital, Minneapolis, are spending a six weeks period of their training at Northwestern Hospital in aspects of rural nursing. The students are Virginia Heinrich, St. Paul; Yvonne Granley, New London; Orpha Forbregd, Osakis; and Betty Clow, St. Vincent. This group of students will be in the city until October 21.

Rites Held for Torjus Homme, World War 2 Vet

Funeral services for Torjus Homme, 46, of Grygla, who passed away at the Veterans' hospital in Minneapolis on September 27, were held Wednesday, October 3, at 2 p. m. at Our Saviour's Lutheran church at Grygla. Sinding's Funeral Chapel of Thief River Falls was in charge of the arrangements, with burial being made in the Our Saviour's cemetery.

Mr. Homme, who was born October 25, 1915, in Hamre township, Beltrami county, attended rural school there and grew to maturity. He served with the U. S. armed forces from June, 1942, until January, 1945. Since 1953, he has been engaged in farming with his brother, Knute.

Survivors include his mother, Mrs. Anna Homme, Grygla; his brother Knute; and five sisters, Ingeborg, Grygla; Mrs. Delbert (Thora) Harbott and Mrs. Orville (Gay) Johnson, both of this city; Mrs. Elmer (Margaret) Burglund, Minneapolis, and Mrs. Harold (Thonia) Stanley, Missoula, Mont.

His father preceded him in death.

Spud Manning Takes Top Honors in Races

Spud Manning won premier honors at the Falls Speedway program of racing on Sunday as the local stock-car racing schedule for 1962 was concluded.

Manning, who won the time trials with a mark of 16.0, won the Class A championship event. In addition, Manning has a share in the track record, a 15.9 mark, with Red Monroe and Lyle Bjorge.

An added attraction on Sunday's program was a chariot race between Dan Keefe and Vern Ford, and which was won by Ford.

Following the completion of the program, Nick Koropatnicki, on behalf of the Northwest Racing association, presented trophies to the winners of the Class A competition — Spud Manning — and the Class B competition — Butch Manning. Koropatnicki was a judge and time-keeper during the 1962 racing season.

Time trials: Class A — Spud Manning, 16.0; Lyle Bjorge, 16.1; Red Monroe, 16.1; Ralph Wilde, 16.6; and Duane Iverson, 17.5. Class B — Butch Manning, 17.4; 17.5; Ronnie Arnold, 18.0; and Dale Newton, 18.5.

Class A, first heat, won by Spud Manning; 2nd, Red Monroe; and 3rd, Ralph Wilde.

Class B, first heat, won by Butch Manning; 2nd, Larry Jensen; and 3rd, Ronnie Arnold.

Class B championship race, won by Butch Manning; 2nd, Ronnie Arnold; and 3rd, Larry Jensen.

Class A championship race, won by Spud Manning; 2nd, Red Monroe, and 3rd, Lyle Bjorge.

Lengby Boy Killed in Hunting Mishap

Michael Maruska, 10, Shot Sunday by Hunting Pal

A 10-year-old Mahnomen county farm boy was killed Sunday afternoon when the .410 gauge shotgun of a hunting companion accidently discharged.

Clearwater County Sheriff Mel Brustad, who investigated the accident, said that Michael Maruska died about 2:30 p. m., while on a grouse-hunting expedition with two brothers and another boy.

Michael, and two brothers, Bradley, 14, and Melvin, 13, sons of Mr. and Mrs. Ray Maruska of rural Lengby, and James Fisher, 14, son of Mr. and Mrs. Glen Fisher, rural Lengby, had been hunting on the Fisher farm in Clearwater county.

The four had been resting just a short distance from the Fisher home, on their way back from their hunting expedition, when the accident occurred.

The Fisher boy had reloaded and cocked his gun, and as he turned around to look at two other boys who had stood up his gun accidentally discharged.

The Maruska boy, who was bending over, was struck in the head.

He apparently was killed instantly.

No inquest is planned, deputy Clearwater County Coroner Wayne Cease said.

1963 Oldsmobile Shown Here Today

New Models Displayed at Northern Chevrolet Co.

Oldsmobile has designed its 1963 models for broader appeal through fresh, youthful styling, stronger model identification, many improvements for customer comfort and important engineering advances. These advances include a new adjustable tilt-type steering whel and — another first for Oldsmobile — an exclusive positive crankcase ventilation system.

Jack F. Wolfram, Oldsmobile's general manager and a vice president of General Motors, announced that the 1963 Oldsmobiles will be shown publicly at dealer showrooms across the nation, including the Northern Chevrolet Co. in TRF, today, October 4.

"To meet the varied wants and needs of today's individual buyers," Wolfram said, "Oldsmobile is offering 26 distinctive models for 1963, ranging from the crisply designed, longer-looking F-85 to the most elegant 98's we've ever built."

Two Men Killed in Highway 2 Crash

Emerson Kingbird and Francis White Victims

Two Ponemah, Minn., men died from injuries received in a one-car accident 12 miles east of Crookston on Highway 2 Saturday morning, when their car plunged across the highway and smashed into the outside shoulder of a ditch.

Killed in the accident Saturday was Emerson Kingbird, 24, a passenger.

The driver of the car, Francis White, 34, died of injuries Sunday at a Crookston hospital.

The highway patrol said the car was traveling at a high rate of speed on a gravel road which intersects with Highway 2.

They said the car made no attempt to stop or to turn. It sped across the highway and hit the outside shoulder of the ditch on the south side of the highway, according to investigating officers.

Trinity Leaguers Workshop Hosts Sunday, Oct. 14th

Trinity church senior leaguers will be hosts to Thief River Falls conference Luther league officers and advisors at a workshop on Sunday afternoon, October 14.

Heading the meeting will be conference officers and a conference pastoral advisor who attended a training school in Dubuque, Iowa, last summer. Officers and advisors from all local congregations are expected to be in attendance.

President of the conference Luther league is Rolf Wangberg of Trinity church and pastoral advisor is the Rev. Paul Gulbseth of Oslo.

District Hospital Auxiliary Meet Planned in TRF

"Let's Join Hands Across the Miles" is the theme for the District I hospital auxiliary and administrators annual meeting to be held Wednesday, October 10, at the American Legion club rooms in Thief River Falls. Election of officers, panel discussion and workshop luncheons will be included in the full-day's program.

Registration will be held from 9 to 10 a. m. at the Legion club rooms with each hospital group in the district having four delegates eligible to attend the meeting. A full schedule of activities will be published in Monday's edition of the Times.

Goodridge Teachers Hear Crookston Man

Members of the Goodridge Education association at a meeting last Wednesday, September 26, heard an address by Dr. Ralph Hinton of the Northwest Mental Health center at Crookston. He told of work being done in diagnostic testing and therapy to help maladjusted young people.

The association also heard reports on the September 15 Bemidji workshop by Mr. Janneck, principal; Mr. and Mrs. Zenner, Andrew Lehrer and William Blankenfeld, president of the Goodridge group.

DFL Candidates To Visit in City

DFL candidates, including Walter Mondale, attorney general, and A. M. "Sandy" Keith, candidate for lieutenant governor, will be in Thief River Falls on Friday at 8 p. m. at the courthouse meeting room. Several other local, state and national DFL figures will also be present and questions from the public are invited. The session will follow a 6:15 p. m. dinner meeting at the Rex Cafe.

Howard Brandt Will Head 4-H Leaders Council

(Continued from page 1)

One book is to be given to each club family and a copy sent to the extension office for filing.

Announcement was also made of a medical self-help program offered through the county civil defense organization and persons interested were asked to contact the extension office. About 25 persons can be enrolled in the 16-hour course which is furnished as a community project. The "bag of bulbs" campaign was also discussed and clubs interested may contact the extension office.

Reports were given by Judy Rupprecht of Silverton and Bonnie Finstad of Rocksbury, respective delegates to health and conservation camps at Itasca State Park.

Boy Scout Board of Review Set at Trinity Church

For Boy Scouts in Thief River Falls and adjacent communities, a board of review will be held Monday at 7:30 p. m. in the scout room of Trinity Lutheran church. The session will be conducted for all scouts approved by their scoutmasters for review for second class rank and higher, according to Clarence Knudsen, advancement chairman for the Pen-Ro-Shall district.

od of pledges and payments.

Last year receipts from the campaign totaled $13,561.20 and were pro-rated to the participating agencies.

In an advertisement, published elsewhere in today's Times, Bjorkman has issued an appeal for workers in the residential and rural areas of the county. Any persons desiring to see the fund continued and interested in its success is encouraged to write Box 286 or call the United Fund office at MU 1-4443.

ADDITIONAL LOCALS

Mr. and Mrs. Harry Hanson of Trail were Sunday visitors of the Marvin Gustafsons.

Attending the funeral of Mrs. Bill Hennebry in Warren on Monday were Mr. and Mrs. M. R. Leverson of this city.

Guests at the Allan Paulson home on Sunday afternoon were Mr. and Mrs. Alvin Randorf and family, and Mrs. LeRoy Groven.

Onken's Return From Convention

Attend Banker's Ass'n. Meeting on East Coast

Kenneth Onken, vice president of Union State Bank in Thief River Falls, returned Monday after attending the American Bankers Association annual convention held September 23-26 at Atlantic City, N. J. He and Mrs. Onken also visited points of interest and relatives at New York City, Washington, D. C., Hampton, Va., and Chicago.

M. Monroe Kimbrel of Thomson, Ga., was elected president of the national organization to succeed Samuel M. Fleming of Nashville, Tenn. Main speakers included Robert Roosa, under-secretary of the U. S. Treasury, and Dr. Herman Abs, managing director of the Deutsche Bank in Frankfurt, Germany.

By resolution adopted at the convention, bankers attending showed a big preference for continued use of the dual system in banking which permits both national and state banks to operate in the nation.

Also attending the convention were Mr. and Mrs. Harold Hanson of Baudette and Mr. and Mrs. A. F. Kaiser of Bagley.

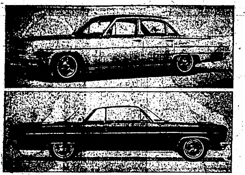
THIEF RIVER FALLS



All 1963 Oldsmobile F-85 models have been designed with more the look of an Oldsmobile, more impressive looking cars, immediately identifiable as members of the Oldsmobile product family. The F-85 Deluxe Sedan (top photo, above) typifies the crisp youthful styling theme. The Cutlass Coupe (lower photo) has been designed for even greater sports car appeal. Bucket seats are standard equipment. Actual overall length of the new F-85 has been increased only four inches while the maneuverability of its 112-inch wheelbase has been retained. In addition to their important styling changes, all F-85 models feature numerous mechanical improvements for economy of maintenance, increased safety and comfort, better handling and smoother, quieter operation. The Hydra-Matic transmission, for example, is much smoother, comparable to the transmission on the Oldsmobile 88's and 98's.

1963 Rambler to Make Bow Friday

Gustafson & Son Will Display New Model Cars

The 1963 Ramblers announced today by American Motors Corporation re-emphasize the compact leader's size and balance concept while utilizing new body building techniques to take on a fresh new appearance.

The new Rambler Classic Six and Ambassador V-8, which will go on display Friday, October 5 at Gustafson & Son in this city, are lower in silhouette, look much bigger but are actually more than an inch shorter in over-all length than previous models.

Coming on the heels of the best sales year in the company's history, Rambler's first major appearance change in several years is based on an advanced unit construction method that results in a stronger, safer body and greater precision and quality in manufacturing.

Other highlights of the '63 Rambler include a seven-fold increase in use of galvanized steel for greater rust-resistance, step-down design with lower over-all height, curved side glass, new grille design, large wrap-around bumpers, new Twin-Stick floor shift transmission with overdrive, and permanently lubricated transmissions.

New Garden Club Has First Meet At Koglin Home

Ladyslipper Garden club, newly organized affiliate of the 13th District Horticultural Society, held its first meeting recently at the Edwin Koglin home at Goodridge with Mrs. Koglin as hostess. Mrs. Alvin Burstad is president of the organization.

"Dry Flower Arrangements" was the topic for the meeting with a number of the members bringing floral pieces they had constructed and relating their experiences in gathering material and constructing the arrangements. Mrs. Burstad presented a formula for making a cinder plant and a bubbling jar.

The October meeting will be held October 25 at the Adam Lendobeja home with the topic to be "Winter Storage of Roots and Bulbs."

Detroit Lakes to Play Here Friday

The Prowlers will be carrying a four wins and one loss mark on to the Lincoln high school athletic field here on Friday night as they face coach Haldo Norman's Detroit Lakes Lakers. Kickoff time is at 8:00 p. m.

In Friday night's game here, the Prowlers and Lakers will be continuing a gridiron rivalry that has been on an annual basis since 1952 (the 1959 game, slated for the field here, was cancelled because of the heavy rains that had prevailed, making conditions surrounding the field impassable). The Prowlers hold an edge in the series, having won five games, lost three, and tied one.

Coach Joe Mrkonich's Prowlers will be favored in the tilt here Friday. Coach Norman's inexperienced Laker squad has lost three games and won one as they move into the game against the locals.

The Prowlers came out of their Northwest conference game at Roseau last Friday with a 20-6 win and without incurring any crippling injuries. Coach Mrkonich will probably send the same starters on offense against the Lakers that took the field gainst Roseau, with the exception that Bob Benson may be given a shot at left half back. Otherwise the locals will have Ray Ulrich and Art Koglin at the ends, Jim Ranum and Tiny Myhrer at the tackles, Tom Morben and Terry Nelson at the guards, Brian Lofberg at center, John Aune at quarterback, Paul Klungness at right half back, and Steve Mittelstadt at fullback.

In a pair of junior high school football games played here on Tuesday afternoon against the Warren junior high school squads, the locals racked up a pair of wins. Coach Al Adams' Prowler seventh graders defeated the Warren seventh graders, 26-0; and coach Dale Folger's Prowler eighth graders defeated the Warren eighth graders, 27-0. The next outing for the junior high school squad will be against the Fertile eighth grade squad here on Tuesday, Oct. 9, at 4:15 p. m.

In a Prowler 'B' squad game played at East Grand Forks on Tuesday afternoon, the locals, by a 33-12 score, defeated the East Grand Forks 'B' squad.

TRF Will Host State Tourney In VFW Hockey

Thief River Falls was awarded the 1963 Minnesota Veterans of Foreign Wars Bantam hockey tournament at the department's annual fall conference held Saturday and Sunday at Little Falls. The event will be held here on a weekend in the latter part of February.

Attending the conference as delegates from the Thief River Falls Post and presenting a bid for the tournament were Roy Jorgenson and Harold Anderson. This will make it three consecutive years that the tourney has been held in the Ninth District of the state VFW organization.

Fertile at Warren.
Ada at Bagley.
Red Lake Falls at Mahnomen.

In last week's feature game in the Pine-to-Prairie conference, the Mahnomen at Ada tilt, coach Tom Rowlette's Mahnomen club scored a 13-7 win over the Vikings. The win kept the Indians in a deadlock for first place in the conference standings, with coach Chuck Johnson's Fertile Falcons sharing first place with Mahnomen.

Fertile, defeating Twin Valley, 40-0, in a game played at Fertile, moved into the team scoring lead, rolling up a total of 91 points in registering three conference wins. Rod Olson and Bob Gullickson, who share the quarterbacking chores for coach Johnson's club, are the leading point-getters for the Falcons, with Olson having 39 points, and Gullickson having 26 points.

The Goose Opening

The 1962 waterfowl season opens on Saturday, Oct. 6, at 12 o'clock noon, when the geese become the eligible birds to put in the game-sack. The season on ducks will not open until Saturday, Oct. 13, and also with a 12 o'clock noon opening. The limit on ducks has been drastically reduced this season, with a two ducks per day limit, one of which may be a mallard, and a closed season on redheads and canvasbacks.

The geese are reported in considerable numbers in Canada this year, having had a fair to good hatching year. Several parties of local hunters are in the Manitoba areas, but if they are experiencing the blue sky weather that has been prevailing here the past week the hunting must have been slow.

The concentrations of geese in this area is in a build-up stage, and the numbers do not approach last season's banner year. The goose hunting last season was the best in many, many years. There are quite a few birds in Lake Agassiz, but they have not established a definite flight pattern as they go out to feed. And, too, there isn't too much feed available for the geese. It is probable that the area adjoining Lake Agassiz refuge, the northwest portion, will attract the largest number of hunters. And of course Ditch 200 will have its quota of goose hunters. The Ditch 200 area provided good hunting last season.

Grouse Hunting Is Poor

The sharptailed grouse hunting reports continue to be discouraging. There had been a flurry interest created when limit bags were reported from the Caribou area northwest of Greenbush. But several parties of hunters, well-equipped with dogs, worked that area intensively on Sunday, and the reports were that few birds were flushed.

And the ruffed grouse aren't showing up as well as expected either. It was believed that with a frost, and the dropping of leaves and, the clearing of the heavy foliage, that the birds would be found. But this appears to be an idle hope.

Tri-County Football Favorites

Installed as favorites to win the Tri-County football conference title are coach Howard Emmerson's Plummer Cardinals. And on their record to date the Cards, unbeaten to date, are entitled to that rating.

This week, the Cardinals move out conference play when they meet coach Curly Gasperlin's East Grand Forks Sacred Heart eleven at East Grand Forks. This should be quite a test for the Plummer club, and it will be somewhat of a yardstick as to the Cardinals out-of-conference competition. Coach Gasperlin's club defeated the Crookston Pirates a couple of weeks ago, and they are slated to meet the Prowlers here next week.

I watched the Cardinals against the McIntosh team a couple of weeks ago, and a game that was supposed to develop into a nip-and-tuck affair proved to be quite easy for the Cardinals. Plummer scored a 31-0 win.

In this game, the play of Russ Vigstol, Gary Martel, and Marv Walter was exceptional. Martel and Walter give the Cardinals outside speed, and Vigstol, at fullback, is threat inside the tackles.

But it was on defense that the Plummer eleven proved decidedly superior to the Macs. The Plummer, possessed of good size and enough mobility, had control of the game throughout.

Following the Sacred Heart game, Plummer will conclude its schedule with three home games, against Mentor on Oct. 12, against Erskine on Oct. 19, and against Gonvick on Oct. 26. The Plummer field has been equipped with lights, and the first game under the lights was played last Friday when the Cardinals defeated their traditional rivals, the Oklee Bobcats.

A Mention

Leading the Tuesday night American bowling league for the past couple of weeks has been the Amundgaard's squad of Herb Peterson, Doug Peterson, Bruce Erickson, Billy Peterson, and Dennis Hallstrom.

Coming into last Tuesday night's match against the Wilson Bros., the Amundgaard's had a 11-1 record. But they dropped three points on Tuesday, and for the reason that they had only three bowlers in action. Two of the boys were working and could not get into town in time for the match.

But whether or not they finish in the first division in the American league, and I doubt it, the Amundgaard's are a colorful team having Herby as pilot and Dennis as anchor.

Crookston at East Grand Forks.

In the lone game played in Northwest conference competition last week, coach Joe Mrkonich's Thief River Falls Prowlers, with fullback Steve Mittelstadt scoring two touchdowns and halfbacks Paul Klungness adding another touchdown, defeated the Roseau Rams, 20-6, in a game played at Roseau. Gary Brandt, on an 87-yard run, scored the touchdown for the Rams.

A pair of games are on this week's conference schedule, with coach Ken Wilson's Bemidji Lumberjacks meeting the Rams at Roseau, and coach Lowell Larson's Crookston Pirates playing the Green Wave at East Grand Forks.

The Thief River Falls Prowlers will be entertaining the Detroit Lakes Lakers at Thief River Falls. Kickoff time for the game will be 8:00 P.M.

Tourist Industry in State Did Well in '62

Minnesota's tourist industry is on the threshold of its greatest era of prosperity, the state's commissioner of business development, Tom Swain, declared today.

He made the statement in a report analyzing the 1962 summer tourist season and the industry's prospects in Minnesota for the next few years.

The tourist season this summer, he said, fared exceptionally well—far better than was anticipated in the face of serious opposition from the weather. A survey just completed by the Department of Business Development's division of research, he reported, indicates tourist business in Minnesota this summer surpassed the 1961 season.

"While there were a few 'soft spots', notably in the camping sector and among some resorts in the northern section of the state," Swain said, "most segments of the tourist industry either equalled or bettered their summer season of a year ago."

Swain said details of the 1962 tourist season survey included these findings:

Retail gasoline sales rose sharply in the southern part of the state. For the state as a whole sales were approximately 5 per cent higher than a year ago.

Most motels, highway eating establishments, commercial attractions and resorts offering the type of accommodations in biggest demand, either matched or exceeded business levels of a year ago.

The resort business as a whole, comprised of more than 3,800 licensed operations with various types of accommodations, experienced a spotty season: some gains, some losses and some about equal to last year.

Convention business throughout the state increased. In the three major convention centers it was up by 10 per cent in Minneapolis, equal to a year ago in St. Paul, and in Duluth, on the basis of tentative figures, was higher by 2 to 3 per cent.

Camping declined. Use of state campgrounds dropped approximately 20 per cent. Cold and rainy weather was blamed for the losses.

Private campgrounds — comprising a relatively small portion of the total camping facilities in the state — gained by as much as 100 per cent. Most pronounced increases were in the Ely Wilderness area.

Bus and rail transportation rose sharply over 1961.

The Seattle World's Fair was credited by several sources for business gains, particularly in the east-west corridors of the southern portion of the state.

The Minnesota Motel Association reported a good season for its members, especially in Duluth and on the Iron Range, where the season was related "one of the best."

Several individual motel operators, in Rochester, Winona, Ely and Grand Marais, reported occupancy through the summer at or near 100 per cent.

Attendance at the Pipestone National Monument increased in July and August but the season's total fell slightly behind the total for 1961. Retail trade and motel business in the area, however, was equal to a year ago.

The Grand Portage National Monument, on the Lake Superior North Shore, recorded 23,328 visitors, compared with 21,995 a year ago.

Swain said the "Circle Tour" around Lake Superior contined to generate heavy traffic through Minnesota but was hindered by a Canadian austerity program applied in the spring. Canadian traffic declined but travel by Americans on the North Shore was about the same level as in 1961.

The survey did not attempt to measure the influence of the Minnesota Twins on the tourist industry but gains for motels and eating establishments probably reflect some of the traffic increase to Metropolitan Stadium, Swain said.

Clarence Thune Buys RLF Building

A Red Lake Falls business firm owned and operated by Henry Paquin for 59 years, closed its door last week bringing to an end one of the city's oldest businesses, certainly the oldest under the same management. Sale of the Shoe Hospital building and equipment to Clarence Thune of Thief River Falls was announced this week by Paquin. Thune has started remodeling part of the building for a beauty shop which will be operated by his wife.

Bertha Man Winner in Buttermaking

Duane Larson Honored In St. Paul Wednesday

A Wisconsin craftsman scored highest in Minnesota's annual state buttermaking championship contest series, but a Bertha, Minn., operator will get the 1962 state title and trophy.

Veteran competitor Chester L. Nelson, Baldwin, Wis., rolled up an average of 99.57 in the four separate contests to top a field of 143 competitors. But he cannot claim the state title because of a contest rule requiring Minnesota residence, according to Executive Secretary Floyd Thompson of the Minnesota Creamery Operators' & Managers' Association.

Thompson said Nelson, who has been active in Minnesota dairy circles for years, will receive the contest's vacation trip for two and a wrist watch.

The champion's trophy, title and a $25 award will go to Duane Larson, operator-buttermaker at Bertha Cooperative Creamery association, at the MCO&MA Breakfast for Champions in Hotel Lowry in St. Paul Wednesday. Larson's average score was 99.50.

Reserve champion is Le Roy Svoboda, New Prague Creamery Association, who averaged 99.4975. Third through fifth places, respectively, went to Bernard Holste, Tri-County Dairy, Winthrop, 99.4875; Willard Hanson, Goodhue Co-op Creamery Association, 99.45; and James Grunwald, Waseca Co-op Creamery Association, 99.41. David O. Thorn, Farmers Co-op Creamery Association, Mora, won honorable mention with a 99.4075 score.

Minnesota's state champion buttermaker is determined by averaging scores in four separate contests sponsored by the Minnesota Department of Agriculture, the Minnesota State Fair, the Minnesota Dairy Industry Committee and the MCO&MA.

Dramatic new styling plus increased power and performance highlight the changes in the 1963 Mercury Monterey. The unique, reverse slope, rear window which goes up and down, virtually eliminates visibility problems caused by ice, snow, rain or frost. The 390 Marauder V-8 engine now becomes standard, replacing a 223 six-cylinder engine and 292 V-8 which are no longer available on the Monterey. A total of eleven models—including the four-door custom shown above — are offered in the Monterey, Monterey Custom and S-55 bucket seat series.

Mutual Insurance Agents to Meet in TRF October 18th

The Gopher 1752 Club announces its fall series of clinics to be held in six Minnesota cities during the weeks of October 8 and 15. These clinics are conducted in cooperation with the Minnesota Association of Mutual Agents who will be holding their regional meetings in the same cities whenever possible.

One of the series of meetings will be held in Thief River Falls at the Rex Cafe Thursday, October 18, from 9 a. m. to 4 p. m.

The membership of the Gopher 1752 Club consists of field men of mutual insurance companies operating under the American agency system, which is composed of local independent insurance agents in Minnesota and other states.

BURSTING WITH NEWS...'63 MERCURYS

NEWS-MAKING ROOF FROM MONTEREY. The advantages of Monterey's distinctive styling go far beyond its beauty. This is elegance that works. See how the recessed rear window slants inward? It stays clearer in rain or snow. On hot days, it opens for breezeway ventilation. The overhanging roof shades rear-seat passengers from the sun, gives more headroom, keeps glare off the rear window for better rearview visibility. More good news: a Mercury Marauder 390 V-8 is Monterey's standard engine.

SPARKLING NEW MODELS FROM METEOR. For 1963, Meteor is the hot brand. Meteor is the sparkler with a whole new line of models in the low-price field—sleek new low-to-the-road hardtops, sedans, and three new station wagons. Feel sporty? Try the racy Meteor S-33 hardtop, with individually adjustable bucket seats and a handy console. For brilliant performance to match Meteor's sparkle, a new Lightning 260 V-8 is available in every model. And you save on upkeep with Mercury service-savers.

THE LID'S OFF COMET. Now a jaunty new convertible joins Comet's all-fun line. This sleek, rakish beauty comes in two models: the Custom and the dashing S-22, with bucket seats and optional stick shift. All Comets now have a complete package of service-savers like self-adjusting brakes. And Comet still heads its class with the largest trunk, longest wheelbase, and best resale value record. See Comet's whole happy '63 line-up: convertibles, sedans, station wagons. Fun-test your favorite Comet now!

"Man is an intellectual animal, and therefore an everlasting contradiction to himself. His senses center in himself, his ideas reach to the end of the universe; so that he is torn in pieces between the two, without a possibility of ever being otherwise."

Congratulations

Congratulations to Sam Mele and the Twins for doing so much better than was expected of them. At the beginning of this year they were given a *fair chance of finishing* near the top of the second division, but there were many skeptics who were not so optimistic. They will go into next season as recognized contenders for the top spot in the first division. But if they play ball next year as they played ball this year, they will provide exciting entertainment whether they win or lose, and that is the kind of a team we like to cheer for.

And congratulations too, to the sports-minded leaders of the Twin Cities who made good baseball possible for the area. Their willingness to work together has been just as gratifying as has been the success of the Twins. They have proven that when Squash Hollow and Punkin Center work together, in a good cause, they can do a much better job for the large area they serve. More power to them as long as they use their combined power in the best interests of the area.

"Over The Hill"

The billion dollar pay increase for federal employees and the two-thirds of a billion dollar increase in the tax on post office customers was passed along about as had been expected. This is one of quite a few pieces of legislation the members of the present Congress are not proud of. This was one of the "must" acts insisted upon by the New Frontier leaders. This is the kind of lawmaking that is supposed to assure victory for the majority group in the coming election. It is a shameful election-year procedure that should be discouraged by the voters.

Legislation of this kind is wrong because it is basically corrupt. It is especially wrong at this time because it is inflationary. It is inflationary because it triggers another round of pay increases in both public and private employment. It encourages similar pay increases at the state and local government levels and adds to the difficulty of holding the line against spiraling costs in industry.

One of President Kennedy's campaign promises was to put an end to inflation. Well, it looks like this was just another of those campaign promises. It becomes increasingly apparent that beyond the new frontier our leader is leading us to is just another desert. Over the hill is the poor house.

Struggle is not Evil

Professor George W. Sledge of the University of Wisconsin, writing in Hoard's Dairyman on the cost of a college education, seems to think cost can be measured in terms of work as well as in terms of dollars. He thinks the best education can be the cheapest, and he believes it doesn't hurt any young fellow to work his way to a higher education. He says:

"Many students cannot expect to receive a large share of college costs from their parents. This calls for individual initiative. Part-time work is necessary for most students in such cases. Whenever work becomes necessary, study loads must be carefully adjusted to allow for the needed work time. It is still true that "where there's a will there's a way." It may be tough but it is worthwhile and a thing to be highly admired."

Professor Sledge points out that many agencies stand ready to give assistance to deserving and needy students, and that is as it should be. But let's keep in mind that those things which we acquire by our own effort are the things that give us the greatest satisfaction in living. We don't produce a generation of self reliant, self respecting and determined people by making things easy for them in the formative years.

Canadians More Realistic ?

Canada's 25th Parliament got under way in Ottawa last week and it may be a short session. Prime Minister Diefenbaker's government failed in the recent election to retain its majority control and, while it still has a plurality, a union of the opposition forces could result in another election at any time.

The Dominion's austerity program was ordered after the election, and so was not a factor in the decisions of the voters. To what extent this program will become an issue in the present parliament, and in the next election, remains to be seen. The throne speech, outlining the program to be offered by the Diefenbaker government, indicates that the conservatives will support austerity with "long term constructive proposals" to safeguard the country against another currency crisis.

The liberals seem to be more conservative than radical, and are not opposing sound fiscal policies. A small radical group demands prosperity rather than austerity, and would secure prosperity by lavish spending on credit and with printing press money. This minority group is not considered a serious threat at the present time. Observers seem to agree that while the Diefenbaker government may fall, there would be little change in policy in the government that might replace it.

In their approach to their economic problems the Canadians seem to be guided by the experiences of European nations that have regained economic stability and prosperity by austerity and sacrifice. Their leaders obviously are not impressed with the American plan which failed under President Roosevelt and which will fail under President Kennedy. Our efforts to spend ourselves rich will result only in greater poverty. Canadians seem to be more realistic on such matters.

Let's talk about the DIFFERENCE in Fuel Oils

Midland Infra-Heat fuel oil with Cal-Rad looks like most other fuel oils. However, you can't see the differences in the fuel oil that are the result of refining and blending processes. These are the differences that can cost you money and heating comfort. Many fuel oils contain additives. They, too, are different. Cal-Rad in Midland INFRA-HEAT is a tested and proved additive that overcomes the moisture and sludge problems inherent with heating oils. With ordinary fuel oil in your tank, moisture can cause damaging rust and sludge formation. Let's see what that means.

The opening in your oil burner's nozzle is smaller than the period ending this sentence. That tiny hole must stay open and clean for efficient fuel atomization and combustion.

Here the tiny particle of rust or sludge is lodged near that small opening. Deflected fuel drips away unburned. Faulty burning makes soot and smoke. Finally the opening is plugged. Fuel is wasted, heat is lost. A service call results.

Cal-Rad in Midland INFRA-HEAT absorbs and disperses moisture, prevents rust and sludge. The moisture burns with the fuel. Your burner nozzle stays clean, inside and out. No smoke, soot, fuel waste or lost heat. Uniform fuel atomization like this gives you clean-burning, economical heating comfort.

When you are tempted to say, "oh, all fuel oils are alike" . . . think about those two little pictures. Remember the importance of these differences in fuel oil.

For the finest money saving, clean, home heating fuel, call the Midland cooperative. Only Midland has the Comfort Assurance Plan featuring both Budget Pay and Keep-Fill services and only Midland has petroleum products that are Midland controlled . . . from the oil well to you.

Through Your Purchases You Can Become a Stockholder at the Midland cooperative.

Governor Asks $60 Million Bonds to Speed Road Work

A speed-up of improvements for state trunk highways would include 141.2 miles in the highway department's 2nd constuction district in northwestern Minnesota, Gov. Elmer L. Andersen said Saturday.

Andersen is proposing legislative approval of a $60 million bond program — $20 million for each of three years — to upgrade 728 more miles of regular trunk highways.

The bond program would be in addition to and follow the $91 million program for regular state highways in the 1963-65 period. The programmed expenditures would upgrade 1,140 miles of regular trunk highways throughout the state.

Under the current schedule, District 2, headquartered at Bemidji, will improve 111.8 miles at an estimated cost of $7,424,000.

The additional work under Andersen's bond proposal cites an estimated expenditure of $5,017,000 for 141.2 miles of improvements.

District 2 projects would be in Beltrami, Clearwater, Hubbard, Kittson, Marshall, Norman, Polk and Roseau counties.

First two years of the recommended program would be devoted to widening and surfacing stretches of highway that will require no additional right-of-way. In the meantime right-of-way will be acquired for third-year projects.

The total alloted to each district was determined by percentage factors currently used in the distribution of regular trunk highway construction funds.

No designation of project priorities was shown in the proposal due to the uncertainties as to how rapidly an expanded construction program can be implemented, Andersen said.

During the spring of 1962, 446 municipalities and non-incorporated communities were located on trunk highways which were subject to less than legal axle load restrictions.

The 1963-65 program will provide year around unrestricted outlets to 32 of these municipalities and non-incorporated communities. The proposed bond issue would provide year-round outlets for 23 more communities.

Bond program projects cited by Andersen include:

TH 11, surfacing of 28.8 miles from the west state line to Karlstad; shoulder grading and surfacing of 21 miles from the east limits of Roseau county to Lake Street in Warroad.

TH 1, surfacing of 16.4 miles from Oslo to Warren.

TH 72, grading and bituminous base of 14.3 miles from Waskish to the North Beltrami County line.

TH 32, surfacing of 15.5 miles from the north junction of TH 31 to the junction of TH 102 north of Fertile.

TH 2, widen pavement and surface 14.1 miles from TH 9 to TH 32.

Hardwood Forest Fund Gets $18,000

State Forest Is Located Along Mississippi River

Minnesota's Memorial Hardwood Forest fund received a boost in September when the legislative advisory committe assured Conservation Commissioner Clarence Prout that $18,000 would be turned over to the department's forestry division to speed land acquisition within the boundaries of the new state forest.

The state forest was authorized by the last session of the Legislature, however, no funds were authorized for the acquisition of private lands within the area.

Included within its borders are all lands adjacent to the Mississippi river and its major tributaries from Hastings to the Iowa line.

Funds are needed to acquire private lands for conservation and recreation purposes within this area. The Minnesota Izaak Walton League and the conservation department are conducting a campaign to raise funds from private contributors. To date, several thousands of dollars and some gifts of land have been received.

It is believed, however, that if the land acquisition program is to achieve the magnitude necessary to provide substantial public use and rehabilitation of the area within a reasonable time, additional public funds will have to be provided

Jobs on T. H. 92 and 222 Awarded

Ten trunk highway maintenance betterment contracts, totaling $317,031, have been awarded by the Minnesota Highway department. The projects are listed below for maintenance area 2 B at Crookston:

THs 92 and 222 — Construction of 12 miles of gravel shoulders on TH 92 between junction with TH 59 in Brooks and the east line of Red Lake county, and on TH 222 between junction with TH 92 and First avenue in Oklee. Red Lake County: C. L. Nelson & Co., Inc., Brainerd, $28,441, lower of two bids. The work which is to be completed within 30 working days, is scheduled to begin October 8.

Ned always takes the children up to bed at night—it's something he wouldn't miss. What amazes our friends is the fact that they always go smilingly. No fuss, no tears.

That's Ned's doing. He has made bedtime something very special for our youngsters. After he has tucked them in, he sits down and tells them a story, sometimes pure make-believe, but often, Ned takes his bedtime stories from the Bible.

At Christmas, he tells them the story of the Little Jesus. At Easter, he points out the beauty of Spring, and speaks of the wonders of hope and faith. He keeps the stories very simple . . . and boy, our kids love them! When they started Church School this past year, they felt as if they had rediscovered old friends, so familiar were Biblical names and places.

Some people feel that religion is too "deep" for small children. Ned and I don't. To us, learning about our Faith is a vital part of life. We would hate to have missed it ourselves . . . and we've no intention of having our children miss it. That's why, each Sunday, you'll be seeing us in Church.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

CLIFF BUGGE
announces the sale of
CLIFF'S FOOD MKT.
— to —
BEA ZACHAR

It is with deep regret that I announce the sale of my grocery to Bea Zachar. The past 10 years of doing business with you have been a pleasant and rewarding experience. While Bea is new to the grocery business, I know that she will continue to give you excellent service and quality foods at low prices.

I would like to take this means of thanking all my friends and customers for their loyal patronage.

Sincerely,
CLIFF BUGGE

THE NEW OWNER SAYS,

I wish to take this means of inviting all of Cliff's customers to continue their patronage and inviting my many friends to become customers.

NEW NAME — NEW HOURS

I will operate the New Store under the names of BEA'S FOOD MARKET. I also wish you to make note of the new opening hours.

For your convenience, I wish to announce that effective immediately, I will remain open until 10 p.m. evenings. Sunday store hours will be from 9 a.m. to 10 p.m.

Here's what the other '63's wish they looked like.

Today—Wide-Track Pontiac '63
Obvious, isn't it, that Pontiac's come up with another beauty this year. Fresh over-and-under headlights, clean profile—but you can see that. There's a wider Wide-Track, too, and a full line of Trophy V-8's. [That ought to be enough to make those other cars turn green.] And we haven't mentioned such happy touches as self-adjusting brakes. So what, pray tell, could be keeping you from a new Pontiac of your own? A small suggestion. Don't run down to see one.. Gallop! *Wide-Track Pontiac*

CADILLAC—A NEW STANDARD OF EXCELLENCE IN 1963

This is the look of leadership for 1963—bold new elegance of design and brilliant new excellence of craftsmanship.

More than one hundred and fifty major advancements embrace every aspect of exterior and interior styling . . . body construction . . . chassis design . . . and appointments. And the most improved engine in fourteen years resides beneath the sweeping expanse of hood. All this, together with a unique new true-center drive line, makes the 1963 Cadillac smoother, quieter and more efficient than ever.

There are twelve new models in 1963, including two dramatically styled coupes, the distinguished Sixty Special and the world-renowned Eldorado. Each has the widest choice of colors, fabrics, leathers and options in Cadillac history.

There is a very easy, quick way to confirm all this. Visit your Authorized Cadillac Dealer for a firsthand inspection and for an hour behind the wheel. Why not do it before the week goes by? We know you'll agree that in 1963 Cadillac sets new standards of excellence.

District Hospital Auxiliary Meets Here Wednesday

Annual meeting of the District I hospital auxiliary will be held Wednesday at the American Legion club rooms in Thief River Falls. "Let's Join Hands Across the Miles" will be the theme of the annual session to which there will be four delegates from each hospital auxiliary in the district.

Registration will be held from 9 to 10 a. m. at the Legion club rooms when a coffee hour will also be held. The welcome will be given by the host auxiliary and highlights from the work of each auxiliary attending will be given. The business session from 11 a. m. to noon will include committee reports and nomination and election of officers.

From 12:15 to 1:45 p. m., workshop luncheons will be held. Each person attending is asked to select a project of interest and be seated at the table where the subject will be discussed during the luncheon. Hospital administrators will meet during the morning at the hospital and will join the auxiliary for the luncheon and panel discussion.

Mrs. Irene Foster, director of voluntary services at University Hospital, Minneapolis, will serve as moderator for the panel. Members of the panel will include T. Hagen, Bethesda Hospital, Crookston; E. L. McMillan, Kittson War Veterans Hospital, Hallock; Miss Myrtle Skvog, Bemidji hospital; Norman Peterson, Northwestern hospital, Thief River Falls, Sister Bernardo, St. Ansgar hospital, Moorhead; Sister St. Marie, St. Joseph hospital, Park Rapids; and Glenn Taylor, executive secretary of the Minnesota hospital association.

Following a coffee break the report of election will be given and farewell talks and acceptance speeches given by old and new officers. All hospital auxiliary members in the district are invited to attend the session.

BPW Club Will Honor 3 of Its Members Oct. 16

Misses Helen Black, Laura Lund and Frances Shanahan To Be Cited

Three Thief River Falls members of the Business and Professional Women's club will be honored Tuesday, Oct. 16, when the local BPW club holds a dinner meeting at 6:30 p. m. in the Rex Cafe. The session will be in observance of National Business Women's Week October 7-13.

Honored at the meeting will be Miss Helen Black, director of nursing services at Northwestern hospital; Miss Laura Lund, assistant cashier at Union State Bank; and Miss Frances Shanahan, head librarian at Carnegie Public Library. They will be presented with scrolls and corsages at the meeting.

Theme for the national observance will be "Leadership . . . A Dimension in Democracy."

It is sponsored by the National Federation of Business and Professional Women's Clubs, Inc., as a tribute to all career women and its primary purpose is to "create an awareness of the leadership which women are providing this country."

More than 175,000 women are now members of the BPW which has grown to international proportions since its inception in 1919. The local organization was formed in 1939.

Social Security Man Here Tuesday

A representative of the Grand Forks district office of the Social Security Administration will be in Thief River Falls at the city Auditorium Tuesday, October 9, at 10 a. m. Individuals who have questions regarding social security or who wish to file claims may contact him on that date.

HIGHEST producing animal consigned to the Top of the Nation dairy sale to be held October 18 in Thief River Falls is this four-year-old Holstein consigned by Curtis Skrutvold of Roseau. It had a record as a three-year-old of 15,380 pounds of milk and 607 pounds of butterfat with a 3.9 test. She is due to freshen November 13. Her dam has a record of 501 pounds of butterfat.

SPEAKS Lawrence Brown, grand knight of Our Lady of Lourdes Council, Knights of Columbus, has announced that a Columbus Day address by Supreme Knight Luke E. Hart, head of the 1,150,000-member fraternal benefit society of Catholic men, will be broadcast at 7:05 p.m. Friday, October 12, over station KTRF. Mr. Hart, who has been a member of the supreme board of directors of the organization since 1918 and has held the office of supreme knight since 1953, initiated many of the society's major projects. The theme of Mr. Hart's address is "Christopher Columbus and Our American Ideals."

Plan Installation for New Jaycees

Aquacade Report Is Given Thursday; Orientation Oct. 18

Committee reports, including a summary of the 1962 Aquacade, were heard at the regular meeting of the Thief River Falls Junior Chamber of Commerce Thursday evening at the Elks club rooms. Roger Tunberg, Aquacade chairman, gave a break-down of income and expense, noting that the event was a financial success but that added effort on two money-making projects would have resulted in a greater profit for the organization.

October 18 was designated as the date for installation and orientation of new members at a meeting to which wives of Jaycees will be invited. All members of the organization are urged to contact prospective new members and have them sign membership cards prior to the installation session when membership kits will be distributed and meaning and purpose of Jaycees reviewed.

Ralph Foster reported on sales awards at the meeting, noted that an award program will be initiated by the chapter to provide incentive for salesmanship on fund-raising projects for the organization.

Richard Bjorkman noted that a poll of members at the last regular meeting indicated that members preferred the purchase of jackets with appropriate lettering

Regional Firemen Set Fall Meeting in TRF Wednesday

Election of Officers to Be Conducted at Dinner Session at Eagles Hall

The Northern Region Firemen's association will hold its annual fall meeting and election of officers Wednesday evening, October 10, in the Eagles Hall in Thief River Falls, it was announced today by Roy J. Langevin, secretary.

Registration will begin at 6 o'clock, followed by the serving of dinner at 7, after which comedy entertainment will be provided by a team billed as Willie Whistle and His Brother.

Mayor Orin Green will welcome the gathering, with the response to be made by Chief Wm. Herbert of Crookston. Talks on various phases of firefighting will be given by Chief George Copp of Warren, Chief Willard Erickson of Fertile and Chief Vincent Sullivan of East Grand Forks.

Deputy State Fire Marshal Patrick Berry will discuss arson detection, and Chief Langevin will report on Fire Prevention Week, currently being observed. Election of officers and the showing of motion pictures will complete the program.

Small Attendance At Job Conclave

Small attendance was noted at the Job-Climate Conference held Thursday at the Elks club rooms in Thief River Fals. In order to provide readers with more information on the important topics covered at the conference, summary stories will be published in later editions of the Times. The first of these, a talk by Charles P. Stone, general counsel for the Minnesota Taxpayers association, will be published on Thursday.

Police Seek Dog Which Bit Officer and Made Escape

Public Help Is Asked In Locating Animal To Determine If Rabid

Assistance of the public in locating a dog which bit a city police patrolman is asked by the Pennington county sheriff's department and the Thief River Falls police department. Either office may be called if the dog is located.

According to repors, the dog strayed to a farm four miles west of the city about six weeks ago and was too frightened to be approached. When the farmer was able to catch the animal, he brought it to the police department for disposal. As the dog was being placed in the city pound at the dump grounds, it bit the policeman on the hand and escaped.

It is not believed that the dog was rabid, but authorities wish to have it under observation for two weeks to make a definite determination. If it can't be found soon, the officer will be forced to undergo a series of rabies shots as a precautionary measure.

The dog is described as light brown or golden in color with a white spot under the chest. It is said to be a pup, very thin, having short hair, weighing about 12 pounds and standing about 16 inches high. If seen it should be reported to the police or sheriff's department. To determine if it is rabid, it must be kept under observation and authorities cautioned against shooting the animal.

Klopp To Have Hearing at RLF Court Wednesday

David Klopp of Thief River Falls, who has been charged with criminal negligence in the death of Shirley Swenson of this city, will appear for a preliminary hearing before Judge Glenn Fellman in the criminal division of probate court at Red Lake Falls Wednesday at 2 p. m.

Charges are being brought by the Minnesota highway patrol and arise from an auto accident in which Klopp was the driver of a car which crashed into a ditch, killing the Swenson girl. The mishap occurred September 1.

National Fire Prevention Week Noted

Special Activities Planned In City; Region Firemen Meet

National Fire Prevention Week takes on a local aspect in Thief River Falls this week with a number of special activities being arranged to bring the event before the public. School children of all ages and adults alike will be given information on fire prevention.

Roy Langevin, Thief River Falls fire chief, and Patrick Barry, state fire marshal stationed in this city, will present a special program at the Lions club meeting Wednesday noon. A similar program, including a movie, was provided for the Rotary club at noon today.

On Tuesday a total of eight bus loads of kindergarten youngsters will visit the city fire hall where they will be given a talk and fire fighting equipment will be shown to them.

Registration will begin at 6 p. m. Wednesday at the Eagles hall for the Northern Region Firemen's association meeting. Approximately 150 firemen from communities in northwestern Minnesota are expected to attend the meeting. The region includes the area south to Ada, east to Bemidji, west to the North Dakota border and north to the Canadian border.

Fire drills will be conducted at all Thief River Falls schools on Thursday and Friday and a fire truck will be on display at all of the city's elementary schools on those two days. Three 4-H clubs have received material on Fire Prevention Week and plan to erect displays at Union State Bank, Penney's and Lincoln high school, Chief Langevin said.

H. HERLING OF ROSEAU KILLED IN TRACTOR UPSET

Henfred Herling, about 60, long-time Roseau area farmer, was killed in a plowing accident Wednesday.

Herling was turning his tractor around when it tipped over in a ditch. He was pinned beneath the machine. He was a widower.

Three Days of Frost

September Weather Proves Steady with Little Rain

September weather in the Times area this year may best be described as dry and steady. Only 2.24 inches of precipitation was received, that coming in the first 10 days of the month with only two days having a trace of rain on September 23 and 24. High temperatures averaged 66.63 degrees while low readings averaged 42.67 degrees with an average reading of 54.65.

Highest reading of the month was 83 degrees September 2 with the lowest mark being 27 degrees on September 20. Three days had temperatures which dipped to the freezing mark or lower. Greatest amount of precipitation on any one day was 1.22 degrees on September 8.

In 1961 the high was 87 and the low was 21 with 5.26 inches of rain falling on 18 days of traceable or greater precipitation. In 1960, when high readings for the month averaged 69.1 degrees, the high was 89 and the low was 32 with precipitation totaling 1.42 inches. Back in 1959 the monthly high was 85 and the low was 24 with 2.74 inches of rain falling.

During September of 1962 only two days had high temperatures in the 80's with seven days in the 70's, 15 days in the 60's and six days in the 50's. There were seven days in the 30's or lower for low temperatures with 17 days in the 40's and four days in the 50's. Lowest high was 53 degrees while the highest low was 53 degrees.

Bobby Parnow's Lamb Nets $1 lb. at Jr. Show

One dollar a pound is what Bobby Parnow sold his lamb for at the Junior Livestock Show. The purple ribbon animal was a reserve champion in the "other breed" class. This group included Suffolk, Columbia, and other breeds. Bob is the son of the Robert Parnows of the Star township and is a member of the Star 4-H club.

Pennington 4-H'ers turned in a creditable performance according to County Agent Paul Steimaschuk. They won one purple, 3 blue, and 1 red ribbon. The awards were as follows:

Gary Oen, Happy Acres, barrow, blue; Spencer Oen, Happy Acres, wether, blue; Gene Legg, Happy Acres, steer, blue; Gary Aandal, Mavie, wether, red.

The grand champion wether sold for $5.75 a pound or over $600. It was shown by Judy Dresher of Glenville. The grand champion hog sold for $3.10 a pound. It was shown by Bill Carson of Pipestone.

Commercial firms from the Twin Cities and local areas purchase the 4-H animals making the auction. Parnow's lamb was bought by Hamm's Brewery of St. Paul. Both the Union State Bank and Northern State Bank added premiums to some of the 4-H livestock shown from Pennington County.

"Fair Share" Giving Urged in United Fund

FLU SHOTS are being recommended by local health authorities as this winter is expected to have a large outbreak of flu throughout the nation. In the above photo, two employees at the Hartz Supermarket are receiving their shots from Mrs. Frances Donarski. At left is Mrs. Rene Tunheim and at right is Miss Judy Anderson. Nineteen employees of the store were given shots as protection against the expected epidemic.

Pennington County United Fund is now underway and Richard Bjorkman, campaign chairman, has issued a plea for all persons to "give their fair share" to make the campaign successful. Quota for the drive in the county is $17,619.50, slightly under the 1961 quota but about $4,000 higher than the $13,561 actually collected last year.

"When we talk about a fair share in the United Fund this year, we are talking about one hour's wage per month for the 12 months of the year," Bjorkman stated. "Using this method on a payroll deduction plan isn't going to hurt anybody financially and it will mean that we can fulfill our obligations to participating agencies."

Supplies for business area canvassing will be distributed at a Tuesday morning kick-off breakfast to be held at 7:30 a. m. in the Rex Cafe, the drive chairman said. All drive chairmen for the city business district are urged to be in attendance at the meeting to receive their supplies and instructions.

Agencies Outlined

Some of the participating agencies and their recognized responsibilities as stated by the Minnesota Community Research Council are as follows:

Minnesota Association for Retarded Children — It is estimated that three per cent of all children born in the United States are to some extent retarded. The Minnesota association now has 57 chapters operating in 75 counties. Purpose of the association is to promote the welfare of mentally retarded children of all ages through direct services including day care centers, camping, recreation, trainable classes, Boy and Girl Scout troops and public and parent education activities.

USO — It is the policy of this organization to spend all of its funds either directly or indirectly for the spiritual, educational, social and welfare needs of the men and women in the Armed Forces. The USO-Defense Funds for Minnesota request inclusion in all United Funds and Community Chests.

Sister Kenny Foundation — Although the number of polio cases treated has decreased, the institute in Minneapolis has a large stock of special equipment used in polio cases on hand at all times. It also specializes in severely crippling conditions which include disabilities of bones and joints, such as arthritis, amputations and congenital deformities as well as diseases such as cerebral palsy, paraplegia, strokes and brain injuries. Management control by a new board of directors has showed substantial progress.

Arthritis and Rheumatism Foundation — Purposes are the support of educational and research programs in rheumatology, care of patients via mobile units and medically approved advice via letters and support of clinics, medical care and post-graduate medical education at the University of Minnesota. An estimated 180,000 persons in Minnesota suffer from arthritis. Three times

Livestock Clinic Slated October 19

Livestock prices and beef feeder programs will be discussed at the Northwest Livestock Clinic to be held Friday, October 19, as part of the Northwest Town and Country Days being sponsored by the Thief River Falls Chamber of Commerce. The event will take place at the Thief River Auction Mart at 8 p. m.

Two livestock specialists from the University of Minnesota will present the information, according to Paul Steimaschuk, Pennington county agricultural agent. Several lots of cattle will be displayed and will include dairy stockers and good and choice feeders.

Farmers attending will be advised on what types of feed and feeding programs are best geared to make profits with dairy stockers and what type of feeding should be done to get the best gain from better beef grades of feeders. Ray Arthaud, extension livestock specialist, will handle this portion of the clinic.

Prices which can be expected next year on beef, swine, sheep and other farm products will be covered by Duane Erickson, extension economist from the University of Minnesota.

The likely range of farm prices on livestock could serve as a guide in whether to hold back stock for heavier weights and finishing or whether to sell early. These decisions are made by farmers continually and outlook information is designed to help farmers decide when it is most advantageous to buy and sell.

All farmers and other interested persons are encouraged to attend the educational session.

American Legion Has Membership Dinner Saturday

Albert Olson, Roseau, district vice commander of the American Legion, and his wife, Marie, attended the Legion membership dinner held here at the Legion club rooms on Saturday night.

Mrs. Olson left for her home at Roseau on Sunday morning, after seeing the vice-commander off on the early plane for Las Vegas, Nev., where he will attend the national convention of the American Legion. About 300 other Minnesotans also are expected to be present at the conclave.

Mr. and Mrs. Olson plan to be back in Thief River Falls for the fall rally which is scheduled for Thursday, October 18. Many Legion dignitaries have signified their intention of being in attendance at the local rally.

Rev. Carlson Named New District Dean

To Serve N.W. District of R. R. Valley Synod

Rev. Marvin Carlson, pastor of the First Lutheran church in Thief River Falls, was elected to serve as the first dean of the Northwest Minnesota District, Red River Valley Synod of the Lutheran Church in America at the constituting convention held recently in Thief River Falls.

The office of district dean takes the place of district president which was the former designation of the head office in the district. Rev. Paul Gustafson, Warroad, was elected secretary.

Numerous committee officers were also elected by delegates attending the constituting convention. These committees, with one exception, that of social ministry, serve both the synod and district and all include a pastor and a layman. The committees follow:

Stewardship — Rev. Harold Peterson, Williams; and LeVant Galbraith, Roseau.

Parish Education — Rev. A. W. Benson, Kennedy; and Miss Olga Lundmark, Leonard.

Evangelism — Rev. Richard Bonner, East Grand Forks; and Mrs. Paul Lundgren, Thief River Falls.

American Missions — Rev. Arthur Wikklund, Clearbrook; and Ray Johnson, Warroad.

Social Ministry — Rev. Leslie Wassberg, Warren; and George Sele, Hallock.

A guest for several days at the home of Mr. and Mrs. Robert Thorkelson was Mrs. Thorkelson's sister, Mrs. Ruth Greslie.

FFA Officers To Attend National Conclave in Mo.

Five officers of the Lincoln high school chapter of the Future Farmers of America in Thief River Falls will leave Tuesday to attend the national FFA convention to be held Wednesday, Thursday and Friday at Kansas City, Mo. It is expected that nearly 10,000 Future Farmers from all 50 states and Puerto Rico will attend the 35th annual convention at the municipal auditorium.

Speakers will include Dr. Oliver S. Willham, president of Oklahoma State University; Charles B. Shuman, president of the American Farm Bureau Federation; and Dr. Benjamin C. Willis, general superintendent of Chicago schools.

Attending from the Thief River Falls chapter will be Harold Myers, vice president; Gary Iverson, sentinel; Charles Carlson, reporter; Mark Bruggeman, secretary; and Harlan Sorenson, treasurer. Accompanying the boys will be Peter Probasco, vocational agriculture instructor at the school and FFA advisor.

Eagles Aux. Dinner Is Attended By State President

Guests of the local Eagles Auxiliary at a 6:30 p. m. dinner at the Rex Cafe on Monday evening, October 1, were Marian Johns, Minneapolis, state president of the organization, and her sister, Betty Peterson. There were 15 officers and members present.

Corsages were presented by the local auxiliary to Marian Johns, to Gladys Odegaard, the state trustee, and to Ella Larson, president of the Thief River Falls unit. Table decorations were made by Mrs. Darlene Davidson.

After the dinner, the group attended the regular meeting at the Eagles hall, where a gift was presented to Mrs. Johns. Also attending the meeting was Elizabeth Schmidt, Crookston, state vice-president.

A $10 gift will be given by the local auxiliary to the Chapel of The Four Chaplains. Auxiliary members will participate in the polio clinic scheduled to be held here October 12.

Door prize was awarded to Elizabeth Schmidt; a $5 attendance prize was forfeited by Gladys Homme, and the $4 attendance prize by Grace Toomey.

Doris Seefeldt and Helen Eckhart were in charge of entertainment, and the hostesses were Alma Davidson, Alma Senstad, and Olga Troland.

All paid-up members of the auxiliary and their husbands or gentlemen friends are invited to a come-as-you-are party on October 21. A program is planned for the event.

Next regular meeting will be on Monday, October 15, at 8 p. m. at Eagles hall.

Mrs. John Oven Hostess For Daughter's Party

An after-school party on October 5th at the home of the John Ovens honored their daughter, Sharon, on her tenth birthday.

The girls played records and games, and had a twist contest, with Linda Burger declared winner. Favors were given to each guest.

Sharon received a host of gifts, and after she had opened them, everyone enjoyed lunch and individual birthday cakes.

Honored guests, in addition to Miss Oven, were her grandmother, Mrs. Johanna Kolnik of Eveleth, and also her aunt Mrs. LaReigh Hunter of Detroit, Michigan.

Other guests were, Renae Bugge, Linda Burger, Jeanne Glass, Jan Hankerson, Kerry Helm, Ann Marie Kinsman, Jovinae Kjonnas, Mary Jo Liden, Sheila Maidment, Penny Myers, Margaret Oven, the guest-of-honor's sister; Jeanne Torfin, and Carol Votava.

Happy Homemakers Group Elect Officers

Election of officers was held by the Happy Homemakers group when they met at the Herman Dargus home on September 25.

President is Mrs. Dargus; vice president, Mrs. Pearl Iverson; secretary, Mrs. Milo Windahl, and reporter, Mrs. Herman A. Kjos.

Serving of lunch by the hostess rounded out the evening.

Date of the next meeting is Tuesday, October 16, when the group will gather at the James Erickson home.

Karen Ekstrand Heads Her College Sorority

Karen Ekstrand has been elected president and Pan Hellenic Representative of her sorority, Chi Omega Chi, at Lake Forest College in Illinois. Karen, an English major, is a senior this year. She is the daughter of Mr. and Mrs. Bill Ekstrand, Toledo, Ohio, former Thief River Falls residents.

HARVEST DANCE

FESTIVAL atmosphere prevailed Saturday evening when the Falls Squares held their Harvest Dance at the city auditorium in Thief River Falls. Ed DeLap is shown calling the dances as special stage decorations added to the occasion. A "Class of Anytime" reunion was also featured at the dance which was well attended by local square dance enthusiasts.

Edry Leirans Observe Their 25th Anniversary

Honored by 150 guests on the occasion of their silver wedding anniversary were Mr. and Mrs. Edry Leiran of this city. The affair, hosted by their children, was staged at the Trinity Lutheran church parlors on Sunday, September 30. All of the children were present to share in the event. They are, Wayne, and his wife, of Grand Forks, N. D.; Mr. and Mrs. Anthony (Dianne) Carbonetto, of Chicago, Ill.; Milton, a student at the U of N. D. at Grand Forks, N. D.; and Kenneth, Earl and Terry, all at home.

Baskets of yellow and white mums and yellow roses graced the table. The cake was baked and decorated by Mrs. Gil Sannes, cookies and nut breads by the couple's daughters and daughters-in-law. Mrs. Joseph Hegrenes of Ada, poured, and Mrs Henry Hegrenes of McIntosh was at the punch bowl. Mrs. Benny Hegrenes of Lockhart cut and served the cake. These ladies are all sisters-in-law of Mrs. Leiran.

Mrs. Verner Arveson of River Valley, Mrs. Alfred Hanson of this city, and Miss Gayle Knuteson of Goodridge, the couple's niece, assisted as waitresses. Mrs. Henry Bothman, a cousin of Mr. Leiran, was at the guest book.

Corsages were presented to Mrs. Leiran, who received yellow roses and white pompons, tied with a silver ribbon; to the maid of honor at the wedding, Mrs. Knute Knuteson of Goodridge, and to Mr. Leiran's mother, Mrs. Helga Leiran, while the groom of 25 years ago received a white carnation boutonniere, and his best man at the wedding, Knute Knutson, an identical boutonniere.

Wayne Leiran was emcee of the short program, which consisted of a family history presented by Milton Leiran, a reading by Mrs. William Knushagen of Goodridge, a sister of Mr. Leiran; two solos, which were sung by Mrs. Arnold Hammer of rural Thief River Falls, with the accompaniment of Mrs. Harold Peterson, and concluding with a greeting by Rev. Peterson.

WSCS Has Crookston Women As Its Guests

Thief River Falls Women's Society of Christian Service were hostesses to the ladies of the Crookston Methodist Church at a meeting held here on Wednesday, October 3. About 70 were in attendance.

A welcome was extended on behalf of the local group by its president, Mrs. J. W. Ewing. Guest speaker was the organization's district vice president, Mrs. Marshall Newton of Menahga, who developed the theme, "World Federation."

A well-rounded program was presented, including, in addition to Mrs. Newton's address, hymns and other sacred selections, Bible messages, prayer and a skit.

Farewell Is Planned For Swen Sjulstads

The Swen Sjulestads of Goodridge, who will be leaving shortly to make their home in Phoenix, Ariz., will be honored at a farewell party on Thursday evening, October 11, at 8 o'clock. The party, in the nature of an open house, will be held at the Ekelund Lutheran Church.

There will be a program, and lunch will be served in the parish hall.

No invitations will be sent. Everybody is welcome.

Hosts will be the two ladies aids of the Ekelund church.

TLCW & Golden Years Groups Plan Program

Regular monthly meetings of the Trinity Lutheran Church TLCW will be on Wednesday evening, October 10 at 8 p. m. and on Thursday afternoon, October 11, at 2 p. m., both meetings to be held in the parlors of the church.

Rebekah, Lydia, and Priscilla Circles have planned an interesting program in conjunction with the Golden Years Group. Members of the choir of the latter group will sing.

At the evening meeting, Mrs. C. L. Williams will give the devotions; Eunice circle will be hostesses, and in charge of hospitality will be Deborah Circle. There will be a supervised nursery for pre-schoolers.

All women of Trinity parish are encouraged to attend one of these meetings.

The Golden Years group will have a display table of hobbies and antiques.

Square Dance Group Stages Harvest Dance

A Harvest Dance wiht a "Class Re-union" theme was held Saturday in Thief River Falls. Cocky scarecrows eyed the festivities from a colorful stage as the Class of Anytime danced to the special program of calls prepared by Ed DeLap.

Signatures were affixed to name tags by each new square formed with the largest number of signatures captured by Mrs. Delmar Hagen, who was awarded a year's subscription to the Minnesota Roundup Magazine for square dancers. The attractively decorated serving table was attended by Mr. and Mrs. Norman Capistran, Leonard Bushaw and Leon Bischel.

The Falls Squares will dance again on October 20th, and were reminded of the special caller, Jim Higgens, who will call on Nov. 3rd.

The first official class in round dancing will begin on Wednesday night, October 10, at 8 p. m., and will continue until 10 p. m. in the old gym at the school.

Anyone interested in these classes is asked to call Mrs. Mel Simon, MU 1-3572.

Newcomers to Work on Holiday Decorations

Ladies of the Newcomers' Club, which will meet Wednesday, October 11 in the courthouse meeting room at 8 p. m., will spend the evening making Christmas decorations. Each lady is to bring all the materials necessary for the particular decoration she plans to fashion.

Hostesses will be Mrs. Bernard Brandon and Mrs. Joe Poppenhagen.

Any newcomers interested in learning more about the organization are invited to call Mrs. Herman Dargus, MU 1-4139.

Black River Church to Serve Dinner Saturday

The Library Corner

By Edwin Stengelsen

Your library recently obtained a copy of a reprint of a limited number of chapters of George Catlin's "North American Indians." It is a deluxe edition and may not be taken out of the library. However, it may be read on the library reading tables.

Catlin (1796-1872) was a noted authority on the American Indian. He was a lucid writer and an outstanding portrait painter. He spent years traveling from one tribe to the other, living with them and studying their languages, and customs. The library reprint carries reproductions of many of Catlin's paintings. Some, if not all, the originals are on display in the Walker Museum of Minneapolis.

Many years ago I became interested in the so-called "White Mandan," as a result of reading Hjalmar R. Holand's bok, "The Kensington Stone.' Your library has a copy.

The authenticity of the Kensington runestone has long ben a subject of dispute among experts. Some attack it as spurious. Others are equally certain of its genuineness.

Mr. Holand is a recognized authority on the Kensington stone. He is thoroughly convinced of its authenticity. He points out that the author—if it is indeed spurious—would have had to be a most remarkable man in that he would have had to have knowledge which was unkown to the experts at the time and did not come to light until long after the stone was found.

It is Mr. Holand's theory that the White Mandans are the decendants of the Paul Knutson expedition which visited the Kensington area in 1362 and there left the runestone. There is a record of the departure of the expedition from Norway in 1355, but no record of its return. It is Mr. Holand's theory that hostile Indians prevented the surviving members from rejoining their comrades who had remained with the ships on Hudson Bay.

The stone mentions the attack on their camp on Cormorant Lake as follows:

"We were and fished one day. Came home and found ten men red with blood and dead. Ave Maria, save us from evil."

It is Mr. Holand's belief that "red with blood" meant they had been scalped.

Mr. Holand thinks that following their flight from the scene, they fell in with a tribe of friendly Indians, then known as "The People of the Pheasants," and accompanied the tribe to its permanent home on the Missouri River.

The first white man to see the Mandans exclaimed: "These people are not Indians. They are white." He had observed many among them who were blue-eyed and had blond hair.

Their villages were exact replicas of fortified villages in Medieval Europe. Their houses were identical in construction with many found in Norway and Iceland in the 1300's. They revered the cross as a religious symbol and had a legend of a woman and a child who had ben killed by its enemies. Also, they claimed their ancestors had come across a great water in a large canoe. They had a story of a great flood and a bird with a willow twig in its beak.

These additional titles by Holand are also in the library:

September Report on County DHIA Testing

Orville Peters, supervisor of the Pennington County Dairy Herd Improvement association, lists the following herds as the top ten in the association for the month of September:

	Milk Av.	Fat Av.	Test Av.
C. Christensen	1251	44.5	3.55
D. Svendsgaard	940	32.0	3.40
M. Carlson	841	31.8	3.78
M. Morrison	896	31.7	3.54
A. Peterson	974	31.4	3.23
A. Stenberg	825	28.2	3.42
J. Burtness	835	27.9	3.34
P. Morkassel	638	27.8	4.35
W. Reierson	783	26.7	3.42
D. Bruggeman	744	26.7	3.51

The herd averages are affected by the number of dry cows in the herd. The amount of milk or butterfat is averaged out over all the cows. This gives the farmer a record of the earning power of the herd for the month.

If too many dry cows are included in the herd then the average for that month may be low even though the cows which are milking produce a lot of milk.

There were 25 herds on test with a total of 650 cows during September with the Pennington association, 716 percent of which were milking. The average amount of milk produced per cow was 621 pounds which tested 3.62 percent fat. This amounted to 22.5 pounds of B.F. per cow.

Cows finishing with over 500 lbs. B. F. during the 1961-62 testing year, in a 365-day or less lactation, were:

	Cow	Days	Milk	Fat
Maynard Mehrkens	23	263	12580 lbs.	510 lbs.
Maynard Mehrkens	31	365	18260 lbs.	633 lbs.
Luvern Johnson	24	328	12210 lbs.	514 lbs.
John Burtness	Sandy	248	13850 lbs.	512 lbs.
Martin Hanson	7	319	15490 lbs.	503 lbs.
Myron Carlson (1st calf)	9	365	15200 lbs.	598 lbs.
Myron Carlson	27	365	16240 lbs.	712 lbs.
Paul Morkassel	Thelma	344	9730 lbs.	509 lbs.
Paul Morkassel	Maxine	365	10320 lbs.	509 lbs.

Police Report 2 Accidents, Stolen Car, Vandalism

Damage Estimated at $645 To Four Cars In Accidents Last Week

Two traffic accidents, a missing car and a case of vandalism were reported by the Thief River Falls police department last week. Total damage in the two traffic accidents was estimated at $645.

The first mishap occurred about 9:30 p. m. October 1. A car driven by Kathlen Nelson entered highway 32 from Oakland Park Road and upon turning right was struck from the rear by a car driven by Donald Klopp of the city, traveling north on highway 32. Damage was estimated at $150 to the Nelson car and $160 to the Klopp vehicle with the case under investigation by the police department.

The second accident happened at 8:20 p.m. on October 3 on Third street near the intersection with LaBree avenue. A car driven by Gary Jasnoch of the city was stopped for a red light facing east on Third street. A second car, driven by Nadin Craig of Coleraine, stopped behind the first car and was struck from the rear by a car driven by Robert Fulton, rt. 1, Goodridge. Damage was estimated at $185 to the Craig car and $150 to the Fulton vehicle with Fulton tagged for following too close.

Glenn Peterson, city, reported that his car was taken from its parking place on LaBree avenue near Third street on Wednesday evening. The vehicle is a black 1950 Chevrolet 4-door sedan and has a license number of 9G 5486.

Vandalism was reported at the city warehouse near the power plant where 10 glass blocks were broken during thepast week. Police report that the damage was apparently caused by rocks being thrown at the windows.

Costumes Readied for Class Play

"Life With Father" Will Be Staged October 16

Elaborate costumes, reminiscent of the clothing worn at the turn of the century, are being given finishing touches this week in preparation for the presentation of "Life with Father", Lincoln high school senior class play to be staged October 16 at 8 p. m. in the school auditorium.

Gloria Phillip, costume chairman, and a large group of assistants sewed most of the costumes from copies of those used in the "good old days". More than 15 seniors have parts in acting or production of the play.

Plot of the play centers around Clarence Day and his wife's attempts to have him baptized. Father leads his wife and family through a merry whirl of activity before being forced to make a decision.

Brian Lofberg will portray Clarence Day in the title role with Gail Stromsmoe as his wife Vinnie. Other cast members include Briam Mostue, Roger Wilson, Steve Taxerans, John Rambeck, Nona Pukari, Gretchen Larson, Judy Iverson, Cathy Hartje, Nancy Newton, Gloria Phillip, Rosemary Votava, Fred Evenson, Bruce Gilbertson and Dwight Myhrer.

Advance tickets are now on sale from cast members.

CHAMPION BUTTERMAKER of Minnesota for 1962 is Duane Larson (left), Bertha Cooperative Creamery Association, who is shown receiving his trophy from Princess Kay of the Milky Way, Kathleen Hjelle of Argyle. Looking on is Chester L. Nelson, Baldwin, Wis., whose average score in the four separate contests which comprise the championship series was highest. He couldn't claim the state title and trophy, however, because of the contest's Minnesota residence requirement. The presentation was made at the 69th annual Minnesota Creamery Operators' and Managers' Association convention in St. Paul, Oct. 3.

KITCHEN KARNIVAL

Features from the kitchen of

MRS. MARIE SHERACK

You'll be lucky if you have "one meat ball" left, when you serve these, gals. And the chances are more than excellent that you'll be asked for re-runs, we'll wager. (But you won't mind; they're really easy to prepare.) Notice how often we stress the easy-fixin' features of recipes? Maybe we can appreciate them more because a job leaves little time for meal-prepartion. But many of you harried housewives tell us you need to look for short-cuts too.)

These meat balls are packed with nutrition, and your gang needs that more than ever these active fall days. The recipe is geared for small families, so if yours likes meat especially well, you'd better double the recipe. Grandpa will appreciate these on his visits — the "look, daughter, no teeth!" bit, you know. And you can prepare them ahead and warm them up right in the serving dish later, if this suits your needs. They freeze beautifully, sauce and all.

Courtesy of Mrs. Marie Sherack, widowed mother of six, these could become a favorite of yours too.

MUSHROOM MEAT BALLS

¼ can mushroom soup
1 lb. hamburger
2 cups crushed crackers
2 tablespoons powdered milk
1 egg
2 tablespoons minced onion
salt and pepper
Monosodium glutamate

Shape into balls and brown. Blend remaining ¾ can of soup with ½ cup water. Pour over meat balls; cook over low heat 10 minutes.

You can spice these up a bit, if you like, with a small amount of chili powder, or a teaspoonful of dehydrated red and green pepper flakes. These are added to the meat at the beginning of the procedure.

Mrs. Sherack's children, a daughter Margaret, son, Jim, another son John, and three smaller daughters, Mary, Rose, and Susan, are all at home. They are members of St. Bernard's Catholic church, and the mother is active in parish work, the PTA and Women's Guild.

Cooking is, as you might conclude, in the top priority spot on her list of activities. Her hobbies include writing, painting, and other creative art. She is also an avid reader.

They moved here from Warren four years ago, following the passing of Mr. Sherack, who was an elevator operator there for some years.

St. Bernards Bells to Herald Vatican Council Thursday

The bells of St. Bernard's Church will ring on Thursday, October 11, at 9:00 a. m. to herald the beginning of the Ecumenical Council in Vatican City, according to Father Keough Patnode, pastor.

The Council, known as the Second Vatican Council, has been called by Pope John XXIII. Attending will be over 2500 Cardinals, bishops, and patriarchs of the Catholic Church, including Bishop Laurence A. Glenn of Crookston, who is leaving for Rome today. Many Protestant leaders will attend as delegate-observers.

The Second Vatican Council is the 21st Ecumenical or General Council in the history of the Catholic Church. The first such council was held at Nicea in the year 325, and the last was at Vatican City in 1869.

FHA Supervisors Meet in Bemidji October 9 & 10

Farmers Home Administration employes serving 43 northern and central Minnesota counties will attend a two-day conference at Bemidji on October 9th and 10th. Meeting with the group will be State Director Arthur Hansen and members of his St. Paul staff.

The conference will include a review of the organization's past year supervised lending activities and planning for the present years loan programs.

Commenting on the past year's lending program, Hansen stated that F. H. A. supervisors attending the Bemidji conference had loaned 9.1 million dollars to 1908 farm and rural town dwellers in the 43 county area during the year which ended on last June 30th.

Warren Man Found Guilty of Charge In Court Monday

Vernon Nowacki Fined For Driving Under the Influence of Liquor

One trial case, in which a driver was found guilty of driving while under the influence of liquor, was held in Thief River Falls municipal court last Monday before Judge Stanley N. Mortenson. Five other cases were also tried.

Vernon Nowacki, Warren, was found guilty of driving while under the influence of liquor and fined $100 with his driver's license revoked. The case was brought to trial by the county sheriff's department.

In other cases Monday the following were brought by the state highway patrol: Glen Sistad, rt. 1, Grygla, speeding, $17.50 bond forfeited; Carl M. Jorgenson, rt. 1, McIntosh, speeding, $15 bond forfeited; and Albert Hinden, rt. 5, TRF, drive through stop sign, fined $15 with $7.50 suspended.

Police cases included Edward Holmes, city, open bottle in a motor vehicle, fined $25, and possession of beer by a minor, fined $15 with $7.50 suspended. One drunk case was also tried.

On Tuesday Bennie Borreson of Strathcona was brought to trial by the police department and fined $100 on a charge of furnishing beer to a minor.

GOODRIDGE SAILOR NOW IN WEST PACIFIC AREA

Alvin L. Larson, fireman apprentice, USN, son of Mr. and Mrs. Leonard A. Larson of Route 3, Goodridge, is serving aboard the attack aircraft carrier USS Kitty Hawk, operating in the Western Pacific with the Seventh Fleet. The ship, one of the newest in the Pacific Fleet, is expected to visit ports in Japan, the Philippines and Hong Kong. She will be in the Far East approximately seven months.

HAPPY HOMEMAKING

by Laura Duerst

PENNINGTON COUNTY HOME AGENT

When you put something away in your home, today, you want to put it where you can use it tomorow. This is well-planned storage, and it just doesn't happen to fall into place.

Certain articles are used in each room in the house, and this is where you would want to be able to store them. It is difficult to explain each area of a home in one column so I am taking closets for coats and sewing storage in this issue.

A coat closet should be near the entry of the house. It's easy to hang up a coat when you take it off if there's a closet 22 to 24 inches deep at this location. This location should be at both front and back doors. Low rods and hooks for the children makes it possible for them to reach to hang their clothes in place and also teaches them neatness.

A rod 63 inches from the floor is the proper height for adult's coats, while the height of the children's rod provides space for their sweaters, caps and mittens, and a shelf above the high rod is a good place to keep hats and purses.

A planned closet near the rear door is used for work clothes and boots. A good size is 2 feet deep by 3 or 4 feet long. Work clothes dry better if they are hung on a hanger instead of a hook. Slats or grills in the doors speed up clothes drying. Boots and rubbers dry more rapidly if a rack is planned for the closet floor. This should be removable for easy cleaning.

Most women do their sewing in whatever room they can best use. But if you are a person who does much sewing, you'll appreciate having a special sewing cabinet or cupboard. A central hall with storage built into it is a good place for sewing supplies and equipment. Then you can take it to the room where you sew.

Why Make Soil Tests? Question Answered by Pennington Agent

Sometimes it takes real "detective" work to find out why fields don't produce as well as they should. Soil testing helps to do this job, says county Agent Paul Steimaschuk.

Two crop failures mean farmers will be trying to get the most out of their fields in 1963. This will require even a closer eye on the practices like soil testing in an attempt to get the most profitable crop yields.

If a farmer has fertilizer purchased, based on soil test, he should plan to go ahead and use it in 1963. For exmple: if the fertilizer a farmer bought and has on hand is 11-48-0 and the soil test calls for 10-20-20 then a farmer can buy some 0-0-63 to balance up the plant food he needs.

The fields which should be sampled this fall are those which haven't ben tested for two or more years; those which have presented a special problem; hay and pasture land; and soil bank land coming into production. Farmers will pay one dollar per sample at the trailer. The total cost of the testing will be refunded to them by fertilizer dealers when the farmer buys his fertilizer.

Farmers are urged to pick up their soil samples as soon as possible and then bring them to the trailer on the street, by the Thief River Falls Post Office on October 18, 19 or 20. The trailer will be operated by fertilizer dealers from 9:00 a. m. to 9:00 p. m. on Thursday, and Friday, October 18 and 19. The trailer will be open from 9:00 a. m. to 5:00 p. m. on Saturday, October 20.

Farmers can pick up soil boxes at elevators, fertilizer dealers, banks, or the extension office. They can also bring in soil in coffee cans, pint jars, or other containers. Information sheets and packaging of soil will be completed at the trailer. Free delivery of samples will be made to the University of Minnesota Soil Testing Laboratory.

for identification of chapter members on project work and conventions. Jacket cost would be $3.98 plus the cost of lettering, he said, and investigation is being made into the lettering cost.

Silas Glere stated the Robert Purdy and Jon Larson had been named co-chairmen for the teenage dance to be sponsored by the Jaycees on October 12 in the city auditorium.

Discuss District Pageant

Charles Holmquist called attention to the fact that no site has been selected for the district Miss Minnesota pageant held at Moorhead for the past two years. Information from the state Jaycee office has been requested but has not yet been received, he said, and the approximate cost of staging the event is not known. Following brief discussion as to whether or not the Thief River Falls Jaycees should sponsor the pageant here in March, the question was tabled until the next meeting.

Bjorkman made an appeal for support of the United Fund of which he is serving as fund drive chairman. He called upon Jaycees for support of the fund, from standpoints of contributions and volunteer work in canvassing. Only through payroll deductions can the quota be reached, he said, and greater emphasis will be placed on that manner of giving this year. One hour's wage per month during the year would insure the success of the drive, he noted.

Date for Roseau Conservation Meeting Changed

A public meeting to discuss a Conservation Department resource development plan for Roseau county, previously scheduled for Oct. 17, has now been set for Friday, Oct. 19, at 8 p. m.

The meeting will be held in the Municipal auditorium.

Under discussion will be a plan to place all state lands under one of three classifications in order to facilitate resource development of the area.

Under the plan, some lands would be retained by the state for multiple use management and other lands would be available for sale at public auction.

President Kennedy Urges Americans To Support United Way Campaigns

President Kennedy is shown delivering the annual White House message on behalf of the 2,200 United Fund and Community Chest campaigns now taking place throughout the nation. Shown with The President is a version of the poster being used in these once-a-year drives for contributions in support of 34,500 voluntary health and welfare agencies.

WASHINGTON, D.C. — The nation's 2,200 United Fund and Community Chest drives again received the support of President Kennedy. In his annual message endorsing the United Community Campaigns the President urged all Americans to give generously to these once-a-year appeals for funds to support the services of 34,500 voluntary health and welfare agencies.

In his White House message the President said:

"My fellow Americans, I am very proud to take part once again in the United Fund drive. During the next few weeks, all Americans will have an opportunity to give to this most important cause. From my own experience with it, stretching back over many years, I can assure you that this is the most effective and responsible kind of program, that it helps young boys and girls who otherwise would be neglected. It helps those who are sick, those who are old, those who need a helping hand. In earlier days in our country, we were able to help our neighbors. We lived close to them. Now, our life is more involved. We are a large country, one hundred and eighty million people; our neighbors may live on the other side of our city, or state, or country, but they are still our neighbors and they are still our fellow Americans and they still need our help, so I hope that all of you will participate this year as you have in the past. It is worth your attention. You will feel a warm feeling of gratitude as you give and as you answer the young girl's appeal. She is only one of your neighbors who this year, at this time, reaches out and wants to grasp your hand. I hope you will give. To you, Mr. Bristol, and to your fellow campaign workers across the country, I wish you every success."

In responding to the President, the late Lee H. Bristol, chairman of the board, Bristol-Myers Company, and 1962 national chairman of United Community Campaigns of America said that throughout the country a hundred million Americans unite in teamwork, without reference to race or creed, in this great effort and that in an economy that is dynamic and in a population that is growing, we need to have everyone give more.

Services For James Coan Baby To Be Thursday

Funeral services for Connie Coan, 5½-month old daughter of Mr. and Mrs. James Coan of Goodridge, will be held Thursday October 11, at 2 p. m., at Sinding's Funeral Chapel of this city, with Rev. W. R. Dalzell officiating. Interment will take place in Greenwood cemetery.

The child died Friday, October 5, in Minneapolis, at the University hospital. She was born April 15, in Thief River Falls.

Surviving Connie are her parents; her maternal grandmother, Mrs. Florence Stenvick, Goodridge; maternal great-grandmother, Mrs. Minnie Rindahl, of this city; her paternal grandparents, Mr. and Mrs. John Coan, Goodridge, and by two sisters, Judy and Becky, at home. She was preceded in death by one sister.

The infant's body may be viewed at the funeral chapel until the time of the services on Thursday.

Harry E. Dow, 72, Former Resident, Interred Here

Final rites were conducted here on Saturday, September 29, for Harry E. Dow, a former resident of this city. Services were held from Zion Lutheran church with the Rev. Leland Steen officiating. The Green Funeral chapel was in charge of arrangements.

Mr. Dow died on September 25 in a Duluth hospital at the age of 72.

Born in Bell Center, Wisc., Mr. Dow had lived in Duluth for the past 21 years. Seven years ago he retired from the Duluth Clinic where he had been employed for some time.

Surviving are his wife, Carolyn, Duluth; a daughter, Mrs. Virginia Lanska, Virginia; a son, Luvern, with the U. S. Army in Germany; a sister, Mrs. Lillian Fehr, West Bend, Ia.; a half-brother, Louis Nutter, Anacortes, Wash.; 11 grandchildren, and three great-grandchildren.

Rites Tuesday In Newfolden For Julia Westlin, 64

Miss Julia Westlin, who had spent most of her life in the Newfolden community, died on Friday morning, October 5, at Northwestern Hospital in this city at the age of 64.

Final rites will be conducted from the Bethania Lutheran Church west of Newfolden on Tuesday, October 9, at 2 p. m. Rev. Eldor Oscarson will officiate, and interment will be made in Bethania Cemetery, with the Green Funeral home in charge.

The body will lie in state at the funeral home until 10 a. m. on Tuesday, and at the church for one hour prior to the services.

Miss Westlin, born February 28, 1898, in Marsh Grove township of Marshall county, lived most of her life in that community, living only briefly as a small child in Argyle and Warren, before the family moved to a farm in West Valley township. When she was 7, they moved back to Marsh Gove township, and settled on their present farm. She was educated and grew to womanhood there.

A member of the Bethania Lutheran Free Church, she served as church organist, and was also secretary of the ladies aid for several years.

She is survived by one sister, Mrs. Conrad (Myrtle) Bjornrud, Newfolden, and by one brother, Clarence Westlin, also of rural Newfolden.

Preceding her in death were a sister and a brother.

Herbert Safford Dies Suddenly; Rites Wednesday

Herbert N. Safford, a lifelong resident of the Thief River Falls community, passed away suddenly at his home on Red Lake Boulevard on Saturday, October 6, at the age of 78 years.

The funeral is set for Wednesday afternoon, October 10, at 2 p.m. in the Green Funeral Chapel. Rev. A. Dean Headley, of the Community Methodist Church, will officiate, and burial will be in the Greenwood cemetery of this city.

The body will lie in state from Monday evening until time of the services on Wednesday at the Green Funeral Chapel.

There will be a complete obituary in the Thursday Times.

Ole Grinde, 93, Succumbs Today; Rites Pending

Ole Grinde, age 93, long-time resident of Thief River Falls, passed away this (Monday) morning, October 8, at Northwestern hospital here. He was lately a resident of Oakland Park rest home.

Funeral services, which are being handled by the Sinding Funeral Chapel, are incomplete at this time.

Thursday's Times will carry a complete obituary.

Small Daughter of Richard Noels Dies In Nebraska

Word was received by Mrs. Clifford Noel of this city that her small granddaughter, Jennifer Noel, daughter of Mr. and Mrs. Richard Noel of Omaha, Nebr., had died there this morning, October 8, in a hospital.

She was six years of age, and had been undergoing treatment for some time.

The Noels were formerly of this city, and had also lived for a time in Moorhead.

Time or place of the funeral had not been set as the Times went to press.

Zion Cub Scout Pack Meets Tuesday Night

The Zion Lutheran church Cub Scout pack No. 59 will hold its fall organization meeting in the Youth Room in the basement of the church Tuesday evening at 7 p. m. Any boy between the ages of 8 and 11, who is interested in joining the cub scouts, is invited to bring his parents to the meeting. For further information, those interested may call MU 1-1644, or MU 1-4232.

Joins in Retreat

Miss Sharon Swanson of Goodridge was one of forty Augsburg College student leaders who met for a leadership retreat at Green Lake Bible Camp in Spicer, Minn. Sept. 22-23. Miss Swanson is the daughter of Mr. and Mrs. Ernest L. Swanson of Goodridge. Faculty advisers also participated in planning campus activities for the current academic year with special concern for Christian emphasis throughout the year's program.

National Legion Convention Opens

300 Minnesotans Attend Parley at Las Vegas, Nev.

Nearly 300 Minnesotans will participate in The American Legion National Convention in progress at Las Vegas, Nevada, thru October 11, according to George Abalan, Duluth, immediate past department commander and chairman of the delegation.

Officially, 102 Legion and 27 Auxiliary delegates will represent Minnesota in the business sessions, but members of national commissions and committees, alternates to regular delegates, and at least one musical unit, the Laidlaw Toreadors of Minneapolis, plus guests and visitors, will swell the state total.

Of the official state Legion delegates thirty-two will represent Minnesota on the ten convention committees which met starting Saturday, October 6, to consider several hundred resolutions and make recommendations to the full convention.

At the same time, Mrs. Merrill K. Smith, Elmore, immediate past president of the Minnesota Auxiliary and chairman of the ladies delegation, will lead her group through their many meeting activities.

This marks the 44th annual National Convention of the Legion, the first of which was held in Minneapolis in 1919.

QUESTIONS Answered for VETERANS

Additional information or assistance on veterans' benefits may be obtained by visiting or writing the VA Contact Office at the Fargo VA Center.

Q—Did the State of Connecticut pay a cash bonus to its World War I veterans?

A—No. Connecticut paid a bonus to World War II and to Korean Conflict veterans. Both were for $10 for each month of active service with a maximum payment of $300.

Q—Will the boys that are in the U. S. Army now be entitled to the Government loans when they return to civilian life, as were the boys who were in World War II?

A—Not under the present laws. Such rights came to an end after the close of the Korean Conflict on January 31, 1955.

Q—I would like to know whether the veterans bonus after World War II was paid by the states or the Federal government.

A—Several states, not all, have paid bonuses to World War II veterans. There has been no Federal bonus paid to these veterans but a series of benefits ranging from educational rights, home mortgage guaranties to monthly compensation and pension payments have ben made to eligible World War II veterans by the Federal Government.

At various times, the French Foreign Legion has enlisted such prominent volunteers as King Peter of Serbia, Crown Prince Aage of Denmark, Prince Louis IV of Monaco, and Sanchez Cerro, president of Peru, according to Collier's Encyclopedia.

The American Petroleum Institute has invested about $11 million in fundamental scientific research since 1926, according to Oil Facts.

Appearing in newspapers of the Minnesota Editorial Association through the cooperation of the U. S. Soil Conservation Service and the University of Minnesota Institute of Agriculture

Land judging and the latest in crop and chemical weed control plots are among the attractions when centennials of USDA and the Land Grant College are observed at Sleepy Eye September 19. Brown County Agent, Paul Kunkel, says the event takes place on the Clarence Wendt and Tom Remiger farms about 3 miles S. E. of town. Program begins at 9:30 a. m. with judging and plot visits. William Hueg, assistant director of the Minnesota Agricultural Experiment Station, speaks at 1:30 p. m. and other plot tours are at 2:30 p. m.

Special recognition came to two Minnesotans and the Minnesota chapter of the Soil Conservation Society of America last week at the Society's 17th annual meeting. Horace L. Thomas, University of Minnesota agronomist, received a commendation certificate for outstanding work with the Minnesota chapter. C. P. Crawford, Winona, manager of the J. R. Watkins Co. experimental farm, was named honorary member of the Society in recognition of his promotion of soil and water conservation. And the Minnesota chapter took regional honors for its conservation program.

"Tile drainage has really made a farm out of my 360-acre tract of land," says L. C. Mortenson, Steele County farmer. During the past 10 years 73,000 feet of tile have been installed with assistance from SCS technicians at Owatonna. "Adequate design, proper outlets, seepage lines and 100-foot spacing are all essential in my drainage system," says Mortenson.

It doesn't pay to cut alfalfa after the first week in September. Extension agronomists at the University of Minnesota say alfalfa needs a period of time before a killing frost to build up food reserves in its root system.

"A high fertility program suggested by my county agent along with a conservation farm plan prepared by Soil Conservation Service technicians gets me good results," says Art Brandon, cooperator with the Clearwater SWCD. "I had a good, respectable hay yield in 1961, although that was considered a half-a-crop year by most farmers in the area," he added. Brandon's farm plan includes crop rotation, waterways, surface field ditches and pasture improvement.

Important October dates and events are: 11-12, Materials Handling Field Days, West Central School and Experiment Station, Morris; 19, Tree Farm Field Day, Robert Quanbeck Tree Farm, Northfield.

"Proper placement of erosion control structures" got considerable discussion by farmers and businessmen during a tour of conservation practices in Blue Earth county. The group felt that pipe drop structures are a much needed practice, but opinion differed as to where the structures should be placed. The Soil Conservation Service believes the proper place for a pipe drop structure is at the head of the gully. It can be constructed there with much less expense and still accomplish its primary purpose: stopping further erosion; not repairing damage that has already taken place.

You'll learn more about soils from Extension Bulletin No. 303, "Judging Minnesota Land." Written by Roger Harris, extension soil conservation specialist at the University of Minnesota, the bulletin explains soils properties so you can know the uses for which your land is best suited. Your county agent has, or can get, a copy for you, or write: Bulletin Room, University of Minnesota, Institute of Agriculture, St. Paul 1.

MEA BUILDING EXPANSION BEGINS

WHEN THE MINNESOTA EDUCATION ASSOCIATION (MEA) began upward expansion of its headquarters building in St. Paul, a routine ground-breaking was not possible. So the principals in the ceremony moved to the roof of the existing two-story building and "broke ground" in a pile of sand. The principals — Minnesota Commissioner of Education Erling O. Johnson, left, Gov. Elmer L. Andersen, center, and Melvin Voxland, Rochester junior high school principal and MEA president — used a special, gold-colored shovel. Significance of the cooperative shovel: to exemplify the harmony in which the 30,000-member professional teachers association has worked for more than a century with the state department of education and the primary branches of government. The expansion — which will double the MEA's office space and which will accommodate additional staff needed to service the rapidly-growing organization — will be completed in early spring.

Mother Nature Is Confused; Thinks This Is Spring

Mother Nature must be slightly confused with the balmy fall season being experienced in this area, according to reports being received at the Times office from local gardening enthusiasts.

Mrs. Claude Davidson, 322 Arnold av. S., reported today that she found one fully-opened blossom among the rapidly turning leaves on a crabapple tree in her back yard. Several of her friends noted that flower bulbs which should be dormant at this time of year have been sending out spring shoots and it is probable that they cannot be stored as is customarily done.

FIRE CONTROL THEME OF MINNEAPOLIS MEET

Minnesota State Fire Chiefs Association meets in annual mid-year session during the Minneapolis conference of the National Fire Protection Association at the Leamington Hotel October 15-16-17. This planned coincidence should add considerably in both numbers and interest to the significant national, or international, gathering of the Fire Protection folks, whose 20,000-plus members span the world and include representatives of practically every known trade and profession. According to M. B. Ryan, head of the Fire Underwriters Inspection Bureau of North and South Dakota and Minnesota, who is helping from his Minneapolis headquarters to plan the meeting, the voluntary work of NFPA in analyzing all manner of fires, fire losses, and incidental information, serves as a basis for municipal ordinances, state legislation, insurance policies, and in many practical applications of fire protection and control measures.

Mondale Praises Rolvaag in Talk Here Last Friday

Attorney General Walter F. Mondale Friday praised Karl F. Rolvaag, DFL candidate for Governor, as a leader "who will take Minnesota forward once again."

Mondale spoke at a coffee party given for him at Thief River Falls.

Mondale cited Rolvaag's proposals for aiding northeastern Minnesota by establishment of a Mineral Development Authority and full utilization of all available programs and resources to diversify the economic life of the area as "forward-looking, thoughtful, effective."

Prowler Eleven Tips Detroit Lakes 19 to 7

Coach Joe Mrkonich's Prowlers team, plagued by fumbles, made hard work of scoring a 19-7 win over coach Hakio Norman's Detroit Lakes Lakers in a football game played on the Lincoln field here Friday night. Five times during the contest the Prowlers gave up possession of the ball on fumbles, with the Lakers' alert linebacker, Bill Smart recovering three of the bobbles. And in addition the Prowlers were forced to make a goal-line stand midway in the fourth period to hold off the threatening Lakers, holding the visitors on four downs from the Prowlers 1-yard line.

On Friday night, Oct. 12, the Prowlers will meet coach Curly Gasperlin's Sacred Heart team from East Grand Forks, with kickoff time at 8:00 p. m. The game will be the final home contest of the 1962 schedule, with the Prowlers closing out their slate with games at Bemidji on Oct. 19 and at Crookston on Oct. 26.

The Lakers marked up the first points in Friday night's tilt by scoring a touchdown and a conversion point in the first period. A Prowler fumble, recovered by Bill Smart on the Lakers' 27-yard line, stopped a drive by the locals that had carried the ball from the Prowlers' 10-yard line and into Laker territory. The Lakers, with halfbacks Don Blanding and Byron Larson showing strength off tackles, racked up five first downs to the Prowler 12-yard line. Sturdy defense by the Prowlers set the Lakers back several yards in three plays, and on a fourth down and 14 to go, quarterback Pete Irvine tossed a pass to end Lauren Kath, who made the catch on the Prowler 10-yard line and then sped across the north goal-line for the score. Dan Jones placekicked the conversion, giving the Lakers a 7-0 lead.

The Lakers had ample opportunities to add to their lead in the second period when recovered fumbles gave coach Norman's team possession of the ball deep in Prowler territory. On one occasion the Lakers had a first down on the Prowler 7-yard line, but the locals shoved the visitors back and took over the ball on the 27-yard line. This stand sparked the Prowlers to their first touchdown, for two plays later, on a long run around right end by Paul Klungness, and a fine pass completion, John Aune to Bob Olson, the locals had a first down and goal to go on the Lakers' 8-yard line. Klungness picked up five yards at right end, and then on another try at the flank, went three yards for the touchdown. Aune's sneak for the point was short, and the locals trailed, 7-6.

The Prowlers received the kickoff to open the second half and from their own 43-yard line and in six running plays carried to the Laker 6-yard line. Bob Benson crashed through right guard for the touchdown, and when Steve Mittelstadt hit left tackle for the point, the Prowlers held a 13-7 lead.

A Prowler fumble gave the Laker's possession on the blue-and-gold 30-yard line early in the fourth period. Blanding, on a reverse, drove to the Prowler 15-yard line; Larson slipped through right tackle and gained to the Prowler 1-yard line. And here's where the locals made their stand. Irvine, on a sneak, gained one-half yard; Blanding hit right guard, and carried to the one-foot line; Blanding again tried and the center and field to gain; and a fourth down sweep around left end was smothered and a fumble occurred and the Prowlers took possession on the 17 yard line.

Five plays later, from the Prowler 29-yard line, Klungness swept out around right end, sprinted down the west side-lined, out-distanced the Laker secondary and raced 71 yards for a touchdown. A pass for the conversion point failed, and the Prowlers, with but seconds to play remaining, held a 19-7 lead.

Women Stop Car In Bray Township, Let Moose Cross

Two Thief River Falls women were startled Wednesday afternoon when a moose nonchalantly strolled onto the road about 200 feet ahead of their car near the Clarence Swanson farm in Bray Township. They were forced to stop and permit the animal to cross the road ahead of the car and watched as it ambled north until out of sight.

Mrs. Marie Larson and Mrs. Anne Aaseby reported that the big animal seemed "most unconcerned" but that cattle in a nearby pasture appeared nervous until it disappeared.

Buick's Electra 225 for 1963

Long, straight rear fenders capped by a brushed stainless steel molding and unique concave taillights mark the distinctive styling of Buick's Electra 225 series for 1963. The luxurious Electra 225 is powered by a 401 cubic inch V-8 engine with Buick's Turbine Drive transmission as standard equipment. Bucket seats, with center console, are optional on the Electra 225 convertible. Standard equipment includes power steering, power brakes, power windows and two-way power seat. In addition to the convertible, the Electra 225 is available in four other models, a 4-door sedan, two 4-door hardtops and a 2-door hardtop.

Keeping Score with "Huck" Olson

Quite a Feat

That was quite an accomplishment that coach Rod Max's Prowler cross-country squad turned in on Wednesday afternoon when, in a meet held over the Mickelson field cross-country course in Fargo, the local harriers defeated the Fargo Central squad. The Prowlers had a total of 41 points, while the Fargo Midgets, gaining runner-up honors, had 51 points. It marked the first time in twenty-eight meets that the Fargo Central cross-country squad had been beaten.

Eleven schools participated in the competition including such North Dakota Class A squad as Fargo Central, Fargo Shanley, Grand Forks Central, and Jamestown.

The Prowler runners who garnered the points for the locals, and their finishing positions, were Rolf Wangberg, 2nd; Murray Dow, 4th; Orrin Joppru, 7th; Roy Delorme, 11th; and Mark Anderson, 17th. Cross country point-scoring is on the basis of one point for a first, two points for a second, three points for a third, and so on. Consequently the squad posting the lowest point-total is the winner.

The next outing for the local squad will be against Fosston here on Wednesday, Oct. 10.

On Oct. 12, Friday, the conference meet will be held at Crookston. The Region 8 cross-country meet is scheduled for Thief River Falls on Saturday morning, Oct. 20, at 11:00 a. m.

Canadian Style

The ice hockey season, Canadian style, opened on Saturday night when, in a game played at Toronto, the Toronto Maple Leafs, the Stanley Cup champions, defeated a National hockey league All-Star aggregation, 4-1.

On Sunday afternoon, in the Winnipeg Arena in Winnipeg, the Manitoba junior hockey league began its 1962-63 schedule, with a doubleheader on the slate. The Winnipeg Braves played the Winnipeg Monarchs; and the St. Boniface Canadiens met the Winnipeg Braves. These junior clubs, along with the Brandon Wheat Kings, are affiliated with the clubs of the National hockey league.

On Thursday night of last week, Carl Wennberg, Fred Jensen (who will be leaving for army service in a week), and I were in the Winnipeg Arena for the exhibition game between the New York Rangers and the Toronto Maple Leafs. The Rangers won the lacklustre game, 4-0, and deserved the margin of victory. The Rangers, with one of hockey's all-time greats at defense in Doug Harvey, exhibited more aggressiveness and a closer-checking game than the champion Leafs. Only in spurts, and particularly when they were skating short-handed, did the Leafs flash the caliber of play that won the Stanley Cup. During these infrequent moments, the Leafs passed the puck crisply and played their positions ably.

The highly-touted Toronto scoring ace, Frank Mahovlich, did not impress the 5,000 fans on hand. But the fact that he was playing the game as an "unsigned" player (he did not sign his contract until Saturday), may have had an effect on his play.

Prior to the game, we met up with Murray Balagus, who was a center-ice man with the senior hockey Thieves here some years ago and who is now a member of the Warroad Lakers. The Winnipeg Rangers junior club was on the ice going through practice drills, and Murray was taking his turn going the ice, and aiding the Rangers' coach, Gord Pennell, in drilling the junior club. Balagus will be playing with the Warroad club again this season. He is employed with the Marvin Lumber Co., working out of Marvin's Winnipeg office.

Believe It . . . Or Not

A number of reports have been received, some signed and witnessed, about the remarkable performance of Bob (Corn) Olson's dog Pepper, and the point he made on a sharptailed grouse last week.

Corn and Harold Pluth were out hunting last Sunday, a week ago, and they were using Corn's station wagon. They drove into a field, and as they came to the end of the field they stopped the car, turned off the motor, and looked over the prospects. Then it was noticed that Pepper, who was in the back of the car, was in a sturdy point. Some belittling remarks were made, but Corn insisted that his dog must have gotten a bird scent. And would you believe, it, the boys went out and flushed, and shot, a sharptailed grouse!

This exhibition was put on in view of a number of reputable witnesses, and as Corn said, "I want you to know a dumb animal doesn't do this without good training." Now all I want to know is where Pepper got his good training.

TRF Cross-country Squad Wins at Fargo

Coach Art Dronen's Fargo Central high school cross-country squad had its winning streak, which had reached twenty-seven victories, snapped by coach Rod Max's Prowler squad in the meet held over the Mickelson field course at Fargo and sponsored by the Oak Grove Academy on Wednesday afternoon.

The Prowlers gained a ten-point bulge over the Fargo squad, having 41 points to the Midgets 51. Other team totals in the meet which attracted seventy runners, were Fergus Falls, 125; Fargo Shanley, 144; Breckenridge, 163; Jamestown, 165; Moorhead, 183; Detroit Lakes, 210; Fargo Oak Grove, 226; Grand Forks Central, 230; and Crookston A. C., 262.

Tom Stuart of Breckenridge was the individual winner, running the 1.8 mile course in 9:28.9 to edge out the Prowlers' Rolf Wangberg. Other Prowler runners finished as follows: Murray Dow, 4th; Orrin Joppru, 7th; Roy Delorme, 11th; Mark Anderson, 17th; Steve Honebrink, 25th; and Pete Isaacson, 26th.

In the second race on the afternoon's program, the Prowlers' Joel Headley, with a time of 10:31, won the individual honors.

The Prowler cross-country team will meet the Fosston cross-country squad over the local golf course here on Wednesday afternoon, 4:45 p. m.

Truck Wrecked in Marcoux Mishap

A Fosston man, the driver of a grain semi-trailer truck, narrowly escaped being crushed early Wednesday in an accident two and a half miles east of Marcoux Corner on Highway 2.

Roger Kenneth Nelson, 21, escaped injuries when the grain box crushed the truck cab. Minnesota highway patrol officers said the truck tipped over in a ditch after it left Highway 2.

Damage to the truck, valued at $12,000, was described by officers as "total".

Ione Stone Tours Europe's Capitals During Summer

By Flora Allison
Times Society Reporter

IONE STONE teacher of piano technique at the Ione Stone School of Music in this city, is a woman devoted to her profession, and enhances her interest with drama, literature and travel. Following those interests, she spent the summer studying in New York City and traveling in a number of the capitals of Europe. She made the trip on the ultra-modern liner, the S.S. France.

Ione Stone, a prodigious reader and avid traveler, director of the Ione Stone music studio in this city, returned this month from a summer of travel and study which took her to many of the capitals of Europe. The trip eastward across the Atlantic was on the pride of the French line, the newest addition to their passenger fleet, the S. S. France.

Leaving here on June 30, Mrs. Stone stopped for three weeks in New York where she attended concerts and plays, and visited the various museums. Feeling that travel and continual study add dimension and perspective to one's life and one's work, she exposes herself to all the culture possible. As often as she can find time for travel, she is off to some foreign spot to pursue her art. And since she speaks French, Swedish and some Italian, and reads Spanish as well, the language barrier is, for her, practically non-existent in the areas of her travels.

New York's Museum of Modern Art, among others, draws her irresistibly. In fact, she has the distinction of being a member of that museum. "With each visit," she told us, "I find something new and absorbing, something I had somehow overlooked previously."

In Austria she was enthralled by the excellence of the Salzburg Festival, a commemorative concert honoring the great composer, Stravinsky, on his 80th anniversary. His ballet was performed there by the Brussels (Belgium) National Ballet company, "with the brilliant orchestral accompaniment of the Vienna Philharmonic" Mrs. Stone told us.

At the Salzburg Festival she also heard the Berlin Philharmonic Orchestra, with the renouned pianist, Magaloff, playing the Beethoven Piano Concerto No. 4, opus 58, and also a newly-designed performance of the early-Mozart opera, Ideomeneo, which was in Italian, and the orchestral portions of which were performed by the Vienna Philharmonic.

Rome, Italy, featured the opera Aida, an extravaganza staged by the Rome Opera Company in the open-air setting of the Baths of Caracalla. "The staging," our traveler reported, was "mammoth—a thousand people on stage simultaneously; live horses in the chariot race, and even live camels included in the staging. It was quite unforgettable!" she exclaimed.

The youthful American pianist, Van Cliburn, who has captured the imagination of the entire musical world, left her, and indeed all of his listeners, breathless, at the Palace Courtyard Concerts in Monaco. His appearance, sponsored by Princess Grace and her prince, was in the interest of one of the princess' favorite charities. She appeared in her box at the ballet, in the company of her illustrious husband, Prince Rainier, the night Mrs. Stone attended.

In Paris, Ione sat entranced through a number of performances at the Paris Opera Comique, and in Menton, France, the famous Menton Festival performance drew her to that musically-and-artistically-inclined community on the French Riviera.

London was host this summer to Noel Coward's "Sail Away," and she naturally included that on her "must see" list. Also showing there and of course, attended by Mrs. Stone, were, "Stop The World, I Want To Get Off," and "Oliver", based on one of Britain's all-time favorite novels, "Oliver Twist".

The museums of the cities Mrs. Stone visited, to which she was by no means a stranger, were also a part of her summer tour.

After a well-rounded season, during which she was exposed, by intent, to the artistic and cultural in abundance, she returned home on September 11, on the Cunard liner, the Queen Elizabeth.

Each of the last three return trips on that ship, the agent who examined her passport was the same man, and after the first time, he recognized her as someone he had seen before.

Ione studied under the famous French pianist, Isadore Philipp, in France several years ago. Among the autographed photographs of many of the well-known names in the world of music, she has his photo, with a personal message commending her on her fine work with him. Also among her treasures is a poster, an original, advertising the "Three Penny Opera," which enjoyed a fabulously long run in New York. The poster was given her by the designer of the sets, etc. for this opera, and is one of only several in existence.

She has collected a number of Italian musical tables, ornamented in exquisite mosaic design, and a number of music boxes as well. All of these treasures are from Sorrento, Italy.

Mrs. Stone is devoted to good literature as well as to art and music. On her reading list are such fine examples of the best in journalism as the New York Times, London Daily Mail, and Realites, a magazine published in Paris.

This summer's tour, in furtherance of her career, is, she hopes, not her last one, by any means. She plans on repeat-performances whenever time and opportunity permit.

Employers Urged to Heed Wage Law

Law Affects Payments to Women and Minors

Employers of women and minors in the public housekeeping industry, which includes hotels, motels, restaurants, hospitals, nursing homes, drive-ins, resorts, and similar activities, in Minnesota are urged to comply immediately with state minimum wage order No. 25, validity of which was upheld recently the the State Supreme Court The order was effective July 8, 1959, so "back pay" is now due.

The Minnesota Industrial Commission announced that its division of women and children has begun mailing notices to employers who have held wages in "Employees' Escrow Accounts" that the wages due under the order should be paid.

Order No. 25 requires the payment to women and minors, except during a learning period of 300 hours, of $1.00 an hour in metropolitan areas, 90 cents and 85 cents, respectively, in towns, cities and villages of 2,500 to 50,000 population and of less than 2,500 population, and 80 cents an hour in resorts. Learners may be paid five cents less in each category for the first 300 hours of experience.

There are some credits permitted for meals and gratuities, so employers are advised to write for a copy of the order to 110 State Office Building, St. Paul.

Noah Webster, compiler of the two-volume American Dictionary of the English Language, also prepared the popular Blue-Backed Speller. Next to the Bible, the Speller, which sold about 100 million copies in a century, hold the record as America's all time best-seller, according to Collier's Encyclopedia.

Another Commonplace

In case you haven't heard it, we can give it to you straight that Astronaut Walter M. Shirra Jr. landed in the Pacific Ocean one day last week, 275 miles Northwest of Midway Island, after completing six orbits of the earth. The fact that he missed his recovery ship by several hundred yards is not being held against him.

The thing that discourages us is that space flights no longer thrill us. The remarkable performances are becoming commonplace. As far as we know Walt wasn't even invited to the White House. What a humdrum world we live in.

Your Help Is Needed

The Pennington County United Fund drive gets under way again this week and drive officials are asking for the cooperation of workers and contributors for a result that will be both speedy and adequate. The organizations that will share in the drive, and their requests, have been carefully screened not only at the local level but at the state and national levels as well. All are deserving.

The United Fund way of soliciting for these worthy causes has several advantages. By putting "all of the begs in one askit" the numerous drives that otherwise would be necessary are reduced to one. The solicitation and the sign-up come just once a year, but, for the convenience of the contributors, the payments may be extended over a period of months or on a payroll-deduction plan.

How much to give is a question each contributor must decide. In some communities the suggestion is made that the equivalent of one hour's pay a month would be a generous contribution. If all of us gave half that much the fund would be quickly oversubscribed. Unfortunately some must give more to make up for those who do not contribute. That is a matter for you to decide. Do the best you can for ten worthy causes.

Electricity and the Future

Electric energy now is being delivered to the consumers in Thief River Falls at less cost to them as well as less cost to the city. Morris Owen, utilities superintendent, tells us the improved distribution system has resulted in a substantial reduction in line-loss and greatly increased uniformity in the power delivered to all parts of the city. This means we are now getting more for our money.

Garrison Dam is also steadily becoming a more dependable power source, Mr. Owen states. The interstate distribution system has been developed to a point where the possibility of a long period of power-outage is becoming very remote. Improvements that are in the near-future program for Minnkota distribution system development will add still further to the dependability of Bureau power service. As we go along the advantages of being a part of an interstate power grid become increasingly apparent.

Electricity is now being transported long distances economically and this cost will continue to decline, according to the experts. To the north of us, in Canada, are vast sources of undeveloped waterpower. Development has been delayed because of the limited domestic demand, along with a national policy that discouraged exportation of power. The Dominion government has indicated that exports will now be encouraged, which in turn encourages the province of Manitoba to explore its possibilities in this field. The Winnipeg Tribune pointed up these possibilities last week in the following editorial comment:

"Premier Roblin's interest and enthusiasm for the development of the immense power potential of the province's northern rivers are well known. The thought of Manitoba's untapped hydro-electric resources motivated his quick response to federal suggestions that the possibility of a national power grid should be studied.

"Mr. Roblin must, therefore get a great deal of satisfaction from several things mentioned in the Throne Speech. First of all, there is the announcement that Ottawa is now prepared to consider long-term agreements for the export of surplus power. This is important to British Columbia, but it could also be important to Manitoba. There is little doubt that the U.S. mid-west would be a receptive market for surplus power from this province.

"The long-standing policy of blocking power exports has not made much sense for years. If it was in Canada's national interest to export energy in the form of oil, natural gas and coal, why not in the form of electricity?

"The second point in the Speech is that the federal government is co-operating with provincial authorities in order to solve the problems of high-voltage transmission over long distances. This again is of great interest to Manitoba. The power from the northern rivers sites would have to move hundreds of miles south, either to the main settled areas of the province, or across the border into the U.S. Means must be found to transmit this power efficiently and economically.

"The third point in the Speech is that discussions are in progress with the Manitoba government for special power studies of the Nelson River system.

"Actual development of the northern sites is undoubtedly years away. But the preparatory studies on transmission and sites are essential to the program. The sooner they are made the better."

A new source of low-cost power from the north, and the development of an international power grid, certainly would not be detrimental to the interests of our north-central states.

Minority Rights

President Kennedy has said that the aerospace industries should accept the demands of the unions and recognize the closed shop. The aerospace industries are vital to national defense. Aerospace employees come pretty close to being public employees, and, thinking in terms of national defense, their union activities should be just as circumscribed as are the union activities of public employees.

Workers should have the right to organize, but there is no good reason why the rights of minority groups among workers should not be recognized, just as the rights of minorities in other groups are recognized. And there is no justification for forcing any worker to contribute financially to a program to which he is opposed. This is especially true for the workers in those industries that are maintained almost exclusively by public funds.

And so President Kennedy's statement to the effect that the aerospace industries should yield to the demands of their workers and that they recognize the closed shop should be resented and opposed. Such an appeal has great vote-getting appeal in a campaign year, and of course we know that it is politician Kennedy who is making the appeals. But he should not play politics at the expense of sound government policy, even in a campaign year.

Blinders

(Denver Post)

An Associated Press dispatch from Moscow reported, "The government newspaper Izvestia said Soviet citizens must be courteous to each other because rudeness is bad for the health. And it demanded an end to the practice of denouncing people with anonymous letters."

How much better the Soviet leaders might have put the matter if they could have said, "Whatsoever ye would that men should do to you, do ye even so to them," and if they could have clinched the matter with the deceptively simple "Love thy neighbor."

But that would be asking them to look where they have chosen not to see.

A Good Perspective

(Airojet News, Santa Monica, Cal.)

Be thankful for the troubles of your job, because if it were not for the things that go wrong, the difficult people you have to deal with and the problems and unpleasantness of your working day, someone could be found to handle your job for half of what you are being paid.

It takes intelligence, resourcefulness, patience, tact and courage to meet the troubles of any job. That is why you hold your present job. Maybe your method of handling these troubles is keeping you from holding down an even bigger job.

If all of us would start to look for more troubles, and learn to handle them cheerfully and with good judgement—as opportunities rather than irritations—we would find ourselves getting ahead at a surprising rate. It is a fact that there are plenty of big jobs waiting for men and women who aren't afraid of the troubles connected with them.

Counterrevolutionary Rabbits

(Wall Street Journal)

A Japanese Communist newspaper is unhappy with the nature films produced by Walt Disney. The films, which feature close-up scenes of wildlife in its natural environment, were deplored by the Reds because: "They represent the theory of survival of the fittest which justifies free competition of greedy capitalism and imperialist invasion as their ideological foundations."

Well, that's quite an indictment of counterrevolutionary rabbits and free-enterprise gophers. But even Communists probably have their own Disney favorite, some peace-loving animal like the Big Bad Wolf who, as is well known, huffed and puffed only to accomplish the liberation of the Three Little Pigs!

THE ANDERSEN LETTER

from

Gov. Elmer L. Andersen

Milestone on Natural Resources.

Last week at Duluth my Natural Resources Council headed by Henry T. McKnight presented its report in connection with the national convention of the American Forestry Association. The report is a bold, practical and exciting plan for action on how the recreation, game and fish, land, water, forest, and mineral resources can better serve the people of our state.

It is a 64-page Time magazine style booklet filled with interest and information. A postcard request to me will bring you a copy.

It brings out that Minnesota is wealthy in its natural resources but adds, "Suddenly we wake up to find some of our precious resources diminishing in value, some languishing for want of development, some practically exhausted. The signs are all too clear. . ." Then it outlines the shortcomings in many areas.

It recommends the state should made a long-range plan, based upon research, and that lands needed for recreation should be acquired as soon as possible—50,000 acres for additional state parks, 50,000 acres in Minnesota Hardwoods Forest, many parkways and wayside picnic areas, and an increase in number of water access points. Of all Minnesota's lakes less than a thousand are accessible by car to the general public.

High priority is placed on acquisition of wetlands and preservation of wild life habitat and public hunting grounds. Total fish production is about 50 per cent below annual useful need and should be corrected.

Game and Fish funds should not be diverted to other purposes however useful, the report states, and with this I am in entire accord.

Conservation education is encouraged and our new youth "Conservation Volunteer" program endorsed.

The matter of land titles and mineral reservations is discussed as well as the need for detailed county by county land use surveys. Soil conservation efforts are praised and encouraged.

Tighter control on water pollution is strenuously urged, as well as more effective cooperation to solve flood control prblems.

Forest planting should be accelerated and research increased.

Speaking of mineral opportunities, the report says "If Minnesota is to realize its opportunity to achieve a growing mineral industry, the people, through government, should provide that industry with certain specific incentives". The report endorses the taconite amendment.

All in all the report does exactly what I hoped it would — provide a handbook of specific suggestions for the future. It will be my guide to the future development of our recreational resources.

Citizens Committee Backs Amendment 1

Voter apathy might well cost Minnesota taxpayers $3,000,000 a year — and result in higher taxes.

This is the gist of observations by the Citizens' Committee for Amendment No. 1. The amendment will be on the Nov. 6 general election ballot.

The non-controversial matter—virtually every interested organization in the state is on record in favor of its passage — is a proposed amendment to the state constitution.

The proposed amendment, according to Dean Schweickhard, former state commissioner of education who is committee chairman, is extremely important for education.

It would change the state constitution to permit imprved investment policies in the management of the state trust funds for schools — which, at nearly $300,000,000, are the second largest in the nation.

"These accounts are invested almost entirely in U. S. government obligations that were purchased during the period of low interest rates in the 1940s and early '50s," Schweickhard pointed out. "The state is earning only about 3 per cent on these investments — at a time when yields of 4 to 5 per cent have become quite common.

"Because of this change in interest rates, the market value of our permanent trust funds has declined so that the funds are worth only about 90 cents per dollar invested."

Revised investment policies have been advocated during recent legislative sessions by the state's finance officials, education groups and legislative interim commissions. Indicating the lack of controversy over the measure, it has been endorsed by both the Democratic-Farmer-Labor and Republican parties and their respective candidates for governor, the Minnesota Congress of Parents and Teachers (PTA), the Minnesota Education association (MEA), the AFL-CIO, the Minnesota School Boards association, the League of Women Voters and others.

A committee of investment experts was appointed by the governor in 1959 to study the problem and to make recommendations. Schweickhard said the committee's findings reaffirmed need for the proposed amendment and for revision of investment laws.

"The proposal provides adequate safeguards," Schweickhard observed, "so that there's no chance of anyone running wild. With approval of the amendment, investing would be permitted in such items as securities of the United States and its agencies, bonds of other states, and a high quality corporate bond to a maximum of 40 per cent of the portfolio, and selected common stocks, to a maximum of 20 per cent of the fund."

All earnings from investments would be distributed to the school districts, Schweickhard explained, earnings that could be increased by about $3,000,000 a year. "And the fund would be kept perpetual and inviolate forever."

Passage of the amendment, Schweickhard concluded, would provide supplemental funds for school aids "and, in that way, tend to lower taxes".

Gives Answer to Mildew Problem

University of Minnesota Specialists Give Advice

Persistent rainy weather has made mildew a real problem in many Minnesota homes during the past summer.

Homemakers report musty odors in cupboards and mildew on clothes, mattresses and upholstered furniture —particularly if stored in the basement.

Solution of the problem, say extension clothing and home improvement specialists at the University of Minnesota, is to treat mildew stains as soon as you discover them — whether they're on clothing or household articles. Otherwise the mold will eat into the fabric.

First step in the treatment, they say, is to brush off as much mildew as possible outdoors to avoid scattering spores in the house. Next step is to launder washable fabrics and sun-dry them. Moisten any remaining fabric stain with lemon juice and salt, spread in the sun to bleach, then rinse and dry. Or use sodium perborate or other bleach suitable to the fabric. Before using lemon juice or bleach on colored fabrics, however, test the material first. Have nonwashable fabrics drycleaned promptly. Soiled clothing mildews more quickly than clean clothing.

If upholstered articles, mattresses or rugs are mildewed, vacuum the surface after brushing it. If possible, sun and air the article to stop mold growth. If mildew remains on upholstered furniture, wipe it with a cloth wrung out of diluted alcohol (1 cup denatured or rubbing alcohol to 1 cup water). Then dry the article thoroughly. An electric fan will help.

Bishop Laurence Glenn to Share in Vatican Council

On Thursday, October 11, the Ecumenical Council, also known as the Second Vatican Council, will open in Rome. The council will convene under the direction and supervision of Pope John XXIII, the 262nd Pope of the Catholic Church.

It is estimated that some 2,800 church dignitaries, from all parts of the world, will be in attendance. The number of participants in this council, will unquestionably make it the largest of the twenty councils previously held at different intervals. In the almost 2,000 year existence of the Catholic Church. The last Ecumenical Council was held in 1870.

Bishop Laurence A. Glenn will represent the diocese of Crookston at the church assembly.

Making unity the dominant theme, Pope John XXIII announced his plans for the council, only a few months following his election to the papacy on October 28, 1958.

From the time that plans for the Council were made known, a tremendous amount of preparatory work was accomplished by specially assigned commissions.

# of Rhyme & Reason

BY MARY [illegible]

WHEREIN DOES COMMUNITY PROGRESS LIE? Is it in the establishment of industry with the constant talk of payroll, new money, more families? Is it in a brick building with long tables and people working to assemble a product for sale? Is it necessary to start something new in the city itself to insure what we call "industrial progress"? Many individuals seem to think this is right.

Perhaps this is a situation of being unable to see the forest for the trees. Maybe we are overlooking a number of things which should merit a little closer scrutiny when we talk about industry and progress.

It is generally agreed, and rightly so, that our area is that of an agricultural economy. It takes farmers to make agriculture. Farming and related fields are where this community must look for expansion and growth and are where we must look when viewing the situation with a proper perspective. For the moment let's forget the four walls and a roof which typify industry.

Let us look a little closer at agriculture in this area. Several recently publicized activities show that we are headed in the right direction. A corporation has been organized to finish feeder cattle—providing an outlet for breeders of beef cow herds and farmers raising feed grains and forage. A plant has been established for processing locally-grown sunflowers and millet into wild bird food—utilizing two crops which can be profitably grown without adding to costly surpluses. And the feeder pig industry has caught the imagination of many who like the idea of making a good return from labor and capital invested—again without danger of flooding a market.

I look with admiration upon the people who diversify their operations in quest of profit although it may be contrary to the established way of life. The feeder pig market alone has much to offer, particularly to the farmer with no abundance of capital and limited land holdings. Many farmers do not like hogs. All of them like to make money. Perhaps they would do well to decide which they would rather do—raise hogs or go broke. It's a simple decision.

For those farmers who have holdings suitable for enterprises other than hogs, these should be investigated. And whenever a farmer makes a move toward progress, the rest of us should salute his initiative and applaud his efforts.

Farming is a business, yes, an industry, in its own right. Each farm is an industry of its own—employing people, creating and selling products, bringing in outside money and raising the economy of the area.

I can't help but believe that when we talk of industry we should say it in the same breath as farming. Naturally, it is nice to have large plants with many employees. It is a little easier to develop what we have than to search for something which we likely cannot obtain.

A local bachelor, reading his morning mail at the local postoffice, turned ghastly white. An acquaintance noticed the drain in color and asked the reason. "I just got a letter from a man telling me he'll shoot me if I didn't stay away from his daughter," was the reply. "Why let that scare you?" the acquaintance said. "All you have to do is stay away from his daughter." "That's not what's bothering me," was the sad answer. "He didn't sign his name."

Southern justice is a bit unusual. Take the case of the river dragging which resulted in the recovery of a large colored man chained to an engine block. "Deputy," the sheriff ordered, "take down the serial number of that engine and find out where that nigger stole the car."

Many people do not object to President Kennedy hiring his relatives and contend that they do a good job. "But I do wish," one supporter sighed, "that he hadn't let Caroline plan that Cuban invasion." And then there is the report of a man turning down a government position. "Figured it couldn't have been much of a job or some Kennedy would have it," he explained.

TWO SHEETS TO THE WIND

These two-decker beds,
though joys of our tots,
Reduce me each day to a wreck.
My arms are too short to reach
starboard and port,
So, I'm stuck on the upper deck.
I waver and lurch on my

Afraid that I'll slip and be sunk.
Let's not be too subtle;
double-deckers I'd scuttle.
By me, bunk beds are the bunk!

Bemidji College Homecoming Set Saturday, Oct. 20

"The Roaring 20's" is the theme for the Bemidji State College Homecoming activities culminating on October 20 in a football game with St. Cloud State with an alumni dinner, according to Phyllis Roth, social governor.

Selected by a nominating committee of students, faculty and administration 25 queen candidates were introduced at Tuesday's convocation. They include June Walters, Plummer, and Kay Wik, St. Hilaire.

Primary voting for the top five candidates and the general election for the queen title will be held early this week.

Crowning of the Homecoming Queen will take place Wednesday, October 17 at the 9 p. m. Coronation Dance in Memorial Hall.

State Motorists Asked to Share in Fire Prevention

Minnesota drivers were reminded today by the Minnesota Highway department that October 7-13 has been designated as Fire Prevention Week.

State law requires motorists to yield the right of way to emergency vehicles exhibiting a red light and sounding a siren, immediately driving to a position parallel to and as close as possible to the right-hand edge or curb of the highway clear of any intersection and then stop and remain stopped until the emergency vehicle has passed.

The most common violation of motorists is the failure to yield the right of way to emergency vehicles such as firefighting equipment that is enroute in answer to fire alarms and other emergency calls, according to the Highway department.

Also, relative to firefighting apparatus, motorists are prohibited from following fire apparatus traveling in response to a fire alarm closer than 500 feet, or drive into or park within a block where fire apparatus has stopped in answer to a fire alarm. Drivers also should not drive over any unprotected fire hose without the consent of a fire department official in command at the site.

7th Dist. GOP Told Lt. Gov. Chances Good

Thief River Falls hosted a northern sub-district meeting of the 7th District Republican Committee Wednesday evening at the Rex Cafe. District officers were present to review the political situation and comment on the current campaign. Aurel Parenteau, Brooks, district chairman, presided at the meeting.

Richard Haney, Herman, district volunteer chairman, said that prospects for the election of D. Donald Peterson as Lt. Governor "look great" in the 7th district. He stated that the DFL candidate for Lt. Governor, A. M. "Sandy" Keith, "is finding himself hard-pressed for issues."

Commenting on Keith's defeat in seeking party endorsement for Governor candidacy, Haney noted that Keith "started his campaign by saying Rolvaag cannot win.

"Then he took off on Medicare which is up to the Congress of the United States. Finding that Minnesotans showed little or no interest in his speeches on that subject, he told the 7th district through press conferences that they are not getting their share of roads built. The same papers carring story carried stories on the dedication and opening of a new 14-mile stretch of road near Park Rapids.

"The fact is Keith doesn't have an issue except that he wants to be Lt. Governor so he can hobnob in Washington with the rest of his pals who have emigrated there since Gov. Andersen took over in St. Paul. We cannot expect any man to administer our state with a DFL millstone like that around his neck. C. Donald Peterson can work with Gov. Andersen and give us a pair of leaders both doing their best for Minnesota citizens."

Leonard Dickensen of Bemidji, representative from the 64th district, spoke on legislative races and urged support of conservative legislators to give Gov. Andersen assistance in implementing his programs.

Other speakers were Mrs. Dorothy Nelson, Duluth, secretary of the Republican State Central committee, and Mrs. Robert Miles, Barrett, 7th district volunteer chairwoman. They emphasized voter contact which is vital to successful campaigns and that getting out the vote is the key to winning elections.

State Fair Tests Show Poor Vision of Many Drivers

Minnesota motorists should not believe everything they see if the results of free vision checks given by driver license examiners at the State Fair this year are any indication of the eyesight of the average driver in this state.

Almost nine percent of legal driving age people failed to pass the voluntary eye checks, according to a report released today by the Minnesota highway department.

During the 10 days of the state Fair, driver license examiners gave eye checks to 7,709 persons. Of that number 691 failed to meet the standard of 20-40 corrected vision required for the issuance of a Minnesota drivers license. This also included 5,335 persons who already possessed licenses, and 2,231 who had previously passed driver licensing examinations.

Examiners used the telebinocular testing device that is standard equipment for checking eyesight at driver license examing stations. Where vision was below standards, persons were urged to visit their physician or eye doctor for further examination.

Backers Laud Rep. Odin Langen for 'Staying on Job'

Robert Allison, serving as chairman of the Langen-for-Congress volunteer committee, today praised Congressman Odin Langen for staying on the job in Washington instead of sacrificing the 7th District and national welfare for partisan politics.

The chairman said that district residents have never missed a quorum call or roll call vote since Langen became their representative in Washington.

Allison said that Langen expressed regret that he could not be in Moorhead for the grand opening of the campaign headquarters, but that he looks forward to entering the campaign on a personal basis at the earliest possible moment.

IMPORTANT EVENTS ON MINNESOTA CALENDAR

Albert Wendt Jr. will get 40 acres of corn picked in jig time this fall. Minnesota State Corn Picking contest will be run off at his farm a half mile southeast of Springfield, Tuesday, October 9. There will be displays, concessions, oratory — and some lively corn pickin' under the gaze of several former winners expected to join a throng of 5,000 or more from 10 a. m. until dark. . . Young instrumentalists in Minnesota and our four adjoining states, are invited again this year to compete for cash prizes and valuable scholarships at Northrop Auditorium, University of Minnesota, November 23 and 24. Interesting details will be sent any interested musician by Womens Association of the Minneapolis Symphony, 201 East 24th St. Minneapolis 4, before October 30 . . . General Election November 6, with three proposed constitutional amendments on the ballot, deserves a heavy turnout

Social Security Recipients Must Report Earnings

Social Security beneficiaries who are still working should report any increase in their earnings that would change their estimated income for 1962.

Beneficiaries who work and earn over $1200 a year make an annual report of their estimated earnings for the coming year. The amount of benefits withheld by the Social Security Administration is based on this estimate.

To avoid overpayment in social security benefits, any increase in earnings above the estimate should be reported to social security promptly. If a beneficiary receives more in benefits than he should have, his checks may be suspended to make up for the overpayment.

Revisions in the estimates may be made on post card forms furnished beneficiaries or at any social security office. To delay may cause hardship later.

Oklee Teacher at Institute at UND

Forty secondary school biology teachers are returning to college on a part time basis through an Academic Year-In Service Institute at the University of North Dakota.

The program, financed by a $14,270 grant from the National Science Foundation, is being conducted by Dr. Paul B. Kannowski, UND associate professor of biology, at two centers in North Dakota.

A group of 25 teachers from eastern North Dakota and northwestern Minnesota will meeat at the University. Another group of 15 teachers from western North Dakota will meet at Bismarck Junior College on alternate Saturdays.

Participants in the UND classes include James Turgeon of Oklee.

Special Meetings in Viking Church

Special meetings will be held in the Viking Covenant church beginning Tuesday, October 9, and closing Sunday, October 14, at 8 p. m. each evening including Saturday. Rev. A. T. Folden, formerly of this area, and now pastor of the Covenant Church of Pennock, Minn. will be the guest speaker. He will also speak at the eleven o'clock hour Sunday morning, October 14.

Carrots, beets, rutabagas, turnips, parsnips, potatoes and apples need cool, moist storage conditions and temperatures betwen 32 and 40 degrees F. To prevent sweetness, store potatoes at temperatures above 36 degrees.

'Sell Minnesota Food' Campaign Under Way

Gov. Elmer L. Andersen has turned the marketing services division of the department of agriculture into a "Sell Minnesota Food" command post.

From this nerve center is directed a campaign to increase public awareness of the exceedingly high quality of Minnesota grown and processed food products and their important contribution to the state's economic strength.

Crisp, tangy apples now being harvested by the truck load in sheltered valleys; tasty, water-white honey produced only in highly favored sections of the nation; delicious wild rice from the cool northern regions — these are only a few of Minnesota's abundant foods which the marketing division is identifying with good eating.

But it took an innocuous "Idaho Baked Potato" listing on a St. Paul restaurant menu to spur Andersen to devote a large share of his selling energy as governor to Minnesota agricultural products. The waitress, replying to Andersen's request for a Minnesota baked potato, said, "Minnesota doesn't have any."

Responding vigorously to this challenge — which took place two years ago — Andersen told thousands of Minnesotans at rallies and gatherings throughout the state:

"Minnesota produces the finest baking potatoes, preferred by chefs and diners. I'm not knocking the Idaho potato, but it seems to me that it's 85 per cent promotion and 15 per cent potato. Why doesn't Minnesota get with it and "sell" top quality raised-in-Minnesota products?"

The legislature did not provide funds for an aggressive campaign —but one is under way just the same and Andersen is hopeful the 1963 session will make an appropriation to launch an ambitious program. "Wisconsin's state government spends more in promoting cheese than Minnesota does for all its food products," Governor Andersen said. "We must see that we furnish enough funds to invest in the future of our state's food products and agriculture."

One attention-getter was Governor Andersen's action sending turkey dinners to the governors of the 49 other states at Thanksgiving a year ago as a salute to Minnesota's rising food production and processing activities. Leaders in the state's food industry donated the turkey, potatoes, peas, rutabagas, corn, pumpkin, pie crust mix, dinner rolls, butter, cheese, apples, sugar and honey which made up the appetite-stimulating meal. Virtually the same menu was served later in the year in New York to editors and writers of 32 national food publications, with Governor Andersen as host.

Minnesota's growing position as a Christmas tree producing center — soon to gladen hearts once again in countless homes across the country — was accentuated with the placing of the very first official capitol tree in Minnesota history last December.

Army Air Defense Command Trains in Electronics

The United States Army Air Defense Command is the place for young men who want on-the-job training in guided missiles or electronics, according to Staff Sergeant Emerson F. Sell, local Army recruiting officer.

The Air Defense Command is the Army's contribution to the North American Air Defense Command, whose mission is to protect the North American Continent from aggressor air attack.

Can anyone enlist for the United States Army Air Defense Command? Definitely not, says Sergeant Sell. Requirements are rigid but for those who measure up there are many advantages. On-the-job training begins after eight weeks basic training.

Complete information may be obtained without obligation from Sgt. Sell in the basement of the city Auditorium.

GREATEST ERUPTION

The greatest volcanic eruption witnessed by man occurred in 1815 on Sumbawa, an island east of Java, according to Collier's Encyclopedia. The explosions from Tambora Volcano lasted a week, were heard 1,000 miles away, threw about 24 cubic miles of material into the air, and created three days of complete darkness for a distance of 300 miles.

Transportation facilities are of utmost importance to Thief River Falls. That is a fundamental fact that each of us recognizes every day. The deplorable truth is, however, that few of us give transportation the concentrated attention that it deserves.

Roads, buses, trains, taxi service, rent-a-car service, automobile sales and service, travel service, airports and airlines are all very important to us here in Thief River Falls and each of us owes it to our town and to ourselves to take a vital interest in all facets of this transportation industry.

This week we would like to focus some attention on one particular facet of our town that is vital to all of us. That is our airlines—North Central Airlines to be exact. Most of us have heard of it, some of us are aware of the circumstances under which it exists here, and some of us use it. Many have been regular users for eight or nine years now.

Most, however, have come to take North Central Airlines for granted and some have ceased to use it as they should. Others have never used North Central Airlines when they could have and should have. Consequently, the number of boardings for this year has decreased to a jeopardizing level that each of us should be aware of and alarmed about.

Instead of averaging 150 boardings per month, we have averaged 125 per month. Instead of totaling 1,800 boardings for 1962, we will total considerably less than that—unless things pick up grossly from the present level. Perhaps if you think back you will recall when you could have just as well boarded North Central. It would have made a difference. Not many more would have had to board each month to make a sizeable difference. But since they did not, the cumulative deficit looks quite bad. The consequences could be that the Civil Aeronautics Board could tell North Central to quit landing at Thief River Falls since the government helps support North Central.

When it comes down to that—and it could—we all have to admit that the airlines deserves community support just as much as a railroad, a basketball team, a church or anything else. Leaving the support of a vital institution up to the next guy is a very haphazard way to run a community. So let's start finding ways to board the airlines. You and I can make the difference if we try and that is all we ask. Maybe we haven't tried quite hard enough yet.

We can make a lot more improvements, in fact, if we all try hard enough Here in the Heart of Northwest Minnesota, Thief River Falls.

Notice for November 6, 1962 Election

Three proposed amendments to the Minnesota State Constitution submitted by the 1961 Legislature

Amend. No. 1—Investment of Trust Funds for Schools

Amend. No. 2—State Debt Authority: Buildings and Other Purposes

Amend. No. 3—120 Day Legislative Sessions

WALTER F. MONDALE, Attorney General
State of Minnesota
St. Paul

July 6, 1962

THE HONORABLE JOSEPH L. DONOVAN
Secretary of State
State of Minnesota
St. Paul

Dear Mr. Donovan:

The three amendments proposed by the 1961 Legislature will have the following effect on the state constitution if approved at the November 6, 1962 election.

AMENDMENT NO. 1
INVESTMENT OF TRUST FUNDS FOR SCHOOLS

Amendment No. 1 broadens the authority of the state investment board in managing the permanent school fund.

The state investment board will be the governor, state treasurer, state auditor, secretary of state and attorney general.

OLD AUTHORITY

The amendment removes the present provision limiting investment of these funds to interest-bearing bonds of the United States, the State of Minnesota and other states, and certain mortgages and municipal securities.

NEW AUTHORITY

The amendment places the swamp land fund in the permanent school fund and permits investment in the following:

1. Securities of the United States and its agencies;
2. United States guaranteed securities;
3. Bonds of the State of Minnesota or its political subdivisions or agencies;
4. Bonds of other states;
5. Corporate stocks (not more than 20% of the fund);
6. Corporate bonds (not more than 40% of the fund).

Certain limitations on the investments are stated in the amendment, and the legislature may adopt other limitations.

The amendment authorizes the investment board to sell investments at less than they cost the fund. However, from interest and dividends the net loss must be repaid to the fund to keep the fund perpetual and inviolate forever.

PROCEEDS TO SCHOOL DISTRICTS

All earnings from the investments will be distributed to the school districts. Part of the income from the swamp land fund is appropriated to state institutions at present.

The present constitutional powers of the University of Minnesota board of regents over the permanent university fund remain unchanged.

AMENDMENT NO. 2
STATE DEBT AUTHORITY — BUILDINGS AND OTHER PURPOSES

Amendment No. 2 establishes procedures for incurring state debt, and lists the purposes for state debt, including the financing of state buildings and capital improvements.

OLD SYSTEM

For the past fifty years the state has financed state buildings partly by bonds and certificates which the courts held were not subject to the public debt conditions in Sec. 5 and Sec. 6 of Article IX. One of the conditions is a two hundred and fifty thousand dollar limit. In 1960, the state supreme court stated that in the future this type of financing should be declared unconstitutional.

NEW AUTHORITY

The amendment removes the conditions in Sec. 5 and Sec. 6 and sets no maximum limit. The legislature will be able to authorize bonds for a term of not more than twenty years by a three-fifths vote of all members of each branch. Bonds may be issued only to:

buy, build, or improve public land or buildings;
appropriate or loan to agencies or subdivisions of the state for capital improvements, or refund state debt.

In addition, the legislature will be able to provide for short term borrowing on certificates in anticipation of the collection of taxes and other revenues for any fund of the state. These certificates would be guaranteed by a levy on all taxable property, if necessary.

The amendment does not change other sections of the constitution which permit bonds for highways, airports, rural credit, or the veterans' bonus.

AMENDMENT NO. 3
120-DAY LEGISLATIVE SESSIONS

Amendment No. 3 authorizes a one hundred and twenty day regular session of the legislature each odd-numbered year and deletes the present ninety day limit.

In addition, during the last thirty days of the session no new bill could be introduced without the request of the governor. At present, the constitution has a similar twenty day limitation.

OLD AND NEW WORDING FOR ALL THREE AMENDMENTS

The form of the existing sections and the form of the sections as they will read, if amended, are attached as part of this statement of purpose and effect.

Very truly yours,
WALTER F. MONDALE
Attorney General

AMENDMENT NO. 1 — INVESTMENT OF TRUST FUNDS FOR SCHOOLS

Present Form of Sections

ARTICLE VIII

Section 2. The proceeds of such lands as are or hereafter may be granted by the United States for the use of schools within each township of this State shall remain a perpetual school fund to the State; and not more than one-third (⅓) of said lands may be sold in two (2) years, one-third (⅓) in five (5) years, and one-third (⅓) in ten (10) years; but the lands of the greatest valuation shall be sold first; provided, that no portion of said lands shall be sold otherwise than at public sale. The principal of all funds arising from sales or other disposition of lands or other property, granted or entrusted to this State in each township for educational purposes, shall forever be preserved inviolate and undiminished; and the income arising from the lease or sale of said school land shall be distributed to the different townships throughout the State, in proportion to the number of scholars in each township, between the ages of five and twenty-one years; and shall be faithfully applied to the specific objects of the original grants or appropriations.

A revolving fund of not over two hundred fifty thousand dollars ($250,000) may be set apart from the fund derived from the sale of school and swamp lands, to be used in constructing roads, ditches and fire breaks in, through and around unsold school and swamp lands and in clearing such lands, such fund to be replenished as long as needed from the enhanced value realized from the sale of such lands so benefited.

Suitable laws shall be enacted by the legislature for the safe investment of the principal of all funds which have heretofore arisen or which may hereafter arise from the sale or other disposition of such lands, or the income from such lands accruing in any way before the sale or disposition thereof, in interest-bearing bonds of the United States, or of the State of Minnesota, issued after the year one thousand eight hundred and sixty (1860), or of such other state as the legislature may, by law, from time to time direct.

All swamp lands now held by the State, or that may hereafter accrue to the State, shall be appraised and sold in the same manner and by the same officers, and the minimum price shall be the same less one-third (⅓), as is provided by law for the appraisement and sale of the school lands under the provisions of title one (1) of chapter thirty-eight (38) of the General Statutes. The principal of all funds derived from sales of swamp lands, as aforesaid, shall forever be preserved inviolate and undiminished. One-half (½) of the proceeds of said principal shall be appropriated to the common school fund of the State. The remaining one-half (½) shall be appropriated to the educational and charitable institutions of the State in the relative ratio of cost to support said institutions.

Section 5. The permanent school funds of the State may be loaned upon interest at the rate of five (5) per cent per annum to the several counties or school districts of the State, to be used in the erection of county or school buildings. No such loan shall be made until approved by a board consisting of the governor, the state auditor and the state treasurer, who are hereby constituted an investment board for the purpose of the loans hereby authorized; nor shall any such loan be for an amount exceeding three (3) per cent of the last preceding assessed valuation of the real estate of the county or school district receiving the same. The state auditor shall annually, at the time of certifying the state tax to the several county auditors, also certify to each auditor to whose county, or to any of the school districts of whose county, any such loan shall have been made, the tax necessary to be levied to meet the accruing interest or principal of any such loan, and it shall be the duty of every such county auditor forthwith to levy and extend such tax upon all the taxable property of his county, or of the several school districts, respectively, liable for such loans — as the case may be — and in all such cases the tax so assessed shall be fifty (50) per cent in excess of the amount actually necessary to be raised on account of such accruing principal or interest. It shall be levied, collected and paid into the county and state treasuries in the same manner as state taxes, and any excess collected over the amount of such principal or interest accruing in any given year shall be credited to the general funds of the respective counties or school districts. No change of the boundaries of any school district after the making of any such loan shall operate to withdraw any property from the taxation herein provided for; nor shall any law be passed extending the time of payment of any such principal or interest, or reducing the rate of such interest, or any manner waiving or impairing any rights of the of the State in connection with any such loan. Suitable laws, not inconsistent with this amendment, may be passed by the legislature for the purpose of carrying the same into effect.

Section 6. The permanent school, permanent university and swamp land funds of this state may be loaned to or invested in the bonds of any county, school district, city, town, or village of this state and in first mortgage loans secured upon improved and cultivated farm lands of this state, but no such investment or loan shall be made until approved by the board of commissioners designated by law to regulate the investment of the permanent school fund and the permanent university fund of this state; nor shall such loan or investment be made when the bonds to be issued or purchased would make the entire bonded indebtedness exceed 15 per cent of the assessed valuation of the taxable property of the county, school district, city, town, or village issuing such bonds; nor shall any such farm loan or investment be made when such investment or loan would exceed 30 per cent of the actual cash value of the farm land mortgaged to secure said investment; nor shall such investments or loans be made at a lower rate of interest than two per cent per annum, nor for a shorter period than one year nor for a longer period than 30 years and no change of the town, school district, city, village, or county lines shall relieve the real property in such town, school district, county, village or city in this state at the time of issuing such bonds from any liability for taxation to pay such bonds.

AMENDMENT NO. 1 — INVESTMENT OF TRUST FUNDS FOR SCHOOLS

As Sections will read if amended

ARTICLE VIII

Sections 2 and 5 are consolidated into a new section 4, which section shall read as follows:

Section 4. The permanent school fund of the state shall consist of (a) the proceeds of such lands as are or hereafter may be granted by the United States for the use of schools within each township, (b) the proceeds derived from swamp lands granted to the state, and (c) all cash and investments now or hereafter credited to the permanent school fund and to the swamp land fund. No portion of said lands shall be sold otherwise than at public sale, and in the manner provided by law. All funds arising from the sale or other disposition of such lands, or income accruing in any way before the sale or disposition thereof, shall be credited to the permanent school fund. Within limitations prescribed by law, to secure the maximum return thereon consistent with the maintenance of the perpetuity of the fund, such fund may be invested in: (1) interest bearing fixed income securities of the United States and of its agencies, fixed income securities guaranteed in full as to payment of principal and interest by the United States, bonds of the state of Minnesota, or its political subdivisions or agencies, or of other states, but not more than 50 percent of any issue by a political subdivision, shall be purchased; (2) stocks of corporations on which cash dividends have been paid from earnings for five consecutive years or longer immediately prior to purchase, but not more than 20 percent of said fund shall be invested therein at any given time, nor more than one percent in stock of any one corporation, nor shall more than five percent of the voting stock of any one corporation be owned; (3) bonds of corporations whose earnings have been at least three times the interest requirements on outstanding bonds for five consecutive years or longer immediately prior to purchase, but not more than 40 percent of said fund shall be invested in corporate bonds at any given time. The percentages referred to above shall be computed using the cost price of the stocks or bonds. The principal of the permanent school fund shall be perpetual and inviolate forever; provided, that this shall not prevent the sale of any public or private stocks or bonds at less than the cost thereof to the fund; however, all losses not offset by all gains, shall be repaid to the fund from the interest and dividends earned thereafter. The net interest and dividends arising from the investment thereof shall be distributed to the different school districts of the state in proportion to the number of scholars in each district between the ages of five and twenty-one years. No such investment shall be made until approved by a board of investment consisting of the governor, the state auditor, the state treasurer, the secretary of state, and the attorney general, who are hereby constituted a state board of investment for the purpose of administering and directing the investment of all state funds.

The state board of investment shall not permit the fund to be used for the underwriting or direct purchase of municipal securities from the issuer or his agent.

Section 6. The permanent university fund of this state may be loaned to or invested in the bonds of any county, school district, city, town, or village of this state and in first mortgage loans secured upon improved and cultivated farm lands of this state, but no such investment or loan shall be made until approved by the board of commissioners designated by law to regulate the investment of the permanent school fund and the permanent university fund of this state; nor shall such loan or investment be made when the bonds to be issued or purchased would make the entire bonded indebtedness exceed 15 percent of the assessed valuation of the taxable property of the county, school district, city, town, or village issuing such bonds; nor shall any such farm loan or investment be made when such investment or loan would exceed 30 percent of the actual cash value of the farm land mortgaged to secure said investment; nor shall such investments or loans be made at a lower rate of interest than two percent per annum, nor for a shorter period than one year nor for a longer period than 30 years and no change of the town, school district, city, village, or county lines shall relieve the real property in such town, school district, county, village, or city in this state at the time of issuing such bonds from any liability for taxation to pay such bonds.

Article VIII, Sections 3, 4, 6, 7, and 8 are renumbered 2, 3, 5, 6, and 7, respectively; and old sections 2 and 5 are repealed.

AMENDMENT NO. 2 — STATE DEBT AUTHORITY: BUILDINGS AND OTHER PURPOSES

Present Form of Sections

ARTICLE IX

Section 5. For the purpose of defraying extraordinary expenditures, the state may contract public debts, but such debts shall never, in the aggregate, exceed two hundred and fifty thousand dollars; every such debt shall be authorized by law, for some single object, to be distinctly specified therein; and no such law shall take effect until it shall have been passed by the vote of two-thirds of the members of each branch of the legislature, to be recorded by yeas and nays on the journals of each house respectively; and every such law shall levy a tax annually sufficient to pay the annual interest of such debt, and also a tax sufficient to pay the principal of such debt within ten years from the final passage of such law, and shall specially appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation and taxes shall not be repealed, postponed, or diminished, until the principal and interest of such debt shall have been wholly paid. The state shall never contract any debts for works of internal improvements, or be a party in carrying on such works, except as authorized by Section 16 of Article 9, and by Article 16 of this Constitution, but it may levy an excise tax upon any substance, material, fluid, force or other means or instrumentality, or the business of dealing in, selling or producing any or all thereof, used or useful, in producing or generating power for propelling motor or other vehicles used on the public highways of this State, and shall place two-thirds of the proceeds of such tax in the Trunk Highway Fund provided for in Section 2 of said Article 16, and one-third thereof in the State Road and Bridge Fund, and further except in cases where grants of land or other property, shall have been made to the State, especially dedicated by the grant to specific purposes, and in such cases the state shall devote thereto the avails of such grants, and may pledge or appropriate the revenues derived from such works in aid of their completion.

Section 6. All debts authorized by the preceding section shall be contracted by loan on State bonds of amounts not less than five hundred dollars each on interest, payable within ten years after the final passage of the law authorizing such debt; and such bonds shall not be sold by the State under par. A correct registry of all such bonds shall be kept by the treasurer, in numerical order so as always to exhibit the number and amount unpaid and to whom severally made payable.

Section 7. The State shall never contract any public debt, unless in time of war, to repel invasion or suppress insurrection, except in the cases and in the manner provided in the fifth and sixth sections of this article.

Section 14. (a) For the purpose of erecting and completing buildings for a hospital for the insane, a deaf, dumb and blind asylum, the state prison, the legislature may by law increase the public debt of the State to an amount not exceeding $250,000, in addition to the public debt already heretofore authorized by the Constitution; and for that purpose may provide by law for issuing and negotiating the bonds of the State, and appropriate the money only for the purpose aforesaid; which bonds shall be payable in not less than ten nor more than thirty years from the date of the same, at the option of the State.

AMENDMENT NO. 2 — STATE DEBT AUTHORITY: BUILDING AND OTHER PURPOSES

As Sections will read if amended

ARTICLE IX

Section 5. The state shall never be a party in carrying on works of internal improvements, except as authorized by this Constitution, but it may levy an excise tax upon any substance, material, fluid, force, or other means or instrumentality, or the business of dealing in, selling, or producing any or all thereof, used or useful, in producing or generating power for propelling motor or other vehicles used on the public highways of the state, and shall place the proceeds of such tax in the highway user tax distribution fund provided for in this Constitution, and further except in cases where grants of land or other property shall have been made to the state, especially dedicated by the grant to specific purposes, and in such cases the state shall devote thereto the avails of such grants, and may pledge or appropriate the revenues derived from such works in aid of their completion.

Section 6. Subdivision 1. The state may contract public debts, for which its full faith, credit, and taxing powers may be pledged, at such times and in such manner as shall be authorized by law, but only for the purposes and subject to the conditions stated in this section.

Subd. 2. Public debt may be contracted:

(a) for the acquisition and betterment of public land and buildings and other public improvements of a capital nature, and to provide moneys to be appropriated or loaned to any agency or political subdivision of the state for such purposes; provided any law authorizing such debt is adopted by the vote of at least three-fifths of the members of each branch of the legislature;

(b) as authorized in any other section or article of this Constitution;

(c) for temporary borrowing as authorized in subdivision 3;

(d) for refunding outstanding bonds of the state or any of its agencies, whether or not the full faith and credit of the state has been pledged for the payment of such bonds; and for refunding certificates of indebtedness authorized by the legislature prior to January 1, 1963.

Subd. 3. As authorized by law, certificates of indebtedness may be issued during each biennium, commencing on July 1 in each odd-numbered year and ending on and including June 30 in the next odd-numbered year, in anticipation of the collection of taxes levied for and other revenues appropriated to any fund of the state for expenditure during that biennium.

No such certificate shall be issued with respect to any fund when the amount thereof with interest thereon to maturity, added to the then outstanding certificates against the same fund and interest thereon to maturity, will exceed the then unexpended balance of all moneys which will be credited to that fund during the biennium under existing laws; except that the maturities of any such certificates may be extended by refunding to a date not later than December 1 of the first full calendar year following the biennium in which such certificates were issued. If moneys on hand in any fund are not sufficient to pay all non-refunding certificates of indebtedness issued on such fund during any biennium and all certificates refunding the same, plus interest thereon, which are outstanding on December 1 immediately following the close of such biennium, the state auditor shall levy upon all taxable property in the state a tax collectible in the then ensuing year sufficient to pay the same on or before December 1 of such ensuing year, with interest to the date or dates of payment.

Subd. 4. Public debt other than certificates of indebtedness authorized in subdivision 3 shall be evidenced by the issuance of the bonds of this state. All bonds issued under the provisions of this section shall mature within not more than 20 years from their respective dates of issue, and each law authorizing the issuance of such bonds shall distinctly specify the purpose or purposes thereof and the maximum amount of the proceeds authorized to be expended for each purpose. The state treasurer shall maintain a separate and special state bond fund on his official books and records, and when the full faith and credit of the state has been pledged for the payment of such bonds the state auditor shall levy each year on all taxable property within the state a tax sufficient, with the balance then on hand in said fund, to pay all principal and interest on state bonds issued under the provisions of this section, due and to become due within the then ensuing year and to and including July 1 in the second ensuing year. The legislature may by law appropriate funds from any source to the state bond fund, and the amount of moneys actually received and on hand pursuant to such appropriations prior to the levy of such tax in any year, shall be used to reduce the amount of tax otherwise required to be levied.

Section 7. The state shall never contract any public debt, unless in time of war, to repel invasion or suppress insurrection, except in the cases and in the manner provided and referred to in the sixth section of this article. Public debt includes any obligation payable directly, in whole or in part, from a tax of state-wide application on any class of property, income, transaction or privilege, but does not include any obligation which is payable from revenues other than taxes.

Minnesota Constitution, Article IX, Section 14, is hereby repealed.

AMENDMENT NO. 3 — 120 DAY LEGISLATIVE SESSIONS

Present Form of Section

ARTICLE IV

Section 1. The legislature shall consist of the Senate and House of Representatives, which shall meet biennially at the seat of government of the State, at such time as shall be prescribed by law, but no session shall exceed the term of ninety (90) legislative days; and no new bill shall be introduced in either branch, except on the written request of the governor, during the last twenty (20) days of such sessions, except the attention of the legislature shall be called to some important matter of general interest by a special message from the governor.

AMENDMENT NO. 3 — 120 DAY LEGISLATIVE SESSIONS

As Section will read if amended

ARTICLE IV

Section 1. The legislature shall consist of the Senate and House of Representatives. The senate shall be composed of members elected for a term of four years and the house of representatives shall be composed of members elected for a term of two years by the qualified voters at the general election.

The legislature shall meet at the seat of government in regular session in each odd numbered year at the time prescribed by law for a term not exceeding 120 legislative days; and no new bill shall be introduced in either branch, except on the written request of the Governor, during the last 30 days of such sessions.

A special session of the legislature may be called as otherwise provided by this constitution.

Stanely Torgerson Is Featured In Concordia Paper

EDITOR'S NOTE: The following feature article appeared in a recent issue of the Concordia Student, a campus publication at Concordia College in Morhead. It is reprinted because of its local interest.

When one thinks of "Torgersons" around this campus, the Thief River Falls clan usually comes to mind. When one thinks of Stanley (Slug) Torgerson, one invariably thinks of the Thief River Falls clan.

Stan is the fourth of seven children to make his way to Concordia, having been preceded by sisters, Norma, Carol and Janet. Another sister, Kathleen, joined the class of '66 this fall.

When asked the usual question of why he came here, the answer was obvious: "Concordia is sort of a tradition in our family — affiliated with our church. . . It seemed the only proper thing to do, I guess. I also knew it was well respected as a musical institution."

This quotation points to Stan's major — music. Coupled with his math and chemistry minors, Stan would appear ready for most any phase of teaching — which is his plan.

In looking to his extra-curricular activities, one would most certainly point to him as a musical "nut"; he's been in chapel choir for four years, oratorio choir, three musicals, the F-M Symphony, homecoming shows, M S P-STP, and, like his predecessors, play. His comment: "Being a music major would end this list I guess."

One interesting sideline Stan's gone into is piano-tuning, a craft he picked up one summer at McPhail in Minneapolis. With his perfect pitch, this work was a natural field of labor for him.

Stanley Torgerson . . sometimes regarded as "one of those music majors, you know". . . more often looked at as a person with music genius waiting to be developed. One of "those Torgersons," yet an individual among them. . .

His closing comment was typical of something he might say: "One thing I wish I'd done when I was here — played football!" *As a 6'2" 200-pounder, it figures,* but a music-majoring end?

MUSIC MAJOR at Concordia college in Moorhead is Stanley Torgerson, son of Mr. and Mrs. Carl Torgerson of rural Thief River Falls. He has been active in a number of college and area music activities and is the fourth of seven brothers and sisters to attend the school. A feature story in the college paper described him as a "musical nut" in description of his intense interest in all phases of music activity.

Minnesota Nurses Set Convention

Sessions In St. Paul Hotel Slated October 15 thru 17

The 57th annual convention of the Minnesota Nurses' Association will be held October 15-17 at the St. Paul Hotel, St. Paul. Approximately 1,000 nurses from throughout the state are expected to attend.

Official delegates from this area are Mrs. Rosemary Henderson, 1st district president; Mrs. Blanche Gustafson and Mrs. Blanche Ellingson.

Speaking on "ANA: Build It To Work," at the first general program meeting Monday afternoon will be Mrs. Margaret B. Dolan, newly-elected president of the American Nurses' Association.

The 300-member house of delegates will be called to order Tuesday morning by the MNA president, Lyla Niederbaumer, director of nursing service, Bethesda Lutheran hospital, St. Paul.

Elizabeth Hagen, associate professor, Teachers College, Columbia University, New York City, will highlight recent research she has completed in her talk "Nursing Leadership — Fact or Fiction" at the Tuesday afternoon program.

The noon luncheon speakers will include George Grim, newspaper and TV personality, on Monday; Dr. Paul Cashman, associate professor, University of Minnesota, who will discuss "Is Your Message Getting Through?" at the Tuesday luncheon; and Helen J. Weber, head of nursing service education at Indiana University on Wednesday. Miss Weber's topic is "Making Rounds With a Purpose."

Employ Handicapped Week Being Observed

National "Employ the Physically Handicapped" Week will be observed this year during the period October 7 through October 13. The purpose is to focus the attention of employers upon the advantages of hiring handicapped workers.

The Thief River Falls office of the Minnesota state employment service is spearheading the observance of the week in this area. Other cooperating agencies include the department of vocational rehabilitation, the Veteran's Administration and the Veteran's Employment Service. These agencies cooperate in the training, rehabilitation and job placement of the handicapped worker.

The Veteran's Administration, which deals with veterans, and the vocational rehabilitation division, concentrate on preparing these handicapped workers to earn their own livelihood.

During the past few years, over 2,000,000 handicapped workers have been placed on jobs for which they were trained through the efforts of these agencies. An important consideration also, is the fact that thousands of dollars have been saved by keeping these men off the relief and welfare rolls of the nation.

Surveys made by Goverment Commissions, Labor Unions, and private industries have proven performance and work records:

1. The handicapped worker's production rate is as good or better than that of able bodied workers.
2. Handicapped workers have a lower rate of turnover.
3. The safety record of the handicapped worker is about the same as that of the able bodied worker, though even here they have a lower rate for disabling injuries than the unimpaired worker.
4. Handicapped workers absentee records compare favorably with that of the unimpaired worker.

Handicapped persons who are seeking full time employment are invited to contact the State Employment Office at 316 North LaBree Avenue, Thief River Falls, Minnesota, for placement assistance. The office hours are Monday through Friday, 8 a. m. to 5 p. m.

Employers who have job openings for which a handicapped worker may qualify are invited to call MUrdock 1-1100, Thief River Falls, and a representative of the State Employment Service will be glad to assist in locating a suitable applicant for any job opening.

Air-conditioned Piggyback Cars Displayed by Soo

The Soo Line is now making available to shippers an air conditioned piggyback service and two of the units are on the siding near the freight house for inspection by interested shippers. They will be here for about a week, according to Vern Erickson, Soo Line general agent, and will be opened for inspection by appointment at the freight house.

The two 35 ft. Trailmobiles are on an 85 ft. flatcar, and are equipped for belt line unloading of such commodities as potatoes. Each unit has a Transicold heating and cooling system which maintains a temperature recording device that may be checked from the outside. The temperature is charted during the period of shipment. This type of air conditioned piggyback service has proven itself to be very practical, Mr. Erickson states.

Vandals Are Busy in Red Lake Falls

Vandals or children who are fast getting out of hand in Red Lake Falls lobbed rocks through almost all the windows in the county fair barn buildings Tuesday night, says the RLF Gazette.

One of the school buses housed therein also sustained a broken window from one of the rocks. The Boy Scout shack in recent weeks has also been the target of vandals and also the cabin and entryway at the archery range.

Fire Prevention to Be Theme Oct. 7 to 13

More intensive fire prevention efforts for the year ahead were urged today by Lewis A. Vincent, general manager of the National Board of Fire Underwriters, on the eve of Fire Prevention Week.

Despite the excellent work of fire safety groups, fire marshals, fire departments, and service organizations, fire losses continue to mount, said Mr. Vincent. "Last year fire losses in the United States rose to an estimated $1,209,012,000, the greatest dollar loss ever recorded and an increase of 9.1 per cent over 1960," he declared. "It was the fifth consecutive year in which fire losses had exceeded a billion dollars."

Contributing to the rise were:

1—A continuing increase in the number of large loss fires ($100,000 or higher).

2—Continued expansion of the economy and the inflationary trend, which is reflected in the rising cost of materials, goods and services.

3—The multi-million dollar Bel-Air-Brentwood conflagration in Los Angeles County last November.

"These factors contributed to the large loss in 1961," Mr. Vincent said, "but the chief cause of fire is carelessness.

"In fact, the National Board estimates that three out of every four fires are the result of carelessness.

"That is why we observe Fire Prevention Week which falls on October 7-13 this year. The purpose of Fire Prevention Week is to remind us of the terrific toll that fire takes, much of it needless, and to point out ways by which fire can be prevented.

"Last year, 11,700 persons lost their lives in fires. Thousands more were injured.

"Let us make Fire Prevention Week this year a time of renewed fire-safety-education that will continue throughout the year," Mr. Vincent said.

how's this for exploding the myth that cars have to be expensive to look it! Tempest '63
Maybe you can tell the difference between Pontiac's Tempest (especially that Le Mans) and the high-priced jobs. Besides having a 4 that acts like a V-8, Tempest sports a new 260-hp V-8* that acts like nothing you ever got your hands on before. And besides its beautiful balance, Tempest has Wide-Track this year. And self-adjusting brakes and a tachometer* and fetching style and all kinds of niceties that'll make your Tempest smoother and tougher. About all it doesn't have is a big fat price tag. CLASSY STYLE is displayed by this two-year-old heifer which will be offered at the Top of the Nation Dairy Sale to be held Thursday, October 18, at the livestock pavilion on the Pennington county fairgrounds in Thief River Falls. The animal, which produced her first calf Monday, is a half-sister to last year's top selling animal which was also consigned by Dale Svendsgaard of Goodridge and sold for $525. Baron Esther, shown above, was sired by Baron J. Captain and is out of a dam which produced 580 pounds of butterfat on her last lactation. Svendsgaard is also consigning another half-sister to last year's sale-topper to this year's sale.

40 Animals Consigned

Quality On Sale at Top of Nation Event

New consignors, high records and 4-H and FFA project animals will highlight the 1962 Top of the Nation Dairy Sale to be held Thursday, October 18, at the livestock pavilion on the Pennington county fairgrounds in Thief River Falls. Forty head of high quality dairy animals will be offered to the highest bidder at the fourth annual event.

Of special interest this year will be the 10 yearlings and 5 calves to be offered as project animals for 4-H and FFA members. These animals will be from purebred dams averaging 450 pounds of butterfat or more or grade cows averaging 400 or more pounds of butterfat. They have been carefully selected and comprise some of the top animals available in the herds from which they come.

Princess Kay of the Milky Way, Kathleen Hjelle of Argyle, will make an appearance at noon and tell of her role in the state's dairy industry. Miss Hjelle was crowned Northwest Dairy Princess at Thief River Falls in June and was given the state title at the Minnesota State Fair.

New consignors to the sale this year include Gustav Gunstenson, Oklee; Curtis Skrutvold, Roseau; Art Vagle, Lancaster; Clifford Rhen and Sheldon Erickson, Badger; John Burtness, Art Stenberg and Wallace Relerson, Thief River Falls; Darrow Lundeen, Trail; G. C. Revier and Sons, Waubun; Mordy Morrison, Goodridge; and Harvey Baker, Lake Bronson.

Dairymen who have consigned animals to previous sales and are offering some of their best animals again this year are Donald Craigmile and Harry Nelson, Hallock; LaVern Clow, Orleans; Selmer Nordine, Karlstad; Dale Svendsgaard, Goodridge; Clyde Christensen and Donovan Bruggeman, Thief River Falls; Donald Walker, Red Lake Falls; George Erickson, Roseau; and Warren Gast, Beltrami.

Cites Top Animals

Martin Carrico, sale mgr. of the Top of the Nation Dairy Association, sponsor of the sale, listed the following cattle as among the top animals consigned by the following dairymen:

Curtis Skrutvold, Roseau, has consigned a three-year-old cow with a record this year of 15,380 pounds of milk and 607 pounds of butterfat and due to freshen November 13.

Dale Svendsgaard, Goodridge, has consigned two half-sisters to the 1961 sale's top selling cow. Both are heifers, one due to freshen November 1 and one with calf at foot, and are from dams averaging 567 and 580 pounds of betterfat.

Donald Craigmile, Hallock, offers a two-year-old with calf at foot from a dam with records of 562, 503 and 531 pounds of fat.

Donald Walker, Red Lake Falls, consigned a springing heifer from a dam with a three-year-old

National Guard in Recruiting Drive

The Thief River Falls National Guard unit is starting an intensive campaign to recruit new men into its ranks. High school seniors, seventeen years and over, are encouraged to look into the local unit's plan to complete their military obligation. There are three choices offered to the individual who has such an obligation. (1) Join the regular service for a period of three to four years. (2) Wait until drafted; serve two years in the active army, and one and one half years in the ready reserve. (3) Enlist in the local guard unit, serve six months on active duty, and the reminder of your obligation can be spent attending weekly drills in your home community.

"When you enlist in the Army National Guard, you spend six months in the active army" according to Captain Richard Edlund. How long you remain an active Guardsman depends on your age, he says. Young men between the ages of 17 and 18½ can reduce their term of obligation by joining the local unit, and if they go on six months active duty before reaching eighteen and one half years of age, will serve only three years in the National Guard. This means a total of only three and one half years. In short, it is possible for an individual to finish his ready reserve service at 20½ years of age.

If you are over 18½ but not yet

Klopp Bound Over To Dist. Court In Red Lake Falls

Bound over to district court in Red Lake county and released on $1,000 bond Wednesday was David Klopp of Thief River Falls. He is charged with criminal negligence as the driver of a car in which Shirley Swenson of this city was killed September 1.

Judge Glenn Fellman, who presided at the preliminary hearing in the criminal division of probate court at Red Lake Falls Wednesday, stated that the district court term will begin at Red Lake Falls on October 16. Charles Boughton, Red Lake county attorney, will prosecute the case with Padden and Dickel, law firm of Crookston, representing the defendant.

Policemen's Ball Set November 2

Memorial Fund Started for Camping Program

Thief River Falls Police Relief association will sponsor the annual Policemen's Ball on Friday, November 2. This year 50 per cent of the proceeds from the ticket sale will go to a specially-created Sgt. Donald Myers Memorial Fund and will be used to send needy and deserving youngsters to summer camp.

The annual ball will include a dance for adults at the Eagles Hall and a teenage dance in the city auditorium. Tickets are on sale for one dollar each for either dance. Remaining proceeds go into the association's general fund for use in support of other worthwhile community activities.

Plans are being made by the association to have school, church or civic organizations propose the names of youngsters who could benefit from attending summer camp but are financially unable to do so. The association would then screen the proposed candidates on the basis of whatever funds are available.

Sgt. Myers was at one time juvenile officer for the local police department and was fatally wounded early this year in the performance of duty.

4 LHS Seniors Receive Letters of Commendation

Four seniors at Lincoln high school have received letters of commendation from the National Merit Scholarship Corporation, according to Richard Edlund, senior high school principal. The are John Aune, Keith Hanson, Kathleen Hartje and Richard Thompson.

Letters of commendation are based on the performance of students in the National Merit Scholarship Qualifying Test. About 28,700 students throughout the nation received the letters in recognition of their performance although they did not reach the status of semi-finalists.

"The commended students and semi-finalists comprise about two per cent of all high school seniors," stated John M. Stalnaker, president of the corporation. "This certainly signifies noteworthy accomplishment by all of these bright youngsters."

Burning Leaves On City Streets Is Prohibited

Residents of Thief River Falls are reminded of the city ordinance which prohibits the burning of leaves on city streets and provides a penalty for violation of the ordinance. An advertisement in today's *Times* calls attention to the ordinance which was passed to protect bituminous surfaced streets and prevent fire hazards.

Mrs. A. Lendobeja Heads Pennington Co. Home Council

Other Officers Also Elected at Meeting in Court House Tuesday

Mrs. Adam Lendobeja, Smiley Homemakers Club, was re-elected president of the Pennington County Home Council Tuesday, October 9, at its meeting held in the courthouse. Mrs. Gil Sannes, North, was elected as vice president; Mrs. Harry Sjulson, St. Hilaire, secretary; and Mrs. Odin Hanson, Silverton, treasurer.

Another item of business was selection of three "On-Your-Own" lessons. They are: "Before you Make a Will, Think About It"; "Foods from the Electric Frying Pan," and "Decorating With House Plants". Each club can give all three or as many of the three as they wish.

The open lesson on Christmas ideas will be given November 27 in the city Auditorium. At this meeting each homemaker is asked to bring some Christmas idea. This meeting is open to all those interested.

December 13 was set for the Home Councilors' Christmas party. On the committee are Mmes. James Erickson, Happy Homemakers; Ernest Swanson, Highlanding; Arnold Gunderson, Rocksbury; Oscar Houske, Smiley III; Ernest Droppo, Helperettes; and Don Omdahl, Happy Homemakers.

It was voted to have a short educational program at each council meeting.

A Seed and Feed Show committee was selected to assist in making plans for the homemakers program at this event. Those who will serve are Mmes. Sheldon Joyner; Edgar Naplin, Black River; and Mrs. Ed Koglin, Kratka.

Nor. Chevrolet Co. Rents Building of Forkenbrock Co.

The Northern Chevrolet has rented the building formerly occupied by the Forkebrock Motor Co. on Horace Ave. and will use it as a sales and display room for both new and used cars and trucks. The company is holding an open house in its new quarters tomorrow, Friday, October 12, serving coffee and doughnuts.

Area Hospital Auxiliaries in Meeting Here

Mahnomen Woman Named President at Session Wednesday

Mrs. L. C. Goldsmith of Mahnomen was elected chairman of the District One Hospital Auxiliary at the annual meeting held Wednesday in Thief River Falls. She succeeds Mrs. Russell Maves of Crookston as head of the organization which is comprised of hospital auxiliaries in northwestern Minnesota.

Other officers elected at the session held in the American Legion club rooms were Mrs. James Wilson, Park Rapids, vice chairman, and Mrs. Kenneth Johnstad, Mahnomen, secretary-treasurer. Northwestern Hospital Auxiliary of Thief River Falls was host to the session, attended by about 120 delegates.

Also meeting in conjunction with the auxiliary were hospital administrators from the district. Approximately 30 gathered at Northwestern hospital for a morning business session and then joined the auxiliary for the noon luncheon and afternoon discussion program.

"Let's Join Hands Across the Miles" was the theme of the program. Mrs. Irene Foster, director of voluntary services at University Hospital, Minneapolis, served as moderator for the panel discussion.

Other panel members included T. Hagen, Bethesda Hospital, Crookson; E. L. McMillan, Kittson War Veterans Hospital, Hallock; Miss Myrtle Skvog, Bemidji hospital; Norman Peterson, Northwestern hospital, Thief River Falls, Sister Bernardo, St. Ansgar hospital, Moorhead; Sister St. Marie, St. Joseph hospital, Park Rapids; and Glenn Taylor, executive secretary of the Minnesota hospital association.

Bids Are Invited on Highway 2 Job

The Minnesota highway department has announced that eight projects will be contained in the letting to be held at its central offices October 26. The jobs will be located in Anoka, Hennepin, Polk and Ramsey counties.

The work will consist of grading, construction of two bridges, installation of traffic signs and devices and the removal of buildings from rights of way of future interstate highways 94, 35W and 35E, and state trunk highways 47, 2 and 5 in their respective counties.

The projects include one in Polk County. TH 2 — Demolition or removal of buildings from the right of way of TH 2 in Crookston.

Big Boon To Breeders

Alex Wald Builds Market For Good Yorkshire Hogs

by Marvin Lundin—
City Editor

With farmers in the area becoming increasingly interested in the profits to be made by producing feeder pigs, quality breeding stock is becoming more and more in demand. Attempting to build a farming enterprise on this demand is Alex Wald, who farms 12 miles southeast of Thief River Falls, just west of highway 59 in Wyandotte township.

Wald farms more than 1,000 acres, including 480 of which he owns, and uses a crop rotation plan with legumes for plow-down. Gradually the lure of hog production has led him to devote more time to this enterprise and the quality of the animals he has shows the value of careful selection.

It was in 1957 that he ordered two gilts and a boar from a mail order house with the guarantee that the hogs were not more than two generations from "meat certified" stock. Since then he has kept his own gilts, purchasing additional boars for use in his care-

Board Reviews Letters

Vocational School In Jeopardy, Dept. Says

Letters from two officials in the state department of education expressing concern over the future of the Thief River Falls area vocational-technical school were discussed by the Thief River Falls board of education Monday evening. The two letters were ordered read into the minutes of the meeting so as to become matters of public record.

The letters were received by the district from Robert P. Van Tries, assistant director of vocational education, and S. K. Wick, state director of vocational education. Van Tries recently made a survey of the vocational school and its facilities and discussed the vocational program with Arnt Aune, local director, and members of the instructional staff.

Van Tries, letter, a copy of which was sent to the state director, stated the following:

"In discussing the different facilities you have provided for four of your vocational classes, I found myself feeling concerned about the future of your area vocational program. I realize that we frequently find it necessary to operate in rented facilities and I am fully aware that many of our schools started in this manner. In each instance, however, we could foresee an eventual improvement in the future. I'm wondering if this is the case in Thief River Falls.

"If the area vocational program is to be dispossessed because we approve of rental space thereby freeing this space for other purposes, we are in effect, subsidizing other programs through the use of vocational funds. A portion of the cost of the capital outlay of these facilities has already been charged against the non-resident students attending Thief River Falls.

Expresses Reluctance

"I would be reluctant to see vocational education funds used to provide buildings which, when paid for, revert to general education programs and a new building program undertaken. In the case of rental facilities, vocational funds are, in effect, paying a goodly portion of the taxes which in turn go into the general school fund.

". . . there is also a question of adequate supervision when courses in the vocational program are scattered over the city. I mention this because we discussed new programs and new demands which might be forthcoming under new federal legislation. Under the con-

SENIOR CLASS members at Lincoln high school are preparing for the presentation of "Life With Father," the senior class play, to be presented Tuesday at 8 p.m. in the high school auditorium. In the above photo, in a scene from the play Cora Cartwright (Gretchen Larson), left, and Mrs. Vinnie Day (Gail Stromsmoe) discuss the mutual problems of handling men. Their elaborate costumes are indicative of the type that will be used for staging the production which takes place around the turn of the century.

No. 2 Polio Shots Given on Friday

The second of three scheduled mass polio immunization vaccinations sponsored by the medical staff of Northwestern Hospital will be held at the city Auditorium Friday, October 12, from 10:00 o'clock a. m. to 8:00 p. m. Sabin oral vaccine to combat the type 2 polio virus will be available at a charge of 30 cents to cover the costs. Volunteer workers will make their services available at no cost.

Dr. Paul Wendt, city health officer, who is directing the program, recommends this second vaccination regardless of whether or not the vaccination for the No. 1 virus has been taken. He states that the number 1 shot may be taken after the number 2 and number 3 have been received.

Cooperating women's organizations of the city are the Does, the Mrs. Jay Cees, Eagle's auxiliary, Legion auxiliary, VFW auxiliary and Hospital auxiliary. Organization of these groups has been directed by Mrs. James Winjum, Jr., who is a registered nurse. A group of registered and practical nurses, practicing and non-active, will be directed by Mrs. Margaret Race assisted by Miss Helen Black.

Dog Which Bit Policeman Found

Thanks to a good public response to pleas for information, the dog which bit a Thief River Falls police patrolman last week was captured and is now being confined at the city pound.

Final search for the animal started about two miles southwest of the city and the dog was traced for several miles before it reached the Paul Furuseth farm and was locked in the garage. The dog, which bit the patrolman and then escaped, is being kept under observation to assure that it is not rabid.

Mrs. Silas Hanson Awarded Trip to Safety Congress

Silverton 4-H Leader Will Attend Session In Chicago Oct. 28-Nov. 1

Mrs. Silas Hanson, a leader of the Silverton 4-H club, has won a trip to the National Safety Congress it was announced today by the extension office. The Congress will be held in Chicago, October 28 to November 1. Mrs. Hanson is one of five winners named for the state of Minnesota.

One leader will attend Congress from each of the five extension districts. The award is made to a key leader who has promoted and organized safety activities in 4-H club work.

The Silverton 4-H club, in which Mrs. Hanson is a leader along with John Burtness, carried out numerous safety activities. Junior leaders, parents, and members joined in painting old gasoline barrels to be used for garbage cans. This practice followed a county safety study which showed most young people were hurt stepping on, or falling over objects. In addition the club prepared many safety posters for the county fair, and a county booth on safety. Five of their club members participated and presented safety precautions in the farmyard, around livestock, farm machinery, fire prevention and accidents in the home on their radio program.

The Silverton Club members brought to official attention the fact that two county road intersections in their township were

Judith Anderson Weds John Ernest Trochman

Zion Lutheran church of this city was the scene of the mid-September wedding which united Miss Judith Anderson of TRF and John Ernest Trochman of Norfolk, Va. Rev. Leland Steen performed the double-ring ceremony. Decorating the church were fall arrangements of yellow and tangerine mums, carnations, and gladioli.

Miss Anderson's parents are Mr. and Mrs. Harold M. Anderson of this city; parents of the groom are Mr. and Mrs. Ernest Trochman of Newfolden.

Providing traditional wedding music at the organ was Miss Betty Clow of Minneapolis, who also sang "O Perfect Love" in a duet with Miss Orpha Forbregd, also of that city, and a solo, "Wedding Prayer."

The bride was given in marriage by her father. She wore a street-length dress of white brocaded taffeta with a bow in the back, a scalloped neckline, and three-quarter length sleeves. She wore a brief veil, short white gloves, and the groom's gift, a single strand of pearls. The white Bible which she carried was covered in white lace and topped with a lavender orchid, surrounded by miniature white roses.

Her maid of honor, Miss Rita Flom of this city, and bridesmaid, Miss Virginia Anderson, the bride's sister, both wore light green brocaded taffeta street-length dresses with full skirts and short sleeves. They wore beige gloves, hats and shoes, and carried arrangements of yellow and tangerine mums and carnations.

Best man was the groom's brother, David Trochman. Jerry Nelson and Kenneth Carlson, a cousin of the groom, ushered.

The bride's mother wore a two-toned brown two-piece costume; the mother of the groom wore a navy blue suit. Both complemented their costumes with yellow and white carnation corsages.

Following the ceremony, a reception was given in honor of the couple by the bride's parents in the Zion church parlors. Approximately 100 guests attended. Mrs. Charles Richards, great-aunt of the bride, presided as hostess.

The three-tiered bridal cake, topped with a miniature bride and groom enclosed in a heart, and decorated in fall colors, was baked by Mrs. Gil Sannes. It was cut and served by the great-aunt and godmother of the bride, Mrs. John Hustad of Winger, and by the aunt of the groom, Mrs. Walfred Carlson of this city.

Pouring were two aunts of the bride, Mrs. Oscar Tallen of Fosston, and Mrs. Jerry Hustad of Minneapolis. Waitresses were Misses Ginnie Copeland, Mary Lou Flom, and Janice Engen. At the punch bowl was Miss Yvonne Gravely. Opening and arranging gifts were Misses Virginia Hemrich, Orpha Forbregd, and Yvonne Gravely, all student nurses at Deaconess Hospital school of nursing, Minneapolis.

Guests attending were from Minneapolis, Fosston, Winger, Fertile, and Crookston, in Minnesota, and Grand Forks, N. D.

For travel, the bride chose a two-piece brown dress with matching accessories, and a corsage of orchids from her bridal bouquet. The couple honeymooned in Kentucky, Indiana, and the southern tier of states.

The bride, a 1960 graduate of Lincoln high school, is now a senior student at Norfolk, Va. Hospital school of nursing. Her husband is a graduate of Newfolden high school, and is presently a naval aviator based at Norfolk. They are at home at 820 Westover Ave., Apt. 5, in that city.

Virginia Samuelson Is Wed To John Vogt Sept. 15

The University Lutheran Church of Hope in Minneapolis was the scene of the wedding Saturday afternoon, September 15, of Miss Virginia Samuelson, daughter of Mr. and Mrs. Arne Samuelson of Viking, and John Vogt, son of Mr. and Mrs. Fredrick Vogt of White Bear Lake. Rev. David Prew officiated at the double-ring ceremony. The chancel of the church was decorated with ferns and candelabra.

The organist for James Jensen, who sang "O Perfect Love," and chanted "The Lord's Prayer", was Mrs. Margaret Anderson.

The bride, given in marriage by her father, wore a floor-length gown of white taffeta, styled with a lace-trimmed scoop neckline and a fitted bodice also trimmed with lace. The full skirt fell into a chapel train. Her fingertip veil of white illusion fell from a double Swedish crown of pearls and sequins. Her jewelry was a pair of pearl drop earrings. She carried a cascade bouquet of white pompons and white roses.

Mrs. Lowell Kleven was matron of honor. Bridesmaids were Janice and Eileen Carlson, sisters of the bride. They wore street-length dresses of mint green silk shantung with matching shoes and head-pieces, and carried cascade bouquets of bronze pompons and yellow roses. Their jewelry was green earrings, gifts of the bride.

Thomas Vogt, brother of the groom, was his best man. Groomsmen were Warren Vodnals and James Scheiby. James Scheiby and Anthony Busch were ushers. Men of the bridal party wore oxford gray coats and grey striped trousers.

The bride's mother wore a brown print jersey dress with beige accessories and a corsage of yellow roses. The groom's mother wore a silk dress of American Beauty rose with white accessories and a corsage of pink carnations.

A reception was held in the church reception rooms after the ceremony. Approximately 200 guests attended. Hostesses were Mrs. Ronald O'Conner and Miss Sheila Hanson. Miss Carol Alby registered the guests. Mrs. James Urness and Mrs. Clive Moore served punch. Mrs. Ronald Dayton and Mrs. Clarin Fredrickson, aunts of the bride, cut and served the wedding cake. Mrs. Bjarne Westberg and Mrs. Harlan Peterson, also aunts of the bride, poured.

The bride is a graduate of the Fairview school of nursing in Minneapolis, where she is presently employed. The groom graduated from the U of M, and at present is doing post-graduate work at the U, where he is majoring in English and speech.

After a wedding trip to Canada and the North Shore Drive, the couple are making their home at 2318 25th Avenue South, in Minneapolis.

Warren Couple Host at Triple Celebration

The Clayton Pearson home at Warren was the scene on Sunday, October 7, of a three-fold observance, the first birthday of little Tara Van Pearson, a shower for Colleen Rud, and a family reunion.

A pot-luck dinner was served.

Those present were Colleen Rud, Mr. and Mrs. Melly Johnson, Mr. and Mrs. Clayton Pearson, Scott, Penny and Tara; Mrs. Alma Pearson, Mr. and Mrs. Charlie Rud and family; Mrs. Gordon James and children, Mr. and Mrs. Arne Andreason, Mrs. Marie Engen, Mrs. Lenore Rud, Frederick Rud, Mr. and Mrs. Ingvold Efterfield of Argyle, Mr. and Mrs. Rodney Efterfield and children of Mekinock, N. D., William Johnson, Alvarado, Mr. and Mrs. C. H. Belswinger, Mrs. Christine Rud, Mrs. Lou Smith, and Mr. and Mrs. Ole Sande, all of this city; Mr. and Mrs. David Johnson and family, Roseau; Martin Rud and Jenny Sande of Crookston, and Mr. and Mrs. Syver Olson and Elof Rud, of Tacoma, Wash.

Mrs. Albert Swanson Is Campanula Hostess

Campanula Garden Clubbers, meeting on Tuesday evening at the Albert Swanson home in this city, answered roll call by naming an ornamental shrub.

Princess Kay To Appear in T.R.F. October 18 & 19

Kathleen Hjelle of Argyle, who carried Region One hopes into the state dairy princess contest, will return to Thief River Falls next week as Princess Kay of the Milky Way, ambassadress of good will for the Minnesota dairy industry. The homecoming will be part of Princess Kay's job and also a part of Northwest Town and Country Days sponsored by the Thief River Falls Chamber of Commerce.

On Thursday, October 18, Princess Kay will speak to an assembly of girls at Lincoln high school at 11:40 a. m. and then will serve milk in the school cafeteria through the lunch hour. At 1 p. m. she will make an appearance at the Top of the Nation Dairy Sale to be held at the livestock pavilion on the Pennington county fairgrounds.

Completing the second phase of her two-day return to this city, Kathy will appear on Friday from 10 to 11 a. m. at Hartz Supermarket, 11 a. m. to noon at Union State Bank, 1 to 2 p. m. at Northern State Bank; 3 to 4 p. m. at Stan and Otto's Red Owl; and 4 to 5 p. m. at Piggly Wiggly Supermarket. She will be serving free dairy foods samples during all her appearances Friday.

It was on June 12, during Northwest Dairy Day in Thief River Falls, that Kathy was crowned Northwest Dairy Princess. At state fair time she became the pride of the state's dairy industry when she was selected as Princess Kay.

Good Will Ambassador

Kathy's activities since winning the state title have been concentrated primarily in the Twin Cities and southern regions of the state. She represents the state's 81,000 dairy farm families, who form the foundation of the state's dairy industry, and all of Minnesota's dairy processors.

The daughter of Mr. and Mrs. Bertil Hjelle of Argyle and the eldest of three children, she is a graduate of Argyle high school. A nine-year 4-H club member, she was Marshall county 4-H style revue queen this year, a member of the dress revue honor court at the state fair and has also been a state champion 4-H poultry showman. She is the second girl from Region One to be named Princess Kay. Diane Schroeder of Rindal was the state's fourth titlist.

Other members of the Hjelle family include 14-year-old Dennis and 16-year-old Susan. The Hjelles farm 160 acres in Marshall county and have Holstein cattle in addition to sheep, poultry, wheat, oats, corn and hay.

The appearance here is a co-operative venture among the Chamber of Commerce, Top of the Nation Dairy association and the Minnesota Dairy Industry committee, state unit of the American Dairy association. The Dairy Foods Festival emphasizes the economy and nutritional value of dairy foods.

Seltz were honored by members of St. John Lutheran church in Thief River Falls and Redeemer Lutheran church of Plummer at a special dinner held Sunday evening at St. John parish hall. The event commemorated 35 years in the ministry for Rev. Seltz and 35 years of marriage for the couple.

Sponsored jointly by the church ladies aid and a committee from the congregation, the dinner was attended by about 200 church members and guests. Guest speaker was Rev. Edwin Bentrup, Fisher, councilor for the Crookston Circuit of the Lutheran Church, Missouri Synod.

Pastors from the circuit were in attendance or sent greetings if unable to attend. Elmer Andersen served as master of ceremonies for the evening and gifts were presented by Robert Benke, chairman of St. John congregation; Art Hagge, Redeemer congregation; and the Seltz children who were home to attend the event.

Included in the program were musical numbers by Wayne and Darrell Zitzow, Terry Timm and Mitchel Kezar. Community singing was conducted by Mrs. Max Jensen and a response was given to greetings by Rev. Seltz. A special cake, baked in the form of an open Bible, served as the centerpiece for the serving table as the ladies aid of the congregation served the dinner.

Rev. A. C. Seltz

Rev. Seltz was ordained into the ministry following graduation from Concordia college in St. Paul and Concordia seminary in St. Louis, Mo. He served parishes at Ogema and Calloway, Frazee and Alexandria before coming to Thief River Falls about six years ago. His longest tenure was at Alexandria where he served Zion congregation for 14 years. For the past 11 years he has served as vice president of the Minnesota District and previously was on the board of directors.

Children of the couple who attended the observance were Mrs. Walter (Ruth) Bakke, her husband and family, Detroit Lakes; Alfred Jr., Minneapolis; and Jack, St. Cloud State college. Congratulatory calls were received from Mrs. Paul (Judy) Volz of Nigeria, Africa, and Lt. Roger Seltz, stationed with the U. S. Navy in Naples, Italy.

Employment Office to Conduct Survey on Job Retraining Here

R. S. Eldevik, manager of the Thief River Falls office of the Minnesota state employment service, announced today that a survey will be completed by his office this month to determine occupations in the Pennington county labor market area for which training may be given under the national Manpower Development and Training Act.

The program nationally aims at bridging the gap between oftentimes high unemployment on the one hand and many unfilled jobs, *because of shortages of qualified* workers, on the other.

Qualified unemployed or underemployed workers will be trained at government expense in the skills needed to fill job vacancies. The local survey, along with others in the state, will determine if enough job openings exist in certain occupations in this area (or a combination of areas) to make local, regional or statewide training classes feasible.

The local survey of job openings will begin October 15 and will be completed by the end of October, said Eldevik. The survey will consist of personal contact with various employers to determine known shortages of workers for which employers are currently recruiting; expansion plans which will require new employees and changes in production which will require new skills.

Eldevik emphasized the stake that everyone in the area has in helping to promote fuller employment. He asked that employers in the Pennington county area cooperate in making the information gathered as accurate as possible so that realistic, meaningful training programs may be developed throughout the state.

In some instances, Eldevik said, it may be possible to couple small numbers of job vacancies in a community with similar job openings in other communities, so as to organize some training courses on a regional basis. Consequently, he urged firms taking part in the survey to consider all possibilities, including single job vacancies they have had trouble in filling.

Results of the surveys of job vacancies in the area will be coupled with the qualifications of available unemployed or underemployed workers to try to arrive at a resonable and feasible proposal for training programs locally, or in a larger geographical area. This proposal will then go to state and federal officials for review.

Eldevik said that the Manpower Development and Training Program is being undertaken in Minnesota by the Department of Employment Security and the Department of Education, in cooperation with community groups, trade associations, employers, labor organizations and the public generally. Further details of the program may be obtained at the office of the Minnesota State Employment Service.

Wald Provides High Quality in Breeding Stock

(Continued from page 1)

ful breeding program. The most recent boar purchased was a registered Yorkshire from the Brown & Brown farm at Hampton, Ia. Wald paid $125 to secure the 120-pound animal.

"Right now I keep 20 to 25 sows and plan to farrow about 40 litters of pigs a year," Wald said. "This gives about 300 to 400 little pigs each year. I figure on picking out the best ones to sell for breeding stock to people around the area who are planning on raising feeder pigs."

Wald plans his breeding program so that he has four general farrowing seasons each year. These are planned around his grain farming so that farrowing will not interfere with spring or fall field work. In this way he is able to give closer attention to his pigs during the farrowing season.

Plans Steady Sale

At present it is planned to raise gilts to about 200 pounds for sale to breeders desiring quality stock for feeder pig production. Wald has established a price of $50 each on this stock. The price is not a great deal higher than market value and yet provides enough margin to make the extra work of developing breeder stock profitable. If there is sufficient demand, boars will also be marketed at about 200 pounds.

Wald's operation includes self-feeders where a complete ration is fed according to the age of the pigs in a particular lot. He weans the pigs at four to six weeks of age, places them on starter pellets and then on a grain and concentrate ration. A pressure system provides water free-choice in self-waterers to all lots.

Since disease is a constant threat to hog raisers, Wald has his breeding stock vaccinated for erysipelas twice a year. All pigs are vaccinated for cholera and a single injection is effective for the life of the hog.

Feeder Pig Market

Market for feeder pigs in this area is guaranteed year-around by the twice-monthly pickups made by the Wisconsin Feeder Pig Marketing Cooperative. Statistics from the farm management course offered by the Thief River Falls area vocational-technical school show that feeder pigs provide the greatest return per dollar of investment and per hour of labor of any livestock enterprise in the area. Wald hopes to help breeders start with good stock.

The cooperative also offers breeding stock to interested farmers, but handling and shipping fees increase the cost of such animals above Wald's $50 figure. Type and quality of the Yorkshires produced on the Wald farm is extremely high and the prospects for a successful future in the sale of breeding stock looks bright.

LOADING UP 20 gilts for transportation to his farm at Strathcona is Don Thompson, left, a young farmer who is just getting started in the feeder pig business. Boosting one of the top quality hogs aboard the truck is Alex Wald, rural Thief River Falls farmer who is specializing in the production of breeding stock. Thompson purchased 20 gilts from Wald at $50 each and secured a good foundation of breeding stock for his operation. Wald plans on marketing gilts at 200 pounds for the $50 figure.

Vocational School In Jeopardy Department Says

ditions now present I would find it difficult to advise increasing your present enrollment or adding any new occupational training areas."

Wick Comments

In commenting on Van Tries, letter, Wick stated he was "very much distrubed" and added, "No longer can I point with pride to the accomplishments at Thief River Falls with regard to their area school."

"We received a letter from the parent of a student who attended your auto body training class," Wick's letter continued, "and while he did not condemn the instruction or the school, he did speak very disparagingly about the facilities. I expect we are going to get more letters like this and, ultimately, this is going to have an effect on your enrollment."

Wick's letter noted the progress made by the school following the new addition several years ago. "Now you are going the other direction and I believe it will be disastrous," he said.

"Other area schools are coming into being and we will have 15 in operation by September, 1963. I think students from outside of Thief River Falls are going to gravitate toward these newer schools if they can get in them. This also, will affect your future enrollment and you may find it necessary to close down some of your courses.

"Good students, good training and good placement go hand in hand. Removing any one of the three will eventually destroy your program. It is time to take stock and plan action that will restore good facilities for the area vocational-technical school. If this cannot be done I fear for the future of the program in Thief River Falls."

Other Business

Several proposals suggested to the board by M. R. Hankerson, superintendent of schools, were referred for further study and the presentation of definite proposals. These included the possibility of an assistant for Mrs. Margaret Race, school nurse, and the addition of a reading specialist and speech therapist to the school faculty.

Transportation contracts with rural districts sending pupils to Thief River Falls schools were approved and signed.

Supt. Hankerson was also requested to write a letter to Wells, Denbrook and Associates, instructing them that architectural work done on the airport shop building should be billed to the city of Thief River Falls rather than the school district. The district leases the building from the city.

The board also instructed the superintendent to plan budgeting for payment of special assessments levied by the city for street improvements. These assessments will affect the school tax levy for the coming year.

National Guard in TRF Is Starting Recruiting Drive

(Continued from page 1)

26, you can enlist in the National Guard, take six months' active training, serve five and one half years in the local unit and thus fulfill all your military obligations.

The Thief River Falls National Guard unit serves a large area of northwestern Minnesota and many young men from the area are meeting their military obligation as members of the Thief River Falls unit. Members of the company at the present time come from Red Lake Falls, Brooks, Oklee, Goodridge, Plummer, Grygla, Roseau, Warroad, Greenbush, Middle River, Badger, Newfolden, Strandquist, Karlstad, Warren and Hallock.

Officers and enlisted men of the local unit invite inquiries about National Guard service as a way of meeting a preparedness obligation that appeals to many.

dangerous because of large trees obstructing the view from two directions. They found it necessary to write letters to the land owners to obtain permission to remove the large trees. One letter was written to the president of a church congregation requesting permission to remove a large pine tree from the corner intersection. They have received consent to remove the "view obstructors." A letter was also written to the county commissioners requesting them to inspect rural road crossings for hazards of tall brush, grass and ditch banks.

Mrs. Hanson, 35, is a long time resident of the community. She is a graduate of Crookston A. C. She was a 4-H member for six years in the Wyandotte club. She was elected earlier this month to serve as secretary of the Pennington County 4-H Council. Besides being active in 4-H work she takes part in her church where she is treasurer of her ladies aid, and she has held offices in PTA. She is deputy registrar of motor vehicles in Penninton county.

State Junior College Action Committee Is Starting Campaign

Further development of the junior college program in Minnesota is absolutely necessary if equality of higher education opportunity for youth in all parts of the state is to become a reality, the executive board of the Minnesota Junior College Action committee declared last Thursday in Alexandria. Supt. Marshall Hankerson of TRF is a member of the board.

The executive board unanimously endorsed the following legislative aims to effect development of the junior college programs:

1. A minimum of $350 state aid per resident student and a minimum of $500 aid for each non-resident student.

2. Capital outlay aid for junior college buildings, with 50 per cent matching funds from the state and no limit on the amount of money to be received by an individual district recommended.

3. Appointment of one fulltime, well-qualified, state department representative whose full-time responsibilities would be to serve junior colleges for the State of Minnesota.

The executive board also resolved to authorize officers to proceed with formation of local Junior College Action committees and establish these suggested purposes:

1. Promote state-wide junior college movement.

2. Support state-wide legislation.

3. Contact state legislators and urge them to support junior college movements.

4. Keep the people of the area informed.

5. Urge the citizens to contact their legislators.

6. Keep in contact with the legislative committee in order that all members may be present at legislative hearings.

A suggested plan for organization of such local committees was submitted by the executive board. It called for superintendents of school districts, with the help of school boards, citizen committees or other interested groups, to select at least five lay people representing business, labor and rural groups to act in the capacity of boards of directors.

The next general meeting of the Minnesota Junior College Action committee will be held during the Minnesota Education Association convention at 10 a. m. Thursday, Oct. 25, in the Radisson hotel.

Newfolden School Carnival Slated for October 19

Newfolden high school will hold its annual carnival Friday evening, October 19, beginning with a variety program at 8 p. m. in the school gymnasium. Musical numbers, skits and pantomimes will be included in the show with an admission price of 50 cents for adults being charged. All Newfolden students will be admitted free of charge.

Concessions will be operated by the students following the program and proceeds from the carnival will be used to finance various student activites not provided for in any other way.

Local Bankers at District Meeting

Grand Forks Country Club Scene of Session Monday

Seven Thief River Falls bankers were included among more than 150 persons who attended a dinner meeting of Ninth district bankers Monday evening at the Grand Forks Country club. The program included a round-table discussion of banking problems.

In the election of officers, B. G. Pederson of Hawley was named district president, and Robert Foley of Roseau secretary-treasurer. J. J. Womack of this city was elected to the board of directors, and will succeed Orville Hanson *next year. Robert Nelson of Hallock* was nominated for the position of secretary-treasurer of the Minnesota Bankers association at its 1963 election.

In addition to Womack and Hanson, those attending from this city included Gene Bello, Ken Onken, N. H. Kortuem, John McGinley and Robert Flynn.

At Job-Climate Conference

Stone Says Sales Tax Is Cure for Many State Ills

Editor's Note: The following is material included in a speech by Charles P. Stone, general counsel of the Minnesota Taxpayers Association, given to the Northwest Minnesota Job-Climate Conference held recently at the Elks club rooms in Thief River Falls.

"Taxes on personal property, particularly those on farm and business inventories and productive machinery," Stone said, "are difficult, if not impossible, to administer fairly and equitably. They discriminate against those engaged in businesses that require own*ership of property.*

"Inventories of manufacturers and farmers, including livestock, are mainly goods in an intermediate stage of production, and not a suitable tax base; machinery used to process the products is in the same category.

"Minnesota wholesalers must meet competition from wholesalers in other states; retailers must meet competition from out-of-state mail order organizations; both must have competitive costs and prices.

"Elimination of the inventory and productive machinery items from the property tax base will encourage growth and expansion of business and industry now located in Minnesota, and will promote the influx into our State of new business and industry.

"At the same time, in the interest of uniformity, household goods should be eliminated from the property tax base in the 64 counties which have not exercised the option granted by the 1959 Legislature to exempt household goods from ad valorem property assessment."

Another "Sore Spot"

"Another 'sore spot' in Minnesota's present tax structure," Stone said, "is the increasingly heavy real estate tax burden which our property owners are required to bear. Some relief in this area could be granted by having the State look elsewhere for the approximately $13 million a year which it now takes from property taxes to pay the principal and interest coming due on state building fund certificates, thereby reducing the state mill levy on property by some 5½ mills and relieving our real as well as personal property taxpayers to that extent."

"Still another area to which attention needs to be given," Stone stated, "is the state income tax. Minnesota's individual income tax now is the third highest in the nation at the $5,000 a year income level and second highest at the $10,000 level, as a result of the 1959 increase in rates and the new 1961 surtax. One of the factors which has weighed against our state's selection as a site for new industrial plants has been the insistence by key personnel brought in from other states that their salaries be adjusted to compensate for the higher income taxes imposed here.

"*Minnesota's high corporate income tax rate* (now 10.23 per cent with the new 10 per cent surtax) also is not conducive to new industry location in our State.

"At the very least, the 5 per cent individual income surtax and the 10 per cent corporate income surtax imposed by the 1961 Legislature should be removed. This will require approximately $10 million a year in replacement revenues."

Hails Sales Tax

"Obviously, an entirely new major source of tax revenue is needed to provide the replacement monies needed to correct these sore spots in our tax structure," Stone said. "One such source, and probably the only one capable of producing the required amount of revenue without overburdening any one segment of our economy, is the sale stax."

Yield $120 Million

Stone stated that a 3 per cent retail sales tax in Minnesota, patterned after the Iowa sales tax, but with an income tax credit of $10 for each member of the family unit to eliminate any objection that a sales tax is regressive, would produce a net yeild of about $120 million a year.

"This," Stone said, "would easily provide the $75½ million needed to replace the property tax revenues lost to the State and local taxing units by the elimination of the household goods and business and farm inventory and productive machinery items from the property tax base.

"It would also provide the $13 million a year needed to pay the principal and interest coming due each year on state building fund certificates, and the $10 million a year needed to replace the income tax revenues lost by removal of the 5 per cent individual and 10 per cent corporate income surtaxes.

"This would still leave a balance of $21½ million a year or $43 million for the biennium, to take care of any deficiencies in financing the 1961-1963 expenditures (estimated now at some $11¼ to $11½ million), plus whatever additional financing (over and above increased revenues from existing tax sources) may be needed to finance the expenditures for the 1963-1965 biennium."

Spending Up $94 Million

Reviewing the record of the 1961 Legislature in the spending field, Stone reported to the group that the total appropriations for the two-year fiscal period beginning July 1, 1961, exclusive of those to be financed either through borrowing or directly by state mill levies on property, totalled $637 This represents an increase over the comparable appropriations for the 1959-1961 biennium of $94 million, Stone pointed out.

According to official estimates of the Departments of Administration and Taxation made at the close of the 1961 legislative session, Stone said, receipts from existing normal taxes were expected to produce slightly over $428 million of the $637 million figure. Reenacted temporary taxes and surtaxes were relied on to produce $44½ million. $95½ million was expected to come from beginning balances, departmental earnings, amounts to be financed from dedicated revenues; cancellations of unused appropriations, etc.

It was estimated that the new financing measures provided by the Legislature would produce over $54½ million. The grand total of these estimated revenues was $623 million — approximately $14 million short of being enough to finance the $637 million of appropriations.

"Understandable," Stone said. "These estimates of revenue are subject to constant re-examination. The latest estimates of the Department of Administration now indicate a possible combined deficit in the general revenue and income tax school funds of around $11¼ to $11½ million."

Herbert Safford Rites Conducted Here Wednesday

Rites were held Wednesday for Herbert N. Safford, a lifelong resident of this city, who died unexpectedly at his home on Saturday, October 6, at the age of 78.

The funeral was held in the Green Funeral Chapel, with Rev. A. Dean Headley officiating. Interment was made in Greenwood cemetery.

Mr. Safford was born near here on August 8, 1884. In 1911 he married Miss Mary Mickelson, who died in 1939. In 1953 he married Monica Bimler.

He was in the grocery business for some time, having operated the Riverside grocery and later the First Street grocery.

Surviving are his wife, Monica; four step-daughters, Dorothy (Mrs. Linwood Hilyer) of So. St. Paul; Marjorie (Mrs. Carl Hudson), Joplin, Mo.; Leona (Mrs. Kenneth Meyers) of St. Paul, and Mary Lue (Mrs. Earl Berg) of Douglas; two step-sons, Matthew Bimler of East Grand Forks, and James Bimler, St. Paul; and two brothers, Claire Safford and Fred Safford, both of New York.

He was preceded in death by his first wife, two sisters, and two brothers.

Ole Grinde, 93, Area Pioneer, Dies; Interment Oct. 12

Funeral services for Ole E. Grinde, 93, pioneer resident of the Thief River Falls area, who passed away at Northwestern Hospital Monday, October 8, will be held Friday, October 12, at 2 p. m. at The Silverton Lutheran church with Rev. Milton Wilson officiating. Burial will be made in the church cemetery. Visitation hours for Mr. Grinde will continue at Sinding's Funeral Chapel until Friday noon and at the church one hour prior to services.

Mr. Grinde, born January 9, 1869, in Sogn, Norway, came to Northfield, Minn. with his parents at the age of six. Later they moved to Twin Valley where he lived until 1904, at which time he came to the Thief River Falls area, homesteading in Silverton township. He was united in marriage at Twin Valley in 1894 to Helen Bjerkness, who passed away in 1897. In 1904 Mr. Grinde married Karen Johansen, who passed away in 1932. Mr. Grinde was a member of The Silverton Lutheran Church.

Survivors include three daughters and three sons: Herbert, Thief River Falls; Elmer, Rock Island, Ill.; Melvin, Thief River Falls; (Rina) Mrs. Thure Blomberg, Portland, Ore.; (Clara) Mrs. H. U. Rogness, Minneapolis; (Ellen) Mrs R. P. Baughman, Walnut Creek, Calif.; one sister, Mrs. Oline Peterson, Duluth; 11 grandchildren and 9 great grandchildren.

He was preceded in death by two sons.

John Gronvold, 51, Dies Here Oct. 8; Rites At Holt

Funeral services for John Gronvold of East Valley township, Marshall county, were held on Thursday, October 11, at the Emmanuel Lutheran Church of Ringbo, east of Holt, with Rev. Richard Snipstead officiating.

Interment was made in the Holt cemetery. Arrangements were handled by Collins funeral home of Middle River.

Mr. Gronvold was born January 30, 1911, in East Valley township. He attended school and grew to manhood there, and had lived there all of his life.

He had been in failing health for several months, and died in Northwestern hospital in Thief River Falls on Monday, October 8. At the time of his passing, he was 51 years of age.

Surviving him are a sister, Clara, and three brothers, Henry, Carl, and Oliver, all of Holt.

He was preceded in death by his parents.

Father of Former Trinity Pastor Dies In Wisconsin

C. S. Thompson, whose son, the Rev. G. S. Thompson served as pastor of Trinity Lutheran church here from December 1941 until January, 1945, and is now serving in EauClaire, Wisc., died there on Sunday morning October 7. He was 86 years of age.

The funeral is being conducted at Eau Claire today (Thursday).

Hjalmer Kalsness Dies October 9; Rites On Friday

Last rites for Hjalmer Kalsness, who passed away at St. Paul on Tuesday, October 9, at the age of 68, will be held Friday afternoon at the Black River Lutheran Church at 2 p. m.

Rev. Otto Baker will officiate at the rites, and interment will be in the church cemetery. Arrangements are being handled by the Green Funeral Chapel of this city.

The body may be viewed at the funeral home until 11 a. m. on Friday, and at the church for one hour preceding the services.

Former Officers of Transit Firm Face Prison Term

Five men convicted in the million dollar fraud against the Twin City Rapid Transit Co. are expected to surrender with 30 days to serve a cumulative 12½ years in federal prison and pay a total of $29,000 in fines.

The sentences beceme applicable Monday when the United States supreme court refused to consider the case, thus in effect upholding a circuit court of appeals decision that sustained the convictions.

A mandate setting forth the legal turndown is expected within 30 days, at which time the five will be called upon to surrender to the federal marshal for implementation of the sentences.

The five and their sentences: Fred A. Ossanna, former president of the transit firm, four years and $11,000 fine; B. M. Larrick, onetime vice president, two years and $3,000; Harry Isaacs, American Steel & Iron Co., four years and $11,000; Fred Isaacs, of the same firm, one year and $2,500; and Earl Jeffords, Minneapolis real estate man, 18 months and $1,500.

The five were convicted after a lengthy trial of fraudulently disposing of the transit firm's assets during its conversion from streetcars to buses in the 1952-57 period.

Rev. G. Robert Pryor Is Crookston Speaker

The Rev. G. Robert Pryor, assistant at St. Bernard's church, is completing a series of three sermons at the Cathedral of the Immaculate Conception, Crookston, this evening.

The Cathedral parish is having its annual 40 Hours Devotion as a time of prayer in preparation for the Ecumenical Council beginning in Rome today.

Father Pryor was assistant at the Cathedral before being assigned to Thief River Falls two years ago.

October 18, 19, 20 Are Soil Sampling Days in TRF, Co. Agt. Reminds

A soil test for next year could help you recover some of your crop losses was the advice to farmers from County Agent Paul Stelmaschuk.

You can check the heartbeat of your soil with a good soil test. The test will give you the amount of phosphorous and potassium that there is in the soil. It will give you an organic matter reading and the pH level (acid, alkaline, or neutral).

This is an important step in getting the most profit out of your crop, pasture, or hay acreage. If you have fertilizer left over from the spring for fields you checked a year ago, go ahead and use the fertilizer. But if you haven't checked your field, take a soil sample and find out if you need any other plant food to balance the fertilizer you have on hand.

During the October soil testing promotion the farmer gets his soil tested at no cost. Although the farmer pays one dollar for each sample of soil he brings, this money will be returned to him when he buys the fertilizer at any of the Pennington County fertilizer dealers. If a farmer brings ten samples in, he will pay ten dollars and then get a ten dollar credit from his fertilizer bill.

Farmers are urged to take their samples as soon as possible and then bring them to Thief River Falls on October 18, 19 or 20. A trailer will be set up on the street by the post office to serve as a collecting depot.

The trailer will be open from 9:00 a. m. to 9:00 p. m. on Thursday and Friday, October 18 and 19; and from 9:00 a. m. to 5:00 p. m. on Saturday, October 20.

Soil samples can be brought in coffee cans, pint jars, or any other container. Fertilizer dealers will man the trailer and will assist farmers with packaging the soil and the completion of information sheets. The soil samples will be sent to the University of Minnesota Soil Testing Laboratory for analysis.

Farmers are especially reminded to get soil samples from fields which have not been tested for two years, from new soil bank land coming into production, from hay and pasture fields, and from special problem areas.

PLUMMER FU LOCAL TO MEET TUESDAY EVENING

Judy Hagen Crowned NHS H'coming Queen

Homecoming events at Newfolden high school, held under the sponsorship of the student council, began yesterday with the announcement of Judy Hagen as homecoming queen. Friday events will be in conjunction with the Civic and Commerce association's Crazy Days festivities.

Competing with Miss Hagen for homecoming queen honors was Carol Hall, also a senior at the school. Attendants are Janice Sato, junior; Carol Rokke, sophomore; SharRay Melvie, freshman; Mandy Halvorson, eighth grade; and Leanna Sather, seventh grade.

Leading the Friday homecoming parade which begins at 1:15 p. m. will be the senior band. Each class will furnish a float at the school and proceed east on Bakke avenue to First street east, north one block to Minnesota avenue and west on Minnesota avenue to the football field.

Furnishing competition for the Norics in the 1:45 p. m. football game will be the Warroad Warriors. On the basis of a 3-1 record in "Top of the State" conference ply as compared with a 1-3 mark for Wrroad, Newfolden is favored in the contest. The band will perform at halftime.

Each grade will furnish acts for the student and alumni program to begin at 8 p. m. in the school auditorium. The queen will reign over the program and a free lunch will be served to all attending. Alumni are especially invited to watch the game and attend the evening program.

Salvation Army Store To Close During Winter

Envoy Carl Paulson of the local Salvtion Army unit has announced that the Salvation Army store operated in the former Central Lumber company building will be closed for the winter months. If the need indicates, it will be opened again in the spring.

A close-out sale to enable needy persons to secure items will be held on Thursday, Friday and Saturday with all items in the store seeling for a nickel, Paulson said. The store will officially close at 5:30 p. m. Saturday.

Closing of the store does not mean that service will be discontinued, Paulson said, since sales will be held periodically during the winter in the basement of the Salvation Army citadel. He expressed appreciation to persons who contributed items for sale, and noted that he will be happy to pick up additional items for use during the winter.

Warroad Warriors to Be Newfolden's Foe at Homecoming

Top-of-Nation Conference Game Is Scheduled for Friday Afternoon at 1:45

Coach Sheldon Elseth's Newfolden Nordics will celebrate Homecoming on Friday afternoon when, at 1:45 p. m., they meet the Warroad Warriors at Newfolden. The game will be a conference tilt, with Newfolden, having a three wins and one loss record, favored to defeat the Warriors, who have a one win and four losses mark.

The Nordics moved back into the win column in Top-of-the-State conference play last Friday by trouncing Lancaster, 33-0, in a game played at Lancaster. The win brought the Newfolden squad into a third-place tie with Baudette in the conference standings. Hallock and Greenbush, boasting four wins and no losses records, share first-place honors.

In piling up their 33-0 win over Lancaster, the Nordics gained a total of 332 yards from scrimmage, picking up 271 yards by rushing and 61 yards by passing.

Lester Bakke and Harlan Halvorson each scored a pair of touchdowns for the Norides, with Halvorson adding a conversion point to gain high-point honors. Jerry Strandquist had a touchdown and a conversion point, and twin brother Terry Strandquist tallied a conversion point.

Minnesota Game Species Listed On SCS Sheets

Soil Conservation Dist. Has Material Available for Local Distribution

Land management sheets on the important game species found in Minnesota are now available from the Pennington County Soil Conservation District office, according to Robert Kloubee, work unit conservationist for the district.

"These sheets not only tell about that land management practices that are beneficial to wildlife," Kloubee said, "but briefly describe the ideal land use pattern, nesting habits and food and cover requirements for each species of game. A map is included which shows the range of animals such as pheasants, Hungarian partridge, rabbits, squirrels, ruffed grouse, muskrats, prairie chickens, sharptailed grouse, wild turkey and deer in the United States".

Many of the practices listed as beneficial to each game species are now on the land in Pennington county, Kloubee noted, and many more acres will be practiced by county farmers in the future. Such common practices as crop rotations, farmstead and field windbreaks, seeding field borders or ditch banks to grass and legumes, constructing pits and ponds for farm stock and maintaining odd areas all contribute to the pattern that many important game animals desire.

"All of these practices are coordinated in a complete farm plan tailored for the individual farm and the desires of the landowner," the conservationist added. "Because of the technical services available through the district office there are now 182 pits and ponds in the county and 82,000 acres of crop rotation. The sheets are available to clubs of all sorts as well as individuals."

Acting Game and Fish Chief Named

Minnesota Commissioner of Conservation Clarence Prout has named Gordon Wollan acting director of the department's game and fish division until a successor is named to the post vacated by the resignation of James W. Kimball.

Wollan was deputy director of the game and fish division under Kimball. He has been a member of the conservation department for over 30 years.

Kimball resigned from the directorship, which he had held since July 1, 1955, to accept a position as a feature writer with the Minneapolis Tribune.

HEART FUND MEMORIALS TRIBUTE TO LATE OLE IHLE

Gifts in memory of the late Ole Ihle of Thief River Falls were received by the Minnesota Heart Association today, according to David Drotts, county memorial chairman. These gifts will be used for research into heart and circulatory diseases. The work of over 50 heart scientists at seven Minnesota research institutions is being financed by funds received by the Minnesota Heart Association.

Langevin, Barry Tell Rotary of Fire Prevention

List Causes of Fires, Duties of Department At Monday Noon Meet

Fire Prevention Week was given local emphasis Monday when Roy Langevin, Thief River Falls fire chief, and Patrick Barry, state fire marshal, spoke to the Thief River Falls Rotary club at its noon meeting in the Elks club rooms. A movie on fire prevention was also shown to the group.

Langevin opened the program and noted that National Fire Prevention Week dates back to its proclamation by President Woodrow Wilson in 1920. Fires take 12,000 lives and cause about $1 billion in property damage annually in the United States with about 90 per cent of the fires due to carelessness, the chief stated.

Main causes of fires were listed by Langevin as smoking in bed, gasoline, stoves and pipes, flipping cigarettes, accumulated rubbish, leaving matches within the reach of children, misuse of electricity and propane and combustible plastics and synthetics.

Chief Langevin noted that persons who start a fire in a public abode must be brought into court by the fire department or fire marshal. He warned that baby sitters should be given the telephone number of the fire department and notified as to where the parents can be reached during the evening.

Barry noted that he is one of 11 assistant state fire marshals working outside of the St. Paul office and that he covers nine counties in northwestern Minnesota. It is his duty to make inspections of institutions, bulk oil plants, dry cleaning establishments and other places where there are fire hazards or where the public congregates.

He assists fire chiefs in communities where there have been fires of an unknown origin or of a suspicious nature. Last year the state fire marshal's office conducted 6,262 inspections, made 235 investigations, and achieved 47 arrests and convictions of adults and 22 arrests of juveniles. Minnesota had fire losses of $22 million last year in addition to 53 lives and 178 injuries.

Donovan's Office Explains Voting by New Residents

Minnesota Secretary of State Cites Changes In Voting Regulations

Secretary of State Joseph L. Donovan reminded Minnesota voters who may move during the period from October 7 to November 6 that new 1961 legislation permits them to vote in the general election without 30 days residence in the precinct as previously required by the state constitution.

An otherwise qualified voter who moves at this time from one precinct to another within the same municipality may return to his old polling place and vote.

One who moves from one city, village or township to another may vote at his place of new residence by obtaining a certificate of eligibility from the clerk of his former municipality or township. Instructions to election judges illustrate this certificate so election boards may recognize the form.

The state constitution was amended in 1960 to give the legislature authority to make this provision, which was added to the election law. This is part of a nationwide effort to liberalize voter requirements so that as many adults as possible may vote. Minnesota's requirements now compare favorably with nearly all other states.

FU Oil Company Paid $12,475 by Central Exchange

Jesse Bakke, president, announced today that the Farmers Union Oil Company of Thief River Falls has received $12,475 in a cash retirement of patronage refund stock from the Farmers Union Central Exchange, South St. Paul, regional farm supply and manufacturing cooperative.

This will help the local Farmers Union Oil Company retire a portion of their outstanding patronage reserves in December of this year, Bakke explained that the stock represents savings made by the local Coop through purchases from the Central Exchange in 1953. Last spring, in a similar retirement by the Central Exchange the co-op received $10,300. Clarence Carlson is local manager.

This retirement, coming on October, coincides with "Cooperative Month" which has been proclaimed by many midwestern Governors as a special time to honor cooperatives.

Railroad Lawyer Tells of Improved Outlook for Lines

M. J. Galvin Addresses Informational Meeting at Rex Tuesday Evening

M. J. Galvin of St. Paul, former state senator and now attorney for all the railroads operating in Minnesota speaking Tuesday evening in the Rex Cafe, held forth great hopes for the future prosperity of the railroad industry in Minnesota and attributed the bright outlook for the industry to the fact that the public has now become aware of the unreasonable restrictions imposed upon the industry by state and federal regulation. He stated that a public relations program had resulted in favorable legislation, both state and federal, which had lessened the unfairness of the competitive position of the industry with other forms of transportation.

Galvin, speaking to an areawide informational meeting of editors, public officials and candidates for the Legislature, declared that the increasing awareness of the railroads' problems was evidenced in Minnesota by the modernization of Minnesota's antiquated station agency law at the last session of the legislature together with the fact that Congress has been considering legislation which would permit the railroads to make competitive minimum rates on agricultural and bulk commodities, which is now prohibited under the law.

Galvin called attention to the fact that until the Transportation Act of 1958 was passed the railroads were not permitted to lower their rates to a competitive basis with other types of transportation and that the Interstate Commerce Commission still has jurisdiction to regulate the minimum rates on agricultural and bulk commodities, which are not regulated if the agricultural products are carried by truck and the bulk commodities are carried by barge. The proposed legislation is supported by a specil Presidential message to the Congress.

He explained the public safety problem of the railroads and the efforts that are being made by them to reduce hazards.

Top of the Nation Dairy Sale To Feature Quality

(Continued from page 1)

record of 14,870 pounds of milk and 640 pounds of butterfat.

Nelson Brothers, Hallock, offer a springing heifer due early in November from a dam with records of 527, 571 and 606 pounds of butterfat.

Darrow Lundeen, Trail, has consigned two head of cattle due to freshen sale day with records respectively of 500 pounds of butterfat as a three-year-old and 402 pounds of butterfat as a two-year-old.

LaVern Clow, Orleans, will sell a springing heifer from a dam with records of 501, 525 and 541 pounds of butterfat.

G. L. Rovier and Sons, Waubun, will be offering a heifer with calf at foot from a dam with a production record of 17,110 pounds of milk and 614 pounds of butterfat as a 4-year-old.

Futurity Consignments

Likely to take top interest in the sale of calves and yearlings will be animals consigned by Sheldon Erickson of Badger and Art Stenberg of Thief River Falls.

Erickson has consigned a yearling from a dam which as a five-year-old produced 20,569 pounds of milk and 647 pounds of butterfat.

Stenberg has consigned a calf born in July to a dam with a record as a five-year-old of 15,480 pounds of milk and 628 pounds of butterfat. He also offers a yearling born Oct. 23, 1961, to a dam with records of 597 pounds of fat as a seven-year-old, 630 pounds as an eight-year-old and 542 pounds as a nine-year-old. Another yearling is from a dam with a record of 475 pounds of butterfat as a two-year-old.

Roseau Meeting On Resource Plan Set for Oct. 17

Word has been received from the Minnesota Department of Conservation that the meeting at Roseau to discuss a resource development plan will be held on October 17 at 8 p. m. in the Roseau municipal auditorium.

The meeting had been originally set for October 17, then was changed to October 19 in a later release. A telegram received by the Times early this week noted that the October 17 date is correct and that the public is invited to attend the meeting.

Lions Club Notes Fire Prevention Week Wednesday

Fire Chief Roy Langevin and Patrick Berry, Deputy Fire Marshal, Give Talks

The local Lions club observed Fire Prevention Week at its luncheon meeting Wednesday noon by hearing talks by Fire Chief Roy Langevin and deputy state fire marshal Patrick Berry, who recently established his headquarters in Thief River Falls.

Dick Bjorkman, chairman of the United Fund campaign which got under way this week, also spoke briefly, and predicted that the goal will be attained if everyone cooperates. He urged that each employer canvass his own employes.

Chief Langevin, who was introduced by Don M. Olson, program chairman, discussed some of the causes of fires, 90 per cent of which, he said, are due to carelessness. He added that fires in the nation take an annual toll of about 12,000 lives and a financial loss of more than $1 billion.

Mr. Berry discussed the duties of the state fire marshal and of his 13 deputies, and said the area he serves comprises nine counties. His duties include the inspection of public buildings and nursing homes for fire hazards, investigation of cases of suspected arson and the condemnation of old buildings deemed to be too dangerous for occupancy.

The program closed with the presentation of a film taken at Magnolia, Arkansas, depicting the objectives and procedure in conducting an inspection of fire hazards in a community.

Movie on Mental Retardation to Be Shown Oct. 22

A special film on the problem of mental retardation which was shown to Governor Andersen for the first time October 8th, will be shown in Crookston, October 22nd. This will be one of eight showings throughout the state in October.

The film is a result of nine months of work by a Governor's committee entrusted with the task of studying Minnesota's program for the mentally retarded and with providing recommendations for future action.

The film will be shown as part of a town meeting organized by the Polk County Association for Retarded Children and the Crookston Mrs. Jaycees on Monday, October 22nd at 8:00 p. m. in the main dining room of the Northwest School at Crookston. A speaker from the Minnesota Association will also be on hand to answer questions.

Everyone is invited, although the town meeting has been primarily scheduled for Polk, Pennington, Red Lake and Norman Counties.

Northrup PTA to Visit Classrooms Monday Evening

A program which is designed to be both interesting and informative will be the feature of the Northrop PTA meeting which is scheduled for Monday night, October 15 at 8 p. m. at the school.

After a short business meeting, the parents will be invited to appear in the room where their child attends classes. Here the teacher will give a short talk on what he or she teaches in the classroom. There will be time allotted for a few questions after the talk.

Mothers of the first grade pupils will serve lunch.

A good turnout is urged.

Final Politics Course Meeting Monday Morning

Final session in the course on practical politics will be held Monday morning at the Rex Cafe with all participants encouraged to be in attendance. Ben Wichterman, Plummer, former state representative, and Harveydale Maruska, Angus, state representative and candidate for state senator, will attend the session to answer questions in regard to local political activities.

Jack Seltz in Cast of Play at St. Cloud State

Jack Seltz, senior from Thief River Falls, has been selected for the role of Arab in the St. Cloud State College production of "The Time of Your Life" this fall.

Written by William Saroyan in 1939, the Pulitzer prize-winning play also has been made into a movie and a television production.

Performances are scheduled for Nov. 8, 9 and 10 in Stewart Hall Auditorium.

Duck Hunting Season to Start October 13

With the most intricate set of shooting regulations ever laid down, Minnesota's duck hunting season gets underway at 12 noon Saturday, Oct. 13, the conservation department reminded today. Minnesota's season will run through Nov. 6. After the noon opening the first day, shoting hours will be from sunrise to sunset.

Hunting will be either not so good or not so bad, depending n whether you want to believe the U. S. Fish and Wildlife Service or Ducks Unlimited, the private waterfowl organization in Canada.

There will be no open season on either redhead or canvasback again this year. In addition, the mallard and black duck, while they are included in the limit, are being given special protection to allow them to recover from the over-shooting of this species which took place last year.

The bag limit will be two ducks daily and four in possession. Only one mallard or black duck may be included in the daily limit and only one of each or two of either species may be included in the possession limit.

There are also special restrictions on the taking of wood ducks and hooded mergansers.

In order to fatten the pot in what otherwise promises to be a pretty slim season, from Oct. 20 to Nov. 6, hunters will be allowed to take two additional or "bonus" scaup ducks (bluebills) in their bag and four additional in their possession limit. These birds may be in addition to the regular two and four limits.

This means that from Oct. 20 to the end of the season, hunters could have four ducks daily and eight in possession, provided at least two of the ducks in the daily limit are scaup and four in the possession limit are scaup.

Ringnecks, or ringbills as they are often called, look an awful lot like scaup to most hunters but are not considered scaup and are not bonus ducks. Great care will have to be exercised by hunters to avoid shooting ringbills when trying for scaup since they often are found occupying the same body of water.

For that matter, scaup, ringnecks, redhead and canvasback are all divers and hunters may expect to find them all together on the same lake at the same time. It is hoped, however, that by delaying the shooting of bonus bluebills until Oct. 20, most of the redheads and canvasbacks will have migrated through the state.

Game officials say that anyone planning on hunting ducks this fall should make a determined effort to familiarize themselves with the habits and field markings of these birds. In order to help the hunter in this effort, the 1962 synopsis of hunting regulations issued by the Conservation Department contains drawings of the birds apt to be confused and outlines the difference between divers and puddle ducks. In addition, they are offering without cost a larger and more complete booklet called the "Minnesota Waterfowl Identification Guide". They also have substantial quantities of a U. S. Fish and Wildlife pocket size identification aid called "Know Your Ducks".

Copies of any of these may be had by contacting the Department of Conservation, Bureau of Information, 350 Centennial Office Bldg. St. Paul.

Schedule, Friday, October 12
Fertile at Ada
Warren at Fosston
Mahnomen at Twin Valley
Bagley at Red Lake Falls

The Mahnomen Indians and the Fertile Falcons continued their unbeaten string in Pine-to-Prairie conference play last week, with each team posting their fourth successive wins. If the two clubs win their next two games they will come up to their Oct. 24th date at Fertile with the conference title at stake.

Fertile, with Rod Olson scoring four touchdowns and adding five conversion points, trounced the Warren Ponies, 47-12, at Warren on Friday night. Mahnomen, entertaining Red Lake Falls, defeated the Eagles, 27-13.

In this week's feature game, coach Chuck Johnson's Fertile team will play the Ada Vikings at Ada. Ada has lost but one conference game, that being the 13-7 defeat by Mahnomen a couple of weeks ago.

Olson's scoring spurt on Friday, scoring 29 points, moved the sturdy Fertile back into the scoring lead with a total of 68 points. Ada's Herb Hasz is in second place with 45 points.

Crookston, 14, at E. Grand Forks, 19.

Schedule, Friday, Oct. 12
Crookston at Bemidji

The Bemidji Lumberjacks, rolling up a 32-12 win over the Roseau Rams in a game played at Roseau on Friday night, moved up into a first place tie with the Thief River Falls Prowlers in the Northwest conference standings.

This week's conference slate will find only one game on tap, that being the Crookston Central vs. Bemidji Lumberjacks tilt at Bemidji. Coach Ken Wilson's Bemidji club, ranked among the state's top ten, is heavily favored to defeat the Pirates, Crookston, in its first game in conference play this season, that against the East Grand Forks Green Wave at East Grand Forks on Friday, dropped a 19-14 decision to coach Ron Thompson's East Siders. Last season, the Crookston Pirates posted a four wins and no losses mark to win the conference title.

In non-conference play on Friday, East Grand Forks Sacred Heart will play at Thief River Falls; Park Rapids will meet the Rams at Roseau; and East Grand Forks Central will meet Grand Forks St. James.

Schedule of Area Football Games Slated for Friday

The week's schedule for the area's high school football teams:

Friday, October 12.

Keeping Score with "Huck" Olson

Their Final Bow

Thirteen Prowler football players, all seniors, will be making their final appearance before the home fans on Friday night at 8 o'clock as coach Joe Mrkonich's squad entertains coach Curly Gasperlin's Eagles of East Grand Forks Sacred Heart high school.

The boys concluding their home field careers are co-captains Jim Ranum and Paul Klungness, John Aune, Eli Lee, Bob Benson, Steve Mittelstadt, Art Koglin, Brian Lofberg, Ray Ulrich, Tom Morben, Jim Vik, Roger Peterson, and Dwight Myhrer.

That's a group of athletes that have been a credit to Prowler football, and do you realize that if it hadn't been for their below-par performance against Dilworth last month, a game which they lost by a 14-7 score, the boys would be protecting an unbeaten record on Friday night? The Prowlers have five wins and a loss to date, and they have three games remaining on the slate.

While these thirteen seniors will be concluding their football careers, at home that is, they will be participating in other Prowler sports as the school year progresses. Klungness will be playing basketball, baseball and track; Aune will be out for basketball and baseball; Ranum will play hockey and participate in track; Lee will be in track; Benson will be playing hockey and in track; Mittelstadt, Koglin, Lofberg, and Ulrich all will be on Rod Max's track squad; Morben will be a defensive standout on Gene Sack's hockey Prowlers; and big Dwight (Tiny) Myhrer will be the powerhouse on coach Al Shaff's wrestling squad.

Getting Anxious

The local curlers are exhibiting signs of anxiety as they await the below-freezing weather that will arrive in a month or so.

A new set of sixteen rocks, at a cost of more than $500 arrived last week, and they have been unpacked and ready for the first in-draw or out-curl of the season. The local club now has thirty-two matched stones on hand, and the remaining thirty-two, which will be replaced in time, are excellent rocks.

It is rumored that Fran Kleffman of Hibbing, many times the Minnesota curling champion, and a winner of the United States curling title, has made an informal request to join the local club. The Kleffman rink would not be able to compete in league competition, but would curl in the local bonspiels. It is doubtful if the directors of the local curling club will give favorable action to Kleffman's request.

Remindful of Sid Vraa

The Prowler 'B' football team scored their fifth victory in seven starts on Tuesday night when, on the Lincoln field here, they scored their second win of the season over the Crookston Central 'B' squad winning by a 25-7 score. Richard Nelson scored a pair of touchdowns as did Buzz Olson, and the lone point conversion was added by Mike Benke, who gathered in pass from Olson. The scoring for coach Chuck Whiting's Pirates was a touchdown by Miles Mueller and an extra-point conversion on a pass completion to Dave Lysaker.

Nelson turned in a fine all-round game, and his two touchdown jaunts were on a long run around the ends, once on a sixty-yard sweep out around left end, and again, on a thirty-yard run, on a sweep around left end. In addition to his runs, Nelson did the punting for the Prowler 'B' squad, and threw several passes. On his kicks, a beautiful spiral, was downed inside the Crookston ten-yard line.

Dick's play was remindful of the all-round play of Sid Vraa, who was one of the finest players in Prowler football history. Dick has the same desire that Sid exhibited, and he has some of the same talents.

In all the years of covering Prowler football I don't think that I have witnessed a better exhibition than the game Sid turned in against the Crookston Pirates one Friday night late in October of 1954. In that game the Prowlers, coached by Ralph Skay, defeated the Pirates, 48-0, on Crookston's Highland Park field. And of these 48 points, Sid scored 34 points, getting five touchdowns, and four placekick conversion points.

In the first period, Sid slanted off left tackle for seven yards and a touchdown, and then passed to Pete Froehle for the extra point. In the second period, Vraa tallied two touchdowns, one on a four-yard plunge and the other on a twenty-one yard sweep of right end. He placekicked the conversion points to give the Prowlers a 21-0 first half lead.

In the third period, Sid cut through center for seventeen yards and a touchdown, placekicked the conversion; and then followed with a thirty-six scamper through right tackle for a score, but he missed his placement kick for the conversion. In the fourth period, Sid added his thirty-fourth point by placekicking the conversion after Rod Collins' touchdown. Collins added another fourth period touchdown, and Paul Teal made the conversion to give the Prowlers' their 48-0 win.

If Dick Nelson can approach Sid Vraa's all-round ability, the grauate of Sunnyside school should prove valuable to the Prowler varsity squad in the next couple of years.

Resources Council Studies Recreation

First in a series

By Henry T. McKnight, chairman, Minnesota Natural Resources Council.

How can Minnesota's recreational facilities keep pace with this country's booming population?

The answer to this thought-provoking question could well determine the tune which will jingle cash registers in the future. And, in hope of boosting our state's tourist business from its present $350 million-a-year level, a special task force of Gov. Andersen's Minnesota Natural Resources Council delved into the problems and potentials of our recreational resources.

This recreation task force was ably headed by Judge Edwin P. Chapman, widely known for his fine work in outdoor recreation. Working with him were: William Dietrich, LeSueur; Donald P. Duncan, University School of Forestry; Clifton E. French, superintendent, Hennepin county park reserve district; C. David Locks, director, Twin Cities metropolitan planning commission; Thomas H. Swain, commissioner, department of business development. Together with expert consultants, this is perhaps the most competent group ever to assay Minnesota's outdoor recreation situation.

"Minnesota is endowed with perhaps more of the resources essential for outdoor recreation than any other state of all fifty," says Judge Chapman. "But with growing populations. . .it may be expected that there will be more people with less space for each of them, creating greater demands for many competing or conflicting uses."

"Probably no other activity affecting the lives of so many people has had so little attention from qualified scientists," states the report of the council. To remedy this, the task force recommends a $1 million, three-pronged research program to study the human benefits, management policies, and supply and demand of the state's recreational resources.

As a follow-up to the research, the report calls for establishment of a long-range statewide plan for development of outdoor recreation opportunities. Using matching Federal funds, cost to the State for formulating the plan is pegged at about $500,000.

The council report urges that a great deal of planning emphasis be placed on the pressing problem of providing sufficient recreational lands for the future.

"Many kinds of outdoor recreation do not require large acreages of land," the report states. "It is important, however, that lands and waters having unique recreational attractions be made available to the public."

The recreation task force set the following goals to meet projected land needs by 1970: Acquistion of an additional 50,000 acres for state parks and canoe campsites — estimated cost, $3,750,000; 50,000 acres for the proposed Minnesota Memorial Hardwood State Forest between the Twin Cities and Iowa border along the west side of the Mississippi River and in the wooded valleys leading into the Mississippi — $1 million; 57 additional wayside areas along highways, to supplement the present 329 locations and provide a scenic stopping point at least every 50 miles on the state's highways — financed through highway construction and maintenance funds; expansion of county-owned recreational land systems, expecially in the 16 most populous counties, to 25,000 acres — state's share of cost, $5 million; acquisition of 3,500 additional acres by the 18 cities with more than 20,000 population — State's share, $1,750,000.

Insufficient water access locations, the report states, is another sore spot in the recreation picture. Less than 1,000 lake shore sites are now accessible by car. The Council sets 5,000 access sites as a conservative goal, but warns that at present acquisition rates it would take 40 years to reach that goal. Recommendation: Step up acquisition of water access sites to about 600 annually — cost, $1 million between now and 1970.

To finance the recommended programs, the task force suggests a $20 million bond issue, plus small increases in the fees charged those who use recreational facilities.

In short, our state is staring opportunity in the face — the opportunity to make an investment which will pay big dividends in increased tourist business and a more vigorous economy in general. Postponement is expensive, possibly tragic; land costs alone climb about 10 per cent every year. As our Council report states, "The signs are all too clear. . ." This is the time for action.

Next week: The future of our forests.

Chicken, Cheese, Apples Plentiful Foods in October

Pennington County Home Agent Laura Duerst Gives Suggestions for Menus

Crisp fall weather bring abundant harvest of fruits and other foods to market in October, says Miss Laura Duerst, Pennington county home agent.

For the benefit of the homemaker who likes to plan her menus in advance, the U. S. Department of Agriculture reports that fresh apples, cheese and broiler-fryers will be the featured items during October. Also included on the Department's list of plentiful foods are fresh cranberries, pears, grapes, frozen concentrated orange juice, turkeys, potatoes and rice.

Since this year's apple crop is expected to be 11 per cent above average, you'll find a big variety of apples available this month for eating out of hand, for baking, for pies and other desserts and for caramel apples. October 11 thru 20 has been set aside as National Apple Week, a special time to highlight apples in your menus.

Cheese comes in for special attention in October, which is Cheese Festival month. Stocks of cheese are large, and supplies of the various types of cheese will be ample.

October will bring almost as many broiler-fryer chickens to market as was the case a year ago. With chicken and turkeys exceptionally good buys, homemakers can serve poultry in a big variety of taste-tempting ways at no strain on the budget.

Cranberries are a natural accompaniment for poultry — and the fresh red berries will be pouring in from processors this month. Experts predict the largest cranberry crop on record.

Studebaker Buys Big Mill City Firm

Contracts for Purchase of Franklin Mfg. Co.

Studebaker Corporation of South Bend, Indiana, took another step ahead in its long term acquisition program last week with the signing of a contract to purchase the Franklin Manufacturing Co. of Minneapolis, whose annual gross sales of $70 million make it one of the nation's major manufacturers of private brand household refrigerators, freezers and kitchen appliances.

The purchase price, according to Sherwood H. Egbert, Studebaker's president, is $29 million in cash and 1,333,333 shares of Studebaker's common stock. The transaction will be submitted to Studebaker shareholders for approval on November 16.

Franklin Manufacturing's earnings before taxes for the fiscal year ending March 31, 1962, were approximately $7,200,000 on gross sales of approximately $70 million. This volume ranked Franklin in sales among the top five producers of household refrigeration products in the industry.

Motorists Urged to Study Driving Skills

Motorists were reminded by the Minnesota highway department today to brush up on driving skills and prepare for the variable weather, road and traffic conditions that can be expected with the change in season.

Harvesting of crops for market, hunting and fishing treks, football games and the closing of lakeshore cabins for the winter season, will result in many motorists criss-crossing the state from urban to rural areas and back again. Each traveler will have to adapt quickly to the changing conditions to keep traffic moving smoothly. Drivers should be especially cautious in driving freeways where speeds are faster and traffic patterns change often and quickly, the Highway department pointed out.

On divided highways, often referred to as freeways, many mishaps occur as drivers attempt to enter or leave incorrectly, failing to make use of especially designed acceleration and deceleration lanes. At these points, drivers are expected to move into the special acceleration lanes at ramp speeds and then increase speeds to a rate where they can merge with thru traffic at a freeway pace.

In leaving the freeway, drivers are expected to move into deceleration lanes and gradually slow down to meet slower ramp speeds without slowing up or stopping following freeway traffic. A "Merge" diamond-shaped traffic sign is usually posted at such exits or entrances, warning drivers to follow rules governing the changing of lanes.

"Where "Yield" signs are posted along divided highways, it becomes necessary for drivers to slow down and stop, if advisable, before entering a freeway. At such points of entrance, there usually is no acceleration lane to allow a driver to adapt his speed to the freeway pace and motorists must follow "right of way" rules.

Any extreme in speed, either too fast or too slow, presents a hazard. The "slowpoke" driver causes other drivers to take unsafe risks in passing, often causing lines of vehicles to close-up to a point where there is a serious danger of mishaps caused by drivers following too closely. The slow driver is required by state law to keep to the outside lane except in passing and to avoid impeding traffic. The safest way to travel freeways is to keep pace with normal traffic.

A mechanical breakdown presents a serious hazard on main highways. Drivers should attempt to park their vehicles entirely off the traveled portions and, if at all possible, drive it to an off-the road site. They also should stay with their vehicles and await a passing unit of the Highway Patrol. The wait will not be very long and patrol officers will readily call aid for stranded motorists.

A Coming Issue

Congress has given President Kennedy unprecedented power to cut tariffs. While the question of tariffs is always controversial, there was strong bipartisan support for this measure which carried by an overwhelming vote. The greater authority was authorized as a means of strengthening his *position in negotiating with European nations* for Common Market participation.

This may prove to be one of the most important acts of the congressional session now ended, and it could become one of the most controversial issues before the country as the Common Market question develops.

While the lowering of trade barriers has much to recommend it, it means a leveling off of prices thruout the world, a natural result as the barriers are removed. Here, in our own American common market, where goods and services are exchanged freely across state lines, living standards in all of the states tend toward a common level.

There will be disadvantages for us as well as advantages. Some of the adjustments will not be pleasant, but over a period of time the advantages should far outweigh the disadvantages. And, best of all, a strong common market uniting the free world, should be an effective force in defense against Communism.

What About Mississippi?

"Whatever anyone thinks about integration, the basic issue in Mississippi is simply whether one state can set itself above the Federal Government. If it can, then there can be no United States."

This obsrevation by the National Observer probably expresses the prevailing reaction thruout the country to a use of force in supporting what the courts have said is the right of every American citizen, regardless of race. There seems to be no question as to the legal right of the federal authorities to act as they did. Edmund Burke might have doubted the wisdom of such action.

Irishman Edmund Burke is recognized as one of England's oustanding political philosophers. He was a distinguished member of Parliament at the time of the American Revolution, and, without doubt, the most effective defender the American colonies had in Britain at that time. Burke was not especially fond of American colonists. He defended them because he opposed British foreign policy. And he opposed British foreign policy because he believed that policy to be be shortsighted and dangerous.

Burke opposed British foreign policy in India, and he justified the French Revolution. His thinking on India probably comes closest to indicating how he would think about Mississippi today. The British conquerors of India ran into serious trouble when they attempted to transform the natives into Englishmen, imposing upon them not only the laws of England and its religion, but the customs of Englishmen as well.

Burke recognized the folly of trying to remake the people of India in one generation. He recognized the importance of custom, and even prejudice, to an orderly and happy society. And he recognized the fact that in such matters changes come slowly, and are not transformed suddenly by constitutions, laws or court decisions.

Burke has been a wholesome influence on British policy. The great federation that has come to be known as the British Commonwealth has in late years made a tremendous contribution to the cause of international understanding and racial and religious tolerance. We are very much in need of the influence of a William Burke in our country.

Force is a power of government that should be used with extreme caution in dealing with emotional stress and strain. Years of steady progress are not sensational, but steady progress, even tho it seems slow, is much to be preferred to progress by jerks and jolts.

It probably will be a matter of years before we know enough about the results of what happened in Mississippi to pass sound judgement on the action.

A Plan for Action

The Minnesota Natural Resources Council, named by Governor Elmer Andersen a year ago, has filed a report based on various studies of our state's economy, and, as the name suggests, dealing particularly with the state's natural resources. It is an interesting report and should serve a useful purpose as a general outline of some of the important problems that will be considered by the Legislature at its next session.

The report was much better than we expected it to be after a quick glance at the cover page. A rocky wilderness lake served as a background for a waterfowl. As a declaration of purpose the page stated, "How recreation, game and fish, land, water, forests and minerals can better serve the people of our state." They were listed in that order, which added to our suspicion.

When we think of natural resources we think of land, water and minerals. It is from these essential resources that we produce the agricultural and forest products which, along with minerals, give us our main industries. Game and fish and recreation are also important, but their importance is secondary.

Agriculture does receive recognition in the contents of the report but this great industry doesn't enter into the plans for action to make Minnesota a better state to any great extent, and that is a little disappointing. The value of drainage to make farms more productive is looked upon as questionable. Unless we put a stop to it, in a very short space of time we will have no waterfowl. Soon there will be no place in this land of 10,000 lakes for the ducks to wash their

The report does not recognize the fact that in some areas of the state there are conflicting interests and that farmers too have their problems. Farmers, as land owners and taxpayers, presumably have some rights. According to the report only the sportsmen's interests in drainage matters were considered. Several recommendations are made that would be definitely unfair and contrary to the best interests of many farmers as individuals and to the farming communities of which they are a part and which they maintain by their tax dollars.

Farmers have a vested right in their own land and in the facilities they, with *their neighbors, have provided to improve* their operations, including drainage. Land that is taken off the tax roll for public purposes narrows the tax base and increases their tax load. Land that is taken out of a drainage system by the state for public purposes should remain a part of the drainage system and subject to the regular assessments for maintenance and improvements.

Local governments, at the township and county levels, should have a voice in land use decisions within their respective domains. Township and county officials have organizations thru which they can work in support of their reasonable demands, and they should have the backing of other government agencies and civic groups in the areas they represent.

The report of the Natural Resources Council contains much that is good, and deserves careful consideration. But it has notable defects too that are detrimental to the interests of some large agricultural areas. It is high time that the farmers organize to protect their interests from the unfair demands of the highly organized sportsmen's groups.

New Nations and the UN

(Morris Tribune)

Former President Herber Hoover's proposal for the creation of a council of free, anti-communist nations, which he made at the dedication of the Hoover Library, certainly points in a needed direction.

This council, Mr. Hoover emphasized, would supplement, not replace, the United Nations. It would be able to act, in the cause of world peace and order, when the UN was impotent.

UN impotence, on occasion after occasion, has resulted from the intransigeance of the Soviet block. Now there is another totally unprecedented element to compound the problem. It is found in the creation of new African nation after new African nation. The extent of the problem can be realized from something written by Associated Press reporter Wes Gallagher: " . . . some states, like Burundi, are composed of hostile tribes in a small barren land boasting one-half mile of paved road — and one full vote in the United Nations. Africa has 200 million people speaking more than 900 different languages and dialects, divided by scores of religions as diverse as Christianity and idol worship . . ."

These new nations are largely illiterate, and are almost totally lacking in the technicians and professionals the life of a modern state demands. It will take incredible sums of money and, probbaly, scores of years before they approach civilization as we understand that word. Yet each, in the UN, has a vote equal to that of the oldest and most advanced nation, and each is being wooed zealously by the Communists. If we and the West are to make our full power felt in this chaotic and unpredictable world, there is a real need for a Free World organization along the lines that Mr. Hoover has suggested.

Defiance of Logic

(Winnipeg Tribune)

The Commonwealth is about to assume a new form. Few if any of us really understood the Commonwealth in its old form. It had the comfort of an old shoe. It existed in defiance of logic. Now we're attempting to apply logic to forecast its future.

No wonder there's confusion in London. Although the reasons for Britain's entry into the European Common Market are logical the Commonwealth statesmen cannot define precisely what comes next. Although there has been much talk on trade there is also the underlying fear that the mystique of the Commonwealth brotherhood is fading.

While the economic arrangements between Canada and the United Kingdom have been generally unfavorable to the British for many years now, it is not a death bed repentence for our Prime Minister to seek ways of restoring Commonwealth links at this time. He has been a Commonwealth man all his life, and The Tribune believes he speaks for an overwhelming majority of Canadians when he talks in a vague way about the vague Commonwealth. Most of us find it hard to define those things about which we feel most deeply.

Late Events in Middle River

Mrs. H. A. Hanson

The U. S. Geological Survey Group finished their work in this area last week, which was well ahead of the estimated time limit set at the beginning of the survey June 1. Favorable weather the past several weeks helped speed the work which otherwise would have progressed at a much slower pace, especially in the Agassiz area. The field work was finished last week according to project engineer J. D. Roetzel. Some paper work remained to be completed after some of the engineers and their families left for assignments elsewhere in the U. S. First to leave was J. H. McGinnis and his family. He was joined by W. R. McFarlin and his family at Jeanerette, La. T. C. Miller and Mike L. Kennedy families go to Advance, Mo.; D. A. Wicklund to Altars, Okla.; R. M. Brown to Minneapolis, Kansas, and project engineer J. D. Roetzel and family will leave for Searcy, Ark. The Roetzels leave here with a new General Expando Trailer home. In behalf of the engineers and their families, Mr. Roetzel expressed their appreciation for the consideration and courtesy shown them during their stay in Middle River. These families have been a welcome addition to the community these few months and everyone regrets seeing them leave.

Mr. and Mrs. George Fricker left Thursday for St. Paul, where they were present for their son, George, when he was sworn in as a member of the bar for the state of Minnesota. George L. Fricker, now with the Justice Department, Wahington, D. C., is a graduate of the Newfolden High School, University of Minnesota, and the William Mitchel Law School, St. Paul.

Dawn Renie, infant daughter of Mr. and Mrs. Roy Anderson, was baptized Saturday afternoon at the First Lutheran church with Pastor James Hanson officiating. The sponsors for Dawn Renie were Mr. and Mrs. Harold Wagner of Minneapolis.

Mr. and Mrs. Floyd Peterson are the proud parents of a baby boy born Saturday, Oct. 6 at the Northwestern Hospital in TRFalls. He weighed 7 lbs. 5 oz. Congratulations! The Petersons have two other children, a girl and a boy.

Guests Friday evening at the Gust Wettestad home were Mr. and Mrs. Rupert Haugen, Mr. and Mrs. David Nelson, Mr. and Mrs. Odin Avron, Mr. and Mrs. Alfred Johnson and Mr. and Mrs. Henry Wettestad and family. They gathered to say goodbye to the Wettestad's guests, Mr. and Mrs. Birger Lia from Norway, who left Saturday morning to visit at Duluth and the Cities.

Mrs. James Hanson and infant son Mark Jeffrey, returned home from the hospital in TRF Wednesday.

Donald Anderson, son of Mrs. V. N. Anderson, and Richard Engelstad, son of Mr. and Mrs. Eddie Engelstad of Gatzke, were both unfortunate to get hurt at the Drayton-Middle River football game Friday afternoon at Drayton. Donald suffered a broken ankle and Richard a dislocated shoulder and muscle bruise.

Saturday guests at a double birthday party at the Rupert Haugen home in observance of Rupert Haugen and Mrs. Olaf Anderson's birthdays were Mr. and Mrs. John Olson (Della Haugen) TRF, who were Saturday dinner guests, and Saturday supper and overnight guests were Mr. and Mrs. Olaf Anderson (Agnes Haugen) of Argyle and Dave Danielson. Other Saturday evening birthday guests were Mr. and Mrs. Arnold Haugen and family, Mr. and Mrs. Henry Wettestad and family, Mr. and Mrs. Odin Avron and family, Mr. and Mrs. DuWayne Nelson and Dean all of Thief Lake, Mr. and Mrs. David Nelson, DeAnn Nelson and Mr. and Mrs. Gust Wettestad. GO JET-SMOOTH '63 CHEVROLET—IT'S EXCITING!

'63 Chevrolet Impala Sport Coupe

smooths bumps better than a bulldozer

If all roads were superhighways, Chevrolet's remarkably smooth and silent ride might be just another luxury. But as *most* town and country roads will demonstrate, this is one Chevrolet advantage that's mighty easy to get excited about. (The way those four deep-coil springs put the kibosh on bumps, you'd almost think Chevrolet was working for the highway commission.) The '63 Bel Airs, Biscaynes and Impalas are equally easy going on upkeep. Brakes are self-adjusting. New Delcotron generator s-t-r-e-t-c-h-e-s battery life. Even the rocket panels on the Body by Fisher are self-washing and ventilating to cut down on rust. Your dealer's waiting to tell you lots more.

Semi-annual Traffic Record Poor in State

Minnesota recorded more motor vehicle traffic accidents during the first six months of 1962 than during any similar six-month period in the state's history, according to a semi-annual summary released today by the Minnesota highway department.

The 42,067 accident total reported during the first half of this year was 24 per cent higher than for the same period last year.

This total included 230 accidents that brought death to 264 persons, and 10,900 mishaps that resulted in injury to 17,292 other persons. The death toll for the same period last year was 303, while 15,647 persons were injured, compared with the higher injury tally of 1962.

There were 962 accidents involving pedestrians, resulting in 49 deaths and 967 injured persons, compared with the 956 pedestrian mishaps that killed 45 and injured 958 during the same period of the previous year.

Only 11 per cent of all accidents and 43 per cent of the fatal mishaps occured on the rural trunk highway system. Only four of the 99 fatal TH accidents happened on controlled access roadways. Fatal accidents involving railroad trains were almost cut in half, and the number of fatal mishaps involved in collisions with fixed objects were reduced by more than one-half compared with the same period in 1961.

The involvement ratio indicates that trucks are being involved more often than would be expected, based on the number of trucks licensed in the state. During the period, 80 per cent of the vehicles involved in fatal accidents were passenger cars and 178 per cent were trucks or buses. Last year, only 13.3 per cent of the vehicles involved were trucks or buses.

Rep. Langen Chides Congress Leaders

Says Session Should Have Ended Weeks Ago

Congressman Odin Langen Saturday charged House and Senate leadership with dragging its collective feet in the race toward adjournment. "It seems obvious that the leadership either doesn't know what it's doing or is intentionally obstructing the progress of the Congress," said Langen. He added that Congress should have adjourned weeks ago.

Congressman Langen noted that the Senate wasn't even in session Saturday, further complicating adjournment plans. "Maybe it was more important for some prominent members of the Senate to attend a bean feed in Minneapolis than to finish the business here in Washington."

The Minnesota lawmaker noted that many Congressmen will be leaving Washington in the days ahead to campaign for re-election in their home states. "This means that major decisions are going to be made with only a small percentage of the Members present," said Langen.

Larson, Lynskey Named to Honors Program at UND

Officials at Lincoln high school were informed recently that two graduates of the school are currently participating in the honors program at the University of North Dakota. They are Judy Larson and Thomas Lynskey.

Students are invited to join the program if they rank in the highest percentiles of the American College Testing battery of the College Entrance Examination Boards, if their high school performance has been outstanding and if, on the basis of psychological predictors, they appear willing and able to exploit their intellectual resources to the fullest.

Welfare Medical Cost in State Held Twice U.S. Average

Research Director of Taxpayers Group Reports on Results of Survey

Minnesota's expenditures for the medical care of welfare recipients are more than twice as great a factor in total public assistance costs as the national average, according to Harold T. Miller, research director of the Minnesota Taxpayers association.

These medical costs include payments made for hospital, nursing, and licensed nursing home care—in addition to drugs and professional medical, dental and surgical services.

"The nation-wide total for public assistance csts in June, 1962, was $364,873,000, of which $74,331,000, or 20.37 per cent, was attributed to medical costs for the welfare recipients," Miller pointed out, citing advance statistics compiled by the U. S. Department of Health, Education, and Welfare (HEW).

"In Minnesota, public assistance costs for the same month totaled $7,598,000, of which $3,205,000, or 42.19 per cent, were for medical payments, according to the HEW report.

"Minnesota's medical costs for the fiscal year ended June 30, 1962 were distributed as follows: nursing homes, 31.9 per cent; hospitalization, 39.2 per cent; all other medical care, including drugs, 28.9 per cent.

"Minnesota's higher level of medical costs can be attributed to the fact that, except for fee schedules established by the department of public welfare, there are no legal limits in the total grants for recipients of aid to dependent children or aid to the blind, and no legal limits in medical care provided recipients of old age assitance, or aid to the disabled," Miller concluded.

Short
of the
Goal

Larry is a fullback. You ought to see him finding those holes in the line . . . driving off tackle . . . slashing through the secondary. Oh, Larry has scored a dozen touchdowns!

But he can't kick an extra-point! The cross-bar is too high, the goal posts are too far away.

Just give Larry a year or two—with lots of practice. Then we'll win those close ones . . . 7-6 . . . 14-13 . . . 21-20!

Never worry about failure when its cause is being overcome. Don't lower the goal . . . keep trying. Grow stronger. You'll reach it!

That's one of the lessons of life that Larry has learned on Sundays when he goes to church with his family . . . one of many lessons that help us achieve our best every day of the week.

Breeder Flock To Feeder Flock

Lambs Replace Hens On Don Russell Farm

by Marvin Lundin
City Editor

In quest of a project which would fit in well with an annual turkey operation, provide revenue in the off season and still permit a brief period to catch a couple of quick breaths before starting over again, Don Russell of the Steiner community is experimenting with sheep feeding this fall. "Maybe we'll do all right and maybe it won't work at all, but we won't know unless we try it," is his not-to-be-argued philosophy.

With advice from Carl Spong of Central Livestock Cooperative and Maynard Wedul of Wedul Truck Lines in Thief River Falls, Don recently purchased more than 800 lambs from Montana. Mostly of the Columbia breed, the lambs arrived in three Great Northern rail cars last week and were trucked to the farm.

At present the sheep weigh about 80 pounds each and Don plans to market them at 100 to 105 pounds. Some will likely attain that weight by December while the smaller ones will probably be held into January. There is no price guarantee in the project and Don will be taking his chances on hitting a favorable market.

Replacement Project

Raising feeder lambs at the Russell farm, located six miles north and one and one-quarter miles east of Thief River Falls, is a replacement project for breeder hens which had formerly been kept during the winter as part of the turkey operation. Picking eggs involved a great deal of work when 1,400 turkey hens were producing and the return for labor was not considered too successful.

"We have been looking for something which would let us use our turkey equipment and housing but would have a fairly quick turnover," Don explained. "We've been kicking this idea around for about five years and finally decided to make the move. You never learn anything unless you make mistakes and I expect that we'll make plenty of them. We are stepping into this completely cold and hoping we can do enough things right to make it worthwhile."

ONE OF 800 lambs being fattened at the I. J. Russell farm in the Steiner area six miles north and one and one-quarter mile east of Thief River Falls is shown in the above photo by Don Russell. The lambs were mostly Columbias and weigh about 80 pounds each. They will be marketed at 100 to 105 pounds, probably in late December or January.

Farmers Invited to Livestock Institute in TRF Friday Night

Should I sell my dairy calves as vealers or hold them back to use up the roughage? Should I expand the hog enterprise or should I go into beef cows? These types of questions are being asked by farmers every day and information on them is to be presented Friday, October 19, states County Agent Paul Stelmaschuk.

A livestock institute is et up as a part of a general agricultural promotion. Two University of Minnesota specialists will present outlook information and discuss cattle feeding programs.

The institute will begin at 8 p. m. at the Thief River Auction Mart ½ mile west of Thief River Falls on highway 1 and 59. All farmers in the area are urged to attend.

On display will be several lots of cattle, including dairy stock and other grades of feeders. Duane Erickson, extension economist, will discuss the price outlook for the various types of cattle displayed. He will also venture into the markets for the period one year ahead and present the outlook for sheep, swine and other farm products.

Following the outlook presentation, Dr. Ray Arthaud, extension livestock specialist, will talk on the kinds of forages (hay, silage, etc.) to use to get the most profit out of dairy or beef feeder cattle. He will also review the kind of grain rations to use for the grades of cattle displayed to get the most money out of them.

The time to market these cattle will also be discussed as the specialsits look into the future.

All farmers would do well to hear these discussions and see the exhibits of cattle, Stelmaschuk added.

Secy. Freeman to Talk at Bean Feed Here October 27

At a meeting of the Pennington county DFL executive committee last Wednesday, arrangements were made for the DFL bean feed to be staged in the Thief River Falls armory Saturday evening, October 27, starting at 7 o'clock. Cy Carpenter, county chairman, announced that the guest speaker will be Secretary of Agriculture Orville Freeman, former governor of Minnesota. Tickets for the bean feed are available at $1 each from party members.

Bank Debits Here Down 2 Per Cent During September

Bank debits in Thief River Falls were two per cent lower in September this year than in the same month a year ago, reducing the net gain for the first nine months to one per cent. Bemidji is the only city of comparable size in the area that showed a substantial gain for September with a seven per cent gain and a two per cent gain for the year.

Detroit Lakes and Fergus Falls dropped five per cent. Crookston dropped ten and East Grand Forks 17 per cent for the month.

Rep. Langen Gets Appropriations Committee Post

District Congressman Appointed Thursday to Powerful Committee

Rep. Odin Langen Thursday was named to the powerful House appropriations committee to succeed Rep. H. Carl Andersen.

Andersen, who was defeated for renomination, was the third ranking GOP member of the committee and the top Republican on the Agriculture Appropriations Subcommittee.

Langen, elected to his first term in 1958, has been a member of the government operations and interior committees. On the former, he was active on the subcommittee that investigated the commodity dealings of indicted Texas operator Billie Sol Estes.

Before adopting a resolution naming Langen to the appropriations committee, the House received Andersen's resignation from the committee.

G. Smith at Course on Farm Income Taxes

Gordon W. Smith, of Thief River Falls, with offices in The Elks building, recently attended the 20th annual farm income tax short course in St. Paul.

The course stressed the latest information on preparation of farm income tax forms. It was sponsored by the office of agricultural short courses, University of Minnesota; the Minnesota Bankers' association; the state department of taxation; and the director of internal revenue, U. S. Treasury Department.

Representatives of the federal and state income tax divisions and the University of Minnesota acted as instructors at the course.

Catholic Youth Group to Convene in TRF Oct. 25-26

Thief River Falls has been chosen as the site for the 1962 convention of the Crookston Diocese Catholic Youth Organization, to be held on Thursday and Friday, October 25 and 26. The members of the organization are all those belonging to approved Catholic Youth Groups of the Crookston Diocese, comprising young people of high school age and above.

CYO was formed to promote a four-fold plan of spiritual, cultural, social, and physical activities on a diocesan, deanery and parish level; also to improve and elevate the conduct of youth in the home, church, school, and in the community.

APPEARING in Thief River Falls this week will be Princess Kay of the Milky Way, Kathleen Hjelle of Argyle. She will make an appearance at the Top of the Nation Dairy sale and Lincoln high school on Thursday and visit the city's banks and supermarkets on Friday.

Creamery Plant Operators Meet in TRF Tuesday

Board Members of Dists. 17 and 14 Also to Attend Meeting and Banquet

A joint meeting of Land O'Lakes Districts 14 and 17 operators and officials will be held here Tuesday, October 16. The afternoon session will get under way at 2:00 o'clock at the Eagles Hall and a banquet will be served at the American Legion club rooms starting at 6:30 o'clock. In attendance will be creamery board members and operators and their wives.

Speakers at the afternoon meeting will be Carl Leaf, production manager, Rolland Zeller, representing research and quality control, and Loren Hartwell, credit manager, all of the central organization. The banquet speaker will be Dan Holz of Hawick, Minnesota, president of Land O' Lakes Creameries, Inc. and a director of American Dairy Foods, a research organization recently formed by five dairy cooperatives including Land-O'Lakes.

Presiding at both the afternoon and evening sessions will be Marlin Augustine, District 17 director.

Sales of Savings Bonds Continues Slump in County

Cash sales of Series E and H Savings Bonds in September in Minnesota totaled $4,389,827, bringing the nine months total to $46,766,473.

Redemptions for September were the lowest nationally than for any time in the past eight years.

Purchases of Series E and H Bonds in Pennington county during September amounted to $19,381, according to J. M. Roche, county savings bonds chairman. "This brings sales for the first nine months of the year to $83,525," the chairman said. The 1962 quota is $265,000.

Sr. Class Play Slated Tuesday

"Life With Father", the Lincoln high school senior class play, will be presented Tuesday at 8 p. m. in the Lincoln high school auditorium. The play is under the direction of Al Schaff, English instructor at the school, and features costumes and set decorations reminiscent of the turn of the century.

Town & Country Days Offer Large Number of Activities

North Region Firemen Elect Crookston Man

Chief Wm. Herbert Named President at Meeting in City

Chief William Herbert of the Crookston fire department was elected president of the Northern Region Firemen's association at the annual fall meeting held Wednesday evening in Thief River Falls. About 140 firemen from Northwestern Minnesota attended the dinner session held in the Eagles hall and served by the Eagles auxiliary.

Other officers elected were Chief Willard Erickson, Fertile, vice president; Chief Roy Langevin, Thief River Falls, secretary; Chief George Copp, Warren, and Chief Vince Sullivan, East Grand Forks, legislative and finance; Chief Art Knutson, Gary, Harvey Pederson, Bagley, Chief Sunsdahl, Stephen, Roy Green, Bemidji and Chief John Mead, Red Lake Falls, directors.

Mayor Orin Green of Thief River Falls welcomed the visiting firemen to the city and Chief Herbert of Crookston gave the response. Randal Noper and Malcolm Magnusson presented their comedy novelty act of "Whistler and His Brother".

Educational talks were given by the following fire chiefs: George Copp, Warren, "Maintenance of Fire Equipment"; Vince Sullivan, East Grand Forks, "What Firemen Should Do After a Fire"; Willard Erickson, Fertile, "Farm Fires"; and Roy Langevin, Thief River Falls, "Fire Prevention Week".

Patrick Barry, assistant state fire marshal stationed in Thief River Falls, spoke on "How Firemen Should Look for Signs of Arson". A general discussion was held on arson, various types of fires and fire schools. Middle River was selected as the site for the spring meeting. A movie entitled "Train We Must" was shown to the group, and a rising vote of thanks was given to the Thief River Falls department for hosting the meeting.

Mutual Insurance Agents to Meet in TRF on Thursday

The Minnesota Association of Mutual Insurance Agents, in cooperation with the Gopher 1752 club, is sponsoring an agents' educational clinic at the Rex Cafe in Thief River Falls Thursday, October 18, starting at 9 a. m. and continuing until 4 p. m. Representatives of several insurance companies will discuss a revised garage liability policy, public institutional coverage and a retail store package policy. The meeting here is one of six being conducted in Minnesota this month.

PROTECTED against the effects of polio as a result of the immunization clinic held Friday in Thief River Falls. They devoured their sugar lumps containing oral vaccine the only way children can — a little messy. Standing on stroller is Teresa Wilde, one and one-half year old daughter of Mr. and Mrs. Ralph Wilde. Seated is her uncle Bruce, one-year-old son of Mr. and Mrs. Sigurd Folkedahl. The youngsters were among the more than 6,000 persons who received the vaccine at the community clinic.

Turkey Barbecue, Auto Show, Many Farm Events Set

Something of interest for everyone is guaranteed for Northwest Town and Country Days to be held Thursday, Friday and Saturday in Thief River Falls. Under the general sponsorship of the Chamber of Commerce, the three-day event will spotlight the unity of rural and city people and focus attention on both agriculture and industry in the area.

Undoubtedly the greatest attraction will be a free barbecue on Saturday when more than 100 turkeys will be barbecued and served to an expected crowd of 5,000 persons. Roy Monson of the Minnesota Turkey Growers Association will supervise the barbecue at a 100-feet-long pit south of the city arena on First street.

Serving will begin at 11 a. m. with the serving chores to be handled by the men's club of Trinity Lutheran church. Everyone is encouraged to take advantage of the free serving regardless of city or rural residence and regardless of age. Barbecue turkey sandwiches, milk and coffee will be served with the feeding to last until the turkey is gone or the people stop eating.

Sponsors of the barbecue will be Land O' Lakes, Peterson-Biddick, Union and Northern State Banks, Osborne-McMillan, Western Oil and Fuel, Consumer's Cooperative, Ihle Insurance, Farmers Union GTA, Shetler's Hatchery, Farmer's CoOp Grain and Seed and Hagen Insurance company of Roseau.

Registration for free turkeys will take place at participating stores and a drawing will be awarded by participating merchants. No purchase is required and registration officially opens Thursday morning and will continue until stores close on Saturday.

Opening event of the activity-filled three days will be the Top of the Nation Dairy Sale which is scheduled to begin at 1 p. m. at the livestock pavilion on the Pennington county fairgrounds. Princess Kay of the Milky Way, Kathleen Hjelle of Argyle, will attend the opening of the sale and will make a morning appearance at Lincoln high school. She will serve milk in the school cafeteria from noon to 1 p. m. during part of the noon lunch period.

Princess Kay Appears

Princess Kay, who also carries the title of Northwest Dairy Princess after being crowned at Dairy Day here in June, will be the main feature of a Dairy Food Festival on Friday. She will visit city banks and supermarkets to give out free dairy samples to customers.

The schedule includes Hartz Supermarket, 10 to 11 a. m.; Union State Bank, 11 a. m. to noon; Northern State Bank, 1 to 2 p m.;

Oct. 18, 19, 20 Are Soil Sample Days

The soil on your farm may be too sick to produce a crop next year. They way to diagnose its ills and prescribe treatment is to take a soil test this fall.

Three days are set aside for collecting soil samples this week. Farmers are urged to bring in samples Thursday, Friday or Saturday. A trailer will be set up on the street by the Thief River Falls postoffice where the samples will be gathered.

The trailer will be open from 9:00 p. m. on Thursday and Friday, and on Saturday from 9:00 a. m. to 5:00 p. m. All area farmers from Pennington; Red Lake, East Marshall, and other parts of the Thief River Falls trade area are invited to bring in samples. Fertilizer dealers will help farmers complete the information sheets and package the samples.

The cost per sample is one dollar. The farmer will be given a receipt for the amount he pays for the testing. This amount will then be subtracted from the cost of the fertilizer he may buy from an dealer in Pennington County.

A soil sample should be taken so that it represents a field. Stops should be made in about 15 places in the field. The spade is sunk to plow depth and a pinch of dirt is thrown in the pail from the top, the middle and the bottom of the slice of dirt lying on the spade. After fifteen such stops the soil is thoroughly mixed in a pail and a composite sample of one pint is brought to the trailer.

The samples will be sent to the University of Minnesota soil testing laboratory for analysis. Farmers should take samples from fields which haven't been tested for two years, states County Agent Paul Stelmaschuk; also from fields where there may be special problems, the hay and pasture fields, and new soil bank land coming into production.

Don't forget that alfalfa can be a money making crop if the soil is ready for it, said Stelmaschuk. Three tons of alfalfa hay, however, will take 30 pounds of phosphate, and 135 pounds of potash. Find out what's in your soil thru a soil test and add the balance to get a good yield.

3 Constitutional Amendments Are Published Today

Appearing elsewhere in this issue of the Times is an official publication giving the text of the three amendments to the Minnesota state constitution to be submitted for approval of voters in the general election Tuesday, November 6. Voters are reminded that a failure to vote on the amendements counts as a vote against eralizes the rules governing the investment of state trust funds for schools; Amendment No. 2 eliminates the present $250,000 limit on debts for capital improvements; and Amendment No. 3 extends from 90 to 120 days the length of the biennial legislative session.

400 Expected at School Workshop in TRF Wednesday

State Department of Education Arranges for Regional Meeting Here

Representing 40 schools in this section of the state, nearly 400 superintendents, principals and teachers will attend a regional workshop Wednesday afternoon and evening, October 17, at Lincoln high school in Thief River Falls, Supt. Marshall Hankerson announced today.

The session will open at 4 p. m., when superintendents and principals will confer with representatives of the state department of education on teacher certification, general school regulations and school libraries.

Following a Dutch treat lunch, the meeting will resume at 7 p.m. Participating, in addition to superintendents and school board members, will be separate conferences for librarians, counselors and teachers of science, mathematics, language arts, industrial arts, office education and gifted classes.

Nearly a dozen officials from the state department of education in St. Paul will participate in the workshop. Supt. Hankerson is in charge of local arrangements.

FOURTH ANNUAL BEST EVER . . .

Dairy Sale Really Is Tops

Cattle consigned to the Top of the Nation Dairy Sale in Thief River Falls Thursday will give response where the dairyman like it most— in the milk pail and the pocketbook. This is the opinion of Martin Carrico, sales manager for the sale which will begin at 1 p. m. in the livestock pavilion on the Pennington county fairgrounds in Thief River Falls.

"The men that are making money with dairy cattle are the men who are able to maintain production and build their herd averages," Carrico said. "This sale is primarily a sale of grade cattle, with relatively few purebreds, but each has proved itself from the production standpoint or has the breeding background to be a money-making producer."

Carrico noted that Minnesota and North Dakota state purebred sales attract a large number of animals but that more than half of them would not qualify for Top of the Nation sale because production records are too low, or there are no records at all.

"This is not a sale of culls," the sales manager said. "All cattle must have production records of at least 400 pounds of butterfat if grade and 450 pounds if purebred. Dams of springing heifers and calves must have minimum records. Consignments are selected from the top animals in the herds of the consignors and this year the cattle consigned have the highest average records of any sale held to date."

A consignor's sale meeting will be held Wednesday at 8 p. m. in the Rex Cafe under the sponsorship of the agriculture committee of the Thief River Falls Chamber of Commerce. Lunch will be served at the meeting. Slides of 1962 Northwest Dairy Day will be shown to the group attending.

Prior to the sale Thursday, a noon dinner will be served at the sales pavilion on the fairgrounds. The meal is sponsored by American Breeders Service of Thief River Falls and Consolidated Breeders Cooperative of Anoka. All consignors and prospective buyers are invited to join in the meal. Princess Kay of the Milky Way, Kathleen Hjelle of Argyle, will make an appearance at 1 p. m.

Prospective buyers are reminded that 14 FFA and 4-H project animals, consisting of calves and yearling heifers, will be offered at the sale this year. A total of more than 40 head of cattle will be sold at the sale. All animals old enough have been calfhood vaccinated and all are TB and BANGS tested. Carrico will serve as auctioneer for the sale.

Vows Exchanged By Miss Berg, Alan Sorenson

Judith Marie Berg and Alan Dale Sorenson exchanged vows at a double-ring ceremony at the Sand Valley Lutheran church at Trail September 1, at 3 p. m. Prompting the vows was the Rev. Roger Olson. About 100 guests were present. The organ and piano were decorated with bouquets of white gladioli. The pianist was Sharon Nelson, cousin of the bride. Soloist was Geraldine Bergh, who sang, "Song of Ruth", and "The Lord's Prayer".

Miss Berg is the daughter of Mr. and Mrs. Everett Berg of Trail, and Alan is the son of Mr. and Mrs. Paul Sorenson of Oklee.

The bride wore a ballerina-length dress fashioned with a scoop neckline, long, fitted sleeves, and pearl-appliqued gathered skirt. Her fingertip veil was held in place by a crown of seed pearls. She carried a bouquet of white carnations and stephanotis on a background of lemon leaves.

Miss Jean Berg of Minneapolis, who was her sister's bridesmaid, and Mrs. Judy Berg of Minneapolis, a sister of the groom, as matron of honor, wore shrimp-colored sheath dresses styled with scoop necklines, short cap sleeves and overskirts of dotted Swiss. Their bouquets were large white mums on lemon leaves.

The groom and his attendants, his brother Kenny Sorenson of Minneapolis, as best man, and Goodwin Olson as groomsman, all wore dark suits. Roland Hellquist, Roseau, and Gordon Lolland, Trail, were ushers.

The bride's mother wore an aqua print sheath dress; the groom's mother wore a brown knit jacket dress with brown accessories. Both had corsages of baby pink roses.

A reception, given by the bride's parents, was held in the church parlors. A three-tiered wedding cake, surmounted by wedding bells, centered the serving table. Miss Joan Larson of Minneapolis and Mrs. Alan Poole of Grand Forks, poured. Mrs. Kenny Sorenson of Minneapolis, and Mrs. Ronald Edevold of St. Paul, cut and served the cake. Miss Linda Handy was at the guest book, and Miss Beverly Dyrdahl of Minneapolis and Mrs. James Underberg were at the gift table.

Out-of-town guests were from Minneapolis, Duluth, Alvarado, Crookston, Warren, Roseau; Superior and Lancaster, Wisc.; and from North Dakota.

Capt. Roger Williamson Wed To Elaine Grieser

Central Presbyterian Church of Summit, N. J. provided the setting for the Saturday, October 13th wedding of Elaine M. Grieser and Capt. Roger Clyde Williamson. Dr. Robert Stephens officiated at the nuptials. Soloist was Betty Ann Busch, soprano, accompanied by Mrs. Nelly Blazius.

Parents of the couple are Mrs. Theodore Grieser of Summit, N. J., and Mr. and Mrs. George Williamson, former residents of this city, and now of Grand Forks, N. D.

The bride was given in marriage by her uncle, George Smylie of Seattle, Wash. Her street-length gown was of peau de soie, the bodice of which was enriched by detailing of tiny seed pearls, and featured a gentle scoop neckline and long, fitted sleeves. The sheath skirt was accented by a back panel embroidered with seed pearls. A dainty coronet of pearls and crystal secured her shoulder-length veil. She carried a white prayerbook topped with cymbidium orchids and stephanotis.

Her matron of honor, her sister, Mrs. Roy N. Belliveau, Dunellen, N. J., wore a sheath dress of willow green silk organza with scoop neckline and full overskirt. She wore a matching green headband and circular veil, and carried rust-colored spider chrysanthemums.

Junior bridesmaid, Miss Janet Grieser, Summit, wore a simple willow green taffeta dress with a wreath of ivy as a head-piece, carried a small nosegay of rust-colored chrysanthemums.

Attending the groom as best man was John Weyman Davis, Lt. USN, San Diego, Calif. Ushers were Donald Swain, Capt. USAF, Hampton, N. H., and Thomas Donnelly, Lt. USN, Arlington, Mass.

Following the reception at the home of the bride's mother, the newlyweds left to honeymoon in New York City and in Canada.

For her travel costume, the bride chose a Persian pink suit with a white feather hat.

The bride attended Russell Sage college, Troy, N. Y., and Florida State University school of nursing, and holds the rank of Lieutenant in the Army Nurse Corps.

Captain Williamson is an alumnus of the U of ND and a graduate of the US Naval Academy, Annapolis, Md. He is a pilot in the Strategic Air Command, with the rank of captain in the USAF. He has been with the services for the past five years.

Charlotte Dahle Is Wed to Gene Hoglo October 6

Miss Charlotte Jane Dahle became the bride of Gene David Hoglo in an afternoon wedding at St. Bernard's rectory on October 6. Father Keough Patnode performed the double-ring ceremony in the presence of the immediate families of the couple.

The bride is the daughter of Mrs. Alice Dahle and the late Ervin Dahle, and Mr. Hoglo is the son of Mrs. Marion Hoglo and the late Wm. Henry Hoglo of rural Thief River Falls.

Miss Dahle chose for her wedding a 3-piece suit of blue and black knit, with which she wore a corsage of red roses and white carnations.

Attending her as bridesmaid was Miss Phyllis Olson of Minneapolis, who wore a gray 2-piece wool suit. Yellow roses and white carnations formed her corsage.

The best man was James Koropatnicki of Minneapolis.

Mrs. Dahle wore a textured 2-piece knit ensemble in blue, while the mother of the groom wore a dark blue print dress of synthetic fabric. Both wore corsages of yellow roses and white carnations.

Following the ceremony, a reception with about 75 guests in attendance, was given in the couple's honor at the home of the bride's mother. Lunch was served buffet-style, the bridal table featuring a three-tiered wedding cake in white with red rose trim, and topped by a bridal couple in miniature. There was also a groom's cake, both cakes baked and decorated by Mrs. James Olson.

The serving table also featured several family heirlooms, including the tablecloth of the bride's deceased grandmother, Mrs. Theodore Stigen, as well as a cut crystal sandwich tray. The sugar bowl was once used by her great-aunt, the deceased Caroline Hausker.

Cutting and serving cake was the bride's aunt, Ella Stigen, of Lockhart. Mrs. George Stigen, another of the bride's aunts, poured. They were assisted in serving by Mrs. Harvey Overbye.

Gifts were arranged by Mrs. Dan Butler, Minneapolis, and by the bride's sister-in-law, Mrs. Lyle Dahle. At the guest book were the bride's sister, Barbara Dahle, and her cousin, Delores Overbye.

Guests were in attendance from Minneapolis, Thief River Falls, Lockhart, Grand Forks, N D., and Superior, Wisc.

Both bride and groom are graduates of Lincoln high school of this city, the bride with the class of '62 and the groom with the class of '60.

They are living in a trailer home on the turkey farm which her husband and his brother operate jointly. Mr. Hoglo is also in the trucking business with his brother.

KITCHEN KARNIVAL

Features from the kitchen of

MRS. BURTON KVERNEVIG

'Tho this falls into the category of a Chinese dish, you needn't worry about chop-sticks, Honorable One; American-type fork will clean plate just as well!

Mrs. Kvernevig, who supplies the recipe for this hot-dish, says that she formerly ate out a great deal, and that, once she'd become acquainted with Chinese food, she simply loved it, and made a point of singling out eating places which featured it.

Her family thinks it's pretty good too. We don't know how it would stack up with Eggs Foo-Yung, never having tasted that particular "delicacy", but we do know that Mrs. Kvernevig's guests don't refuse seconds, and that is a pretty good indication of the goodness of any dish. We hope you'll like it, too.

CHOW MEIN HOT DISH

1½ lbs. ground beef
1 medium onion, chopped.
1 small bunch celery (less, if you prefer)
1 can tomato soup
1 can cream of mushroom soup
1 small bottle soy sauce
seasoning to taste
½ lb. chow mein noodles (to be added later).

Cut and cook the celery while meat and onions are browning. Save a soup-can-ful of the liquid in which you cook the celery, and add it, with the soups, to the browned meat. Add soy sauce and seasonings. Pour mixture into a buttered casserole and bake 1 hour at 350 degrees. Add the noodles during the last 20 minutes of baking time, mixing them in well. This is good served over steamed rice. (More Soy sauce may be added, if desired.)

Mrs. Kvernevig, whose husband, Burton, is with the state welfare agency and who also works with county welfare, says that she loves to read, that reading is the hobby she loves most, next to cooking. Her reading preferences are historical novels, and good fiction of all kinds

As a family, they love doing things together, especially camping out, and outdoor sports. Mr. Kvernevig is building a trailer for camping trips, and is in the process of building a pontoon boat.

His wife is active in church work at Our Savior's Lutheran Church. She also loves doing yard work.

They moved here from Long Prairie three years ago this month.

Attendance of 20,000 Is Expected at State Teachers Convention

Teachers throughout Minnesota —more than 20,000 of them—are preparing to attend the 84th convention of the Minnesota Education association (MEA), Oct. 25-26.

The biennial convention — largest of any state professional group and the largest of all regularly-scheduled conventions in Minnesota — has grown to the point where meetings are held throughout Minneapolis and St. Paul and the suburban area.

Convention headquarters and more than 220 booths with products and ideas from some 175 exhibitors will be in the Minneapolis Auditorium. General sessions will be held in the Auditorium Arena.

Featured speakers for two of the general sessions will be Harold Taylor, former president of Sarah Lawrence college and now an author and TV host, and John Ciardi, poetry editor of the Saturday Review of Literature and former Rutgers university English professor.

Taylor will discuss "The Crisis in Education" at the opening general session Thursday morning, which is designed for elementary teachers.

Ciardi will address the third general session, Friday morning and designed for secondary teachers, on the subject "Why Read?"

Thursday evening's second general session program includes presentation of awards to news media, winners in the first Minnesota School Bell Awards competition (sponsored by the MEA), introduction of the newly-elected MEA president and vice president, and a music program by the All-tate band, choir and orchestra.

The first evening will wind up with the traditional Friendship night, beginning at 10 p. m. in the Auditorium's West hall, and no official program is scheduled for Friday night.

HAPPY HOMEMAKING

by Laura Duerst

PENNINGTON COUNTY HOME AGENT

This past week has been a busy one like almost every week is. Congratulations are in order for the fine work the Silverton 4-H club did in safety this past year. Also, congratulations to all the new officers in the home council. The best of everything for another successful year.

Why Not Decorate With House Plants?

Why not show off your house plants to best advantage? When you begin decorating with house plants, more than knowledge of plant care is called for. Why not apply some art principles.

The colors found in walls and floor coverings are the backgrounds for your plants and will flatter or complement them, if you select the plants with care. Dark green leafy plants will be effective used against a light background. Against dark walls use plants having lighter foliage.

Plain or solid colors make the best backgrounds for plants. Highly patterned walls and carpets are poor backgrounds for any plant materials.

The relation between size and shape of the plant and the space where it is used is highly important. Use a plant, or a group of plants, similar in shape and of sufficient size to fill the space adequately, but not crowd it. Use flat, low plants on low tables. For a feeling of unity in your table service, use a low, spreading centerpiece.

The care a plant requires is a good clue to where it should be placed. Nothing detracts more from a decorating scheme than plants which have become sickly because of being placed in a dark corner, a drafty area or a hot, sunny spot.

A container for a house plant should be in keeping with the surrounding furnishings. It should stay quietly in the background, doing its job without attracting undue attention.

For more information on decorating with house plants, get a copy of Home Economics Fact Sheet No. 10, available from your county extension office or from the Bulletin Room, Institute of Agriculture, St. Paul 1, Minnesota.

Middle River Girl Given UND Award

Twelve University of North Dakota students majoring in occupational therapy have received traineeships of $400 each to continue their studies.

The awards were made by the UND occupational therapy department under a $4,900 grant from the office of vocational rehabilitation, a branch of the department of health education and welfare in Washington, D. C.

Among the students receiving the awards, based on scholarship, professional interest, academic potential and financial need, is Rena Griffin, Middle River.

BREEDING for production is one of the assurances that cattle offered at the Top of the Nation Dairy Sale here on Thursday will do a good job for dairy farmers. Pictured above is Wis Captain, a bull which has three daughters in the sale this year and is bred through artificial insemination to several other animals consigned. The animal is the sire of the reserve All-American heifer calf in 1960 which sold for $4,000 at the Pabst-Knutson dispersal sale at Oconomowoc, Wis. He has 23 daughters with 53 records averaging 15,986 pounds of milk, 3.55 per cent test and 568 pounds of butterfat.

SELECTED as the winner of a theme contest on "Why I Am Proud To Be an American" was Valerie Scholin, daughter of Mr. and Mrs. Vernon Scholin of 404 Duluth av. S. The contest was sponsored by Bridgeman Creameries and judged by the local Newcomers club, and the five-foot plastic sailboat offered as a prize was presented to Valerie on Saturday by Mrs. Herman Dargus. The winning selection stated: "I am proud to be an American because God has blessed us richly and we've shared our riches with others. He has given us the freedom to worship Him as we please and many other freedoms."

The Library Corner

By Edwin Stengelsen

Now and again, some individual or educational group or organization, or some publication, issues a list of the hundred greatest novels. Due to differences of opinion as to the merits of the various books considered, the lists are never quite alike. One will omit some particular book which the others have rejected.

As the crossword puzzle serves, in a limited measure, as a vocabulary test, so the list of the greatest novels provides a means of testing the extent to which we are familiar with the so-called good literature.

When the next list of the hundred greatest novels is published, we shall try to get hold of a copy and publish its contents in this column. In the meantime, how many of the following have you read?

"Vanity Fair," by Thackeray. If you have not already read this, we urge you to do so and thus make the acquaintance of Becky Sharp. You may not find this enterprising lady "fascinating," but we predict you'll find her interesting.

"Les Miserables," by Victor Hugo. The book illustrates graphically the savagery and cruelty with which infractions of law, which today would be considered no more than misdemeanors, were punished. In the book, we follow the unfortunate Jean Valjean and suffer, vicariously, some of the misery he endured.

"Moby Dick," by Melville. The plot of the story is the enmity between Captain Ahab, master of a whaling ship, and Moby Dick, the white whale. Encountering each other on the various seas of the world, they carry out their endless war. Melville's detailed description of whales, whaling, and the whaling industry furnishes a rich background for the story.

"Madame Bovary," by Flaubert. The scene is laid in rural France. Madame Bovary is the wife of the small town physician, Doctor Bovary. He has almost, but probably not quite, the qualifications of an Indian medicine man. This is shown by the tragic results which followed his attempt to treat the clubfooted man.

In the center of the story is Madame Bovary, with her dissatisfaction, her ennui and loneliness.

It's an interesting story, but I could never quite see how it rated a place among the great novels. I was quite young when I read the book and reached this conclusion. Many years later, I had the satisfaction of having William Soskin, the noted critic, agree with me. Said he: "When I was young, I read Madame Bovary. I had been told it was one of the great novels. I didn't like it. The other day I re-read it to find out why I hadn't liked it. I found out. It isn't very good."

Don Quixote," by Cervantes. Here you meet the aged Spanish don, astride his war charger, Rozinante, and his faithful squire, Sancho Panza, mounted on his mule. Rozinante is as aged and decrepit as her master. Using today's vivid slang, Don Quixote is best described as a "screwball", as compared with Sancho Panza who is level-headed and sensible. The book is a delightful satire on the social order of the time.

This week a substantial check was received for the purchasing of books from the Lincoln High Class of '37 Reunion Fund. Following is a quote from the letter:

"Please accept this gift as a thank you from the members of the Class of '37 for the assistance that the staff at the library gave to us, particularly when we were students at Lincoln". We are greatly pleased by this gesture and wish to make a public THANK YOU!

President Signs Bill Raising Postal Rates and Pay of Employees

President Kennedy Thursday signed a bill raising postage rates, and boosting salaries for more than a million federal employes.

Among the changes: First class mail will cost five cents, air mail eight cents beginning next Jan. 7.

The pay section of the bill calls for two-step raises averaging 9.6 per cent for 1 million "white collar" workers, and 11.2 per cent for 600,000 postal clerks and letter carriers.

The first step goes into effect next payday, the second step on Jan. 1, 1964. Cost of the increase will be $1.05 billion.

The new postal rates are intended to bring in $600 million in new revenue after three years.

The new first class and air mail rates begin Jan. 7, 1963, but most of the second and third class increases are spread over three years, starting in January.

Of the $600 million in new revenue, $459 million will come from the added penny on first class and air mail stamps.

Second class users — mostly magazine and newspaper publishers—will have their mailing costs increased by $27.4 million after three years, chiefly through three annual increases of 4 per cent for editorial matter, and three 10 per cent increases for advertising matter.

New third class rates will bring in $93.7 million in new revenue, $39.5 million of it through an increase from 2½ cents per piece of bulk advertising mail to 2⅞ cents after three years.

The rate for a single piece of third class mail goes up from 3 cents to 4 cents, bringing in an additional $34.5 million. This is the class used by those who send Christmas cards with the envelopes unsealed.

Town and Country Days Scheduled October 18-19-20

(Continued from page 1)

Stan and Otto's Red Owl, 3 to 4 p. m.; and Piggly Wiggly Supermarket, 4 to 5 p. m.

Friday evening will be highlighted by an educational livestock clinic to be held at the Thief River Auction Mart one mile west of the city on highway 59. Two University of Minnesota extension specialists will discuss livestock feeding and prospects for the industry in the next two years. Several classes of dairy and beef cattle will be on display during the clinic and all interested persons are encouraged to attend.

Industrial products manufactured locally will be on display at the Northwest Industrial Show which will be staged all three days at the city auditorium. Among those firms displaying items will be Arctic Enterprises, Inc.; Brodin Sheet Metal, Dow Key Company, Forsberg and Sons, Northwest Woodwork and Valley Feed and Supply. Several other displays may possibly also be included.

Auto Show

Auto dealers invite the public to look over new models at the Northwest Auto Show slated Friday and Saturday at the city arena. All visitors to the show over 18 years of age are eligible to register for a free carload of groceries to be given away Saturday afternoon. The parcel including the car. Tire dealers will also have displays and music will be furnished for the event by Larson Music company.

The soil collection depot will again be maintained near the post office and farmers are urged to bring their samples to the trailer. Pennington county fertilizer dealers will reimburse farmers for the cost of having samples analyzed by deducting the amount from fertilizer purchased in the spring.

All indication are that there will be ample activity for area residents in Thief River Falls this weekend during Northwest Town and Country Days.

DOUBLE DUTY performance is being obtained from turkey housing and equipment at the Russell farm. This interior view shows the pole barn which is being used as housing for more than 800 feeder lambs which replace a turkey breeder hen operation. Don Russell, who has been planning the operation, believes in "putting on a good show" and the barn and animals made a clean and orderly appearance. The 50x120 pole barn offers more space than needed according to specifications for lamb feeding. "It's better to start a little light when you don't know what you're doing and then change when you learn a few things," Don insists.

CORRAL feedlot on the I. J. Russell farm northeast of Thief River Falls is the scene of considerable activity. More than 800 lambs, purchased in Montana and shipped to Thief River Falls by rail early last week, are frequenting the premises. Self-feeders are being used in the program which utilizes ground alfalfa hay, fortified antibiotics, cracked corn and concentrate in a blended ration. It is planned to divide the sheep into at least two lots according to size to provide an acceptable feeding and management program.

kept in a 50x120 pole barn which is used in the normal turkey operation. The Russells raise about 14,000 turkeys each year. The barn is airy and well-ventilated and both the barn and adjoining corral are surprisingly clean.

"We try to run a good show," Don said. "I looked at a lot of sheep pens during the past several years and I've only seen one clean one. I figure sheep should be kept clean like we keep our turkeys clean." Although received only several days before, the lambs were very quiet and generally quite tame.

Don doesn't anticipate a great deal of technical work involved in raising the lambs to market weight. All will be vaccinated for enterotoxemia and fed fortified antibiotics in the feed ration of ground alfalfa, hay, cracked corn and concentrate. Self-feeders, some of which are used in the turkey operation, will be used in the lamb feeding program. Feed will be ground on the farm through the portable mixer operated by Land O'Lakes.

No heat will be needed in the building during the winter and the self-feeders will be located inside the building when cold weather and snow arrive.

"Next year? Ask me in the spring. With the buildings and equipment we have it would be possible to handle twice the number of lambs we have now," Don said. "What we do next year depends on what we learn this years." There can be no argument over a statement like that.

Edwin Nelson Rites Slated at Newfolden Oct. 16

Edwin Nelson, a lifelong resident of the Newfolden community, died early Saturday morning, October 13, at Northwestern Hospital. He was 72 years of age.

Funeral services have been set for Tuesday, October 16, at 2 p.m. at the Bethlehem Lutheran Church in Newfolden. Rev. Eldor Oscarson will officiate. Burial will be in the Augustana cemetery. Green Funeral Home of this city is in charge of arrangements.

Hours of visitation for viewing the body are until 10 a.m. on Tuesday at the funeral home, and at the church for one hour prior to the services.

A complete obituary will be found in Thursday's issue of the Times.

Final Rites For Hjalmer Kalsnes Held on Friday

Hjalmer Ralph Kalsnes, who for many years lived in Brandt township, Polk county, passed away in St. Paul on October 9 at the age of 68 years.

Funeral services were held on Friday afternoon, October 12, in the Black River Lutheran church. Rev. Martin O. Carlson and Otto Baker conducted the final rites. Interment was in the church cemetery, with arrangements in charge of the Green Funeral Home of Thief River Falls.

Mr. Kalsnes was born on August 4, 1894, in Aalesund, Norway, and came to America and settled in this community when he was 16 years of age. He served with the US Army during World War I from February 1918 until July, 1919.

In 1920, he was united in marriage to Miss Clara Berg, and they resided at Grygla before moving to Rocksbury township. He farmed there for five years before moving to Polk county, where he also farmed. The last three years, in failing health, he spent much time in St. Paul.

He was a member of the VFW Post at Crookston and had been a member of the American Legion Posts both here and in Euclid. He was a member of the Black River Lutheran church.

Surviving are his wife, Clara; six sons, Arnold, Harvey, and Merle, all of St. Paul; Harold, Alton, and Donald, of this community, and one daughter, Mrs. Harvey Kilner, also of this community. In addition, he leaves four sisters and three brothers in Norway, and is also survived by 10 grandchildren.

Mr. Kalsnes was preceded in death by one daughter, Betty, and by three brothers.

Mr. and Mrs. Ben Torfin of Roseau visited Saturday afternoon at the Pete Sorter home, and were overnight guests at the home of their son, Iver Torfin.

Decline in Net Farm Income Seen for 1963

Although gross farm income may rise a little, net farm income in 1963 is likely to be lower than in 1962.

That prediction is from James App, Frank Smith and Kenneth Egertson, extension agricultural economists at the University of Minnesota, and is based on the national demand and supply situation. Domestic food use is expected to increase at about the same rate as population growth — now around 1.7 per cent annually. Food use has changed little in the past six years and non-food uses per person has declined.

While consumption may change for individual foods, total per capita consumption of food products will remain about the same, assuming that consumer incomes stay at present levels. Per capita consumption of meat and poultry, except for lamb, is expected to increase. Cereal consumption will be steady, but dairy products and eggs will probably see a decline, according to the economists.

Total exports of farm products in 1962 is running about 2 per cent under 1961, and may drop more. Present export levels of about 16 per cent of farm output will be difficult to maintain, the economists say. They look for the biggest drop in wheat, but see little change in exports of food fats and oils.

The economists expect the upward trend in farm production to continue in 1963. So with existing farm programs, net farm income is unlikely to be maintained at 1962 levels. Returns to farms will depend to a great extent on agricultural policy, farm output and accompanying prices for farm products.

Here, in brief, is the outlook for individual farm commodities:

DAIRY—Prices will be influenced strongly by support levels. Estimates are for a new record of 126.5 billion pounds of milk produced in 1962 and production is expected to increase in 1963. Consumption will not keep pace with this increase, however.

HOGS—Profit prospects look more favorable in the first three months of 1963 than a year earlier, about the same as a year ago in the second quarter, and less favorable in the second half of the year. Average price for 1963 should be lower than in 1962. Total expected 1962 pig crop is for 92.6 million head—only 1 per cent less than in 1961. Farrowings this fall and in spring, 1963, are expected to increase somewhat over levels of a year earlier.

BEEF CATTLE—Below average labor returns are in prospect for 1963. Outlook is for increasing cattle numbers, higher supplies of slaughter cattle, more cull cows going to market and weaker slaughter prices than in 1962. Feeder cattle prices are slightly higher this fall. For the nation as a whole, cattle numbers should reach a new high of 101.5 million head by Jan. 1, 1963.

TURKEYS — Some price improvement is possible. Production of turkeys raised in 1963 is expected to be about the same or slightly lower than in 1962. Total tonnage of turkey meat for this year will be about 14 per cent under 1961.

EGGS—Prices received by producers during the 1962-63 laying year will be more favorable than in 1961-62, largely because of some expected reduction in egg supplies. U. S. egg production was up slightly in the first 7 months of 1962, compared to a year earlier. However, indications are for a five to six per cent smaller laying flock on Jan. 1, 1963, compared with the previous year.

SHEEP AND LAMBS — With higher feeder lamb prices this fall and only slightly higher slaughter lamb prices expected in 1963, feeding labor returns will be down somewhat from 1962. The 1963 spring lamb slaughter should run three to six per cent under year-earlier levels and prices should average at least as high. Profit prospects look reasonably good for native ewe flocks.

FEED GRAINS — Prices should stay close to support levels. Total feed grain production in 1962 is estimated to be near 1961 levels. Feed grain supplies decreased six per cent in 1962, the second straight year such a reduction occurred. Domestic demand for feeding will continue strong, with possible declines in exports. Volume of corn and other feed grains sold by Commodity Credit Corporation under the 1961-62 Feed Grain Program will continue large in 1962-63.

SOYBEANS—Prices will be closely tied to the loan rate. U. S. soybean production in 1962 is forecast at 703 million bushels, based on Aug. 1 conditions. Total supply for the 1962-63 marketing year will be about 758 million bushels.

Mr. and Mrs. Emil Krause, Lawrence and Lois, visited former residents of this city, Mr. and Mrs. Arthur Peterson at Houston, Minn. for several days last week.

Mr. and Mrs. Cy Glass of this city have just received word that their daughter, Nancy, has arrived in Leyte, Philippine Islands. She will serve there with the Peace Corps for the next two years.

SCHOOL BOARD PROCEEDINGS

Regular Meeting
September 10, 1962

The regular monthly meeting of the school board was held at 8:00 P.M., September 10, 1962. Members present: Howick, Bredeson, Owen, Hoel, Anderson, Olson, and Superintendent Hankerson.

The minutes of the August 13, 1962 meeting were read and approved.

A motion was made by Morris Owen and seconded by Rufus Olson to enter into a working agreement with St. Mary's Hospital, Detroit Lakes, and Oakland Park Nursing Home.

Carried.

A motion was made by Rufus Olson and seconded by R. Anderson to lease accommodations for retarded classes in the First Lutheran Church Parish Hall at $170.00 per month.

Carried.

A motion was made by Morris Owen and seconded by Rufus Olson to approve the lease in the Dobner Mehan Building at $100.00 a month.

Carried.

A motion was made by Howard Hoel and seconded by R. Anderson to open a new special education department and employ Mrs. Joe Poole as the instructor.

The school board met with a delegation from the local school employees union and other local union members relative to school bus drivers wages. Mr. Skeates, union representative was spokesman for the union members and presented their case.

Upon a roll call vote of the board, it was unanimous to leave the wages of the bus drivers as previously acted on by the previous board. A statement should be sent to the drivers explaining the board's action.

A motion was made by R. Anderson and seconded by Howard Hoel to increase the three elementary secretaries from $1.10 per hour to $1.20 per hour.

A motion was made by Morris Owen and seconded by John Hurtness to pay the monthly bills.

Special Meeting
September 11, 1962

A special meeting of the school board was held at 9:00 P.M. on September 11, 1962. Members present were Howick, Bredeson, Owen, Hoel, Hurtness, Olson, Superintendent Hankerson, and Mr. L. W. Hullen as legal representatives for the Board. Absent: Anderson. The meeting was called to order by Chairman Howick.

Reading of minutes of last meeting was dispensed with.

The school board was called for the purpose of meeting with the school bus drivers' union representative.

John Hurtness introduced the following resolution and moved its adoption:

WHEREAS the school bus drivers of Independent School District No. 564 appeared at the school bus garage on the morning of September 11, 1962,

WHEREAS, the said bus drivers at said time refused to perform their duties as bus drivers, and

WHEREAS, it is the desire of the School Board to permit the drivers to return to their employment if done promptly,

NOW, Therefore Be It Resolved, that the School Board determines that the bus drivers have engaged in a strike as defined by Minnesota Statutes No. 179.51, and

BE IT FURTHER RESOLVED, that the bus drivers be informed that they may return to their employment at the existing wage schedule if they so signify before adjournment of the Board meeting on the evening of September 11, 1962.

Morris Owen seconded the motion and upon being put to a vote the resolution was declared unanimously carried by roll call vote.

At 10:15 P.M. the bus drivers represented by Mr. Skeates stated the bus drivers would report for work Tuesday morning September 12, 1962.

Morris Owen moved for adjournment.

Signed, ROBERT A. BREDESON, Clerk.

Approved, LLOYD HOWICK, Chairman.

Mr. Russell Anderson waived notice of this special meeting of September 11, 1962 and ratified the action taken by the Board at this meeting.

Signed: Russell Anderson

200 People Attend Regional Welfare Conference in RLF

'Looking Ahead' Is Theme of Region Three Parley Held Tuesday, October 8

"Welfare — Looking Ahead!" was the theme of the Region Three welfare conference held October 9 in Red Lake Falls.

Glen Fellman of Red Lake Falls, chairman of the conference, welcomed the 200 persons who attended the meeting. The meeting, which was held in the courtroom of the Red Lake county courthouse, began at 9:00 a. m. with a general session presided over by Chairman Fellman. Invocation was presented by Reverend Arthur Lemire of the Catholic Social Service association, followed by a welcome from Lawrence S. Phillion, mayor of Red Lake Falls.

Speaking in the morning were Miss Alma Leigh, medical social consultant with the Minnesota department of public welfare, who discussed "Medical Care of the Indigent in Minnesota", and Dr. L. N. Dale, chairman of the public policy committee of the Minnesota Medical association, who spoke on "Medical Services to Our Needy". A business meeting concluded the morning session. Moorhead was selected as the site of the 1963 fall conference.

Luncheon was served in the basement of the St. John's Lutheran Church by the ladies' aid. Entertainment was provided by the LaFayette stage band under the direction of Kenneth Larson.

Ove Wangensteen, deputy commissioner of Minnesota's department of public welfare, spoke on "A Glance at State and Federal Legislation." The day's program culminated with a talk by State Senator William B. Dosland of the 49th District on "Welfare in Minnesota."

Big Unemployment Pay Boost Sought by State Unions

Minnesota workmen covered by the state unemployment insurance program would be entitled to receive up to $100 per week in benefits while unemployed under a proposal the Minnesota AFL-CIO Federation of Labor is considering for the 1963 state legislature.

The proposal would establish by law a requirement that unemployed persons be paid two-thirds of their regular weekly pay during layoffs. Present law limits unemployment insurance payments to a maximum of $38 per week for 39 weeks.

Under the union plan, a workman receiving $150 a week while on the job would get $100 a week while unemployed. Employees getting $100 a week would be entitled to $66.66 a week and others in proportion.

Basis of the union demand is that current living costs are not met by the $38 maximum and that persons should not be put to any hardships during periods of layoff.

Approval by the legislature of the demand would increase operating costs to employers by $24,000,000 a year, according to Otto F. Christenson, executive vice president of the Minnesota Employers Association.

Langen Opens His Campaign Friday Night in Moorhead

Congressman Odin Langen (R.-Minn.) personally launched his campaign for reelection Friday night at a campaign kick-off dinner on the Concordia college campus in Moorhead, by listing three principal issues in the campaign. "In my judgement," said the lawmaker, "the principal issues will be whether or not you desire that this nation should follow a course that will emphasize our economic security as compared to the long road to bankruptcy, whether or not we are to remain free citizens as compared to government pawns, and whether this nation is to remain a world leader or if we are to be led into oblivion by those who would destroy all the principals that you and I as citizens cherish."

Mr. and Mrs. Alf Anderson of St. Paul visited over the weekend at the home of Lena and Oliver Gullingsrud.

American Medical Assn. Hits Anti-fat Propagandists

Cites Need of Medical Advice in Reduction of Cholesterol in Blood

The American Medical association says the "antifat, anti-cholesterol fad" is foolish and futile and involves some risk to health.

The organization issued a statement about cholesterol — a fatty substance that can get into arteries — and diets to control it.

"Scientific reports linking cholesterol and heart attacks have touched off a new food fad among do-it-yourself American," the AMA said. "But dieters who believe they can cut down their blood cholesterol without medical supervision are in for a rude awakening. It can't be done. It could be even dangerous to try."

The statement also set forth: Elimination of certain foods of proved nutritional value could be detrimental to health.

It has not been determined whether a significant change in cholesterol levels can be brought about by dietary means.

Substitution of a few food items without over-all control of the diet accomplishes little, if anything, in reducing cholesterol.

The AMA said its council on foods and nutrition recommends a well balanced diet chosen from the four basic food groups.

Traffic Mishap Noted Thursday

Police Check Breakin At Phillips Auto Today

One traffic accident was reported during the past several days by the Thief River Falls police department with an estimated $385 damages being done to the two cars involved in the mishap.

At about 10:10 p. m. Thursday, a car driven by Mrs. Elsie Langevin, city, was stopped for a red light and facing east on Third street at the intersection with LaBree avenue. She attempted a left turn on LaBree avenue when the light changed and collided with a car driven by Dale Glass, city, traveling west through the intersection on Third street.

Damage was estimated at $150 to the Langevin car and $235 to the car driven by Glass. No citations were issued by the police department.

Police also reported that a break-in occurred at Phillips Auto Wrecking Sunday night but apparently nothing was taken. A pane of glass was broken in the door of the building and the door opened to gain entry. The break-in was reported this morning.

Gamble Stores to Give Scholarship Awards of $7,350

Scholarship awards almost double last year's were announced today by B. C. Gamble, president of Gamble-Skogmo, Inc. The total of $7350, an increase of more than $3,000 over last year's awards, will go to high school seniors who have attained acceptable scholarship records plus outstanding ability in salesmanship during their senior year.

Awards from Gamble's "Scholarship in Salesmanship" fund will be made in 20 states in June, 1963.

"We're increasing each individual award to $350 because we feel this amount is more in line with the cost of education today," Gamble said. "Since many of our scholarship award winners have already worked to put money aside for their future education, we hope our award will be the added impetus they need toward achieving their goals."

Gamble-Skogmo stores in 20 states will compete for the right to award a scholarship during an October sales contest. The 18 store managers who make the highest percentage of sales increase over their October quotas will each win a scholarship for a high school student in his community.

Municipal Court Handles 11 Cases During Past Week

Nine Offenses Noted Among Cases Tried; One Jail Sentence Ordered

Minnesota state highway patrol, Pennington county sheriff's office and Thief River Falls police department brought 11 cases to trial before Judge Stanley N. Mortenson in Thief River Falls municipal court on Monday. Two additional cases were tried on Thursday.

In highway patrol cases, Gerald R. Ladwig of Devils Lake, N. D., forfeited $17.50 bond on a speeding charge and Corney Wyrick of Middletown, Mo., forfeited $15 bond on a charge of operating a vehicle with illegal brakes.

Pennington county sheriff's department brought two offenders to court. Donald Joppru of rt. 1 and Larry Sigerud of Goodridge each were charged with fighting in public with Joppru fined $25 and Sigerud forfeiting $25 bond.

Police cases tried included Jerome Myhrer, rt. 4, illegal muffler, fined $15; Frederick Egan, rt. 3, Detroit Lakes, speed, fined $18 with $5 suspended; Calvin Ripley, city, speed, $16 bond forfeited; Larry Christianson, Babbitt, improper turn, $15 bond forfeited; Meri-Beth Folkedahl, rt. 3, litter the roadway, $30 bond forfeited; and Vernon Belland, city, drinking by a minor, $15 bond forfeited. One drunk case was also handled by the court.

On Thursday Donald LaFave, city, was brought to trial by the sheriff's department and fined $25 for possession of beer by a minor and was sentenced to 15 days in jail on a disorderly conduct charge. The jail sentence was stayed pending certain conditions.

2 from TRF Given Scholarships at Concordia College

This fall over 200 freshmen, or 37 per cent of the class, were awarded Concordia College merit scholarships valued at $51,900, it was announced at Moorhead. Students who were eligible ranked in the uppermost ten per cent of their graduating class or scored high on college entrance examinations.

The scholarships are valued from $100 to $700 to be applied toward college expenses at Concordia for the freshman year, divided between the first and second semesters. Winners from Thief River Falls include Eunice Wangberg and Kathleen Faye Torgerson.

Any amount above the minimum is determined by need, based on college scholarship service reports. Funds for the Concordia College merit scholarships come from donors or from other college sources and have no connection with the National Merit Scholarship Corporation.

Minneapolis Man Chairman of Radio Free Europe Fund

Arnulf Ueland, Minneapolis, will serve as Minnesota chairman for the Radio Free Europe Fund during 1962-64, it was announced today.

Ueland, chairman of the board of Midland National Bank, Minneapolis, succeeds Cliff Sommer of Owatonna, Minnesota RFE chairman for the past two years.

"In times of tension such as this it is vital that the millions of people behind the Iron Curtain have Radio Free Europe to turn to for objective news reports," Ueland said.

"Without RFE many of them would be dependent solely on the distortions broadcast by Communist controlled radio stations," he said.

Ueland stressed RFE's dependence on contributions from the American people, its only source of support.

Prowler Team Whips Sacred Heart 27 to 0

The Prowlers closed out the home-field portion of their 1962 football schedule on Friday night by scoring a convincing 27-0 win over coach Curly Gasperlin's Sacred Heart Eagles of East Grand Forks.

The win boosted the locals' season's records to six victories and one loss. On Friday night, on the Bemidji State college field, coach Joe Mrkonich's Prowlers will meet coach Red Wilson's *Bemidji Lumberjacks*, and the result of this game will be an important factor in determining the Northwest conference football title. The Lumberjacks, with a conference mark of three wins and no losses, can clinch the title with a win on Friday; while a win for the Prowlers, who have a record of two wins and no losses in conference competition, would gain at least a share of the championship by winning on Friday.

A recovered fumble on the Sacred Heart 34-yard line on the second play from scrimmage on Friday night gave the Prowlers their first scoring opportunity, and the locals moved to a touchdown in six plays. Steve Mittelsadt and Paul Klungness marked up a first down on the Eagles' 19-yard line. Klungness knifed through left tackle for nine yards, and Bob Benson hit left guard for a first down, carrying to the one-foot line. John Aune drove over center for the touchdown, and Klungness circled right end for the conversion point.

Early in the second period, driving toward the north goal, the Prowlers began a touchdown march that culminated in Mittelstadt's one-yard plunge for a touchdown. On the try for point, which was nullified because of a Prowler offside penalty, the locals made another attempt from eight yards out, and Aune sliced through left tackle for the conversion, giving the Prowlers a 14-0 lead.

Just before the second period's end the Prowlers held for downs on their 37-yard line. Aune made a yard at right guard; and Prowler penalty moved the ball back to the 33-yard line, and then Klungness, breaking through right tackle, reversing his field, sped 67 yards for a touchdown. Aune's push over right tackle added the point, giving the Prowlers a 21-0 first-half lead.

The Prowlers tallied their fourth touchdown when, on a drive that started at mid-field, Benson, showing good speed and power, ripped through right tackle for 11 yards and a touchdown. A pass play for the extra point failed.

During the game, the Prowlers picked up fourteen first downs to the Eagles five first downs. The Eagles did not mount a serious scoring threat during the game, and only in the late moment of the second period were the visitors able to penetrate inside the Prowlers' 40-yard line.

Area Aspirants for Homecoming Queen at Bemidji College

Kay Wik of TRF and June Walter of Plummer among 8 Candidates for Title

Finalists for the 1962 Bemidji State college homecoming queen title were chosen this week and preparations for the coronation of one of the campus feminine leaders October 17 are progressing.

Election of the queen will follow Tuesday's Homecoming skit convocation where the eight finalists will be introduced. Announcement of the winner will not be made until Wednesday's coronation ball.

There are eight finalists in the contest with the senior class having five entries and the junior class having three. These eight were chosen by popular ballot from an original field of 25 candidates.

The five senior women vieing for queen are Kay Wik, Thief River Falls; June Walter, Plummer; Millie Towata, Hawaii, all elementary education majors; Gail Sheltons, Gonvick; and DeVee Hubbard, Fergus Falls.

The junior women in the contest are Marty Larson, Bemidji; Dinna Sinkola, Deer River; and Joni Pierce, Crookston.

Tuesday's convo will be the start of homecoming festivities. Prizes of $15, $10 and $5 will be awarded the club presenting the best skit in the eyes of the judges. In addition to the skits a pep fest will be held and the "B" squad cheerleaders will be introduced.

Wednesday the coronation ball will include all of the pomp and festive activity which generally accompanies such an affair and will be at the Memorial Hall gymnasium from 9 p. m. to midnight.

Saturday the Homecoming Day will start with an alumni tea in Birch Hall from one p. m. to two p. m. Following the tea there will be a Homecoming Parade which will wind through downtown Bemidji, at 3:30 p. m. the BSC Beavers will entertain the St. Cloud Huskies in the Homecoming football game; after the game the alumni will have their annual meeting and dinner at the Bemidji Elks Club and at 9 p. m. the Homecoming Dance will be held at Memorial Hall.

So live that you help to answer the world's problems—not add to them. —Anonymous

BJORKMAN'S

Keeping Score with "Huck" Olson

Offered in Evidence

For many, many years there has been much conversation and there have been many good-natured arguments about who is the best hunter and fisherman of the three Pederson brothers, Ira, Ames, or Bob. Each of the "boys" have been able to marshal evidence and witnesses to support his contention and claim to the "best" hunter title. But it appears that oldest brother Ira has produced the most valid evidence.

A short while ago, Ira received from the Minnesota Game and Fish department a large manila envelope containing a number of smaller, or specimen, envelopes, and he was requested to place in these envelopes certain feathers of the ruffed grouse, the sharp-tailed grouse, and the ducks that he bagged this season. Ira maintains that it is apparent that the state game and fish department knows who is the best hunter among the Pederson brothers. And the department knows who gets the game! All fair-minded sportsmen must recognize Ira's evidence as valid.

It is a fact that Ames and Bob have been shoved off balance by this show of preference, by the state, to Ira's proficiency as a hunter. There has been some comment to the effect that if Ira did receive these envelopes, the only feathers he will be able to put in them is turkey feathers!

He Was Colorful

I was saddened by the report out of Grand Forks that Frank (Scotty) Lawrence had died recently.

Senior hockey fans in this area will recall Scotty Lawrence and his colorful play as a member of the Grand Forks Amerks in the late 1940's. In his younger days, Scotty, who was a railroad fireman by profession, was a hockey goalie, and a good one. After playing with amateur teams in Grand Forks (and he played with Stan Larson on the old Grand Forks Dragons club) Scotty moved into States-Dominion hockey league play with the Grafton Millionaires. But it was as a defenseman with Cliff (Fido) Purpur's Grand Forks Amerks that he gained his greatest fame.

Those hockey campaigns back in the late 1940's were featured by the rivalry between the Amerks and the Thief River Falls Thieves. Whenever the two teams met, it was a rule that a melee or two would develop. And Scotty, who was big and burly, never took a backward stride in these scuffles, and performed the role of "policeman" for the Amerks.

Frank Lawrence, or Scotty, will be long-remembered, and his name will be brought into conversation whenever States-Dominion hockey league play is discussed.

An Asset

The city of Thief River Falls has a considerable investment in the baseball diamond at the Fair Grounds, but it is not being given the care and consideration this investment deserves. And not only has the city spent money on the park, installing the lights and other incidentals, but several of the city's baseball enthusiasts have put in much time, labor, and money on the field. It is an asset to the city, but it is showing signs of neglect.

Last season, the local diamond was the site of the district's American Legion tournament. And it was utilized nearly every day by the Midgets, the High School Legion, or, Thieves baseball teams.

I'm sure that the Fair Grounds diamond has a place in the recreational set-up of the city, and it is only through a conflict of interest, and perhaps a lack of proper authority or guidance that the diamond has been allowed to deteriorate. And it doesn't require much of a program to keep the field in condition. Just at present the "skinned" portion of the infield should be filled with a number of loads of dirt, but these loads of dirt won't get out there without an order from the city authorities. We've got a good baseball field here, and it's worth some tender loving care. Fact is, the entire Fair Grounds area could be developed into a major recreation field.

Homecoming Set Friday, Oct. 19, at Northwest School

Football Contest and Coronation of Queen Feature Annual Event

Homecoming at the Northwest School of Agriculture, Crookston, has been set for Friday, October 19. Alumni, former students, students, parents, and former members of the staff are invited to attend the activities.

The assembly program will be held in the school auditorium at 9:45 a. m. The Homecoming Queen will be announced and crowned during the assembly.

Senior students who are candidates for Homecoming Queen are: Carol Fehr, East Grand Forks; Jean Hotvedt, East Grand Forks, Marian Klava, Grand Forks, N. Dak.; Beverly Shelstad, Doran; and Marcia Trydahl, Thompson, N. Dak.

One of the highlights of the day will be the football game at 3 p. m. between the Northwest Aggies and the Clearbrook high school. At the half, there will be a cross-country meet between the Northwest Aggies and the Thief River Falls high school cross-country teams.

At 8 p. m., the annual Homecoming dance will be held in the gymnasium for which the Young Knights orchestra of Grand Forks, North Dakota, will play.

Local Harriers Win Meet at N.W. School

The Northwest conference held its first cross-country meet on Friday afternoon over the 1.8 mile course staked out on the campus of the Northwest School of Agriculture at Crookston.

Four of the five member teams of the Northwest conference participated in the meet, with East Grand Forks being lone absentee, and coach Rod Max's Prowlers, led by the first-place finisher Rolf Wangberg, won the team title, posting a five-man score of 28 points. The Bemidji Lumberjacks gained the runner-up honors with 45 points. The Roseau Rams totaled 63 points for third place, and the Crookston Pirates, with 105 points, was fourth.

The first ten finishers in the meet, with Wangberg posting a time of 9:02.1 to lead the field, were: 1) Rolf Wangberg (TRF); 2) Dave Blashill (Bem.); 3) Jerry Solon (Ros.); 4) Roy Delorme (TRF); 5) Steve Sladsy (Bem.); 6) Orrin Joppru (TRF); 7) Pete Lund (Bem.); 8) Mark Anderson (TRF); 9) Murray Dow (TRF); and 10) Joe Headley (TRF). The Prowler point-scorers were Wangberg, Delorme, Joppru, Anderson and Dow.

On Saturday morning, October 20, with the starting time scheduled for 11:00 a. m., the Region Eight cross-country meet will be held here, with the teams competing over the course at the Thief River Golf Club.

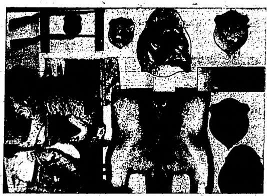
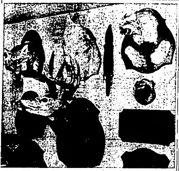
THIEF RIVER FALLS TIMES

Volume Fifty-one Thief River Falls, Pennington County, Minnesota Monday, October 15, 1962 Number Eighty-three



EXAMPLES of the knowledge of animals and craftsmanship in taxidermy adorn the walls of the James Jensen home located near the Red Lake river one mile south and a mile east of the Kratka bridge. In the above photo (reading clockwise from 12 o'clock) are a timber wolf, bobcat, black ferret, wolf skin rug, beaver, Canadian Lynx and cross fox, the latter being a cross between a red and silver fox. Jensen scorns commercial forms for mounting, making his own to fit the particular trophy he is mounting and shaping it to give the animal its most natural appearance.



NATURAL looking poses are the result of painstaking work by James Jensen in his taxidermy hobby. Several are shown above in the snarling and howling wolves, screaming lynx and alerted whitetail deer. "Taxidermy is an art," Jensen states, "and I could do it every day and never get tired of it."

Touch of a Perfectionist —

Hobbyist Molds Life Into Animals through Taxidermy

By Flora Allison
Times Society Reporter

Lips drawn back tightly in the manner of an antagonist, the wolf glared like an ever-present menace from his plaque on the wall of the woodland cabin-home of James Jensen.

The house is located a mile east and a mile south of the Kratka bridge, where the swift, silent Red Lake River slides past the door and loses itself among the trees around the bend. It is a natural location for a man with a hobby such as Mr. Jensen has created for himself out of his love for, and knowledge of, animals. What better place to study them, and to preserve them in all of their natural beauty?

On another wall of the room, the wary eye of a magnificent deer kept constant surveillance of the snarling wolf, while a Canadian lynx crept along the branch of a tree as if stalking prey, his cunning face a study in stealth and hunger. A raccoon smiled slyly alongside a brush wolf whose muzzle pointed skyward, looking as though he might have just crashed out of the pages of a Jack London novel and was howling his defiance at the intrusion of civilization. . . There were a bobcat, a beaver, white-tailed deer, a skunk, and other animals hanging below and around them on polished supports.

"Taxidermy is an art," Mr. Jensen said, showing his work with just a hint of pride. "It isn't a trade; you have to be born with a feel for it, a love of animals, a knowledge of their nature. You see, you don't just mount an animal, you try to put life back into it. That is the effect I strive for."

His words carried conviction, and the samples of his art, staring out into the room from every side, gave them credence. There is almost a loss of identity as the hunter in that room; it takes so little effort to imagine the terror of the hunted! His specimens, so realistic-appearing that they seemed to be breathing, watching, waiting, would have been startling surrounded by the props of their natural habitat.

"I simply lose myself in my hobby," Mr. Jensen went on. "When I work on an animal, even my wife can't get through to me; I'm in a world of my own. I've often stayed up 'til three in the morning before I got just the effect I wanted."

From Humble Beginnings

There is a noticable absence of birds from his display. "Oh, birds," he said, in an off-hand manner. . "I feel that birds are for beginners." Jensen began his hobby with a black gopher, using clay obtained from the river bank to make his first mannikin. (He now uses papier mache in making the forms.) Thirty-one years of experimenting have gone into the beautiful results he now achieves.

Scorning the use of commercial forms, he makes his own. "Those you buy are either too big or too small, and that would mean that the hide would have to be stretched, or it would sag. Anyway it wouldn't hang right. Besides, I think they're so stiff and wooden. I want to get part of the shoulder in my mounts, and commercial mounts aren't right for my needs," he explained. Mr. Jensen said that he did not receive formal instruction in taxidermy, although he did use printed formulas for tanning and curing solutions.

Born and raised here, this hobbyist has lived outside the area only occasionally, while employed on construction projects. As a lad, and later as a man, he trapped and hunted a great deal, selling the furs. For two years he held the record for the largest beaver catch in the county. He also trapped along the Canadian border, and in the Mud Lake-Gatzke area. In one five-week period, in 1945, he earned over $1200. "But," he said, "pelts were worth something then. Now they bring so little that I wouldn't take a beaver's life for what there is in it."

The Process

Explaining the procedure of mounting an animal, Mr. Jensen said, "It starts with the hunter; he provides the raw material. The animal should be skinned out immediately, with the cut being made along the top of the head and down the back of the neck in the case of deer. Then the skin must be salted, and right away, unless the hide or the carcass is to be kept frozen solid. The fermentation process begins in about two days when the weather is warm. A tanning solution, containing sulphuric acid, is used after the fermentation stops."

Mr. Jensen says he scrapes any meat or hair off the skull and then boils it out in an arsenic solution, being careful not to immerse the horns, if there are any. The hide is painstakingly brushed until it shines. (Even the wolf skin he prepared had a silky texture.) "Eyes," he said, "are purchased from a company which also makes artificial eyes for humans."

Unsatisfied with tongues purchased from supply sources, he makes his own tongue-molds from the animal's actual tongue, using plastic wool. The molded tongue is then dipped in wax and pink color added. Eyelashes are left intact, but shaped to produce the expression to match the animal's stance.

Using no pictures as guides, Mr. Jensen relies on his instinctive feel of the nature of the individual animal. "I often close my eyes, and then I can visualize the animal just as he might look at rest, or in combat, or feeding. . ." he stated.

He fills the inside of the mold with excelsior or papier mache, draws the hide over it, and stitches the opening together with a "baseball" stitch. Eyes are set in wax, the nose is waxed shut, and the mouth, if closed, also is waxed shut. He leaves the fangs and other teeth intact to achieve naturalness when the mouth is open.

In the case of birds, the main preservative is arsenic. This kills

Editorials . . .

"Unless we can discipline government, we shall have the triumph of the rule that voting right makes for social right. Such a rule can scarcely provide the foundation for a truly prosperous society. Yet the so-called 'welfare state,' however noble the intentions of many of its advocates and supporters, has been progressing politically because it has become a respectable way of purchasing the votes of the immediate beneficiaries."

—W. H. Hutt.

Langen Moves Up

Congressman Odin Langen has been named to replace Rep. H. Carl Anderson as a member of the House Appropriations committee. Anderson, who had become involved in the Estes scandal, was defeated in the primary.

With four years of service in congress to his credit, following an excellent record of service in the state legistlature, Langen has served his period of apprenticeship and now is moving into a position of expanding influence. His election to the Appropriations committee will give him prestige and expanded opportunities for service.

Langen has never been noisy as a politician. He works quietly and effectively, and that is the important thing. The late closing date of the session that ended Saturday does not give much time for campaigning. He needs help and he deserves help. Our district needs Odin Langen in Congress.

No Government Aid

From the Wall Street Journal we pass along the following market report:

> "Thanksgiving Turkeys will cost more this year. This year's turkey crop is estimated at 92 million birds, 16 per cent below 1961. Cold storage stocks totaled 160 million pounds at the close of August, 15.3 per cent smaller than a year earlier. Young toms now wholesale for about 34 cents a pound in New York, 5 cents above a year ago."

That's good news for our area where the turkey is a source of income rather than an item of expense. And especially interesting in this situation is the fact that the turkey growers have succeeded in controlling their own production.

Last year production was much too high and the growers lost money, lots of money. There was pressure for government production control and price supports. But the growers decided to do their own job of controlling and the result is especially gratifying for those who believe the farmers should run their own business and remain independent of the politicians.

A New Look Needed

A New York Times Service report from Washington states that our country has decided on drastic steps to try to prevent the use of American, allied and neutral shipping for the transport of supplies to Cuba from the Soviet bloc countries. It states, "Foreign ships transporting arms and munitions to Cuba are to be excluded from U. S. ports under orders expected to be announced soon by President Kennedy. Ships of non-Communist nations carrying other supplies to Cuba will not be allowed to move on to U. S. ports to pick up American cargoes for their return trips."

This action was said to have been decided on because of the inability of our government to persuade friendly governments "to deter international shippers from chartering their tankers and freighters to the Soviet bloc and accepting Cuba-bound cargoes.

The London Times expresses concern about the developments but defends the policy of Britain and other European countries. It states:

> "Fundamental issues are plainly at stake. It is well to see what they are. American pressure to exclude the merchant shipping of friendly powers from the Cuban trade seems singularly misguided. Since the British government recognizes the Cuban regime, and Britain is not at war with Cuba, it is, needless to say, perfectly legitimate for British ships to carry Russian oil into Cuba and the Cuban sugar out, as they have been doing for some time. Though the American government has not hitherto sought to intervene in this traffic; certain of the major oil companies have been operating a "blacklist" of shipowners who carry this oil, and even of brokers who arrange the fixtures. Thus an important British tanker company carrying Russian oil has frequently been unable to find return cargoes.
>
> "If the British and other North Atlantic Treaty Organization governments were to prohibit their shipping from engaging in these trades (assuming they had the power to do so), there would be two certain effects. In the short term, the ships would be found elsewhere, since NATO does not control all the world's tramp shipping.
>
> "In the long term, the determination of the Communist countries to build up their own merchant fleets would be reinforced. It is doubtless no coincidence that Russia has been enlarging her own tanker fleet with heavy purchases from abroad since the attempt to make chartering difficult. Unlike the United States, Britain and other NATO countries lean heavily on shipping for their livelihood.
>
> "The Communist countries are big buyers of shipping space, and it is in the interests of the maritime countries that this situation should continue. Grain, sugar and fertilizer shipments to Communist China have been one of the mainstays of the tramp market during the current shipping recession.
>
> "American feelings about the Castro regime are understood in Britain. But American policy toward Cuba has not always been wise. There is much to be said for united refusal by NATO countries to ship arms to Cuba. But an attempt to bring the Castro regime to its knees by depriving Cuba of merchant shipping would be unwise. It would also be unsuccessful. Merchant shipping can be seen either as an instrument of strategy or as an instrument of commerce. From almost every point of view, the European interest is to keep commercial shipping commercial."

Maybe now would be a good time for our government to take a second look at this Cuban situation. Castro evidently is getting on Kennedy's nerves and even our friends are laughing at us. Let's admit that our record in Cuba has been horrible and start over again. This is one of the New Frontiers that needs a new look.

Four Years

The campaign for the governorship may not be settling any arguments but it is pointing up a basic difference in the thinking of the two candidates. Elmer Andersen would encourage industrial expansion by a friendly approach to the problems of taxation. Karl Rolvaag on the other hand is antagonistic to industry. Their approach to the problems of the Iron Range indicate pretty well these differences.

Over a period of many years the tax climate in Minnesota has not been favorable to the mining industry. The industry has been taxed heavily by both the state and local governments, and other property, business property and dwellings, have been favored with low taxes. These are facts, admitted by Iron Range officials.

When it appeared that Minnesota's practically unlimited deposits of low grade ore might be made marketable by processing, the Legislature enacted special tax laws for such an industry. Under these special laws this new industry was established, and has operated successfully.

These new laws did not apply to direct shipping ores and the type of mining operations for which our range area was noted. For such operations the old tax laws are still in effect. For such operations the state has made no concessions.

The state has acted to secure more equitable taxation in the Range area and this has resulted in higher valuations on other than mining company property. The changes will be enforced gradually but the start has been made. These changes will be helpful to the mining industry and to all of the other taxpayers of the state of Minnesota. There is no justification for preferential tax treatment for property owners of northeastern Minnesota at the expense of northwestern Minnesota. Taxes thruout the state *should be fair and equitable.*

In their running debate about the problems of the Iron Range Andersen supports the state's present program for Range development and an expanded Taconite industry. He favors giving assurance to the industry that discriminatory taxes will not be imposed on it.

On this point, the industry is not asking for any special consideration. It is satisfied with the tax laws as they are now. It expects to pay its share of any increased cost of government, in the same proportion as any other industry.

Rolvaag's appeal is to the prejudice of those Range voters who will have to assume a larger share of the tax burden under a fair and equitable distribution of that cost. He in effect serves notice on the industry that if he and his party gain political control of Minnesota there will be more discrimination and not less. Rolvaag, in his campaigning, is laying the foundation for a tax climate in Minnesota that will be unfair to all industry, and he is doing the state a great disservice by the type of appeal that he is resorting to.

On this one issue alone Rolvaag should be defeated. We are not an enthusiastic supporter of Andersen. He has notable shortcomings. But Rolvaag is entirely lacking in qualifications for this high office and Minnesota's progress could be seriously retarded with him in the governor's chair for a period of four years.

THE ANDERSEN LETTER

from

Gov. Elmer L. Andersen

Land and People.

A booklet has just been printed entitled "Land and People" which is a landmark for Minnesota agriculture. It is the result of the five regional and one statewide Governor's Conferences on Agriculture and Country Life that were held last year.

The conferences were designed to get ideas and suggestions from those in the best position to know farm problems and to suggest solutions — farm people themselves. Also the idea was to focus attention on our Minnesota situation.

All of the meetings were well attended and discussion was lively. A host of suggestions were made and all funneled to the Executive Committee.

The Executive Committee was representative of all farm groups and interested people — including farm homemakers and clergymen. The recommendations were presented without addition, deletion or verification. The committee does not endorse all the suggestions—it simply has worked to get all these ideas before the people. I express thanks personally and for all the people of the state to Robert Rupp of the Farmer Magazine, Chairman, to Duane Wilson, our Commissioner of Agriculture, and to all members of the committee for the tremendous time and energy put in — and to all the farm organizations which have contributed so the report can be published without state expense.

One key to the report is in the opening statement "Minnesota has the human and material resources for considerable further development of its agricultural economy." This is no sick and dying industry, it is strong and with a great growth potential. Seven areas indicated as needing action are, Quality Control, Market Research, Advertising and Promotion, Production Research, Education, Rural Services and Industrial Development.

How Livestock Industry Can Grow

Illustrative of some of the practical suggestions was that of speeding up the development of beef cow herds in northern Minnesota to provide a substantial local source for feeder livestock. Feeder pig markets have grown rapidly at Little Falls and Northome. The report suggests a feeder livestock market of bigger proportions in Northern Minnesota.

We can grow feed in Minnesota as economically as it can be grown anywhere. We are still shipping out a good deal of it for conversion elsewhere. Nationally, beef consumption is going up 3 per cent a year, 1½ per cent from population increase and 1½ per cent from people just eating more. It is a growing market. Our total livestock industry can be expanded. Armour, Swift, and Hormel all have their biggest processing plants in Minnesota.

Northern Minnesota has excellent grass land. It costs $25 to $45 an acre; only the best runs as high as $100. Two acres will support a cow and calf. Although 400 lb. calves are currently bringing around $100, on the average one can expect to get $80. Dunn Wilson tells me that these facts add up to a good economic use of Northern Minnesota land, a good return to the operator and a practical way to increase agricultural enterprise in our state for the benefit of everyone.

This is the type of practical farm program I am anxious to promote. The conference hand book "Land and People" is filled with ideas. Programs for your farm organization meetings can be built around it. Members of the executive Committee are available as speakers. Write me for a copy of the handbook which I believe will be a tremendous help to all of us in guiding our agricultural future. And it all came from you.

WHAT IS PROVED BY A 0-0 TIE ? Nothing. Nothing, that is, unless the fans of either team involved can claim a moral victory, upset of the odds, superlative defense or some othe quirk which means a tie is better than a loss. Three weeks ago I watched the University of Minnesota Gophers grapple with the Missouri Tigers in a game which tore up the turf at mid-field but left both goal lines unscathed.

Now, in pausing to review the game, it greatly parallels the battle being waged over controversial territory in eastern Marshall county. This 'game' between the State of Minnesota and county commissioners and farmers has also been a see-saw battle that has resulted to date in a scoreless tie.

George Selke, former commissioner of conservation, kicked off the battle by quarterbacking an order which transferred about 33,000 acres to the division of game and fish from the division of lands and minerals. He then left the game by retiring. County commissioners and farmers put on a goal-line stand, gained control of the ball and began a march toward St. Paul, regaining some of the lost territory through verbal agreement. There the first quarter ended.

Opening of the second quarter was delayed while an official time out was called to permit the department to nurse some first period injuries. County commissioners protested the delay of game tactics and were assured by Gov. Elmer L. Andersen, referee, that the game would continue according to the rules. There the county offense sputtered. The ball changed hands a couple more times before the half but there was no scoring threat.

Opening the third quarter, the commissioners passed a lengthy resolution, objecting to the partial ruling of the referee and the lack of attention to the rules. Commissioner Clarence Prout, who came into the game after the retirement of Selke, directed the department's offensive and defensive play. The commissioners resolution also called for reinforcements in requesting all farmers in the area to post their land and restrict hunting to state territory. There the third quarter ended and the fourth quarter is yet to get underway.

Before the fourth quarter begins, it may be well for the opponents to do some unbiased thinking. The situation should not really be a competitive sport. It should rather be a roundtable discussion which would permit the two opposing forces to do a little verbal landscaping on some mighty tough terrain.

The main reason why at least some little harmony cannot be obtained is that each side turns a deaf ear to the other while talking at the same time. Without some agreement, or with continued disagreement, this may well end in a scoreless tie. This means only one thing—nobody will be the winner.

•

Ever wonder if the end was worth the effort. One irate father apparently didn't as he complained to his son, "I sacrificed everything I had so you could study medicine. Now that you are a doctor you tell me I have to give up smoking."

•

IN CASE YOU'RE INTERESTED — Labor costs of producing and distributing a pound of bread went up 173 per cent from 1945 to 1961 while the retail cost increased 55 per cent from 1947 to 1961. In the period studied, farm value of ingredients dropped from 3.3 cents to 2.9 cents. Total labor cost, including wages, commissions, salaries and fringe benefits, was 6 cents per loaf in 1961 and only 2.2 cents in 1945.

You may wish to write your Congressman and have him thank the U. S. Department of Agriculture marketing service for furnishing this vital information. And if you ask, I'm sure they will be happy to conduct further research and break it down on a slice-by-slice basis or compare whole wheat to raisin rye. No matter how you look at it, there is a lot of dough involved.

•

A note on the windshield of the double-parked car read, "I've circled this block 20 times. I have an appointment and must keep it or lose my job. Forgive us our trespasses." The policeman hung a ticket on the vehicle and attached this note, "I've circled this block 20 years. If I don't give you a ticket I'll lose my job. Lead us not into temptation."

•

"Had to shoot Fido," Luke declared. "Was he mad," Clem asked. "Well," Luke replied, "he wasn't any too happy about the whole situation."

•

THERE'S A REASON

He hadn't talked to his wife in years
And the reason is abrupt.
He wasn't mad, it's just that he
Didn't want to interrupt.

PERFECTIONIST in his self-taught hobby of taxidermy is James Jensen, a native of this area whose love of animal life is intensified in his desire to bring trophies back to a life-like appearance. So particular is his taste for achieving the natural, he worked three weeks on the Canadian Lynx shown above before he was satisfied with the pose. Other animals in the photo are a brush wolf and a silver badger. Jensen began his hobby 31 years ago and has since been dedicated to making each new project better than the last.

any insects or bacteria in the feathers and eliminates the need for ever spraying the mount in the future.

Horns are cleaned, sanded and lacquered. Ears are given the natural look of alertness by using a hand-made liner of pressed paper.

In 31 years, Mr. Jensen has turned out, with his own, individual, loving touch, about 400 specimens, including birds, fish, and other animals, among them a few domestic ones which their owners wished to "immortalize". He has also made fur scarves and chokers, as well as several deerskin rugs with the luxury look of velvet, and several coffee tables using elk or deer horns for legs.

The timber wolf and a deer shot near Duluth were the only animals in his present collection not bagged in the vicinity. The wolf was shot from a plane, and was severely mutilated, Mr. Jensen said. But so excellent was his job of restoration that it looked intact. To recapture the savage ferocity of this animal at bay, he used rope on the inside of the muzzle and the nostrils, to draw them back into the appearance characteristic of a snarl.

Mr. Jensen's animals, which he displayed at the Pennington county fair this past summer, generated much interest and many of the entertainers with the show complimented him on their startlingly lifelike appearance. Some of them, he admitted modestly, commented that they had never seen finer work.

Certainly they go far beyond the usual concept of what a "stuffed" animal is expected to look like. There is nothing "stuffed" or moth eaten in the appearance of any of them. They look alive enough to be just that!

Notice for November 6, 1962 Election

Three proposed amendments to the Minnesota State Constitution submitted by the 1961 Legislature

Amend. No. 1 – Investment of Trust Funds for Schools

Amend. No. 2 – State Debt Authority: Buildings and Other Purposes

Amend. No. 3 – 120 Day Legislative Sessions

WALTER F. MONDALE, Attorney General
State of Minnesota
St. Paul

July 6, 1962

THE HONORABLE JOSEPH L. DONOVAN
Secretary of State
State of Minnesota
St. Paul

Dear Mr. Donovan:

The three amendments proposed by the 1961 Legislature will have the following effect on the state constitution if approved at the November 6, 1962 election.

AMENDMENT NO. 1
INVESTMENT OF TRUST FUNDS FOR SCHOOLS

Amendment No. 1 broadens the authority of the state investment board in managing the permanent school fund.

The state investment board will be the governor, state treasurer, state auditor, secretary of state and attorney general.

OLD AUTHORITY

The amendment removes the present provision limiting investment of these funds to interest-bearing bonds of the United States, the State of Minnesota and other states, and certain mortgages and municipal securities.

NEW AUTHORITY

The amendment places the swamp land fund in the permanent school fund and permits investment in the following:

1. Securities of the United States and its agencies;
2. United States guaranteed securities;
3. Bonds of the State of Minnesota or its political subdivisions or agencies;
4. Bonds of other states;
5. Corporate stocks (not more than 20% of the fund);
6. Corporate bonds (not more than 40% of the fund).

Certain limitations on the investments are stated in the amendment, and the legislature may adopt other limitations.

The amendment authorizes the investment board to sell investments at less than they cost the fund. However, from interest and dividends the net loss must be repaid to the fund to keep the fund perpetual and inviolate forever.

PROCEEDS TO SCHOOL DISTRICTS

All earnings from the investments will be distributed to the school districts. Part of the income from the swamp land fund is appropriated to state institutions at present.

The present constitutional powers of the University of Minnesota board of regents over the permanent university fund remain unchanged.

AMENDMENT NO. 2
STATE DEBT AUTHORITY — BUILDINGS AND OTHER PURPOSES

Amendment No. 2 establishes procedures for incurring state debt, and lists the purposes for state debt, including the financing of state buildings and capital improvements.

OLD SYSTEM

For the past fifty years the state has financed state buildings partly by bonds and certificates which the courts held were not subject to the public debt conditions in Sec. 5 and Sec. 6 of Article IX. One of the conditions is a two hundred and fifty thousand dollar limit. In 1960, the state supreme court stated that in the future this type of financing should be declared unconstitutional.

NEW AUTHORITY

The amendment removes the conditions in Sec. 5 and Sec. 6 and sets no maximum limit. The legislature will be able to authorize bonds for a term of not more than twenty years by a three-fifths vote of all members of each branch. Bonds may be issued only to:

buy, build, or improve public land or buildings;
appropriate or loan to agencies or subdivisions of the state for capital improvements, or refund state debt.

In addition, the legislature will be able to provide for short term borrowing on certificates in anticipation of the collection of taxes and other revenues for any fund of the state. These certificates would be guaranteed by a levy on all taxable property, if necessary.

The amendment does not change other sections of the constitution which permit bonds for highways, airports, rural credit, or the veterans' bonus.

AMENDMENT NO. 3
120-DAY LEGISLATIVE SESSIONS

Amendment No. 3 authorizes a one hundred and twenty day regular session of the legislature each odd-numbered year and deletes the present ninety day limit.

In addition, during the last thirty days of the session no new bill could be introduced without the request of the governor. At present, the constitution has a similar twenty day limitation.

OLD AND NEW WORDING FOR ALL THREE AMENDMENTS

The form of the existing sections and the form of the sections as they will read, if amended, are attached as part of this statement of purpose and effect.

Very truly yours,
WALTER F. MONDALE
Attorney General

AMENDMENT NO. 1 — INVESTMENT OF TRUST FUNDS FOR SCHOOLS

Present Form of Sections

ARTICLE VIII

Section 2. The proceeds of such lands as are or hereafter may be granted by the United States for the use of schools within each township of this State shall remain a perpetual school fund to the State; and not more than one-third (⅓) of said lands may be sold in two (2) years, one-third (⅓) in five (5) years, and one-third (⅓) in ten (10) years; but the lands of the greatest valuation shall be sold first; provided, that no portion of said lands shall be sold otherwise than at public sale. The principal of all funds arising from sales or other disposition of lands or other property, granted or entrusted to this State in each township for educational purposes, shall forever be preserved inviolate and undiminished; and the income arising from the lease or sale of said school land shall be distributed to the different townships throughout the State, in proportion to the number of scholars in each township, between the ages of five and twenty-one years; and shall be faithfully applied to the specific objects of the original grants or appropriations.

A revolving fund of not over two hundred fifty thousand dollars ($250,000) may be set apart from the fund derived from the sale of school and swamp lands, to be used in constructing roads, ditches and fire breaks in, through and around unsold school and swamp lands and in clearing such lands, such fund to be replenished as long as needed from the enhanced value realized from the sale of such lands so benefited.

Suitable laws shall be enacted by the legislature for the safe investment of the principal of all funds which have heretofore arisen or which may hereafter arise from the sale or other disposition of such lands, or the income from such lands accruing in any way before the sale or disposition thereof, in interest-bearing bonds of the United States, or of the State of Minnesota, issued after the year one thousand eight hundred and sixty (1860), or of such other state as the legislature may, by law, from time to time direct.

All swamp lands now held by the State, or that may hereafter accrue to the State, shall be appraised and sold in the same manner and by the same officers, and the minimum price shall be the same less one-third (⅓), as is provided by law for the appraisement and sale of the school lands under the provisions of title one (1) of chapter thirty-eight (38) of the General Statutes. The principal of all funds derived from sales of swamp lands, as aforesaid, shall forever be preserved inviolate and undiminished. One-half (½) of the proceeds of said principal shall be appropriated to the common school fund of the State. The remaining one-half (½) shall be appropriated to the educational and charitable institutions of the State in the relative ratio of cost to support said institutions.

Section 5. The permanent school funds of the State may be loaned upon interest at the rate of five (5) per cent per annum to the several counties or school districts of the State, to be used in the erection of county or school buildings. No such loan shall be made until approved by a board consisting of the governor, the state auditor and the state treasurer, who are hereby constituted an investment board for the purpose of the loans hereby authorized; nor shall any such loan be for an amount exceeding three (3) per cent of the last preceding assessed valuation of the real estate of the county or school district receiving the same. The state auditor shall annually, at the time of certifying the state tax to the several county auditors, also certify to each auditor to whose county, or to any of the school districts of whose county, any such loan shall have been made, the tax necessary to be levied to meet the accruing interest or principal of any such loan, and it shall be the duty of every such county auditor forthwith to levy and extend such tax upon all the taxable property of his county, or of the several school districts, respectively, liable for such loans — as the case may be — and in all such cases the tax so assessed shall be fifty (50) per cent in excess of the amount actually necessary to be raised on account of such accruing principal or interest. It shall be levied, collected and paid into the county and state treasuries in the same manner as state taxes, and any excess collected over the amount of such principal or interest accruing in any given year shall be credited to the general funds of the respective counties or school districts. No change of the boundaries of any school district after the making of any such loan shall operate to withdraw any property from the taxation herein provided for; nor shall any law be passed extending the time of payment of any such principal or interest, or reducing the rate of such interest, or any manner waiving or impairing any rights of the of the State in connection with any such loan. Suitable laws, not inconsistent with this amendment, may be passed by the legislature for the purpose of carrying the same into effect.

Section 6. The permanent school, permanent university and swamp land funds of this state may be loaned to or invested in the bonds of any county, school district, city, town, or village of this state and in first mortgage loans secured upon improved and cultivated farm lands of this state, but no such investment or loan shall be made until approved by the board of commissioners designated by law to regulate the investment of the permanent school fund and the permanent university fund of this state; nor shall such loan or investment be made when the bonds to be issued or purchased would make the entire bonded indebtedness exceed 15 per cent of the assessed valuation of the taxable property of the county, school district, city, town, or village issuing such bonds; nor shall any such farm loan or investment be made when such investment or loan would exceed 30 per cent of the actual cash value of the farm land mortgaged to secure said investment; nor shall such investments or loans be made at a lower rate of interest than two per cent per annum, nor for a shorter period than one year nor for a longer period than 30 years and no change of the town, school district, city, village, or county lines shall relieve the real property in such town, school district, county, village or city in this state at the time of issuing such bonds from any liability for taxation to pay such bonds.

AMENDMENT NO. 1 — INVESTMENT OF TRUST FUNDS FOR SCHOOLS

As Sections will read if amended

ARTICLE VIII

Sections 2 and 5 are consolidated into a new section 4, which section shall read as follows:

Section 4. The permanent school fund of the state shall consist of (a) the proceeds of such lands as are or hereafter may be granted by the United States for the use of schools within each township, (b) the proceeds derived from swamp lands granted to the state, and (c) all cash and investments now or hereafter credited to the permanent school fund and to the swamp land fund. No portion of said lands shall be sold otherwise than at public sale, and in the manner provided by law. All funds arising from the sale or other disposition of such lands, or income accruing in any way before the sale or disposition thereof, shall be credited to the permanent school fund. Within limitations prescribed by law, to secure the maximum return thereon consistent with the maintenance of the perpetuity of the fund, such fund may be invested in: (1) interest bearing fixed income securities of the United States and of its agencies, fixed income securities guaranteed in full as to payment of principal and interest by the United States, bonds of the state of Minnesota, or its political subdivisions or agencies, or of other states, but not more than 50 percent of any issue by a political subdivision, shall be purchased; (2) stocks of corporations on which cash dividends have been paid from earnings for five consecutive years or longer immediately prior to purchase, but not more than 20 percent of said fund shall be invested therein at any given time, nor more than one percent in stock of any one corporation, nor shall more than five percent of the voting stock of any one corporation be owned; (3) bonds of corporations whose earnings have been at least three times the interest requirements on outstanding bonds for five consecutive years or longer immediately prior to purchase, but not more than 40 percent of said fund shall be invested in corporate bonds at any given time. The percentages referred to above shall be computed using the cost price of the stocks or bonds. The principal of the permanent school fund shall be perpetual and inviolate forever; provided, that this shall not prevent the sale of any public or private stocks or bonds at less than the cost thereof to the fund; however, all losses not offset by all gains, shall be repaid to the fund from the interest and dividends earned thereafter. The net interest and dividends arising from the investment thereof shall be distributed to the different school districts of the state in proportion to the number of scholars in each district between the ages of five and twenty-one years. No such investment shall be made until approved by a board of investment consisting of the governor, the state auditor, the state treasurer, the secretary of state, and the attorney general, who are hereby constituted a state board of investment for the purpose of administering and directing the investment of all state funds.

The state board of investment shall not permit the fund to be used for the underwriting or direct purchase of municipal securities from the issuer or his agent.

Section 6. The permanent university fund of this state may be loaned to or invested in the bonds of any county, school district, city, town, or village of this state and in first mortgage loans secured upon improved and cultivated farm lands of this state, but no such investment or loan shall be made until approved by the board of commissioners designated by law to regulate the investment of the permanent school fund and the permanent university fund of this state; nor shall such loan or investment be made when the bonds to be issued or purchased would make the entire bonded indebtedness exceed 15 percent of the assessed valuation of the taxable property of the county, school district, city, town, or village issuing such bonds; nor shall any such farm loan or investment be made when such investment or loan would exceed 30 percent of the actual cash value of the farm land mortgaged to secure said investment; nor shall such investments or loans be made at a lower rate of interest than two percent per annum, nor for a shorter period than one year nor for a longer period than 30 years and no change of the town, school district, city, village, or county lines shall relieve the real property in such town, school district, county, village, or city in this state at the time of issuing such bonds from any liability for taxation to pay such bonds.

Article VIII, Sections 3, 4, 6, 7, and 8 are renumbered 2, 3, 5, 6, and 7, respectively; and old sections 2 and 5 are repealed.

AMENDMENT NO. 2 — STATE DEBT AUTHORITY: BUILDINGS AND OTHER PURPOSES

Present Form of Sections

ARTICLE IX

Section 5. For the purpose of defraying extraordinary expenditures, the state may contract public debts, but such debts shall never, in the aggregate, exceed two hundred and fifty thousand dollars; every such debt shall be authorized by law, for some single object, to be distinctly specified therein; and no such law shall take effect until it shall have been passed by the vote of two-thirds of the members of each branch of the legislature, to be recorded by yeas and nays on the journals of each house respectively; and every such law shall levy a tax annually sufficient to pay the annual interest of such debt, and also a tax sufficient to pay the principal of such debt within ten years from the final passage of such law, and shall specially appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation and taxes shall not be repealed, postponed, or diminished, until the principal and interest of such debt shall have been wholly paid. The state shall never contract any debts for works of internal improvements, or be a party in carrying on such works, except as authorized by Section 16 of Article 9, and by Article 16 of this Constitution, but it may levy an excise tax upon any substance, material, fluid, force or other means or instrumentality, or the business of dealing in, selling or producing any or all thereof, used or useful, in producing or generating power for propelling motor or other vehicles used on the public highways of this State, and shall place two-thirds of the proceeds of such tax in the Trunk Highway Fund provided for in Section 2 of said Article 16, and one-third thereof in the State Road and Bridge Fund, and further except in cases where grants of land or other property, shall have been made to the State, especially dedicated by the grant to specific purposes, and in such cases the state shall devote thereto the avails of such grants, and may pledge or appropriate the revenues derived from such works in aid of their completion.

Section 6. All debts authorized by the preceding section shall be contracted by loan on State bonds of amounts not less than five hundred dollars each on interest, payable within ten years after the final passage of the law authorizing such debt; and such bonds shall not be sold by the State under par. A correct registry of all such bonds shall be kept by the treasurer, in numerical order so as always to exhibit the number and amount unpaid and to whom severally made payable.

Section 7. The State shall never contract any public debt, unless in time of war, to repel invasion or suppress insurrection, except in the cases and in the manner provided in the fifth and sixth sections of this article.

Section 14. (a) For the purpose of erecting and completing buildings for a hospital for the insane, a deaf, dumb and blind asylum, the state prison, the legislature may by law increase the public debt of the State to an amount not exceeding $250,000, in addition to the public debt already heretofore authorized by the Constitution; and for that purpose may provide by law for issuing and negotiating the bonds of the State, and appropriate the money only for the purpose aforesaid; which bonds shall be payable in not less than ten nor more than thirty years from the date of the same, at the option of the State.

AMENDMENT NO. 2 — STATE DEBT AUTHORITY: BUILDING AND OTHER PURPOSES

As Sections will read if amended

ARTICLE IX

Section 5. The state shall never be a party in carrying on works of internal improvements, except as authorized by this Constitution, but it may levy an excise tax upon any substance, material, fluid, force, or other means or instrumentality, or the business of dealing in, selling, or producing any or all thereof, used or useful, in producing or generating power for propelling motor or other vehicles used on the public highways of the state, and shall place the proceeds of such tax in the highway user tax distribution fund provided for in this Constitution, and further except in cases where grants of land or other property shall have been made to the state, especially dedicated by the grant to specific purposes, and in such cases the state shall devote thereto the avails of such grants, and may pledge or appropriate the revenues derived from such works in aid of their completion.

Section 6. Subdivision 1. The state may contract public debts, for which its full faith, credit, and taxing powers may be pledged, at such times and in such manner as shall be authorized by law, but only for the purposes and subject to the conditions stated in this section.

Subd. 2. Public debt may be contracted:

(a) for the acquisition and betterment of public land and buildings and other public improvements of a capital nature, and to provide moneys to be appropriated or loaned to any agency or political subdivision of the state for such purposes; provided any law authorizing such debt is adopted by the vote of at least three-fifths of the members of each branch of the legislature;

(b) as authorized in any other section or article of this Constitution;

(c) for temporary borrowing as authorized in subdivision 3;

(d) for refunding outstanding bonds of the state or any of its agencies, whether or not the full faith and credit of the state has been pledged for the payment of such bonds; and for refunding certificates of indebtedness authorized by the legislature prior to January 1, 1963.

Subd. 3. As authorized by law, certificates of indebtedness may be issued during each biennium, commencing on July 1 in each odd-numbered year and ending on and including June 30 in the next odd-numbered year, in anticipation of the collection of taxes levied for and other revenues appropriated to any fund of the state for expenditure during that biennium.

No such certificate shall be issued with respect to any fund when the amount thereof with interest thereon to maturity, added to the then outstanding certificates against the same fund and interest thereon to maturity, will exceed the then unexpended balance of all moneys which will be credited to that fund during the biennium under existing laws; except that the maturities of any such certificates may be extended by refunding to a date not later than December 1 of the first full calendar year following the biennium in which such certificates were issued. If moneys on hand in any fund are not sufficient to pay all non-refunding certificates of indebtedness issued on such fund during any biennium and all certificates refunding the same, plus interest thereon, which are outstanding on December 1 immediately following the close of such biennium, the state auditor shall levy upon all taxable property in the state a tax collectible in the then ensuing year sufficient to pay the same on or before December 1 of such ensuing year, with interest to the date or dates of payment.

Subd. 4. Public debt other than certificates of indebtedness authorized in subdivision 3 shall be evidenced by the issuance of the bonds of this state. All bonds issued under the provisions of this section shall mature within not more than 20 years from their respective dates of issue, and each law authorizing the issuance of such bonds shall distinctly specify the purpose or purposes thereof and the maximum amount of the proceeds authorized to be expended for each purpose. The state treasurer shall maintain a separate and special state bond fund on his official books and records, and when the full faith and credit of the state has been pledged for the payment of such bonds the state auditor shall levy each year on all taxable property within the state a tax sufficient, with the balance then on hand in said fund, to pay all principal and interest on state bonds issued under the provisions of this section, due and to become due within the then ensuing year and to and including July 1 in the second ensuing year. The legislature may by law appropriate funds from any source to the state bond fund, and the amount of moneys actually received and on hand pursuant to such appropriations prior to the levy of such tax in any year, shall be used to reduce the amount of tax otherwise required to be levied.

Section 7. The state shall never contract any public debt, unless in time of war, to repel invasion or suppress insurrection, except in the cases and in the manner provided and referred to in the sixth section of this article. Public debt includes any obligation payable directly, in whole or in part, from a tax of state-wide application on any class of property, income, transaction or privilege, but does not include any obligation which is payable from revenues other than taxes.

Minnesota Constitution, Article IX, Section 14, is hereby repealed.

AMENDMENT NO. 3 — 120 DAY LEGISLATIVE SESSIONS

Present Form of Section

ARTICLE IV

Section 1. The legislature shall consist of the Senate and House of Representatives, which shall meet biennially at the seat of government of the State, at such time as shall be prescribed by law, but no session shall exceed the term of ninety (90) legislative days; and no new bill shall be introduced in either branch, except on the written request of the governor, during the last twenty (20) days of such sessions, except the attention of the legislature shall be called to some important matter of general interest by a special message from the governor.

AMENDMENT NO. 3 — 120 DAY LEGISLATIVE SESSIONS

As Section will read if amended

ARTICLE IV

Section 1. The legislature shall consist of the Senate and House of Representatives. The senate shall be composed of members elected for a term of four years and the house of representatives shall be composed of members elected for a term of two years by the qualified voters at the general election.

The legislature shall meet at the seat of government in regular session in each odd numbered year at the time prescribed by law for a term not exceeding 120 legislative days; and no new bill shall be introduced in either branch, except on the written request of the Governor, during the last 30 days of such sessions.

A special session of the legislature may be called as otherwise provided by this constitution.

DIGNITARIES attending the annual meeting of District 14 and 17 of Land O' Lakes Creameries, Inc., in Thief River Falls on Tuesday are pictured above. Seated left to right are Marlan Augustine, District 17 director; Dan Holz, president of Land O' Lakes and president of American Dairy Foods; and Clarence Gilstad, director of District 14. In the back row are three specialists from the Land O' Lakes central office who spoke at the afternoon meeting. Left to right they include Loren Hartwell, credit manager; Carl Leaf, production manager; and Roland Zeller, butter and cheese technician.

Council Hears Report from Planning Commission Tues.

City fathers heard a report from James Parkins, chairman of the recently established planning commission, and reviewed projects which may possibly qualify for federal assistance at the regular meeting of the city council held Tuesday evening in the council chambers of the municipal auditorium. A variety of other business items were also brought up for discussion and action.

Parkins told the council that the planning commission had been negotiating with Hodne and Associates of Minneapolis in gaining technical assistance to make the planning commission effective. He said that estimated costs for an initial two and one-half year program are $31,500.

Phase 1 of the program would be for the first year and would include preparation of surveys, technical planning assistance, preparation of a downtown guide and other preparatory work. Total cost for this was estimated at $16,900 of which $10,800 would be paid by state and federal agencies and $6,100 by local government.

Phase 2 would be an 18-month program of beginning action in accomplishing projects and would result in expenditure of the remainder of the cost. Parkins estimated total cost for the two and one-half years to be $21,000 for state and federal agencies and $10,500 by local government.

Seek Federal Aid

Acting on the premise that part of an allocation of $400 million in federal funds could become available for local use, the city council prepared a list of projects which apparently could qualify for such aid if it becomes available. Among these were city library, several street projects, multi-county jail, sewer improvements and street lighting. Application forms are to be completed and submitted to the federal authorities.

Following review of appraisers reports concerning land which may need to be acquired for expansion of the municipal airport, the council adopted a resolution requesting the federal government to participate in the amount of $25,000 for acquisition of such land.

Raymond Ulferts, representing the Carnegie Public Library board, called the council's attention to bad slope on three sides of the library which results in basement seepage since water cannot flow away from the building. He recommended that the land be sloped to provide drainage away from the building and the recommendation was referred to the parks committee for action.

Pass Scales Ordinance

Third and final reading of the city scales ordinance revision was held and the changes will become effective upon publication. The changes result in a charge of 50 cents for weighing or measuring pickup trucks or dual wheel trucks and a one dollar charge for weighing or measuring tandem wheel and semi-trailer type trucks.

LOL Dists. 14 & 17 Told of Progress

Consolidation of drying plant facilities in northwestern Minnesota is paying off, Carl Leaf, production manager of Land O'Lakes Creameries Inc., told creamery operators and officials at a joint meeting of districts 14 and 17 at the Eagles Hall Tuesday afternoon. Production costs are being substantially reduced and the returns to the producer for skim milk have been increased, he reported. By the end of this year improvements to the plant at Fosston should be completed and 1963 should be a banner year, he predicted.

The Fosston plant is the largest of twelve now being operated by Land O' Lakes with a maximum daily capacity of 1,200,000 lbs. of milk. Production was over a million pounds a day during the flush period this year he said.

For 1961, the first year of the combined operation, a premium of 5.18 cents a hundred pounds of skim milk has been paid to the creameries, half of it in cash and half in equities, bringing the total of the Land O'Lakes bonus for skim milk to 7.18 cents per hundred which includes a two cent marketing extra. In terms of cash and equities a total of $112,000 was paid to the producers through their creameries.

Operations at Fosston this year have been handicapped by remodeling and construction problems which made it necessary for a time to have the milk processed at other plants and thus adding to the operating costs. The eight-month record however is good and shows a substantial improvement over the 1960 figures. 1963 will be the first full year of operation in the modernized plant, and Mr. Leaf predicted that operating costs will be further reduced.

The importance of maintaining quality standards was emphasized by Mr. Leaf. He pointed out that Land O' Lakes is producing for a quality market and high standards must be maintained at all levels. The demand for Land O' Lakes butter continues to increase year by year he said, and the organization's volume of sales will reach a record total of nearly a quarter of a billion dollars this year.

Preceding Mr. Leaf on the program were Rolland Zeller, butter and cheese technician, and Loren Hartwell, credit manager. Mr. Zeller stressed the need for strict enforcement of sanitation regulations and urged that there be no relaxation in sanitation practices. The industry must maintain the highest possible standards in its own best interests and more fre-

Planning Board At LHS Checks Building Progress

Citizens Group Holds First Meeting of Year At School Last Week

First meeting of the year for the Lincoln high school planning board was held last week in the Lincoln high school cafeteria. After considerable discussion, the planning board adopted a motion that a representative of the group be present at school board meetings to report to the Lincoln PTA on the progress being made on the school building program. Robert Flynn was appointed as observer for the group.

Attention was called to the October 22 PTA meeting at the high school when Kathy Hartje, senior at the school and exchange student to Greece this summer, will present the program. Mothers of 12th grade students, with Mrs. Roy Lee as chairman, will serve lunch at the meeting. Discussion was held on program planning and objectives for the PTA.

Members present at the meeting included the following:

Mrs. R. J. Dryden, president; Robert Flynn, vice-president; Irvin Wilson, treasurer; Francis Hamerlinck, secretary; and Richard Edlund, senior high school principal.

Class representatives were Mrs. Gordon Ballingrud and Vernon Quam, 7th grade; Mrs. James Geisen and Klemens Gigstad, 8th grade; Mrs. Otto Stenberg and Mrs. Paul Sjulson, 9th grade; Mrs. Kenneth Halldin and Malcolm Magnuson, 10th grade; Mrs. Durlyn Robinson and Harvey Anderson, 11th grade; and Mrs. Roy Lee and Merle Lindberg, 12th grade. Orall Johnson is the faculty representative.

Real Estate Tax Due Before Nov. 1

Pennington county property owners were reminded this week by County Treasurer Ellsworth Jorgenson that the last half of 1961 real estate taxes is due and payable before November 1. The penalty for delinquency takes effect on that date.

ELEVATED to the position of city clerk by the Thief River Falls city council this week was Gordon Reierson, former assistant city clerk and acting clerk since a vacancy was created in the position on May 15. The council is now seeking an accountant to fill the assistant city clerk position.

RRV Dairymen to Convene at Detroit Lakes

Annual Convention Is Scheduled for Wednesday, Oct. 24

Minnesota's "first lady of agriculture" and the national president of American Dairy association will be featured guest speakers at the Red River Valley Dairymen's association convention in Detroit Lakes Wednesday, Oct. 24.

Pretty Kathleen Hjelle of Argyle, the state's ninth Princess Kay of the Milky Way, will be hostess to ladies attending he convention at a social hour between 9 a.m. and noon Wednesday. She also will speak briefly at the general assembly in the National Guard Armory Wednesday afternoon.

Following Princess Kay on the afternoon program will be William (Bill) Hitz of Polk City, Ia., national president of the dairy farmer-financed ADA. A leading purebred Guernsey catle breeder and judge, Hitz is an authority on national and international problems of the dairy industry.

Other speakers will include State Agriculture Commissioner Duane A. Wilson and Ray Myckelby, Land O'Lakes Creameries, Minneapolis.

A farm forum will be held at 10:30 a. m., Wednesday, with Manager Frank Karnnin, North Star Dairies, Detroit Lakes, as moderator. Panel members will

United Fund City Campaign Opens Tuesday

Delay in Receipt of Materials Causes Lag In Local Fund Start

Following a delay caused when campaign materials failed to arrive on schedule, the Pennington County United Fund will begin solicitation of the Thief River Falls business district early next week, according to Richard Bjorkman, campaign chairman. Goal for the current campaign is $17,619 — "a reasonable amount if everyone gives his fair share," Bjorkman said.

Door-to-door business district solicitation will begin following a meeting of block chairmen Tuesday morning when the supplies will be distributed. A shortage of material at United Fund headquarters in Minneapolis delayed the shipment to this city and postponed the start of the drive.

"All hope for a successful campaign this year rides on two things," Bjorkman said. "They are continued support by the businessmen and acceptance of payroll deduction and increased giving by the working public. House-to-house canvassing, to be conducted by the Business and Professional Women's club, will be held immediately after the business district campaign."

To Post Progress

To keep the public posted on United Fund progress, thermometer-type charts will be erected and maintained at four downtown locations. They will be located on the post office lawn & city auditorium corner, Northern and Union State banks, United Fund headquarters, with Mrs. Ruth Steen as fund secretary, will be located in the Northern State Bank lobby.

Serving as block chairmen for the United Fund campaign will be

Contract Let for Kratka Bridge

Roy Benson and Sons of Stephen were awarded the contract for construction of a new bridge to replace the old Kratka bridge 11 miles east and four miles south of Thief River Falls. Awarding of the contract was made at a special meeting of the county board of commissioners on Monoday.

Eight bidders submitted bids for the project with the Stephen firm having the low bid of $69,172.26. Highest bid presented was for $91,348.98. The bridge will be of new pre-seasoned concrete construction, 165 feet long with a 28-foot roadway. Although contracts do not provide for completion before next year, work on the project is expected to begin soon so that ice on the Red Lake river may be used to advantage during the winter.

Millet for Bird Seed Yielded Fairly Well

Millet for bird seed is a new crop to Pennington county this year. Seeded mostly the last week of June the crop matured just ahead of the frost which hit the area Sept. 20. Although much water has flowed over the dam and the fields since seeding time, the reports from the millet harvest are favorable.

Fifteen miles southwest of Thief River Falls, Wilbur Hallstrom had seeded 35 acres of red millet. His yield was eight hundred pounds of cleaned millet per acre even with drownouts. Moisture level was 10 per cent and lower. Hallstrom put on 200 lbs. of 14-28-14 fertilizer. "The one thing I observed is that millet seems to need plenty of nitrogen" says Hallstrom. "Because of a late spring I seeded crosswise in a field which had different cropping histories. The middle part of this field had alfalfa-fallow two years ago and gave me the best yield. The two ends of the field gave me the poorest yield even though all of the field got 200 pounds of 8-32-16 fertilizer."

Three-Day Promotion

Curtain Rises Today On Town-Country Days

Today marks the opening of Northwest Town and Country Days in TRF with the Top of the Nation Dairy Sale leading a long list of activities to take place through the remainder of the week. The city auditorium is the scene of the Northwest Industrial Show and tomorrow the curtain will rise on the Northwest Auto Show at the city arena. The Chamber of Commerce promotion will focus attention on industry and agriculture in the area.

Princess Kay of the Milky Way, Kathleen Hjelle of Argyle, will appear at the Top of the Nation Dairy Sale today after serving milk to high school students at the school cafeteria during the noon lunch period. Tomorrow Princess Kay will visit city supermarkets and banks to serve free dairy treats to customers and promote the sale of dairy products. Kathleen is also the Northwest Dairy Princess, gaining her crown at Northwest Dairy Day in Thief River Falls last June.

Soil samples will be accepted all three days in the trailer located near the post office. Pennington county fertilizer dealers are cooperating in the soil testing program, offering to deduct the cost of one dollar per sample from the price of fertilizer purchased by the farmer. This county has been one of the top counties for soil testing in the past several years.

Free Turkey Barbecue

Major attraction for the public will be the free turkey barbecue on Saturday at the parking lot south of the city arena. More than 100 turkeys will be barbecued over an outdoor pit 100 feet long. Servings will be in the form of turkey sandwiches and both coffee and milk will be provided. The serving will start at 11 a. m. and continue until either the turkey or the eating public disappears.

Registration is now underway for about 50 free turkeys to be awarded by Thief River Falls merchants. Signing of slips will continue until closing time Saturday with winners to be drawn Monday from the combined registrations. Winners will be notified and need not be present to win.

Friday night a livestock clinic will be held at the Thief River Auction Mart just west of the city on highway 59 with two extension specialists present to explain feeding programs and marketing trends. All persons interested are urged to be in attendance.

Mosbeck Girl Killed Tuesday When Hit by Truck on Farm By St. Hilaire

A farm field mishap on the Raymond Mosbeck farm about 14 miles southwest of St. Hilaire claimed the life of a two-year-old rural Red Lake Falls girl about 11:30 Tuesday morning. She was Jonell Mae Mosbeck, daughter of Mr. and Mrs. Donald Mosbeck of rural Red Lake Falls, who was killed instantly when run over by a panel truck being used in cabbage harvesting operations.

It was reported to the Times that the girl and several other children were in the field at the time of the accident. The truck, driven by an aunt of the fatally injured girl, and motioned to proceed had just started forward when it was noticed that the girl had been run over by the vehicle.

Dr. E. O. Thorsgard, Pennington county coroner, stated that the Mosbeck infant was dead on arrival at Northwestern Hospital and that death was instantaneous due to an extensive skull fracture. He also ruled the death accidental.

The cabbage operation is operated jointly by Donald Mosbeck and his brothers Veral and Warren. The field where the accident happened was located on land rented from their uncle Raymond and the harvest operation was in progress.

Funeral services for Jonell Mae Mosbeck will be held Friday at 2 p.m. from the Black River Lutheran church with Mr. Otto Baker officiating. Interment will be made in the church cemetery. Jonell Mae was born Aug. 6, 1960.

Survivors include her parents, Mr. and Mrs. Donald Mosbeck; a sister Diane and a brother Kelly; her paternal grandparents, Mr. and Mrs. Oscar Mosbeck, rural Red Lake Falls; her maternal grandparents, Mr. and Mrs. Gust Iverson of rural Goodridge; and several aunts and uncles. She was preceded in death by her paternal grandmother.

The body will lie in state at the Green Funeral Home until Friday morning at 10 a.m. and at the church for one hour prior to the time of services. The Green Funeral Home is in charge of arrangements.

Livestock Clinic Set Friday Night

Information on livestock, their feeding for profit and the trend in the market, will be the subjects of discussion Friday at 8 p. m. at the Northwest Livestock clinic to be held at the Thief River Auction Mart located one-half mile west of Thief River Falls on highway 59. The event is one of the activities of Northwest Town & Country Days being sponsored by the local Chamber of Commerce.

Two University of Minnesota extension service specialists will lead the discussion at the clinic. Duane Erickson, extension economist will discuss the possible price ranges of beef, sheep, swine and other livestock for the year ahead. Dr. Raymond Arthaud will speak on feeding programs best suited to make money with dairy and beef feeder cattle.

Several grades of beef feeders and dairy feeders will be displayed at the Auction Mart so that farmers will have a chance to observe the grades of cattle. "Farmers can check on the prices being paid for these feeders and the prospects for profits with the various grades," stated Paul Stelmaschuk, Pennington County agricultural agent. "All farmers are urged to attend the livestock clinic."

Duane E. Erickson

A native of Fergus Falls, Erickson joined the University staff as an extension economist in farm management in September of 1961. He received his BS degree from North Dakota State University in Fargo in 1953 and his MS degree from the U. of M. in 1959.

Erickson served in the U. S. Army from July of 1953 to April of 1955 and from 1955 to 1957 he was a vocational agriculture instructor at Bowman, N. D. He served as research assistant in the department of agricultural economics at the university from 1957 until taking his present position. As a researcher at the school he has specialized in beef feeder cattle costs an dreturns and is a co-author of extension pamphlet 134.

Army Engineers Confer Tuesday on RL River Work

Members of the board of directors of the Red Lake River Improvement Ass'n. met with representatives of the U. S. Army Corps of Engineers Tuesday evening at the Elks Club in Crookston.

Representing the engineers were George Lyons and Harvey Johnson, St. Paul.

Earl Enright of East Grand Forks, president of the association, gave a history of the many floods and drought in the Red River Basin.

"We are not asking for a million dollar project, but are asking for a major dam at Huot with smaller dams at various points to assure a uniform supply of water at all times," Enright said.

Representing the Red River Basin planning committee were Carl Ash, Richard Canning and Carsten Mead, Red Lake Falls.

Members of the board which discussed problems of their areas were, Bruce Keifer of Crookston, Dr. James Disse and Otto Rupprecht of Thief River Falls, A. M. Bjerke of Red Lake Falls, Calvin Culling of Gully and R. T. Adams of Fisher.

The engineers reviewed studies already made on the situation. Although no definite plans were made at the meeting representatives of the corps indicated the engineers are prepared to make a comprehensive study when funds are made available.

Capt. Dick Edlund of National Guard Addresses Lions

Points out Necessity of Increasing Personnel; Club Set for Halloween

Captain Richard Edlund, commanding officer of the Thief River Falls National Guard company, told members of the Lions club at their luncheon meeting Wednesday noon that the city is in danger of losing its unit unless its personnel can be increased from the present total of about 100 to the required minimum of 119.

Introduced by Don M. Olson, program chairman, Capt. Edlund gave much the same talk which he had given Monday at the Rotary club meeting, and which is reported in detail elsewhere in this issue of the Times.

Frank Hamerlinck, chairman of the annual community Halloween festival sponsored by the Lions club, announced plans for the event, which will be held October 31 and will include a free movie show at the Falls Theatre for pupils from kindergarten thru the sixth grade, a roller skating party in the arena for junior high school students, and a dance in the city Auditorium for students of senior high school up to age 21.

Alfred Seltz Jr., of Minneapolis, representing the Minnesota Association for Mental Health, was introduced by Norman Peterson, and he gave details of the regional conference sponsored by that organization on Tuesday, October 30, at St. John Lutheran church in this city. Mr. Seltz is the son of the Rev. and Mrs. A. C. Seltz.

Rotary Hears of National Guard Problems Monday

Commander Edlund Asks Public Understanding To Aid In Keeping Unit

Richard Edlund, commander of the National Guard unit in Thief River Falls, reviewed the activities and values of the local unit at the noon meeting of the Thief River Falls Rotary club held Monday in the Elks club rooms. He outlined the recruiting program now underway to bring the local complement up to full strength.

Edlund stated that the unit must have its full quota of 119 members or will be placed on a probationary list. There is also a possibility that the National Guard unit will be taken from Thief River Falls if the quota is not met in the required time. Edlund noted that the unit has a payroll of more than $42,000 annually, employs two full-time workers and has a value of about $1 million in land, building and equipment.

The commander called attention to the fact that all young men have a military obligation which must be met in one of several ways. The National Guard program, he said, is one of the ways which should be appealing to high school graduates who have college, business or farming plans for the near future.

"All we ask of the public is that they understand us," Edlund stated at the meeting. "We invite anyone to attend our meeting each Monday evening to see what we are doing. We are happy to have complaints or suggestions called to our attention."

Red Lake Co. FU to Elect Tuesday

The Red Lake county Farmers Union will hold its annual meeting Tuesday, October 23, at 8 p.m. in the Plummer community hall, Mrs. Oscar Linder, secretary, annouced this week. She added that Edwin Christianson, state FU president, will be the guest speaker, and that the program also will include movies and other entertainment. Lunch will be served.

Job Climate Group Told . . .

Loss of Young People Hurts Future Hope of Minnesota

Editor's Note: The following excerpts are taken from a speech prepared by James D. Bailey, manager of the Northfield Chamber of Commerce, and presented at the Northwest Job Climate Conference held recently in Thief River Falls. The talk deals with the problem of out-migration of Minnesota's young people to other states.

"Ive known — we've all known — for a number of years that out-migration from Minnesota is an established fact. Forty of our 87 counties have smaller populations today than 20 years ago; 14 counties had more residents a half century ago than they do now. For the state as a whole, our actual gain in population in the decade from 1950 to 1960 was only 431,000 — 97,000 less than the number by which births exceeded deaths. Out-migration took away those 97,000 persons.

"Today, I'd like to discuss the impact of out-migration on rural communities such as those from which most of us have come to attend this conference. In doing so I intend to rely on and quote extensively the findings of Dr. Marvin Taves, director of rural sociology at the University of Minnesota.

"In his report he notes that by far the greatest population loss from declining rural communities results from out-migration of young people — persons between the ages of 16 and 25.

"It is not unusual, Dr. Taves report notes, for well over half of the high school graduating class in a smaller agricultural community to leave within three years after graduation. For most, if not all of these communities, this out-migration of the best educated of their youth is not replaced by either a return of the out-migration after further training or by others of equal training.

"The youth in the permanent migration category appears to represent a much greater loss to the sending community. He presumably leaves to attend college, to obtain vocational training or to take a temporary job. It is hoped he will return. Only at a latter date does it become apparent that his farewells had far greater significance. This permancy of the original departure is more apparent in the case of the young woman who leaves the community to marry.

"The ultimate social and economic consequences of the permanent out-migration of these youth are difficult to assess. Their leaving removes potential leadership, reduces the incentive and demands which youth tends to generate for innovation and improvement within the community. This encourages closure of social classes and a conservatism which favors maintenance of the status quo.

"Now, here's a part of Dr. Taves' report that really hit home to me: Consider, he says, as a basis for estimating the erosion of potential human resources from the point of view of the sending community, an agricultural service center of 3,000 population, with a contributory agricultural population of another 1,000, from which the local high school graduates a senior class approximating 100 pupils annually.

"Recent estimates are that the cost of rearing a youngster to age 18, or high school graduation, amounts to approximately $20,000. Little, if any, of this $20,000 is returned to the community by productive employment before this age. If this $20,000 represents a fair economic estimate of the worth of each of these youngsters, and based on the further reasonable assumption that half (or 50) of them will become out-migrants, then the annual economic loss through out-migration to the community of 3,000 is $1,000,000.

"Another way of estimating this loss of economic potential to this rural community of 3,000 is based on the earning potential of the out-migrants. At a modest $2,500 per migrant per year over a 40-year period, the potential personal loss to the community would be $5,000,000 for each group of 50 migrants.

"Getting away from the strictly dollars and cents phase of out-migration, he notes that one of the most significant impacts of population decline on the community is its snowballing effect: decline generates further decline. The process is quite apparent: as population declines, the community finds it an increasing burden to add new services and provide new amenities offered by a dynamic technology and a growing culture. As it lags in the match toward bigger and better stores, schools, churches and banks, a retrenchment of community goals takes place. No longer are community leaders encouraged to make it the gratest little town in the countryside.

"The emphasis turns toward holding the line, making do with facilities and personnel as they are; the community stresses preservation of values, and glories in its past, while others dream of a greater tomorrow. In time, its lag becomes apparent as retiring doctors are not replaced, store fronts become outdated and the community's general appearance engenders memories of an earlier decade.

"The most debilitating of all in this process appears to be pessimism generated concerning the declining community's future. It is this pessimism which constricts investment of capital, manpower and enthusiastic leadership. Those with savings invest it elsewhere lest it depreciate with the decline of their town, those with children sacrifice to educate them for jobs elsewhere in the larger society, and those with free time fail to be inspired to apply it to community improvement.

"This self-regenerating decline is often halted only after the community has fallen well behind. Even then the thought is for maintaining the community for the present and not building for the future. At this stage, it begins to die with the passing of each of its business and social leaders; it becomes a village of old merchants, old houses, old people; a fading village which will weather and slowly crumble unless it finds a leadership which rekindles optimism.

"The small community is the balance wheel of our economic, social and cultural order. It is the insurance policy against the loss of the individual's ability to determine his own destiny. In the small community, the individual counts. Here he can live a well-rounded life with people who know him and who care about him. Here he can establish roots and rear a family and can do more to provide his own security than any man in the large city.

"There is need to encourage younger people to return and provide the skills, foresight and lendership needed to move forward into tomorrow."

The greatest — the most effective — encouragement that could be offered these younger people here at home would be opportunity: opportunity for jobs, opportunity for advancement, opportunity for what should be their heritage: a full and fair share in the industrial, commercial, scientific and cultural progress of our nation."

MILLET— Shown above on the right is Odin Hauge of Erskine, who is unloading millet at Farmers' Grain and Milling Co. in Thief River Falls. In the middle is Olaf Ness acting manager of the firm. On the left is Erlin Hauge who also produced millet this year. The Hauges farm in the Winger area and grew about seventy acres of millet. More than half of this was drowned out. In spite of this the Hauges expect to harvest 13,000 paunds of this crop. Hauges seeded their crop the last part of June. They swathed the crop three weeks prior to combining on Oct. 12 and 13.

Augusta Drotts, 91, Dies Tuesday; Rites Saturday

Mrs. Augusta Drotts, a Viking and Thief River Falls resident for many years, passed away on Tuesday morning, October 16, at the Emmaus Lutheran home in Warren after a lingering illness. She was 91 years of age.

Funeral services will be held on Saturday afternoon, October 20 at 2 p. m. in the Mission Covenant Church in Viking. Rev. Walter Blackwood will officiate, assisted by Rev. Leonard Lindholm and Rev. Eldor Langager. Interment will be made in the Viking cemetery. Arrangements are being handled by the Green Funeral Home of this city.

Mrs. Drotts was born on September 26, 1871, at Wausa, Minn. She came with her parents to Hallock when she was eight years of age. There she attended school and grew to womanhood. On June 27, 1901, she married Rev. Verner Drotts at Hallock. That same year, the couple moved to Chetek, Wisc., where they served the Mission Covenant church until 1905. From there they moved to Viking, at which place Mrs. Drotts, together with her husband and their son David, served the Mission Covenant church for a period of 23 years.

Her husband died in 1930, and she and her daughter, Esther, moved to Thief River Falls in 1948, where Mrs. Drotts has since made her home.

She was confined to a nursing home here for six years, and for approximately the past year-and-a-half she has been at the Emmaus Lutheran Home in Warren.

Surviving is one son, David, of this city, and her daughter, Esther, of Warren. There are also five grandchildren and four great-grandchildren.

The body is reposing at Green Funeral Home, where it may be viewed from this evening until 10 a. m. on Saturday and at the church for one hour preceding the funeral services.

Edwin Nelson Rites Conducted In Newfolden

Edwin Nelson, a lifelong resident of the Newfolden community, died early Saturday morning, October 13, at Northwestern Hospital in this city at the age of 72.

Funeral services, conducted by the Rev. Eldor Oscarson, were held from the Bethlehem Lutheran Church in Newfolden, with interment being made in the Augustana cemetery. Arrangements were handled by the Green Funeral Home of this city.

Mr. Nelson was born on December 18, 1889, in Newfolden township, where he attended school and grew to manhood. For several years he was employed on the Olson & Holen farm at Argyle, and worked also on a number of farms in Marshall county.

For the past years he had helped operate the home farm near Newfolden, together with his brother Art and sister Minnie.

He was a single man.

Surviving him are his sister Minnie and his brother Art, both of rural Newfolden, and one brother, Ben, of Newfolden.

A sister and two brothers preceded him in death.

Services For Miss Anna Rokke Held Yesterday

Miss Anna Ottine Rokke, for many years a resident of Strandquist, and lately of Good Samaritan rest home in Warren, died at the rest home on Saturday morning, October 13, at the age of 83.

Funeral services were held Wednesday afternoon in the Bethania Lutheran church west of Newfolden. Rev. Eldor Oscarson officiated, and burial was made in the Bethania cemetery. Arrangements were in charge of Green Funeral Home of this city.

Miss Rokke was born on October 24, 1878, in Stordalen, Norway, near Trondheim, and came to America with her parents when she was still a child. They settled near Zumbrota, and lived there for a period of six years before moving to Marshall county, where they settled on a farm in West Valley twnship.

She received her education and grew to womanhood there, and graduated from Concordia college at Moorhead. She taught school for several years following her graduation.

Miss Rokke was then employed by J. E. Strandquist as assistant in the Strandquist postoffice. Later she became the regular postmistress, a post which she held for approximately 35 years. She also operated a millinery shop and a variety store there, in connection with the post office.

She is survived by Mrs. Marcine White of San Leandro, Calif., her foster-daughter. Three brothers and five sisters preceded her in death.

City Council Has Report Given by Planning Group

(Continued from page 1)

Approval was given by the council to Northwestern Bell Telephone company to install buried cable on Bridge street, Great Northern Railroad to remove stockyard facilities in the city and the local Lions club to use the auditorium and arena for the annual Halloween party for area youngsters. Appointment of Joe Poole to the volunteer fire department was also approved.

Seven building permits totaling $26,575 were also approved and include the following: H. H. Hoel Jr., addition to dwelling at 907 Arnold av. N., $3,500; H. A. Dahlen, domestic garage at 12 State av. N., $500; Northland Chemical company, warehouse at Third and Brooks, $7,500; Shetler's Hatchery, addition to driveway canopy at 712 Davis av. N., $400; John Fratland, addition to dwelling at 508 Second st. W., $300; Charles B. Josephson, domestic garage at 612 Kneale av. S., $875; and Lampert Lumber company, construct dwelling at 521 Maple av. S., $13,500.

An estimate on work completed by Jay W. Craig company on city projects in the amount of $37,880 was ordered paid. A letter from Local 664 of the Municipal Drivers wage increases for 1963 was also read to the council members. A decision was also made to advertise for an accountant—an office created to replace the position of assistant city clerk.

Crop of Millet for Bird Seed Had Good Yield

(Continued on page 4)

Falls, Curtis Swanson who lives in North Township had 28 acres of millet. Swanson seeded his millet on June 29; swathed on Sept. 18; and combined on Sept. 30. The moisture level at combining was 12 percent. By measure Swanson feels he got about 50 bushels per acre of red millet.

Further west of Thief River in Numedal Township Irwin Aaseby had 17 acres of red millet from which he harvested 16,000 pounds. He seeded his crop on June 20, and harvested Oct. 3. He used about 50 pounds of 8-32-16. "The most important problem with millet" says Aaseby "is the drying. I had my crop swathed a good three weeks before combining. I also use a hygrometer to check the humidity on the day of combining. His millet was a little over 8 percent moisture when delivered to the elevator.

"Most farmers I talked too agree that millet has possibilities in the area", says county agent Paul Steimaschuk. Most farmers also say that they will be trying millet again next year. Even though everything was late this year Jack Frost came on time. Jack was here Sept. 20 and Sept. 21 is the average date of the first killing frost. Both the white and the red millet matured ahead of the frost.

Both millets offer an opportunity to kill weeds in the spring says Steimaschuk. Since millets can be seeded late the seeding can be delayed and weeds can be controlled through cultivation. This is especially true of wild oats which is one of the worst weeds to control at the present time. Since there is a good deal of late fallow and fields were ploughed late because of excessive moisture, the year of 1963 may be a good one to try millet. This crop can be seeded after the weeds have started to grow in the spring and then killed through cultivation.

Because of the wet season very few of the sunflower acres which were to be planted for bird seed actually got planted. Ely Kaushagen who farms nine miles northwest of Thief River Falls got fifty acres planted in the area often called "ridge land". He planted the sunflowers the last part of June and they are now almost mature. Sunflowers are harvested after a hard freeze to prevent blocking of combines with raw materials. Kaushagen reports no blackbird problem and "For a year like this the crop looks good. Next year if the weather co-operates we hope to raise a better crop."

National Guard Seeks New Recruits in Unit

Loss of Company Possible Unless Quota Is Filled

Unless the National Guard unit in Thief River Falls is brought up to full strength in a short time, there is a likely possibility that there will be no National Guard unit in this city at all. Current strength is now 102 members with 119 needed as a full compliment. The unit had an annual payroll last year of more than $42,000 and the unit has about $1 million in land, armory and equipment.

Commander Richard Edlund of Company D, 2nd Battle Group, 136th Infantry (the local unit), has announced a recruiting campaign in order to bring up the strength of the unit. The sales talk basically is that the National Guard offers a good way for many young men to fulfill their military obligation.

Membership in the National Guard is open to men between the ages of 17 and 35 years of age. They must be a citizen of the United States and in good physical condition with no criminal record. Applicants must be capable of passing a written and mental examination and must be willing to attend a six-month active duty training period after enlistment.

Started Here in 1947

Locally the unit came into being in 1947 and in 1951 was federalized when activated for the Korean conflict. The armory here was built in 1954 and was dedicated on Oct. 15 of that year. Drills are held by the unit on 36 Monday evenings and six Sundays each year and guardsmen attend a two-week summer camp each year.

Operating as an infantry unit, the local National Guard has complete equipment and is part of one of the top battle groups in the state. Included in the million-dollar value of the unit are the armory and site, weapons, clothing, kitchen equipment, three Jeeps, two three-quarter-ton trucks, one 2½-ton truck, two trailers, communications equipment, training aids, office equipment and supplies. Weapons include M-1 rifles, Browning Automatic Rifles, pistols, 30-caliber machine guns, 3.5 mm launchers, 105 mm recoilless rifles and 81 mm mortars.

Local Services

In addition to providing a standby unit ready for service when called upon in the defense of the nation, the National Guard also provides a number of area services. Guardsmen are subject to the call of the Governor to serve in the event of floods, tornadoes or other natural disasters. They direct traffic for parades and civic functions, appear in parades, assist with military funerals and help when mass manpower is needed. The armory is also available for public functions.

Two full-time employees are hired for work with the unit and both are members of the unit. They are Sgt. Harvey R. Hanson, administrative supply technician; and Sgt. Gresmond Bruggeman, full-time custodian for the armory. If the number of members of the unit can be increased to 125, another full-time employee can be added to assist with office work and recruiting.

Gaining its start in early America when the civilian militia was known as "Minutemen", the National Guard fulfills much the same purpose today. It is an organized group of trained men continuing to pursue an education or hold a civilian job but devoting some of his time to the defense of his country.

Military Obligation

The National Guard offers a special appeal to young men interested in fulfilling their military obligation in as short a time as possible, Capt. Edlund said. "If you enter six-month training between the ages of 17 and 18½, you return to serve three years in your local outfit. You are then eligible for transfer to the standby reserve for the remaining four and one-half years of your military obligation. In other words, enlisting in the program at 17 means it is possible to finish ready reserve service at 20½ years of age.

"If you are over 18½ but not yet 26, you can enlist in the National Guard, take six months active training, serve 5½ years in your hometown unit and thus fulfill all your military obligations." During the six-month training period, guardsmen receive army pay and benefits, complete medical care and post exchange privileges.

"Service in the National Guard also offers an opportunity to become an officer and permits members to become eligible for a retirement program. It allows young men to learn basic skills while serving with their friends and neighbors in their own home town," Capt. Edlund said. "We invite all interested young men to stop at the armory Monday through Friday from 8 a. m. to 5 p. m. or most Monday evenings from 7:15 to 10:30 p. m. for further information. They can make an appointment by calling MU 1-4332.

Locally the National Guard has men serving who hold the following civilian occupations: two high school principals, two rural mail carriers, two high school teachers, five carpenters, 13 retail salesmen, one soil scientist, two highway maintenance men, six dairy processors, three college students, 17 high school students, two newspapermen, one assistant highway engineer, one electrician, one supermarket co-owner, one finance company manager, one electronics technician, one bookkeeper, one welfare worker, one county sheriff, one chief of police, one house painter, one refrigeration service specialist, one Chamber of Commerce executive, one railroad switchman and 35 farmers and other laborers.

GUEST teacher at a Bible teaching mission October 21 thru 25 at Zion Lutheran church in this city will be the Rev. A. S. Berg, faculty member of the Lutheran Bible Institue in Minneapolis. He formerly served parishes in Chicago, Brooklyn, Minneapolis and Tacoma, Washington. The Rev. Leland Steen, Zion church pastor, stated that the meetings will open at 7:30 with prayer time, followed by the service at 8 p.m.

quest public inspection and stricter enforcement of regulations may be expected, he said.

Mr. Hartwell discussed the problem of patron credit at the creamery level, pointing up the cost factor in providing a service of this kind. In fairness to all members, credit should not be extended to the few, he said, recommending that those in need of credit be urged to do their borrowing through private or public agencies established for such purposes. He suggested that each creamery adopt a policy that would be fair to all members and then adhere strictly to it.

Marlin Augustine, chairman of District 17, presided, and in his concluding remarks reported on action that had been taken at a recent meeting of the Land O' Lakes board in regard to the distribution of earnings. Equity reserves issued in 1953 in the amount of $2,400,000 have been called and the payments will be distributed in December. Interest on class A stock, held by members creameries, will also be paid at that time. He stated that 70 percent of the capital needs of the organization are now provided by members.

St. Bernard's School Open House Monday

Members of the St. Bernard's school PTA have extended an invitation to the public to attend an open house at the school next Monday, October 22, from 3:30 to 5 o'clock in the afternoon and from 7 to 8:30 in the evening.

Goodridge Driver in Mishap at Gully

Polk county sheriff deputies said cars driven by Robert P. Hanson of Goodridge and Norman V. Claypool of Bemidji plowed into a herd of sheep on SAR 2, three miles north of Gully Friday evening.

Deputies said the cars were meeting each other when the sheep, owned by Lawrence Waine of Gully, scampered across their paths. Neither driver was able to stop to avoid hitting the sheep, deputies said.

Grille and bumper damage was reported to Hanson's vehicle.

Business Survey Shows,

State Faces Future with Business Behind 8-Ball

Editor's Note: The following information is taken from a report given by John T. Hay, executive vice president of the St. Paul Chamber of Commerce, at the Northwest Minnesota Job Climate conference held in Thief River Falls and is printed by this paper in the public interest.

Three broad areas of advantages—natural, human and created assets—were listed among the things of which Minnesota can be proud when Hay spoke to the people attending the Job Climate conference here recently. Topic of his presentation was "Anatomy of a Business Climate".

Hay defined the business climate as the net result of all outside conditions affecting the cost and manner of operating a business for the good of all concerned in the community. It is the ability of any firm to cover its costs, meet its competition and still be able to operate at a profit.

"The men and women who hold jobs, and the new people coming into the labor market, benefit most from a favorable business climate," Hay explained. "Workers or job holders at all levels, small businesses, services, the profession, are the most severely hurt victims of a bad business climate. They have the biggest stake in this whole issue."

Survey Statistics

The Chamber of Commerce official drew the basis of his talk from a survey of 1,979 Minnesota industrial concerns employing 164,280 people and paying $880,827,200 in wages. The survey represented 70 per cent of all manufacturers in Minnesota.

Among the natural assets Hay cited abundant supply of fresh water, excellent agricultural productive area, iron ore deposits, large area for forestry, bountiful wildlife production, healthful climate and adequate rainfall.

Human assets include a top labor supply of healthy, intelligent, well educated men and women; high ranking in rating of youth and leadership; and ranking of the state well above the median of all states in educational accomplishments of its population.

Created assets listed were a multitude of transportation facilities, development of agricultural assets which have created stable employment and industries, educational opportunities second to no other state.

The survey revealed that most industries were satisfied with services furnished by local government, felt that local real estate taxes were fair and had little problem with labor relations. More than half planned new products and nearly one-fourth planned expansion. The firms were happy with transportation facilities, well *satisfied with services provided* by local suppliers and in general felt that there is a good business climate on the local level.

Areas of concern were labor rates — "Labor should consider competition in the industry rather than the average wage rate in which the plant is located"; communications — "Industry questions whether people know, understand and appreciate the important role local plants play in the economy of the community and state"; and government business —"Industry wonders if people are fully aware that government should operate like business; that is, expenditures cannot exceed income or there is no alternative but bankruptcy."

Hay revealed that 80 per cent of the industries polled believed that local personal property and inventory taxes were "too high" or "very high". They believe that little progress has been made in tax reform and fear that more of the tax burden will be shifted to business and industry. Labor union political power was also mentioned with business believing it is being given unequal treatment on such matters as unemployment compensation and workmen's compensation.

Note of Concern

Hay struck a note of concern when he stated that only 206 of 334 firms definitely planning expansion would expand in Minnesota. A total of 118 said they would locate elsewhere and only the smaller companies plan to expand here. Many of these were sub-contractors selling to larger Minnesota industries.

"The number and steadiness of the jobs which any company can bring to a community and state—and the size and steadiness of the flow of income a business can bring to that community and state — depend on the ability of that company to be competitive, while satisfying all the just claims of those who contribute to the business," the Chamber of Commerce representative said.

Every citizen must help "sell Minnesota" and think positively about the state, Hay said. "If we wait for somebody else to do it, it will never get done. Industrial development begins at home and if we *cannot* take care of the industry and jobs that we presently have, then we have no justification in attempting to bring outside industry into this area."

Prowler 'B' Squad Trips Roseau 25-0

Locals Won Six, Lost Two Games in Current Season

The Prowler 'B' football squad, coached by Gene Sack and Jerry Foley, closed out its eight-game 1962 schedule on Tuesday night by scoring a 25-0 win over the Roseau Rams 'B' squad on the Lincoln high school athletic field.

The Prowler B's moved into a 7-0 lead early in the second period when Rod Carlson gathered in a pass from Buzz Olson in the end zone for a touchdown. Dick Nelson added the conversion point on a run. Later in the period, Nelson, on a sweep out around left end, scored a touchdown to give the Prowler B's a 13 to 0 first half lead.

Fullback Dave Froehle, on an eleven-yard plunge through left tackle, boosted the locals lead to 19-0 in the third period; and Nelson's interception of a Roseau pass and a long run, tallied in the fourth period to give the Prowler B's their 25-0 win.

During the season, the local 'B's squad defeated Roseau twice, by scores of 12-6 and 25-0; Crookston twice, by scores of 25-6 and 25-7; and East Grand Forks twice, by scores of 25-0 and 33-12. The two losses that were taken during the season were to the Bemidji Lumberjacks B's, who recorded victories by scores of 44-0 and 38-14.

Fire Averted by Prompt Action at Strandquist Friday

Chimney Blaze Starts Fire in Wall of Lee's Tavern in Afternoon

After-effects of a chimney fire which could have been disastrous were discovered in time to prevent more serious damage at the Lee Tavern in Strandquist last Friday. The Karlstad fire department had been called to extinguish a chimney fire in the early afternoon, following Lee's burning a few sticks of wood in the furnace to take the early-morning chill from the building.

Shortly after the department left, it was discovered that a 2x4 studding and laths were burning between the wall, having been ignited by the heat from the chimney fire. A strong southeast wind could have caused severe damage to the rest of the town if the fire had not been discovered in its early stages.

The Times Strandquist correspondent noted that it was not a very lucky week for Leroy Swanson, owner of the building housing the tavern. He sustained a severely injured kneecap Thursday when the axle broke on the tractor which he was riding, throwing him to the ground. He was hospitalized for several days and released on Sunday.

T. R. Falls Is Given Recognition for Car Safety Check

One of 35 Communities in Minnesota to Receive Look Magazine Award

Thirty-five Minnesota communities and counties in Minnesota were awarded "Certificates of Achievement" for noteworthy performance in the national vehicle safety-check program. The announcement was made by a board of judges representing the Auto Industries Highway Safety committee and Look magazine, national sponsors of the 1962 National Vehicle Safety-check for Communities program.

The program was coordinated in Minnesota by the safety division of the Minnesota highway department which is making arrangements for the presentation of the certificates. Area winners include Thief River Falls, Warren, East Grand Forks, Bemidji, and Detroit Lakes.

All entries in the program were judged, and winners chosen on the basis of effective community efforts encouraging motorists to have their vehicles safety-checked for 10 points affecting safe driving conditions. The national board of judges considered the quality of the community program as well as the total number of vehicles checked, rejected and rechecked in relation to the area's potential. The 10 points checked which affect vehicle condition are brakes, headlights, tail and stop lights, steering, tires, exhaust, glass, windshield wipers and washers, mirrors and horn.

Program reports to the highway department indicated that one or more unsafe items were found for every six cars checked. This would mean that an average of more than 16 percent of Minnesota vehicles are in an unsafe mechanical condition and should be inspected periodically to assure greater safety on the highways.

Soo Line Will Study Merger With C. & G.W.

Study of Merits of Merger is Starting Now, Officials Say

A study will be undertaken to determine the feasibility and possible advantages of merging into one system the Soo Line Railroad company and the Chicago Great Western Railway company.

Announcement of the study was made today jointly by Leonard H. Murray, president of the Soo, and Edward T. Reidy, chairman of the board and president of the CGW. This study will be conducted by personnel from the staffs of the two companies. It will be begun immediately. No date has been set for its completion.

The study will seek to determine the economies, efficiencies, advantages and other aspects of a merger of the two companies. Study committees will concern themselves with revenue potential, possible savings in operating expenses, and the mechanics of a merger. A final determination will be made later as to whether a merger proposal should be placed before the stockholders of the two companies and regulatory agencies.

Combined, the Soo and CGW would form a rail transportation system of some 6,200 miles touching 11 states. The Soo has assets totaling about $214,000,00, the CGW about $94,000,000. The Soo's revenues in 1961 totaled approximately $75,000,000, the CGW's approximately $31,000,000. There are approximately 2,200 holders of the 2,286,000 outstanding shares of the Soo's one class of stock. There are some 1,800 holders of the CGW's 366,000 outstanding shares of preferred stock and about 1,800 holders of the company's 399,000 outstanding shares of common stock. The Soo employs some 6,200 persons, the CG about 2,000.

The Soo operates approximately 4,700 miles of railroad in Illinois Wisconsin, Minnesota, Upper Michigan, North Dakota, South Dakota and Montana. It interconnects Chicago, Minneapolis-St. Paul and Duluth-Superior, and connects the rail transportation system of the U.S. directly with that of Canada at three points. It serves both as a carrier for traffic moving to and from Canada and as a transporter of the grain, lumber, paper, ore, manufactured goods and other commodities produced and consumed in its seven-state territory.

The Soo Line Railroad Co. is the product of a merger, consummated January 1, 1961, of three roads: the Minneapolis, St. Paul & Sault Ste. Marie; the Wisconsin Central; and the Duluth, South Shore & Atlantic Railroad Companies. Its executive offices are in Minneapolis.

The CGW operates nearly 1,500 miles of line in Illinois, Iowa, Minnesota, Missouri, Kansas and Nebraska. It interconnects Chicago, Minneapolis-St. Paul, Omaha and Kansas City. It serves the agriculture and industry of its six-state territory and acts also as a "bridge" carrier for freight moving across the Midwest. Executive offices of the CGW are in Kansas City, Mo. The company's general offices are in Chicago and Oelwein, Ia.

Senior Class Play Drew 450 Tuesday

Young Actors Score Hit in Comedy, "Life with Father"

An unusually large and appreciative audience of 450 persons Tuesday evening witnessed the successful performance of the Lincoln high school senior class play, "Life with Father," presented under the direction of Al Shaff of the Lincoln faculty.

Staged with realistic settings and elaborate costumes of a half-century ago, the laugh-provoking comedy was given an excellent rendition by the young actors.

Brian Lofberg portrayed Clarence Day in the title role with Gail Stromsmoe as his wife Vinnie. Other cast members included Brian Mostue, Roger Wilson, Steve Taxerass, John Rambeck, Nonk Pukari, Gretchen Larson, Judy Iverson, Cathy Hartje, Nancy Newton, Gloria Phillip, Rosemary Votava, Fred Evenson, Bruce Gilbertson and Dwight Myhrer.

Warren Land Bank Assn. Meets Fri. in TRF

The annual meeting of stockholders of the Federal Land Bank association of Warren will be held at the city Auditorium in Thief River Falls Friday, October 19, at 1:30 p.m. The public is welcome to attend. Prizes are to be awarded and lunch will be provided at the completion of the meeting.

12 Cases Are Tried In Municipal Court

Game warden, sheriff, highway patrol and police departments all had cases tried in Thief River Falls municipal court during the past week with 10 different violations noted in the 12 cases tried and a total of $403 in fines and 37 days in jail sentences being assessed. Judge Stanley N. Mortenson presided at the trials.

On Saturday two cases were brought by the sheriff's office. They included Darrell Wick, city, non-support of a minor child, 30-day jail sentence suspended on conditions; and Larry Haugen, city, misrepresent age to buy liquor, apprehended on citizen's complaint, sentenced to seven days in jail.

On Monday the state highway patrol brought two cases involving the same persons to trial: Lambert Hallgren, Carlton, forfeited $75 bond for operating a truck over the legal tandem weight and $50 bond for operating a truck over the registered gross weight.

In one case brought by the game warden service, Gene Brandt of Minneapolis forfeited $25 bond on a charge of transporting a loaded shotgun in a motor vehicle.

Other cases were brought by the police department and included Phales Grindeland, city, speeding, $15 bond forfeited; John E. Tapa, Sidme, speeding, $18 bond forfeited; Mandel Davis, Minneapolis, driving while under the influence of liquor, $125 bond forfeited; Alan Gehrls, Radium, driving too fast for conditions, $20 bond forfeited; Henry Schwartz, rt. 2, TRF, no brakes, $15 fine with $7.50 suspended; Weston Halvorson, city, misrepresent age to buy liquor, apprehended on citizen's complaint, $25 fine; and Donald Stale, Strathcona, petty larceny (theft of car radiator from Evans Seed and Produce), $25 fine.

Crookston Scene of Meeting on the Retarded Monday

Harold W. Peterson, hospital administrator at the Brainerd State School and Hospital, and former administrator of Northwestern Hospital here, will speak at a town meeting on mental retardation to be held at 8:00 p.m., Monday, October 22, at the Crookston agricultural school dining hall.

Also featured on the program will be the showing of "The Darkest Side," a film reporting the findings and recommendations of Governor Elmer L. Andersen's advisory committee on mental retardation. The Crookston Mrs. Jaycees and the Polk County Association for Retarded Children, are cooperating in the program. The meeting is open to the public and free of charge. Donations will not be solicited.

The evening's program will open with the film showing and will be followed by Mr. Peterson's talk and a discussion period. Coffee will be served. Residents of Polk, Pennington, Red Lake and Norman counties are invited to see the film and hear the speaker.

Sponsors of the town meetings are the Minnesota Association for Retarded Children and the Minnesota Department of Public Welfare.

District Meeting of Land O' Lakes Ends with Banquet

Dan Holz, President of LOL, Addresses Group at Legion Club Tuesday

Dan Holz, of Paynesville, president of Land O'Lakes Creameries, Inc., was the speaker of the evening at a banquet at the American Legion hall Tuesday evening, ending the annual joint meeting of creamery operators and officers of districts 14 and 17. He was introduced by Marlin Augustine, District 17 chairman, who presided.

Mr. Holz cited the continuing growth of Land O' Lakes with the record breaking figures of the organization's sales. Butter sales are up seven per cent over a year ago, he said. Milk powder is up fifteen per cent, and cheese is up eight per cent. Turkey sales will be down because of decreased production this year.

Mr. Holz and Land O' Lakes grew up together and most of his talk was devoted to his personal recollections of the history of the organization. His father and John Brandt were neighbors and active in local creamery operations in the area where the organization was born, in what was established as Land O' Lakes District No. 1. He reviewed the highlights of the progress of the organization and its years of steady growth.

An address of welcome was delivered by Mayor Orrin Green which was responded to by Ole Smeby of Winger, chairman of District No. 14. A vocal solo by Ronald Johnson of Bagley; a trumpet solo by Jerry Erickson, accompanied by Mark Anderson, both of this city; and several selections by the Shelly quartette preceded the address of the evening.

A turkey dinner was served by the ladies of the Legion Auxiliary.

VFW Post Shares in Safety Drive

Local Post Promoting Safety for Pedestrians

The Veterans of Foreign Wars Post 2793 will attempt to put "Safety In The Hands Of The People" in the promotion of a Pedestrian Safety campaign in Thief River Falls this week.

Commander Howard Comstock of the local post will direct the safety promotion campaign in cooperation with Police Chief Elton C. Cummings.

"Our post will have men in uniform passing out "Pedestrian Citation Cards" to walkers who disobey the rules for safety walking," Commander Comstock explained. "In this manner we hope to remind many of their obligations to keeping themselves safe. So many depend on it."

Uniformed members also will aid the young and the elderly in crossing busy intersections and at other hazardous locations.

Jaycees To Hold Program for New Members Tonight

Members of the Thief River Falls Junior Chamber of Commerce who have recently joined the organization will be presented with membership kits at an orientation program tonight in the Elks club rooms. The session will not include wives as originally planned, due to stag night rules at the club rooms and conflict of activities at other possible meeting sites.

In addition to the orientation and installation program, business will include discussion of purchasing Jaycee jackets, report on the teen-age dance, report on name tag buttons, discussion of regional Miss Minnesota contest and announcement of Winona state meeting.

Roseau	0	2	0	.000	18	32

Result of Friday's game:
Crookston, 0, at Bemidji, 32.

Schedule, Friday, Oct. 19
Thief River Falls at Bemidji
Roseau at Crookston

The week's schedule in the Northwest football conference will be featured by the league-championship tilt slated for the Bemidji State college field Friday night when coach Joe Mrkonich's Thief River Falls Prowlers meet coach Red Wilson's high-scoring Bemidji Lumberjacks.

The Prowlers and the Jacks approach this "crucial" game with undefeated records in conference play (Bemidji is unbeaten for the season, while the Prowlers have lost but one game), and Bemidji will be closing out their conference schedule on Friday. Following Friday's game, the Prowlers will have one conference game remaining on the schedule, that being the traditional season-ending game with Crookston.

In last week's lone conference game, Bemidji, flashing a diversified attack ably directed by quarterback Dick Fortier, defeated the Crookston Pirates, 32-0. Leading the scoring for the Jacks in the game against Crookston, and for the season, is halfback Roger Johnson.

In another conference game on Friday's slate, the Roseau Rams will invade Crookston Highland Park field for a game against the Crookston Central Pirates. The two teams are winless in conference play, having suffered defeats in the two games they have played.

Punt, Pass & Kick Event Sponsored by Tunberg Motor

Boys Ages 7 to 11 to Register This Month for Contest November 3

Thief River Falls area grade school boys from seven through 11 can pit their football skills against thousands of other boys throughout the nation in the second annual Punt, Pass & Kick competition which will culminate with a White House reception and an appearance at the National Football League Championship game for the top ten winners.

Sponsored nationally by the Ford Division of Ford Motor Company and the National Football League, the Punt, Pass & Kick Program—or PP&K—will be staged here Saturday, Nov. 3, by Tunberg Motor Co.

Youths will be tested for their ability to punt, pass and kick (using a kicking tee) footballs on the same day as thousands of other boys all over the country, with warm-up jackets, football helmets and autographed footballs to be given as first, second and third prizes for each age group, or five top area winners in all.

Area winners and their fathers will receive all-expense paid trips to a National Football League game in their area, and will compete during half-time to determine the five top Eastern Division winners and five top Western Division winners. These ten boys will visit Washington and the White House, accompanied by their parents, and then will go to the site of the NFL Championship game, for half-time competition to determine the five National winners.

Wallace and Roger Tunberg pointed out that there is no body contact necessary in the competition, no charge for entering, and no special equipment needed. "Registration will be open through out October," they said, "with Tunberg Motor Co. as the registration headquarters."

Results of Friday's games:
Fertile, 20, at Ada, 0.
Warren, 13, at Fosston, 0.
Mahnomen, 13, at Twin Valley, 6.
Bagley, 13, at Red Lake Falls, 7.

Schedule, Friday, Oct. 19.
Fosston at Ada.
Warren at Mahnomen.
Twin Valley at Red Lake Falls.
Bagley at Fertile.

Schedule, Wednesday, Oct. 24
Mahnomen at Fertile.
Fosston at Bagley.
Red Lake Falls at Warren.
Ada at Twin Valley.

Moving into the final week of the schedule, with the season-closing games being slated for next Wednesday, the Pine-to-Prairie football conference continues in a two-team battle for the championship. The Fertile Falcons and Mahnomen Indians, scoring wins last week, are deadlocked for the conference lead, having five runs and no losses records. It is probable that the two teams will be carrying undefeated records into their title-deciding game at Fertile on Wednesday night, Oct. 24.

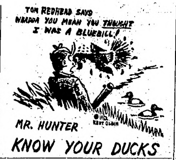
Fertile's five-foot nine-inch, 165-pound halfback, Rod Olson, moved into a commanding lead in the conference individual scoring race. The stellar all-round athlete added fourteen points to his scoring total to boost his point-total to 82 points, and a 33-point lead over runner-up Mike Liebl of Mahnomen.

County Farmers Union Conclave Set October 24

Annual convention of the Pennington County Farmers Union will be held Wednesday, October 24, at the Eagles Hall in Thief River Falls at 8 p. m. Edwin Christianson, president of the Minnesota Farmers Union, will be guest speaker and county officers will be elected.

Other business to be conducted at the meeting will include the adoption of resolutions to be presented at the state convention. Coffee will be served and everyone is welcome to attend.

Current officers of the organization include Ole Selmanson, chairman; C. R. Appleman, vice chairman; Abert Kotrba, secretary-treasurer; Norman Johnson, Harold Langnas, Carl Lindbloom and Wallace Boman, directors.



Keeping Score with "Huck" Olson

For the Conference Title

The Northwest football conference schedule for 1962 is moving into its last-but-one week of play, and the conference title is still "up for grabs." The championship will undoubtedly hinge on the outcome of the Prowlers vs. Lumberjacks game at Bemidji on Friday night. If the Lumberjacks win, and they enter the game unbeaten in their season's play and will be favored, coach Kenneth (Red) Wilson's club will clinch the title. Friday's game will end the conference schedule for the Jacks.

Coach Joe Mrkonich's Prowlers, unbeaten in conference play but a loser to Dilworth in out-of-conference competition, can clinch at least a tie for the title by upsetting the home-standing Bemidji club. The Prowlers, following Friday's tilt, will have one conference game remaining, that being the season-ending game at Crookston on October 26.

Given favorable weather and playing conditions on Friday night, the fans will undoubtedly witness some fine offensive football for both teams are capable of exploding in long-gainers and can score from any place on the field. The Jacks, with their sharp execution of plays, have been scoring at a 30-points per game clip in their three conference games, while the Prowlers, in two conference games, have posted a 20-points per game average.

A check of the weight charts reveals a slight edge for the Prowler backfield over the Bemidji backfield, while the Lumberjack offensive line will have about an 8-pounds per man edge over the Prowler forwards.

The Prowler backfield has John Aune, 5' 11", weighing 163 pounds; Paul Klungness at 5'10" and a 160 pounds; Bob Benson at 6' and a 190 pounds; and Steve Mittelstadt at 5' 10" and 165 pounds While the Jacks' quartet of backs list Dick Fortier at 5' 10" and 175 pounds; Roger Johnson at 5' 10" and 160 pounds; Dennis Aguiar at 5' 9" and 140 pounds; and Dave Gruel at 5' 10" and 165 pounds.

The heaviest players in the respective lines are tackle Bill Rabe of Bemidji at 230 pounds, and tackle Dwight Myhrer of the Prowlers at 220 pounds. The offensive lines give the Jacks a weight edge, with an average of 181 pounds per man, while the Prowler forwards hit at an average of 174 pounds per man. But in the final anlaysis, and the factor that will decide the game, is how fast these boys can move their pounds.

The Prowlers will be striving to break a three-game losing streak against Bemidji football teams. Not since the 1958 season, when a Prowler squad co-captained by Phil Hanson and Lynn Nicholson scored a 24-14 win over the Jacks at Bemidji, have the locals been winners over coach Wilson's teams. Last season, the Prowlers dropped a 32-20 decision; in 1960 the score was 39-7; and in 1959, Bemidji scored a 26-7 win.

Cross-Country

And the Bemidji Lumberjacks will be in contention Saturday morning too, when on the cross-country range at the local golf course, they compete in the Region Eight cross-country meet.

In the Northwest conference cross-country competition held at Crookston on Friday, coach Rod Max's Prowlers marked up a 17-point margin over the Bemidji harriers, as the locals scored 28 points to win the title. But in last Friday's meet, the Bemidji squad was without the services of Gary Lockner, Bob Shadlo, and Dick Rogers. Lockner, the Region Eight half-mile champion, has been running as the number one man on the Bemidji cross-country squad. But these three boys will be on hand for Saturday morning's competition here. The meet is slated to start at 11:00 A.M.

The boys will be competing for berths in the state cross-country meet to be held in Minneapolis on Saturday, October 27. The runners who will gain these coveted berths are the top five finishers, and the five-man team winning the Region Eight title.

With such runners as Bemidji's Lockner, the Prowlers' Rolf Wangberg, and Roseau's Larry Solon competing, the race for the individual honors should be hectic.

Pass, Punt, and Kick Contest

Wally and Roger Tunberg of the Tunberg Motors are accepting registrations from boys, in ages seven through eleven, for competition in the second annual Pass, Punt and Kick contest co-sponsored by the Ford Motor company and the National Football league.

Last year, on a nation-wide basis, more than 200,00 boys participated in the events. This year it is expected that that number will be boosted considerably.

The registration list will be open, and registrations accepted, during the month of October.

Minnesota Deer Herd Expands in Five Years

According to Walter H. Petraborg, conservation department big game biologist, the Minnesota deer herd has been experiencing a gradual build up in numbers over the past five years due to favorable winter snow conditions in the northern counties.

During the past winter there developed some severe snow conditions, but too late in the season to cause any starvation in the deer herd. General observation and census reports this summer indicate an average to good fawn crop, with many observations of twin fawns.

Another indication of an increasing herd is the mounting highway mortality for deer. Reported highway kills in Minnesota has increased from 882 deer killed in 1956 to 1800 deer killed in 1961. Reports for this past spring and summer indicate an even larger increase in highway mortality thus far in 1962.

Petraborg said no prediction can be made as to the deer hunting success this fall, because the deer take is largely dependent upon the weather conditions during the hunt. Warm-rainy weather or extremely dry conditions can materially cut the deer take as it tends to make hunting conditions more difficult.

On the other hand, freezing weather greatly aids access into backwoods areas, and a light to moderate snow for background to observe deer as well as track them usually produces a greater kill in any given year, and a smaller loss due to crippling.

Due to the winter deer yarding conditions in northern Minnesota, Petraborg said a good deer take is desirable during the present build up in deer numbers to avoid over-browsing and winter starvation.

Minnesota ranks first in deer hunting success and the yearly take and number of hunters has grown through the years. For example: in 1956, there were 69,434 harvested by 193,895 hunters. Last year, 1961, the hunting army had grown to 250,031 and the deer harvest was 106,763 deer for a 43 per cent success ratio.

This is a record number of hunters and deer harvest for this state, said Petraborg, and reflects the gradual build up and healthy condition of the present deer herd, despite the growing number of hunters.

He said many hunters have reported favorably on the option of wearing the new color (blaze-orange). The wearing of this color or any combination of red and blaze-orange is required during the firearms deer season and is a safety factor. As far as the deer are concerned they generally see movement rather than color, according to Petraborg.

Hints to Deer Hunters: The best place to hunt in northern Minnesota is the area you are most familiar with. Check over the old stamping grounds, if possible, prior to the season and start early on your hunting trip.

Mailing Time Is Near for Yule Parcels for Servicemen Abroad

The period November 1 to November 20 has been designated for the mailing of Christmas parcels by surface transportation to members of our Armed Forces overseas, Postmaster R. J. Dryden stated this week. For airmail the period is December 1 to December 10. Greeting cards for the Armed Forces overseas should be mailed within the periods designated for parcels if they are to have a reasonable expectation of delivery prior to Christmas.

Packaging— All articles should be packed in boxes of wood, metal, *solid fiberboard, or strong double-*faced corrugated fiberboard.

All fiberboard boxes should be securely wrapped in heavy paper which materially strengthens the package. Each box should be well tied with strong cord. Unless completely packed and tightly filled, boxes are likely to be crushed. Sufficient cushioning material should be used to prevent any rattling or loosening of articles within the package.

A slip showing list of contents and addresses should be enclosed in the parcel.

Prohibited Articles—In addition to the articles normally prohibited in the mails, matches of all kinds and lighter fluid may not be mailed to overseas military addresses. Cigarettes, other tobacco products, coffee, and various other items are prohibited in parcels addressed to some military post offices.

Postage—The domestic rates of postage are applicable, and postage must be fully prepaid. When fourth-class parcel post rates are applicable, the zone rate from the post office where mailed to the post office through which the parcel is addressed will be charged. Airmail articles weighing not in excess of 8 ounces are chargeable at the rate of 7 cents per ounce; those weighing over 8 ounces are chargeable at the rate of 80 cents a pound.

Addressing—Addresses must be legible and complete, and should be prepared by typewriter or pen and ink.

Pedestrian Safety Proclamation

Whereas: In the State of Minnesota one out of six traffic fatalities is a Pedestrian; and

Whereas: The strength of our community relies on the preservation of the lives of both the young and the old; and

Whereas: To protect the lives and health of our residents in vehicle traffic, we must endeavor to impress Pedestrian Safety on our Citizens' minds; and

Whereas: Pedestrian Safety does not end with laws and statutes but must be impressed on the Pedestrian Public to further promote the further need of special precautionary measures; and

NOW, THEREFORE, I, Orin J. Green, MAYOR of Thief River Falls do hereby proclaim the day of Friday, Oct. 19th, as PEDESTRIAN SAFETY DAY in the community of Thief River Falls, and urge every citizen to extend wholehearted support toward the development of safety-conscious citizens to assure the residents of our community a long and useful life. I recommend that we be alert in our driving and obey all traffic warning signs in the shopping, the school and the church areas. Be courteous drivers and respect the rights of our pedestrian populace. And let the walker respect the rights of others; to do his part to prevent traffic tragedies.

I sincerely request that all residents of our community cooperate with our police department and the Veterans of Foreign Wars who have donated their time unselfishly toward making this program successful in our community. IN WITNESS WHEREOF, I have hereunto subscribed my name this 15th day of October, 1962.

ORIN J. GREEN,
Mayor.

AAA Reports on Point System for Drivers Licenses

Interstate Transfer of Penalties Opposed by Motoring Organization

A total of thirty-three states now have "point systems" under which an accumulation of traffic violations will result in the driver's license being suspended or revoked, according to the AAA.

The national motoring organization reported today that this comparatively new device for checking on erring drivers, and warning them as to the consequences of future misdeeds has spread so rapidly that now only seventeen states have no formal or publicized *point system.*

This wide adoption of point systems is one reason why AAA has been reluctant to approve the "Driver license compacts" under which conviction for certain named offenses in another state would automatically result in punishment in the home state.

Much greater uniformity in traffic laws and interpretation and enforcement of those laws is necessary before such procedures should be made automatic, AAA believes. Instead, the AAA suggests a process of reciprocal agreements between states which takes into consideration the variances in state motor vehicle laws, court decisions and enforcement practices.

The AAA report described the operations of the National Driver Register established a little over a year ago in the U. S Bureau of Public Roads. Major purpose of the Register, operating with fairly sophisticated computer devices, is to spot drivers whose licenses have been revoked in one state and who seek driving privileges in another state.

"The Driver Register currently has over 209,000 names on file and processes over 4,000 search requests per day," the report said. Participation in the Register is entirely voluntary; only four states —Massachusetts, Delaware, Georgia and Florida — are not participating.

MDs Offer Advice to Avert Snoring

Suggest Using Scarf to Keep Mouth Closed

Snoring is one of the most common sleep problems. Usually a wife or husband complains they can't sleep because of the rasp-like noise being made by the spouse, and a few poor souls snore so loudly that they awaken themselves whenever they fall asleep.

According to the Minnesota State Medical association, persons snore when their lower jaw relaxes during sleep and their mouth falls open. Sleeping on the back particularly contributes to this.

Snorers can prevent this relaxation of the lower jaw during sleep, says the Association, by a scarf or broad piece of cloth under the jaw and over the top of the head. To prevent sleeping on the back, a spool, checker, or other small, hard, object can be taped to the back. Pressure from this causes a sleeper to automatically roll over and seek a more comfortable position.

Another helpful measure that still allows sleeping on the back, is to place a small, soft pillow at the nape of the neck. This can usually be used in addition to the ordinary pillow.

Officers Named by Home Councils in Marshall County

Mrs. Nobel Olson, Middle River, Named President of East County Group

Marshall county Home Councils held their annual meetings last week, officially opening the 1962-1963 home program year. Elected to head the East Council was Mrs. Nobel Olson of Middle River. Results of the West Council election were Mrs. Olger Olson of Warren as president and Mrs. Emil Zutz as treasurer.

The East Marshall Home Council met at the Eddie Anderson farm near Holt, with nine of the ten clubs answering roll call. Other officers are Mrs. Lawrence Lubitz of Thief River Falls, secretary-treasurer; Mrs. Clarence Lian of Middle River, vice-president; Elinor Olson of Middle River, historian.

The West Council held their meeting at the PKM building at Warren with 31 members present. Other officers named are Mrs. Harold Copp of Warren, vice-president; Mrs. Clarence Strandberg of Argyle, secretary; Miss Anita Robertson of Argyle, historian.

In addition to the election, several amendments were voted on the constitution.

Plans were also made to print a cookbook again this year for those taking part in the extension home program.

The councilors were urged to remind their club members of the European Common Market meeting which will be held on October 22, 8 P.M. at Newfolden School.

The meeting was adjourned with a vote of appreciation to the officers who served the council for the past three years.

Social hour followed the business meeting with lunch served by the executive board.

Editorials . . .

"If the nation is living within its income it's credit is good. If in some crisis it lives beyond it's income for a year or two it can usually borrow temporarily on reasonable terms. But if, like the spendthrift, it throws discretion to the winds, is willing to make no sacrifice at all in spending, extends it's taxing up to the limit of the people's power to pay, and continues to pile up deficits, it is on the road to bankruptcy."

—F. D. Roosevelt (1932).

Thank You

Thief River Falls was one of 32 state communities to be awarded certificates of achievement "for noteworthy performance in the national vehicle safety check program" completed recently. Entries in the program were judged on the basis of effective community efforts, encouraging motorists to have their vehicles safety-checked for 10 points affecting safe driving conditions. Other cities in the area receiving this award are Warren, East Grand Forks, Bemidji and Mahnomen.

To those responsible for the performance that rated this favorable recognition, our thanks in behalf of the community.

Campaign Time

Now that Congress has adjourned President Kennedy can devote all of his time to lambasting the Republicans. He wants us to send back nothing but Democrats for the next Congress. There is no place in his program for a two-party system.

His visit to Minnesota was not impressive as a vote-getting mission. He didn't talk like the president of a great country reporting to the people who looked to him for leadership and inspiration. He talked like a ward politician at a clambake.

Same Old Odor

It is estimated that postal costs of American business will be increased some $450 million annually by the Postal Service and Federal Employees Salary Act that now is a part of the bad news. Most of this total will be passed along to the consumers in the cost of goods and services, in addition to that portion of the increase they pay directly.

This rate increase was suggested originally as a means of reducing the annual post office department deficit. It would bring in $600 million and would help balance the budget. When Jack and his crew had completed the job the bill provded not only for these postage rate increases but also for pay increases amounting to more than a billion dollars.

The net result is that our government is now an additional half-billion worse off than it was before.

There is nothing new or refreshing about this number of the New Frontier show. This is old stuff. The name may be new but the odor is still the same.

Three Amendments

Voters will pass judgement on three proposed constitutional amendments in the coming election. The three proposals have been explained by the Attorney General. All three of the proposals have merit. They also have shortcomings.

No. 1 has to do with the investment of trust funds and the distribution of earnings. If approved, this amendment would permit the state investment board to invest permanent school funds in securities that might bring a better return. At present they can be invested only in government bonds and certain mortgages and municipal securities which generally yield a low rate of interest. There probably would be more earnings but less security.

That could be bad. As Emerson once observed, "A security that pays six per cent interest is two per cent insecure."

This amendment would also transfer the swamp land fund to the permanent school fund, taking from our institutions the earnings of the swamp land fund and making them available for schools. This would mean that additional taxes would have to be levied to support the institutions. We think No. 1 should be killed.

No. 2 would remove the state's debt limit. The present limit is ridiculously low and it should be increased to a realistic figure. For many years the limit has been ignored. The Supreme Court however has ruled that the limit is a barrier to borrowing that must be respected. No new state debentures can be issued until the limit has been boosted.

We don't like the proposed remedy because it would remove the limit entirely, and we like the idea of a limitation that would cause some embarassment for the spenders. Our state debt is down substantially because the Legislature in its last session could not authorize more borrowing. Two more years of that restraint probably would be in the best interests of the state. Two years from now we will be glad to support a limit-raising amendment. We like a debt limit and a gradual return to a pay-as-you-go plan for necessary improvements.

No. 3 would extend the length of a regular legislative session from ninety days to 120. Our guess is that the 120-day limit will not put an end to clock-covering. From our observation ninety working days would provide plenty of time for a normal legislative session providing the legislators would work the ninety days. But we would string along with the 120-day limit providing we had some assurance that the longer session would not be used as an excuse for another pay boost.

That takes care of the three amendments. All three of them probably will pass.

Unfinished Business

Directors of the state's vocational school program have notified us that they are not satisfied with the way our school district is operating its vocational department. Their concern is understandable. Their letters are unpleasant reminders that as a community we have some important unfinished business to dispose of.

In our school expansion program that was completed in 1957 we provided facilities for the Area Vocational School. This department has grown beyond expectations and the space provided five years ago would not be adequate at the present time. That growth accounts for some of the overflow *into rented quarters. Most of the overflow,* however, is due to encroachment by the high school.

A proposed solution for this problem was submitted to the voters of the school district and was rejected. In three elections the voters expressed their disapproval of the building program that had been submitted. Most of the opposition, we believe, was based on a question of need. The plan was too elaborate and more costly than was necessary. There were other objections, one of them being the question of location.

Now the vocational school problem is before us, which means that the overall question of school facilities will be up for reconsideration.

When this matter was laid on the shelf after the last election, it was generally recognized that the issue had not been permanently disposed of. Now it is back with us again, a little earlier, perhaps, than was expected.

We are satisfied that the people of our community are just as concerned about education as are the people of any other community. As a community we are not rich. We cannot afford frills, but we are sure our people will sacrifice for what is necessary. Their opposition to the expansion program as recommended was due to a doubt as to need. The proponents of that program failed to convince the majority that all of the things they asked for were necessary.

It should be possible to discuss the questions on need without creating bitterness in the community. The question of a new location for the high school has never been submitted to the voters and there is no good reason why such a proposal should not be thoroughly discussed.

So let's start from scratch and see how close we can come to agreeing as to what are the important issues and what are the facts behind these issues. We are sure that with a better understanding of the issues and the facts it will be possible to work out satisfactory solutions for our community problems.

We know that as a community we have an important decision to make shortly on our vocational school. This issue is now clearly defined. There is need for more general knowledge on the facts.

Rah Rah Candidate

(Christian Science Monitor)

President Kennedy out campaigning is "often sloganeering, oversimplifying in tough campaign style," says a Washington report to this newspaper. "His tough-minded political advisers must believe that it will work."

Richard Nixon, says another report from California in the same edition, "is waging a campaign that one Republican here describes as 'a little like total war.'" This is said to be "a strategy justified as long as it maintains an offensive."

Sounds rough. Maybe there ought to be a political campaigner's uniform, like those on the gridiron with helmet, face guard, and sundry bulges to make the contender look handsomely fearsome, able to take it, able to dish it out. Americans like their games rugged, hit and rah style.

What is in combat, though? Words or ideas? National policy takes a little explaining these days. It's not just a matter of hurling slogans. Are we playing the right game?

Rising wages and prices in most industrial nations thruout the world are helpful to our industries in their struggle to remain competitive in world trade. If we would just hold the line here at home until the foreigners get their costs up to about where ours are, we would be in a strong position again and our unemployment problem for the time being, would vanish.

RE-ELECT
RICHARD FITZSIMONS
State Representative
67th District, Marshall County

SENIORITY and EXPERIENCE will play a more important part in the coming session of the State Legislature than it has for over a quarter of a century.

Reapportionment of the State Legislature, starting with the coming session, means rural Minnesota will have a much smaller voice in the State Legislature.

During the last session of the Legislature I was given the following Committee assignments. The majority of the legislation of special interest to Marshall County was referred to these Committees. I had the opportunity to effectively deal with the requests of the people in our county.

● Appropriations
● Game and Fish
● Veterans and Military Affairs
● Cooperatives and Marketing
● Towns and Counties

Besides these standing committee assignments I was a member of the sub-committee of Education on the Appropriations Committee. The finances for all Education in Minnesota, from Elementary Education through State Colleges and the University must be approved by this Committee.

I feel that my seniority gained through serving you five terms as your State Representative can benefit Marshall County even more in the coming session. SENIORITY and EXPERIENCE go a long way in getting the Committee asignments so beneficial for getting the job done for the district a member represents.

Re-Elect Richard Fitzsimons, State Representative

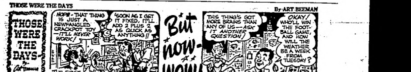
THOSE WERE THE DAYS

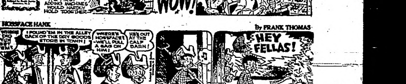
By ART BEEMAN



THOSE WERE THE DAYS
HOPE—THAT THING IS JUST A NEWFANGLED CRACKPOT TOY —IT'LL NEVER WORK!
'SOON AS I GET IT FIXED, IT'LL ADD 2 PLUS 2 AS QUICK AS ANYTHING!!
THE FIRST ADDING MACHINES WOULD HARDLY HOLD TOGETHER
But now—WOW!
THIS THING'S GOT MORE BRAINS THAN ANY OF US—ASK IT ANOTHER QUESTION!
OKAY! WHO'LL WIN THE FOOT-BALL GAME, AND HOW WILL THE WEATHER BE A WEEK FROM TUESDAY?

HOSSFACE HANK

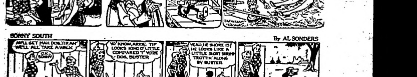
By FRANK THOMAS



WHERE DID YUH GET 'EM?
I FOUND 'EM IN THE ALLEY BACK OF THE DRY GOODS STORE IN TOWN!
WHERE'S HOSSFACE? —WE'LL PULL A GAG ON HIM!
HE'S OUT AT THE CALF BARN!
HEY FELLAS!

SONNY SOUTH

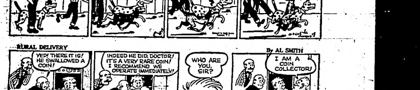
By AL SONDERS



AH'LL GET MAH DOG, TIP, AN' WE'LL ALL TAKE A WALK
O.K., SONNY
YO' KNOW, ARKIE, TIP LOOKS KIND O' LITTLE COMPARED T' YO'RE DOG, BUSTER
YEAH, HE SHORE IS! HE LOOKS LIKE A LITTLE SHORT SHRIMP TROTTIN' ALONG BY BUSTER

RURAL DELIVERY

By AL SMITH



YEP! THERE IT IS! HE SWALLOWED A COIN!
INDEED HE DID, DOCTOR! IT'S A VERY RARE COIN! I RECOMMEND WE OPERATE IMMEDIATELY!
WHO ARE YOU, SIR?
I AM A COIN COLLECTOR!

Natural Resources Council Discusses Future of Forestry

Second in a series

By Henry T. McKnight, Chairman, Minnesota Natural Resources Council

Although Minnesota's forest products industry is clipping along at about $250 million annual income—about the same as the heyday at the turn of the century—the untapped potential actually reaches 'Paul Bunyan' proportions.

The forests task force of Gov. Andersen's Minnesota Natural Resources Council recently completed a searching analysis of Minnesota's forestry problems and potentials.

The depth and soundness of the forestry study is due in large part to abilities of the men who devoted themselves to the job. The task force was headed by Raymond J. Wood, Duluth, chief corporate forester, Diamond National Corp. Members were: John H. Allison, professor, emeritus, University School of Forestry; Frank H. Kaufert, director, School of Forestry; Lawrence P. Neff, supervisor, Superior National Forest.

The Council report pinpoints three major problems which plague the State's forest products industry: "Limited availability of lands for commercial use, the slow rate of reforestation with marketable conifers, and an overproduction of low-grade hardwoods."

The report goes on, however, to outline a positive program for overcoming these problems and boosting Minnesota's forest income by at least $100 million a year. Right now, our forest resources give full or part-time employment to some 30,000 people; with the hoped-for increase in income would come a corresponding increase in jobs. This could be a potential "shot in the arm," particularly for the 16 Northeastern counties which contain about 50 per cent of the State's forest area.

What needs to be done? The forests task force urges a stepped-up research effort in forest management and products. And, in keeping with the latest trends toward multiple use, they recommend that this research be aimed at increasing productivity not only of timber, but of wildlife, water and recreation, as well.

Specifically, the report names these subjects as in need of increased research attention: New products — to develop use for little-used but plentiful woods such as aspen, birch and elm; forest management — to make forest lands more productive; tree diseases and insects — to control present and threatened epidemics. Because State and other public agencies own and manage 56 per cent of Minnesota's forest lands, the State is urged to provide the University with $220,000 per year of additional funds for these specific research programs.

Lagging reforestation, another problem area, presents a picture of some rather startling statistics. As the report states, "About 25 per cent of Minnesota's commercial forest area is non-stocked, while another 10 per cent is poorly stocked. To be made productive, this land, totaling about five million acres, should be reforested with conifers."

Since the biggest reforestation problem is on the State's abundant swamplands, the Council urges special attention to this area. In addition, 80,000 acres of upland areas should be reforested by 1973 by the State Department of Conservation.

The task force also assigned itself specifically to the question, "How can we encourage this (paper and pulp industry) and other forest products industries to expand present operations and utilize more of Minnesota's abundant hardwoods — aspen, birch, elm, etc.?"

Task force answers to this question were: Release 330,000 additional acres of State and county forest land for purchase; reduce "tree growth" tax rate from 30 per cent to 20 per cent; provide State assistance to local taxing units through 10-cent-per-acre grant-in-aid; give forest owners greater opportunity to appeal adverse tax law decisions; give forest industries advantage of same personal property tax ratio of assessed value to "full and true" value as now authorized for agricultural equipment and inventories.

Other highlights of the forests task force report included recommendations on forest access roads, up-to-date forest inventories, and increased assistance to counties on their forest management problems.

LP Gas Industry Notes 50th Year Week of Oct. 21st

Governor Elmer L. Andersen officially proclaimed the week of October 21-27 as "Minnesota LP-Gas 50th Anniversary Week" for public recognition of the liquefied petroleum gas industry's contribution to the state's economy.

In signing the proclamation, the governor commended the LP gas industry for providing better living for Minnesota people on farms, in small towns and in suburban communities.

Present at the proclamation ceremony was a delegation of industry leaders from the Minnesota LP Gas Association. They included, D. A. Larson, President of the Minnesota LP Gas Association Waldo Hoaglund, vice president, Mankato and Dean D. Nolt, executive secretary.

Minnesota LP Gas 50th Anniversary Week will coincide with the annual Fall Convention of the Minnesota LP Gas Association to be held in Minneapolis on October 22 and 23.

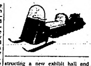
Sno-Traveler Merits To Be Shown on Coast To Coast Television



A Minnesota-made snow vehicle that last winter probed through the vast Antarctic wastes in all degrees of weather will be featured this week on a coast-to-coast television documentary program. The "Sno-Traveler," manufactured by Polaris Industries of Roseau will receive national recognition on a new ABC-TV series, "Discovery '62", Friday, October 19, 4:30 p.m.

Friday's program will describe man's efforts to conquer the Antartic from the earliest dog-sled explorations to last winter's U.S. Antarctic research program. Dr. C. W. Swinthinbank, University of Michigan glaciologist who headed the U.S. Antarctic program last winter, used a "Sno-Traveler" for the five months he was there.

The vehicle is one of 14 models from the unique Polaris line, including models for sportsmen, ski slopes, commercial trappers, public utility linemen and others. Best described as half sled, half tractor, the "Sno-Traveler" used in the Antarctic was powered by a 9.5 artic-tested engine and could attain speeds up to 25 mph. The vehicle glides over the snow on heavy duty ski runners, trailing a V-type hull.

The model that will be seen on the telecast traveled about 800 miles over all kinds of snow surfaces in Antarctica. It hauled loads up to 2,000 lbs. on 2 flexible sleds towed behind. The supplies included food and equipment enough to last two men a month, and fuel for 200 miles.

Because of the many hidden fissures and cracks in the Antarctic snowscape, the men did not ride the Sno-Traveler, but trailed alongside on skies, steering the vehicle by ropes attached to the cab. In this way, if the Sno-Traveler had suddenly plunged headlong into an unseen fissure, the men could have escaped.

As it was, there were no unfortunate incidents, and so successful was the "Sno-Traveler's" performance that 13 more were shipped this fall to Antarctica where they will be put to use in this year's research work, beginning this month.

U.S. Education Assn. May Meet in Mill City in 1967

The National Education association will hold it 1967 convention in Minneapolis — provided the city lives up to its promises — July 2-7.

The decision was reached at a meeting of the NEA board of directors in Washington, D. C.

R. E. Carpenter, NEA assistant executive secretary for business management, advised in a letter to Julius L. Perlt, Minneapolis convention bureau manager, that the board's decision is "subject to review in October of 1964 of the extent to which the city has maintained its time schedule for constructing a new exhibit hall and for renovating the present auditorium, including air-conditioning throughout."

Navy Sets ROTC Exams December 8

Applications Are Due Not Later Than Nov. 16

VAdm. W. R. Smedberg, chief of naval personnel, announced today that the 17th annual national competitive examination for the regular naval reserve officers training corps will be given to eligible high school seniors and graduates on December 8. Application forms are now available and must be mailed by November 16.

Designed to supplement the officer output of the Naval Academy, the NROTC program makes it possible for a young man to earn a regular commission while studying at the civilian college of his choice which has an NROTC Unit. All tuition, fees and books are furnished by the Navy, and the student receives an annual retainer of $600 for not more than four years. During the summers the student goes on interesting training cruises as a midshipman.

After successfully completing the usual four year college course, he is commissioned in the Regular Navy or Marine Corps and goes on active duty as a prospective career officer with the Navy's modern fleets. Immediate challenging assignments to flight training or submarine training will offer varied career potential to those who apply and qualify.

High school seniors and graduates who have reached the 17th anniversary of birth and have not reached the 21st anniversary of birth on June 30, 1963 may apply for the test.

Application forms are available at high schools, and Navy Recruiting stations.

Last week I over looked the results of the drawing. Mrs. Oliver Jevne was absent. These people were also absent, Alvin Erickson, Ida Blaze, Vance Lefrooth, Ralph Hahn, Daryl Henrickson and Mrs. Melvin Brekke. Victor Blackberg and John Taylor each received $5 coupons.

This week Alvin Erickson was absent again when he was called for $15. Mrs. Peter Mauer and Mrs. Nels K. Nelson each received the $5.

This week I received an interesting bit of news from Illinois. It seems that Miss Inga Boen, a former resident of our community stole a march on her many friends and relatives when she was joined in the holy bonds of wedlock to Mr. John Liane of Minneapolis in July. Saturday evening Sept. 27, Mr. and Mrs. Leonard Carl of Milwaukee were host and hostess for a dinner party in honor of Mr. and Mrs. John Liane, who were leaving for Minneapolis to make their home. Those present were Mr. and Mrs. Wallace Olson and Bobby from Waukegan, Ill., Mr. and Mrs. Lloyd Lindstrom and Mr. and Mrs. Harvey Carlson from New Lennox, Ill., Mr. and Mrs. Jack Grossman and family, Mr. and Mrs. Dick Traurlcki, Mr. and Mrs. Stanley Boen, Mr. and Mrs. Axel Lindquist, Mr. and Mrs. Elmer Nygren and daughters, all from Milwaukee, Wisc., Mr. Liane is a former Stephen man and we wish the newly weds many blessings.

Mr. Harvey Carlson has no idle time on his hands as now he is Cub Scout master for 120 cub scouts which meet three or four times a month. We enjoy hearing of the activities of our local people do when they spread their wings.

Barry and Randy Henrickson were weekend guests of their grandparents, Mr. and Mrs. Otto Paulson while their parents, the Alton Henricksons, went to Kettle River and also visited with his aunt.

Mr. and Mrs. Lester Paulson and family of Callaway were Sunday visitors at the Otto Paulson home.

"LET'S TALK TURKEY!"
Our Store is so full of mdse. that we're pushing the "Panic Button!"
VIC KALINOSKI
We're up to our necks in trouble!
Business has been really slow at our store the past few weeks, but the fall shipments of new merchandise have not slowed down. In fact, our store is so jammed that there is hardly room for customers, and that's a real problem. Besides, we have to pay immediately for these incoming shipments, and are desperate for business.
So, during Town and Country Days, we're making discounts that we didn't plan to do . . . slashing prices below cost on many items, just to get the merchandise out of our store. I personally guarantee you the best values in our history. In fact, we're writing this column just to give you some idea of the kind of bargains that are waiting for you.
Christmas is coming sooner than you think. In fact, we have already received a big stock of TOYS. Frankly, we have no place to store them, and can't afford to rent warehouse space. WE ARE GIVING HUGE DISCOUNTS ON THESE TOYS. You can even buy on our lay-away plan, but we'd prefer if you'd take them and hide them in your attic. The selection is great right now and our only reason for these extra discounts is to cut down on your storage problem.
Another holiday coming very soon is Thanksgiving, and, we have a sensational value on roasters. Here is a Blue Enamel Roaster that holds up to a six pound fowl or a 10-lb. roast. We sell it regularly for $1.59. Our Town & Country Days Special price is only 99c.
ROASTWELL
It's hunting time around this area, and although the bag limits are causing some hunters to complain, there's no complaints about a cup of hot coffee on those chilly fall days. We're featuring an ACE VACUUM BOTTLE by Thermos. It's guaranteed to keep coffee piping hot all day. It should sell for $2.79, but we're making it a red hot special at $1.99.
For the gals who stay at home while the hunters are away, we're featuring an IRONING BOARD COVER that fits all boards. It has a draw-string for perfect fit. Regularly 79c, you can buy it for 47c.
Here's the kind of buys that has made us famous in Thief River Falls. We're selling WHITE CANVAS WORK GLOVES for only 17c a pair. Sorry . . . we must limit each customer to two pair, or we'll go broke too fast. This offer good this week only.
Last fall, we offered 12" x 18" COOKIE SHEETS for 44c, and we sold two gross in a hurry. We're repeating this fast-seller again, and the price is still an amazingly low 44c.
It's Fix-Up time around our house, and probably around yours. It's smart to WINTERIZE for cold days ahead. We're surprised that a lot of people don't realize that we carry window-glass, and we'll cut it to any size . . FREE! All you pay for is the glass. Of course, we have all the other winterizing items . . putty, caulking compound, putty knives . . . you name it, we've got it, and OUR PRICE IS RIGHT!
Another HOT item! We know that the heating season is here, and you want your furnace to be really efficient. So, here's a BARGAIN on FURNACE FILTERS. We stock all the popular sizes, and you'll find them for as low as 51c on most popular sizes in 1-inch (in lots of 6) while 432 last.
A flashlight is a mighty handy item for these dark long days. During Town & Country Days, we're featuring a 2-cell Flashlight in chrome finish for only 44c. If you need batteries, we have the famous Eveready "D" size batteries at TWO FOR TWO-BITS! Limit 4 per customer.
And, on these long evenings and week-ends at home, a lot of "do-it-yourself" work is being completed. We're all thumbs, and not too handy, but we have many customers who save money by getting their plumbing requirements from us.
You can buy a 21"x32" STAINLESS STEEL SINK, with double compartment, for only $29.99. We only have 17, so don't wait too long.
Another terrific buy is a THREE-PIECE BATHROOM SET, including lavatory, closet and tub. It's yours for only $99! We do quite a volume in plumbing and buy in truckload lots to get rock-bottom prices. See us for the best buy in town on soil pipe, copper pipe, etc.
Here's our proof of carload savings: 4-inch Soil Pipe for only 99c a foot, and ½" Copper Pipe for 18c a foot, in 20-ft. lengths. WOW!
Before we forget, you're invited to register at our store this week-end for those 75 turkeys that will be given away. You could be one of the lucky winners, and enjoy your Thanksgiving Dinner with a great big broad-breasted birds.
We're running out of space, but not out of bargains. You probably know that we carry the nationally famous line of Armstrong Floor Covering. At the present time, we have 13 patterns of 12-foot wide linoleum. Our Vinyl "Budgetone" is on sale as low as $1.39 a lineal foot. And, six-foot wide inlaid linoleum is going to sell like hotcakes at $1.49 a lineal foot. If you can't make up your mind, take a look at our RACK OF 97 SAMPLE PATTERNS. These are 2-foot square samples, and are perfect to take home and see how your new floors could really look.
ALTHOUGH we've been complaining about too little business and too much inventory, we sure can't complain about our electrical supply business. In fact, it has really increased during the past year, and it must be because our prices are so low. Right now, we'll sell you 14-2 UF with ground at 4½c a foot in coil lots, and 12-2 UF with ground for only 6c a foot in coil lots. It's and electrifying value!
We have a 1000 and 1 other items that we should tell you about, but we don't have the space. I guarantee you that everything in our store is at sale prices this week, and are the best buys in the whole Red River Valley.
Thanks for reading our column . . . now come in to our store, and see the bargains in person.

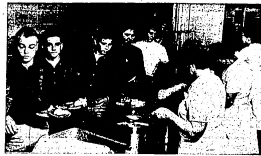
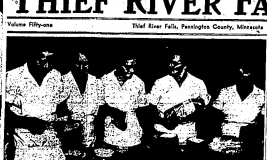
FOOD SECTION Pages 1 thru 8
THIEF RIVER FALLS TIMES
Volume Fifty-one Thief River Falls, Pennington County, Minnesota Thursday, October 18, 1962 Number Eighty-four



SERVING is done in rapid procession at school cafeterias in Thief River Falls as the program is run on a rigid schedule. Here the serving is wieners and sauerkraut with Mrs. Sylvia Torkelson, cook in the foreground, doling out wieners with one hand and apple sauce with the other as the line of students files past. About 1,100 students are fed each day at city schools through the hot lunch program. This week is being observed as Hot Lunch Week across the nation.



"MANY HANDS make light work" is a time-honored saying which may well benefit this phase of the hot lunch program at Lincoln high schol. Shown preparing the day's supply of buttered bread for hungry students are the following, left to right, Mrs. Myrtle Hamberg, Mrs. Hazel Bakken, Mrs. Judy Melvie and Mrs. Sylvia Torkelson, cooks, and Mrs. Clarabelle Cloutier, supervisor. Graciously ignored by the ladies when this picture was taken was a comment by an observer on another old saying—something about "Too many cooks . . ."

Food for Thought . . . .

School Lunch Program Feeds 1,100 Each Day

by Flora Allison
Times Society Reporter

Take a hungry student, multiply his food wants and requirements by 1,100, figure a food budget of $220 plus what you can get for nothing, and you have an idea of the problem faced by Thief River Falls school cooks every day. Multiply this by 175 school days and the conclusion that this is a big business will certainly be the right answer.

Last year the district served a total of 191,938 meals plus 243,458 bottles of milk. Sale of lunches totaled $49,802 and $16,978 was received in state aid. Food costs totaled $40,816 and labor costs totaled $15,297. December was the top month with an average of 1,190 meals served each day while May was the only month in which under 1,000 meals were served with a figure of 917.

To acquaint the public with the magnitude and scope of this undertaking, and to pay tribute to those who take part in making it operational and successful, the government has set aside this week as "School Lunch Week." Governor Elmer L. Andersen, in the state proclamation, declares, "We should pay tribute to all citizens who participate in the school lunch program, in providing the daily noon meal for our youth," and urges all citizens "to become aware of the community effort which is continued each day by our local citizens of our state for our children—"

In charge of menu-planning, purchasing and requisitioning on the local level is Mrs. Clarabelle Cloutier. Compounding her headaches over trying to please the students is the fact that she must produce, for 20 cents, a hot lunch menu which supplies a child with one-third his daily food requirements, and includes vitamin C, the vitamin which cannot be stored by the body and must be supplied daily.

"That's the worst problem," she said. "The children seem to resist the very foods richest in that vitamin, such as spinach, cabbage salad and sauer kraut. So we give them lots of foods containing tomatoes, such as chili, hot dishes and barbecued hamburgers.—The lunch is supposed to be both well-balanced and attractive. They eat with their eyes, you might say."

Favorites are barbecues, turkey, chicken, and potatoes.

At the high school, they have no way of knowing how many children will be eating at school on any one particular day. It is a difficult task to make just enough food, so tht there will be enough but not any left over. Food that can be safely stored may be kept over for another meal, but the rest must be thrown out.

"It's a shame to waste good food, but the rule is made to keep us from purposely preparing too much, in order to be able to take some home," Mrs. Cloutier explained. None of the commodities can be sold or given away.

Many of the supplies are purchased locally; some are supplied by the U. S. Department of Agriculture. The latter include butter, flour, dried milk, peanut butter, raisins, dried eggs, rice, canned fruit, butter and cheese. Bread, of which about 90 loaves are used daily, is purchased on a competitive basis, the contract for the year going to the lowest bidder. Much of the remaining food is secured from the wholesale house here, and the balance from the stores.

Government Help

The government supplies most of the ground beef, chicken and turkey, but the remainder of the foodstuffs must be purchased outright, such as sugar, fresh vegtables, canned goods and bread. Commodities are brought in to the high school nd distributed from there. The wholesale house and the stores deliver their orders.

"If the student does not drink milk with his lunch, we get no reimbursement from the state for that lunch," Mrs. Cloutier said. "If he does take milk, we receive seven-tenths of a cent from the government toward that meal." About 90 per cent of the students drink milk daily, she reported.

There is a lot of paper-work involved in the job. Mrs. Cloutier is required to make monthly reports

Halloween Goblins Warned to Avoid Traffic Troubles

Highway Department Also Cites Stiff Penalty for Removing Highway Signs

The Minnesota highway department issued a warning to "Halloween Goblins" that vandalism is not looked upon by the highway department as an appropriate activity for Halloween or at any other time.

While vandalism is becoming less of a problem on Halloween, it is still a matter of concern to highway signing and marking officials and to traffic law enforcement authorities.

Defacing of stop signs, removing of highway signs, throwing objects at passing vehicles, and placing of tree limbs, fences or other objects in roadways to obstruct motor vehicles are unlawful offenses which can cause unwary motorists anxiety and even accidents, and also trouble for those who commit the offenses, the department reminded.

The department's warning also pointed out another danger—that of youngsters parading neighborhoods in costumes for the game of "trick or treats," or just entering into the fun of dress-up for Halloween.

Children dressed like witches, goblins, elves or minstrels are inclined to become so absorbed in holiday excitement that they temporarily forget safe-walking rules. Both parents and motorists must be on guard for the little ones who do not always think for themselves.

Educators Form Group to Support Rep. Odin Langen

Faculty members of Concordia college and Moorhead State college, Moorhead, have formed a combined committee to work for the re-election of Odin Langen, United States representative from the Minnesota Seventh district.

Langen is opposed in his bid for re-election by Harding Noblitt, Concordia college professor.

Naming themselves the "Educators for Langen Committee," the two groups will actively support Langen's campaign for return to Washington.

Heading up the Educators for Langen committee, is Professor R. E. Fuglestad of the Concordia biology department. Faculty committee members number 21 from Concordia and ten from Moorhead State.

In the 1850's, steamship passage from Ireland to America could be purchased for as little as 10 dollars, according to Collier's Encyclopedia.

ANDREW SKAAR
State Representative
Agriculture, the groing, processing and retailing of its products is the NUMBER ONE BUSINESS of Pennington and Red Lake Counties.
Andrew Skaar has a background as one of the leaders of agriculture in this area.
He has demonstrated the ability to take the lead in a progressive approach in making this business of agriculture a more profitable business for all of us.
We know that as your State Representative Andy Skaar will take the lead in the State Legislature as a spokesman for our biggest business.
ANDY SKAAR Believes in this:
* More emphasis on agricultural research for farm products adapted to our area.
* More emphasis in the Department of Business Development for more rapid development of agricultural business in our area.
* Much more emphasis on our natural advantages for agricultural development — Abundant water resources, available land for young farm families, opportunity for diversity of our farm economy and available labor for a much expanded processing industry.
* His wide acquaintance with leaders in the field of Agriculture and Business in the Red River Valey will serve this district well.

NO PLACE LIKE HOME

Just for a moment, close your eyes and picture the scene in your childhood home that you liked best. Was it the music box in the front room, the grandfather clock, the large, fragrant kitchen? Whatever you are thinking of, your memory is a treasure chest of things you hold dear.

Let your mind wander further. *You will remember not only loving scenes and favorite objects, but family and friends, their ways, their thoughts, their talk. God and His goodness were mentioned often. Prayer was a common practice. There was faith and trust and a feeling of security.*

Sunday was a special day, and all activities were centered around the church and the home.

Come back to the present a moment. The Church was home to you then! It can be your home now; a place of worship where the heart remembers and rejoices.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Report on Viking News of the Week

Mrs. Gordon Skjerven

The Zealites Circle will sponsor a white elephant sale at the town hall in Viking all day Friday, October 19th. Lunch will be sold throughout the day.

Special services with Pastor and Mrs. Mostad will begin at the Zion Lutheran church Sunday evening October 21st at 8 o'clock and continue throughout the week.

A cordial welcome is extended to everyone.

PTA Meeting

The Viking PTA met at the school Monday evening, October 8. Mrs. Sorenson as President, presided. The meeting was opened by everyone saying the pledge to the *flag and singing America*. Rev. Weltzen led in devotions. The secretary and treasurer decided that the busses would transport the children who wished to go in to Thief River Falls Friday for the oral polio Vacine. An octette from the Newfolden highschool rendered several numbers. The speaker of the evening was Dr. Herber of Thief River Falls, who spoke on cancer and also stressed the harm of cigarettes and their relation to the ever increasing number of lung cancer victims. He also showed a film on this which was all very interesting. Its too bad more people can't make an effort to turn out to see and hear these things. Mrs. Harold Sabo was the winner of the door prize. Lunch was served by Mr. Walstad, Mrs. Anderson, Miss Ness, Miss Melvie and Mr. Lunde.

Mr. and Mrs. Lewis Stokke drove to Fordville, N. D. Sunday and were visitors at the Henry Nash home.

Sunday afternoon visitors at the Lyle Stokke home were Mr. and Mrs. Clarence Tollefson and Nancy, Mr. and Mrs. John Jenson of East Grand Forks and Mr. and Mrs. Ronald Shern and Jeffrey.

Mr. and Mrs. Ole Anderson of Warren were Sunday afternoon visitors and luncheon guests of Mr. and Mrs. Emil Beckman.

Mr. and Mrs. Alton Sackett were luncheon guests at the Charles Sackett home in TRF Wednesday evening in honor of their grandson Maynard Peters, who is home on furlough. The orville Peters family were also guests.

Mrs. Henry Rud was a Sunday afternoon visitor and supper guest at the Oscar J. Johnson home in TRF.

Mrs. Arne Samuelson, Mrs. Tom Yutzrenka, Mrs. Bentley Paulson and Kathy accompanied Sandra Saranen, home agent, from Warren last Monday and attended a party for the officers and councilors of the East Marshall homemakers club held at the Eddie Anderson home of rural TRF. A business meeting and election of officers was conducted, after this a nice luncheon and time of visiting was enjoyed by all present.

Sunday afternoon visitors at the Halward Anderson home were Mr. and Mrs. Lowell Gustafson and boys of Warren, Mr. and Mrs. Art Anderson and Gail, of TRF, Mr. and Mrs. Arthur Rud and family of Newfolden, Mr. and Mrs. Harvey Engen and Mrs. Morris Halvorson.

Mr. and Mrs. Torkel Forland of Newfolden visited with the Alfred Ranum's Sunday evening.

Sunday afternoon guests at the Maynard Ranum home helping Philip celebrate his first birthday were Mr. and Mrs. Bill Grundhouse and girls of TRF, Sam Ranum and Mr. and Mrs. Lloyd Ranum and family.

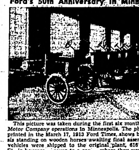
Ford's 50th Anniversary In Minneapolis



This picture was taken during the first six months of Ford Motor Company operations in Minneapolis. The photograph, printed in the March 17, 1913 Ford Times, shows bare chassis standing on wooden horses awaiting final assembly. The vehicles were shipped to the original plant, 616 S. Third St., in boxcars — seven to a car — where they were put together. Oldtimers still living in the area say they were able to assemble seven to ten of these Model T's a day.

Nova 4-Door Station Wagon

SPUNKY NEW WAGONS THAT LEAD LONGER, HAPPIER LIVES

What a new kick you'll get out of going places in this one! And what a solvent feeling you'll get as the savings on upkeep mount! There's a full line of models, including three wagons. Basically, we've kept Chevy II's liveliness and roominess and easy loading ways. Kept its crisp looks, too (with a bit of freshening here and there). The changes we've made weren't for change's sake, you see—but for yours. Just for a sample: the brakes are self-adjusting. The new Delcotron generator gives you more electrical reserve power and helps your battery reach a vigorous old age. The Body by Fisher beauty lasts longer, too; air pushes rain and wash water down through the rocker panels (where most rust begins!) in a clever new flush-and-dry system. The ride is smoother and quieter because of a large number of small improvements we've made. And things are a lot plushier inside. Now you've read this far, haven't you? Isn't that good evidence that Chevy II is made for you? The clincher will come when you take the wheel at your Chevrolet dealer's.

The importance of agriculture on the rural community economy and way of life is something that almost everyone is aware of. Therefore, it is only proper that from time to time we hold activities such as the upcoming Town and Country Days that is being sponsored this Thursday, Friday and Saturday.

Northwest Town and Country Days involves a host of activities. The Top of the Nation Dairy Sale promises to be bigger and better than ever next Thursday at the fairgrounds. Princess Kay will visit the sale at 1 p. m. as an added attraction. Soil samples will be collected to be analyzed near the postoffice Thursday, Friday and Saturday. A Northwest Minnesota Industrial Show will be held at the auditorium all three days for viewing by everyone interested

On Friday, Princess Kay will visit the banks and supermarkets who are sponsoring a Dairy Food Festival. On Friday evening there will be a Northwest Livestock Clinic at the Thief River Auction Mart at 8 p. m. for farmers interested in outlook in livestock. On Friday and Saturday at the City Arena there will be held a Northwest Auto Show at which the 1963 models will all be on display and at which a car filled with groceries will be given away absolutely free. Also, all three days will be labeled as free registration days for turkeys being given away by participating retailers downtown.

Perhaps the climax to the three days will be the free turkey barbecue being planned for Saturday, October 20. Hatcheries, processing plants, feed dealers, turkey insurance underwriters and banks will sponsor the barbecue located south of the city arena and they expect 5,000 people to take part in the feed. Everyone is welcome and there is absolutely no charge. Come on in and take part and enjoy it.

We should all keep in mind that nothing in our community can be any more successful than the people let it be. That applies to everything including Northwest Town and Country Days. You can make it successful by taking part in any or all of it as you see fit. We're building a barbecue pit one hundred feet long and it should hold a pile of turkeys. Whatever you do, come on down anytime after 11 a. m. on Saturday and have some turkey. You'll be glad that you did.

You'll be glad you did too, when you Shop and Trade Where Bargains Are Made— Here in the Heart of Northwest Minnesota, Thief River Falls.

Reiner News

Mrs. Morris Miller

Sympathy is extended to the James Coan family in the loss of their 5-month old daughter, Connie Kaye, who passed away on Friday morning at the University hospital where she has been receiving medical aid for several months. Mrs. Coan had spent the past two weeks there with her baby.

Many from here attended the wedding reception held for Mr. and Mrs. James Prigge (Sandra Sjulestad) on Saturday at the gym in Goodridge.

Mrs. Alma Miller was a Sunday overnight guest at the Edgar Miller home.

A "going away" party was held for Diane Sjulestad on Tuesday night at the Alvin Hyland home. Arelette Hyland served as hostess. Classmates who attended were, Sandra Mclean, Joyce Kriel, Marilyn Morken, Judy Miller, Rosemary Howard, Joanne Johnson, Mary Nornes, Marlys Johnson, Brenda Olson and Audrey Vad.

Mrs. Morris Miller spent Friday night at the Leon Iverson home in Thief River Falls.

Mr. and Mrs. Raymond Coan and boys spent the weekend at the John Coan home.

Yvonne Wells of Thief River Falls spent the weekend with her folks, the James Wells.

Those from here who attended the farewell party held for the Swen Sjulestad family on Thursday evening at the Erie church were, Mr. and Mrs. Edgar Miller, Mr. and Mrs. Morris Miller and Judy and Mr. and Mrs. James Wells and Rita.

Morris Miller and Mr. and Mrs. Edgar Miller, Marliw, Shirley and Jacky visited Thursday at the Leon Iverson home in Thief River Falls.

Mrs. Lawrence Buck and family left on Thursday for Bemidji where she will visit her parents and also enter her 2 year old son, Phillip in the hospital there. He will undergo surgrey on Tuesday morning.

We are sorry to hear Ray Wells is confined to an iron lung at the Northwest hospital.

Judy Miller attended the dedication services held Sunday in the Grace Lutheran church in Grygla.

Yard'n'Garden

Fall Pruning

Are you among the gardeners who enjoy spending the autumn weekends out of doors? One gardening chore you can take care of during an October weekend is to prune trees and shrubs.

Not all trees and shrubs should be pruned in fall, however. Evergreens, for example, should be pruned in the spring when signs of new growth are evident. Oaks should be pruned during January and February.

Summer-flowering shrubs may be given a light pruning this fall. Prune to improve the form of the shrub. It's important to remove dead or dying branches and branches which rub against each other.

Some of the shrubs that may be pruned now include dogwoods, hedge cotoneaster, winged euonymus, Snowhill hydrangea, ninebark, buckthorn, sumac, Rugosa rose and Froebel spirea.

Trees which may be pruned this fall are the maples, birch, ash, locust and elm.

Store Fruit and Vegetables for Winter

You can be assured of a fresh supply of some of your garden vegetables this winter if you store them properly. Keys to successful storage are keeping only well matured, good-quality vegetables and maintaining proper moisture and temperature conditions for each.

Not all vegetables need the same storage conditions. Squash and pumpkin, for instance, require a warm, dry atmosphere such as the furnace room. Before storing them, cure them at 75-80 degrees F. for several weeks to harden the shells.

Be sure onions are mature before harvesting them. Remove the tops and store them in shallow trays in a cool, dry storage room where the temperature is 32 to 36 degrees F. Or store them in mesh bags and hang them from the ceiling of the vegetable cellar.

It's best not to harvest your winter apples too early. Temperatures as low as 26 degrees will not injure apples on the tree. If they have a chance to ripen on the tree, they have better color and quality and keep much better. In storage they will keep well in perforated polyethylene bags at 32 to 40 degrees F.

Winter Protection for Ornamentals

Winter protection of landscape plantings includes protecting against rodent and mechanical damage as well as the factors of climate.

Actually, winter protection should begin when the border is planted. A shrub background will help break the wind and provide a snow catch. Snow is one of the best materials for winter protection.

A winter mulch will help to insulate the flower border against extremely cold temperatures. Marsh hay, straw, alfalfa hay, and dry leaves make good mulch materials. They will help control the soil temperatures next spring when the alternate freezing and thawing would damage plants.

After the soil has frozen slightly, apply the mulch to a depth of 8 to 10 inches. Do not pack it. Avoid using wet materials, since a wet mulch can cause severe damage by suffocating the plants. Plants are living and must have air.

Apply a rodent poison to prevent damage from mice.

If your trees and shrubs are likely to be attacked by rabbits, protect them with a cylinder of hardware screen. Push the cylinder into the soil about 2 inches to hold it in place. Smaller trees can be protected by wrapping the trunk and lower branches with aluminum foil. Rabbit repellents are also available for spraying trees and shrubs.

To kep lard from becoming rancid, shake a thin layer of salt in the botton of the jar into which it is poured.

BEAMING over the results after inspecting the large soup kettle in the Lincoln high school kitchen is Mrs. Clarabelle Cloutier, supervisor of the hot lunch program for Thief River Falls schools. The large kettle holds a vast quantity of soup, but Mrs. Cloutier states that another one is needed to keep up with the number of students served.

School Lunch Program Feeds 1,100 Each Day

to the state concerning the number of meals served, milk consumed, and other pertinent information.

The high school employs four cooks; the elementary schools have two each. The high school serves in four relays, beginning at 11 a. m. and continuing until about 1:15 p. m. Grade schools start at 11:30, continuing until all are served.

Government rules in regard to sanitation, food storage requirements and handling are very rigid. Butter and meat, for example, must be kept frozen until needed and at no higher than zero degrees. Strictest sanitation must be observed at all times.

Big Business

On the state level, 1,306 public schools participating in the school lunch program have an average daily attendance of about 560,000. One half of these pupils take advantage of the hot lunch program in Minnesota, which figure is well over the national average of one-third. The children paid a total of about $12,700,000 while the food bill paid by the schools totaled almost $10½ million. The schools paid over $5¼ million for labor, and incurred other expenses approximating over $1 million.

The state contributed $4 million while the federal government's share was somewhat over $1½ million in cash, plus donated government foods valued at slightly over $3¾ million. A total of 52½ million lunches were served in the state last year, with 108 million half-pints of whole pasteurized milk being served.

All that planning must amount to a lot of headaches. But with the health and well-being of our future citizens at stake, those who accomplish this vast undertaking must consider it very much worthwhile.

Examinations Set for Border Patrol

Applications for U.S. Job Due by December 14

A new examination for immigration patrol inspector has been announced by the U. S. civil service commission for filling positions paying $5,355 a year with the immigration and naturalization service of the U. S. department of justice.

These positions offer young men interested in immigration law enforcement, an opportunity to begin a career in such work with on-the-job training for positions of greater responsibility. As immigration patrol inspectors, they patrol areas along international boundaries in search of aliens who have entered or are attempting to enter the United States unlawfully.

No experience is required for these positions. To qualify, applicants must pass a writen test of verbal abilities, judgement, and aptitude for learning a foreign language; those who pass the test will be interviewed to determine if they have the personal qualities needed for the work. Since the duties are arduous, applicants must be in sound physical condition. They must be at least 68 inches tall, weigh at least 140 pounds, and have reached their 21st birthday at the time of appointment.

The closing date for receipt of applications is December 14. Full information is given in Announcement No. 289B which may be obtained, with application cards, from Clarence C. Knudsen at the Thief River Falls post office.

COUPLE Pastor and Mrs. Leonard C. Masted, Mound, Minn. will conduct services in the Zion Lutheran church in Viking October 20 through 26. The opening service is scheduled for Sunday at 11:00 A.M. and services will continue at 8:00 P.M. through Friday. Mrs. Masted comes qualified to conduct services for the children in the church parlors at the same time that there are services for the adults in the church proper.

Common Market Is Meeting Topic at Newfolden Monday

Dr. Pickrel of 'U' of M. Extension Service Will Speak at School at 8 p.m.

What is the European Common Market? What does it mean? What effect will it have for American Agriculture?

These are some of the questions that will be discussed at a special meeting on Monday, October 22, at 8 p.m. at the Newfolden School.

Dr. Luther Pickrel, extension economist in public affairs at the University of Minnesota, will explain the workings of the Common Market and what future developments could mean to American farmers.

Dr. Pickrel is well versed in the area of public affairs and has recently been in charge of the Pakistan Peace Corps training that has been conducted at the University of Minnesota.

The October 22 meeting should be of special interest to farmers of this area. What, feed grains, poultry are products that will be affected by the export-import regulations of the Common Market.

The meeting is open to the public and is sponsored by the Marshall county extension home program.

HIGHEST selling cow at the Top of the Nation Dairy Sale Thursday in Thief River Falls was this grade Holstein consigned by Darrow Lundeen of Trail. It was the first year a cow from the Lundeen herd had been sold at the event. Purchaser of the cow for $420 was Mark Bruggeman of Thief River Falls, shown with Lundeen at the extreme right. A heifer calf sold with the cow for $75, making the consignment total $495. Bruggeman is the son of Mr. and Mrs. Donovan Bruggeman and a member of the City View 4-H club.

"Right Kind of Kine"

Cattle Average $357 At Dairy Sale Thurs.

Showing faith in the future of dairying and recognizing that profit comes from production, two Pennington county 4-H club members purchased the top-selling cow and yearling at the Top of the Nation Dairy Sale Thursday. The fourth annual event was held at the livestock pavilion on the Pennington county fairgrounds in Thief River Falls.

Mark Bruggeman, member of the City View 4-H club, purchased the top cow from Darrow Lundeen of Trail for $420. The cow's heifer calf sold for $75 to make the total price of the top consignment $495. Lon Szymanski of Goodridge, member of the Mavie 4-H club, purchased the top yearling from Sheldon Erickson of Badger for $255.

Twenty-three cows, seven of them with calf at foot, sold for an average of $357.70 at the sale—down considerably from the top average of $415 in 1961. Production of the animals consigned was the highest in the history of the sale and a good crowd was on hand but bidding was generally light throughout the day.

Princess Kay Appears

Princess Kay of the Milky Way, Kathleen Hjelle of Argyle, served as guest auctioneer in opening the bidding on the first animal sold at the sale. She was also an interested spectator for much of the remainder of the sale.

Dale Svendsgaard of Goodridge, whose top-selling cow last year sold for $525, consigned the highest selling calf. The heifer was sold to Thad Szymanski of Goodridge for $195. The Szymanski family purchased five cows for a total of $1,655, a yearling heifer for $255 and the top calf for $195 for a total of $2,105.

The top-selling cow, a springing heifer which had produced a heifer calf several days before, is out of a dam which had a production record of 402 pounds of butterfat and was bred to Green Notch Segis Ginger, a proven sire with American Breeders Service. The highest selling yearling was out of a dam with a record of 20,569 pounds of milk and 647 pounds of butterfat as a five-year-old.

Sales Meeting

Consignors met for a sales meeting Wednesday evening in the Rex Cafe in what turned into a near pep-rally for the dairy industry. Stuart McLeod, president of the Northwest Dairy Improvement association, spoke to the consignors present, complimenting them on their work for herd improvement and having faith in the future of dairying in this area.

Lew Conlon, manager of the Minnesota Dairy Industry Committee, praised the group for a production sale. Too many state sales pay attention to production records, he said, and when you ask about production they say, "this isn't that kind of a sale". Conlon countered with, "Of cou-

At Orientation Meeting

Jaycees Install 14 New Members

Fourteen members recently added to the roster of the Thief River Falls Junior Chamber of Commerce were presented with membership kits and officially received into the chapter at the regular meeting of the Jaycees Thursday evening in the Elks club rooms.

Warren McIntosh, president of the chapter, welcomed the new members and told how Jaycee membership had helped him become acquainted in Thief River Falls. Marvin Lundin, first vice president and membership chairman, officiated at the installation ceremony, outlined Jaycee participation and reviewed the Jaycee Creed.

New members installed were Robert Purdy, James Fisher, LeRoy Kritz, Arnie Christensen, Richard Bjorkman, Barry Thompson, Frank Yetter, James Wilson, Lloyd Mattson, James Dale, Jon Larson, George Hildre, Kenneth Taylor and Dale Nelson.

Members present voted in favor of purchasing blue jackets with white lettering as official uniform accessory. The jackets are to be ordered by each Jaycee individually when the exact color shade and emblem has been decided.

Robert Purdy reported on the teenage dance which resulted in a net loss of more than $60 to the chapter. Another dance was held at the school the same evening which cut down attendance at the Jaycee-sponsored event.

Charles Holmquist, chairman of the Aquacade queen committee, reported that the local chapter will not host the district Miss Minnesota pageant since another chapter has already consented to do so. John McGinley was placed in charge of a committee to find storage space for the Jaycee float which has been placed on a trailer and cannot be stored in the former location.

Soo Line Sets Fare Reduction

Reduction in round-trip fare from Thief River Falls to Minneapolis and St. Paul has been announced by the Soo Line railroad this week. The fares are good for a 15-day period in addition to the day of sale and rates will be in effect until April 26, 1963.

Fare from Thief River Falls to Minneapolis is now $10.85 and to St. Paul is $11.25 round-trip. Children from 5 to 12 years of age may travel half fare and children under five years may travel free if accompanied by a fare-paying passenger. The train to the Twin Cities leaves this city at 11:10 p. m.

Safety Council Meets Tonight

Pennington County Safety council will meet at 6 p. m. tonight in the Rex cafe when at least two safety awards will be presented to council members, according to Charles Richards, county sheriff and president of the council.

Mrs. Caroline Sauls of Santa Barbara, Calif., spent last week visiting at the Simon Breiland home and with other relatives and friends in this community.

Public Schools to Close Wednesday at 1 p.m. for MEA

Thief River Falls public schools will be closed from Wednesday, October 24, at 1 p. m. thru Friday to permit the faculty to attend the 84th annual convention of the Minnesota Education association in the Minneapolis auditorium and elsewhere in the Twin Cities. More than 20,000 teachers are expected to attend the sessions Thursday and Friday. Featured speakers will include Harold Taylor, former president of Sarah Lawrence college, and now an author and TV host; and John Ciardi, poetry editor of the Saturday Review.

Regional Mental Health Parley Set in TRF October 30

Eight Counties to Share in Informational Meeting Sponsored by State Group

Citizens interested in mental health in eight counties in this area will attend a regional information meeting sponsored by the Minnesota Association for Mental Health.

The dinner meeting will be held at St. John Lutheran church in Thief River Falls on Tuesday, October 30 at 6 p. m. and adjourn at 9 p. m. Dr. Ralph Hinton, program director of the Northwest Mental Health clinic at Crookston, will be on the program. There will be a charge of one dollar for the meal.

The meeting will advance a program aimed at welding a statewide informed public to act effectively for an improved Minnesota mental health program. The state association initiated the regional information meetings in the fall of 1959 as part of its program of expanded statewide organization. Since that time 27 counties have affiliated with the association bringing the total number of county chapters to 34.

The Minnesota association is a non-profit, volunteer citizens organization with more than 40,000 active members throughout the state. The program of the association is aimed at reducing the tremendous human and economic cost of mental illness by developing adequate services in all areas of mental health in Minnesota.

York Langton, Minneapolis, vice-president of Coast to Coast Stores, is president of the association.

Counties included in the Thief River Falls meeting are Kittson, Mahnomen, Marshall, Norman, Pennington, Polk, Red Lake and Roseau. The meeting is open to the public.

Soil Samples Totaling 321 Come To Depot

"Excellent Response" Cited by Co. Agent for Soil Sample Days

Three-hundred and twenty-one soil samples were brought to the Soil Sample Depot during the Town-Country Days. "This is an excellent response considering the crop conditions we have had this summer" said County Agent Paul Stelmaschuk. "It also shows confidence on the part of farmers in the area in this scientific approach to crop production."

Edgar Naplin, who farms in Polk Center, had the highest number of samples at 23. Naplin has been testing soil carefully over the last three years and expresses confidence along with the many other farmers who test soil that it's essential for good crop and forage production. Second highest number of tests were brought by Clarence O. Swanson of route 5, Thief River Falls, who had 12 samples.

Soil samples were brought from the following locations: Thief River Falls, 156; St. Hilire, 33; Goodridge, 60; Red Lake Falls, 37. Samples were also received from Holt, Middle River, Grygla, Newfolden, Oklee, Euclid, Plummer and Viking.

In total 102 farmers brought in the 321 soil samples for an average of 3.1 samples per farmer. Considerable number of soil bank acreage coming into production was tested. The samples taken represent 9,481 acres of land.

The last two years Pennington county has topped the state in soil testing. The county was awarded a plaque both of these years for its work in this program.

Combining to put on the soil sampling drive were all the fertilizer dealers who worked in shifts in the trailer. The dealers completed the information sheets and packaged the soil. Land O'Lakes provides free transportation of the soil samples to the University of Minnesota where the chemical analysis will be run. Northwestern Trailer Court and Sales of Thief River Falls provided the trailer, free of charge, for use during the promotion. The soil sampling drive is part of the promotion of Town-and-Country Days sponsored by the Chamber of Commerce.

Chemical results from the soil samples are expected back from the University of Minnesota the last part of November or early December. At that time the extension office in each county involved in the soil testing area will receive the results from the laboratory. County agents involved will write the fertilizer recommendations on what fertility program is best for the crop they will grow next year.

Town & Country Days Meets With Success

TURKEY to serve thousands of Thief River Falls visitors turned slowly on the spit Saturday morning as a few curious individuals witnessed the operation. It took only four hours to complete the barbecue process with this over-sized charcoal burner, enabling the Trinity men's club to begin preparing sandwiches before the rush of the 11 a.m. serving began.

4,000 People Given Barbecued Turkey at Saturday Attraction

Northwest Town & Country Days held Thursday, Friday and Saturday in Thief River Falls met with favorable weather and considerable success. The event which included a number of activities was promoted by the Thief River Falls Chamber of Commerce in cooperation with several other organizations which combined to draw large crowds of people to the city.

Saturday's main attraction, the free turkey barbecue, was highly successful with about 4,000 persons being served barbecued turkey sandwiches, potato chips and milk or coffee. Food preparation was directed by Roy Monson of the Minnesota Turkey Growers association and serving was accomplished by the men's club of Trinity Lutheran church. Nearly the entire food supply was depleted as a result of the excellent response.

Drawing for the free turkeys awarded by Thief River Falls business places was held this morning and winners will be notified. Names of winners will be published in the Thursday edition of the Times. Duane Krohn of Viking won the free carload of groceries, including the car, offered on free registration at the auto show held in the city arena More than 30 new cars were on display.

Considerable interest was expressed in the industrial show held in the city auditorium during all three days of the promotion. Displays were erected by Arctic Enterprises, Inc., Forsberg and Sons, Northern Woodwork, Dow Key company and Valley Feed & Supply company.

About 150 interested farmers attended the Northwest Livestock Clinic held Friday evening at the Thief River Auction Mart just west of the city. Two extension specialists discussed feeding programs and the market outlook for feeder cattle. Five groups of feeders were on display and were the topic of discussion by the specialists.

Soil samples totaling 321 in number were brought to the collection depot—a house trailer located near the post office during the three days. Paul Stelmaschuk, county agricultural agent, stated that the response was good although many farmers did not test their soil since they have last year's fertilizer stored after being unable to seed grain this spring.

Princess Kay of the Milky Way, Kathleen Hjelle of Argyle, opened the Top of the Nation Dairy Sale Thursday and made five appearances as part of a dairy food festival on Friday. Cattle at the dairy sale averaged $357 and 14 yearling heifers and heifer calves were also sold.

Education Week Is Set Nov. 11-17

"Education Meets the Challenge of Change" Is AEW Theme in '62

"The concept of free public education for all the children of all the people is fundamental to our American way of life," according to George Stockman, chairman of the Thief River Falls American Education Week committee and director of elementary education for Thief River Falls schools.

"Anyone who advocates that our schools and colleges put their entire emphasis on the exceptionally talented, at the expense of the average student, should be reminded of the concept that has helped build our nation to its present greatness," he continued.

Stockman made these comments in announcing that the 42nd annual American Education Week will be observed in Thief River Falls November 11-17. "Education Meets the Challenge of Change" will be this year's theme for AEW programs and projects.

American Education Week is sponsored by the National Education Association, American Legion, National Congress of Parents and Teachers and U. S. Office of Education.

Basic AEW purpose is to make every American aware of the important role education plays in a democracy, and to help him realize that good schools and colleges are, to a very large degree, his personal responsibility.

"In this age of great technological and sociological change, many aspects of American education are changing to meet the new challenges," Stockman said. "However, most Americans want their schools and colleges to educate all children to the limit of their talents and abilities. All citizens must be encouraged to do their utmost. Their individual futures and that of our nation depend upon their doing so."

Local American Education Week committees include the following.

Mrs. Signe Nelson, Washington; Mrs, Myrtle Spangrud, Northrup; Mrs. Rosabelle Johnson, Knox; Miss Gladys Johnson, jr. high school; Lawrence Brown, high school; Arnt Aune, vocational; John Eisbrener, principal,

Council Adopts Assessment Roll On Four Projects

Adoption of assessment rolls on four city projects was accomplished by the Thief River Falls city council following hearings held Thursday evening in the council chambers of the municipal auditorium. About 75 persons were present at the hearings.

Persons affected by assessments have until November 19 to make full or partial payment without interest charges. After that time 6 per cent interest on the unpaid balance will be charged and the assessments will be spread over a 20-year payment period.

Princess Kay Comes Home

VISITOR to the Top of the Nation Dairy Sale in Thief River Falls Thursday was Princess Kay of the Milky Way, Kathleen Hjelle of Argyle. She is shown with Clyde Christensen, Thief River Falls, president of the Top of the Nation Dairy association, sponsor of the sale. Christensen is holding a two-day-old heifer calf from a cow consigned by Donald Craigmile of Hallock and having butterfat production records of 531, 503 and 562 pounds.

by Marvin Lundin
City Editor

Bright as a buttercup and pretty as a picture, Kathleen Hjelle returned to Thief River Falls Thursday. It was the rural Argyle girl's first official visit in northwestern Minnesota after her coronation as Princess Kay of the Milky Way at the Minnesota state fair. She represented Region 1 in the contest as Northwest Dairy Princess, receiving the regional title at Thief River Falls on June 12.

Kathy appears to be thriving on the rigorous schedule set forth for her as ambassadress of the state's dairy industry. While in this city on Thursday and Friday, she spoke to Lincoln senior high school girls, served lunch in the school cafeteria, opened the Top of the Nation Dairy sale and distributed free dairy product samples at two banks and three supermarkets.

During her full year's reign she will travel thousands of miles and make hundreds of appearances in behalf of her sponsors — the Minnesota Dairy Industry committee and the state's dairy farmers. In return for her services she receives a full wardrobe, regular salary and $500 college scholarship. She also has the opportunity to travel and meet a number of famous people.

Parents Thrilled

Her parents, Mr. and Mrs. Bertil Hjelle of Argyle, were present when she received her state title. According to Kathy, "they were just as thrilled as I was." For four days prior to the coronation, she participated in radio and television interviews with other regional winners who were candidates for the state title.

To those who by occupation or hobby follow Princess Kay each year, there is a notable change in the poise of winners from the start of the reign to the final day. Mrs. Lew Conlon, wife of the manager of the Minnesota Dairy Industry committee and official chaperone, agrees with Kathy that the change which takes place is merely a matter of "sink or swim."

No Pro Training

"There is no professional training given to state winners," Kathy said. "I went right to work on appearances after the fair and haven't had time for anything else. I guess you would have to say that experience gined while on the job is training in itself."

Working for the dairy industry this year will delay Kathy's college education for a year, but it won't change her plans. She had completed a year of study at North Dakota State University in Fargo where she was majoring in home economics. Unless she can manage some summer school sessions, she will graduate in 1966 and plans to become an extension

Speech Contests Again Are Planned by WCTU

WCTU ladies met at the Earle Ripley home Friday, October 19 at 2 p. m. Business session included reports and discussions on the program given by the organization at the Oakland Park nursing home in August, as well as on the Teachers' and Pastors' Tea, which the WCTU also sponsored early in September.

The group was shown samples of draw sheets and large bibs used in the veterans' hospital in Fargo. These samples will serve as patterns for a number of these items which will be made as a special project which the group has volunteered to undertake.

The speech department activity is getting underway again with speech contests planned for the near future. Winners of these contests will be awarded silver medals.

Jim Higgins, Duluth To Call Sets November 3

An out-sized grinning pumpkin, flanked by miniature pumpkin heads, brightened the stage for the Falls Squares and their guests Saturday, October 20th as they wheeled through the varied program offered by caller Ed DeLap. Hosts serving lunch were Mr. and Mrs. Herb Hartje and Mrs. Randall Noper.

Invitations to dance to nationally known caller Johnny LeClair at the National Guard Armory in Fargo at 8:30 p. m. Saturday, October 27th and to Norman Cross in Warren on Tuesday, October 30th, were announced.

Special plans are in the making for guest caller Jim Higgens of Duluth, who will make his initial appearance in the area Saturday, November 3rd, when he calls for the Falls Squares in Thief River Falls. Higgens calls to the accompniment of piano and accordian, bringing his own musicians with him.

St. Bernard's Guild met in the church meeting room on Thursday, October 18. Mrs. Clarence Gross, guild president, presided.

Father Keough Patnode, pastor at St. Bernard's church, opened the session with "The Lord's Prayer," after which plans were completed for providing meals for the Diocesan Catholic Youth Convention, which will meet here on October 25 and 26. Father Edward Herold of Oslo, youth director in charge of the convention, offered suggestions concerning the reception. Dinner groups were designated to prepare and serve the various meals.

A social hour followed the discussion, with lunch being served by Mrs. Robert Fitzgerald and Mrs. Louis Bray, hostesses for the evening.

Northwest School Crowns EGF Girl Homecoming Queen

Norma Hotvedt Winner of Title; Clearbrook Eleven Defeats Aggies 21 to 6

Norma Jean Hotvedt of East Grand Forks, recently elected by the student body as Homecoming queen, was crowned at the Homecoming festivities held on Friday, October 19, at the Northwest School of Agriculture, Crookston. Norma Jean is a senior at the school and the daughter of Mr. and Mrs. Norman Hotvedt. Her Senior attendants were Carol Fehr, East Grand Forks; Marian Klava, Grand Forks, N. D.; Beverly Shelstad, Doran; and Marcia Trydahl, Thompson, N. D.

At the Homecoming assembly program held in the forenoon, Norma Jean was crowned queen by a co-captain of the Northwest School football team, William Saxman of Georgetown. Dennis Diamond of Humboldt, recently elected student body president, served as master of ceremonies. Also appearing on the program were the school band, the Pepsters, a number of underclassmen who presented a short skit, and Northwest School staff members who presented special music or gave brief talks.

Another highlight of the day was the football game at 2 p.m. The Clearbrook High School "Hornets" won over the Northwest School Aggies by a score of 21-6. In the cross-country meet at the half of the football game, the Northwest School won over the Thief River Falls High School team.

The day's activities closed with the Homecoming dance held in the gymnasium in the evening.

TRF Girls Join in Great Books Talks

Discussion Group Met Sunday in E. G. Forks

Three Thief River Falls residents participated in a Great Books series of discussions Sunday at Sacred Heart high school, East Grand Forks.

Father G. Robert Pryor, assistant at St. Bernard's church, was moderator for a group of senior students who discussed "Wind, Sand, and Stars," by de Saint Exupery. Beverly Kleinvachter, daughter of Mr. and Mrs. Adolph Kleinvachter, and a student at Mount St. Benedict Academy at Crookston, was among the participants.

Laurel O'Gorman, daughter of Mr. and Mrs. Thomas O'Gorman, a student at St. Joseph's Academy, Crookston, participated in a discussion of Mark Twain's "Huckleberry Finn." Father Gerald Noesen, Red Lake Falls, moderated the discussion in which a group of sophomores participated.

Mrs. Cleo Thompson, librarian at Crookston, led a discussion of the same book in which Rosemary Bruggeman, a sophomore at Mount St. Benedict Academy participated. Miss Bruggeman is the daughter of Mrs. Fred Bruggeman of Thief River Falls.

Langen Banquet Set at Karlstad

Congressman To Speak At Event November 1

One of Congressman Odin Langen's only appearances in the north end of the Seventh District will be a major talk Thursday, November 1, at a banquet being held in his honor at Karlstad. The 7 p. m. dinner meeting is for voters in Roseau, Kittson, Pennington, Lake of the Woods and Marshall counties.

Due to the late adjournment of Congress, Langen has less than a month to personally conduct his campaign for reelection in the enlarged district created by reapportionment. The district has eight new counties containing 110,000 persons added to it this year.

Tickets will be available in Pennington county at Bredeson Cleaners, Les Ihle Insurance agency and the Times office in Thief River Falls. Among Marshall county ticket sellers will be Hartley Peterson and Harold Johnson of Middle River, Ervin Broten at Viking, George Rasmussen and Werner Newman of Strandquist and Verne Green of Newfolden. Rodney Langaas of Greenbush is in charge of Roseau county sales.

GOFER SAFETY

KITCHEN KARNIVAL

Features from the kitchen of

MRS. FLORA ALLISON

In response to a surprising number of requests, your editor is featuring a bit of background this week, along with her kitchen . . . There is so little time to spend there, what with a full-time job, that it practically ceases to function as such, but cookery is fun and sometimes the temptation becomes too strong to resist. Here is a favored recipe for just those times.

First, let me inform you that your society reporter, feature-writer (female type) and Karnival editor, is one and the same person. And she's a busy person, and needs your co-operation. If you like the recipe corner, why don't you send in YOUR favorite recipe? A short letter to the Times will do it, c/o Kitchen Karnival. We want, especially, unusual salads and meat recipes, and at this season, ideas for preparing game. (Some little trick of your own, for dressing up that meat you have to cook when "Daddy goes a-hunting" . . . If he's lucky!) Include something about YOU, your hobbies, your family, your husband's work. Your neighbors, and our readers everywhere . . . and we have them from *Texas to Alaska, from Hawaii to Maine . . . will appreciate your thoughtfulness.*

You've been asking about us. We are a family of three, who have lived here for the past ten years. My birthplace was Red Lake Falls; upon completing high school there, and a year of teacher's training, I went on to teach in the rural schools of Red Lake County, which kept me occupied for eight years. Following my marriage, in Plummer, I worked for a year in St. Paul. The war ended, and hubby home on rotation, I joined him in Oregon, later going with him to Little Rock, Ark., and then on to various army bases in Texas. We have not unfortunately, been together since the birth of our son.

Our two children, Diane, 17, and Bill, 16, are attending school in North Dakota, Diane to study nursing at St. Michael's Hospital in Grand Forks, and Bill is on a ranch, attending school at Beach, N. D.

This Times job is my introduction to the newspaper field, (a natural for me, since my first love, next to my children, is writing, mostly of the creative sort.) The features present the greatest challenge to me, and produce the most satisfaction.

The recipe? Simple, but delicious. Wonderful for entertaining. A treat for the kids, when they're home.

BEEF ROLL-UPS

1 lb. round steak, cut ½ inch thick
½ lb. pork sausage
½ lb. ground beef
1 cup soft bread crumbs
2 tbsp. minced onion
1 tsp. dried red and green pepper flakes
¼ cup flour
3 tbsp. lard
1 can condensed consomme
2 tbsp. chilli sauce
Flour for gravy

Cut steak into 5 or 6 servings and pound until it is ¼ inch thick. Mix other ingredients, except the flour and lard, and place about ¼ cup of the mixture on each piece of steak. Roll, jelly-roll fashion, and fasten with wooden picks or skewers. Dredge each in flour. Brown in hot fat. Combine consomme and chili sauce and add to meat. Cover. Cook 1½ hours, or until tender. If you like gravy, thicken the cooking liquid with flour thickening.

CAUTIOUS friends are five-year-old Danny Vaudrin, son of Mr. and Mrs. Raymond Vaudrin of 116 State av. N., and this gray squirrel which has found Danny to be a generous provider. The squirrel lives its own life and goes its own way, but usually turns up at the Vaudrin home around noon when Danny provides his visitor with hazelnuts or cookies. As the squirrel sat up after taking all the nuts offered on one of his visits, Danny commented, "See, mommy, he's just praying for some more."

The Library Corner

(By Edwin Stengelsen)

It has happened to all of us on occasion that a friend has urged us to read a particular book. "It's wonderful," we are assured. So we read it. We get no impact from it whatsoever. The explanation is, of course, that we haven't all the same tastes.

We go to the library to select a book for our week-end or evening reading. We browse among the shelves and in a more or less hit-and-miss manner, select a book—or books—that we hope will suit our taste. The list given below may help you make your next selection. They are sufficiently varied in content so that among them you should find somthing you'll enjoy.

"Sunrise to Sunset," by Samuel Hopkins Adams. A romance-business story from the early American industrial age in northeastern U. S. It shows the callous treatment of workers before the days of organized labor.

"The Raw Edge," by Benjamin Appel. The romantic angle is minor. The book concerns itself principally with conditions, under which stevedores on N. Y. docks work. There is a satisfactory assortment of grafters, gunmen, crooked union officials, bribery, etc.

"The Great World and Timothy Colt," by Louis Auchincloss. A romance-business story. Setting is a distinguished and highly ethical old law firm in which the hero is employed. A dramatic story.

"The Final Diagnosis," by Arthur Bailey. A young doctor who is struggling to rebuild a run-down hospital and his conflict with the old doctor who consistently opposes him.

"Umberto's Circus," by Edward Bass. A European circus story in a Bohemian setting. Setting and characters unusual.

"A Gift for Gomala," by John Baxter. This is a recent book acquired by your library. Setting is Washington, D. C. The fictional state of Gomala is trying to obtain a $185 million loan from the U. S. There is the lobbyist who is trying to put it across for a $175,000 fee, the private banking firm that wants the business. Shows the maneuvering and intrigue going on behind the scene in Washington.

"The Season of the Stranger", by Stephen Becker. A well-written story from the late days of Nationalist rule in China.

"Wait for the New Grass," by Henry Birne. Setting is Old Mexico. Story of U. S. commission helping Mexican government stamp out hoof and mouth disease. At first glance, this might seem like a dry subject. But author has managed to inject a lot of drama into it.

"Days of Gold," by Irwin R. Blacker. Story centers on Simon Colt, an ex-school teacher, and his Indian partner, Tlingit Tom. They make a rich strike. Colt becomes a drunk, the Indian the wealthiest man in the new town. Highlights white prejudice against the Indian.

"The Strange One," by Fred Bodsworth. This is a new book, obtained recently by your library. The boy from the Hebrides who becomes a biologist and goes to Canada to study geese on James Bay; the educated Indian girl who obtains a job teaching a white school and encounters the prejudices of the whites; the Barnacle goose which has visited the Hebrides and also travels to James Bay. A dramatic as well as charming story.

BY MARY LUNDIN

DID YOU EVER GET BOILING MAD about something you read — something that sort of sparked your temper and irked you more every time you thought about it? Well, if you never have, here is something to think about that should cause at least a little righteous wrath.

Imagine that your salary is $8,200 a year and you are almost $30,000 in debt. Last year your debt increased by $390 and this year you are adding at least $700 to your indebtedness. Your friends warn that this is the road to financial ruin so you and your wife sit down to draw up a budget for next year.

Instead of reducing expenditures, or even holding them at their present level, you decide that you will spend $340 more next year than this year. You do this on the assumption that you will receive a salary increase next year — although it is not definite that you will. Little or no consideration is given to the $30,000 debt. The significant thing is that you expect to make *more money next year and therefore you plan to* spend it.

It should be quite evident to others that your handling of finances in this manner has you headed for serious trouble. If you take the same situation and add seven zeros to the above figures, you have the exact fiscal situation of the federal government. This is not a partisan political issue—it is a cold-blooded financial problem—and it should make the taxpayers blood run a little hot.

Granted that there are many things which merit government expense, there are many others which could be handled as well or better at a more local level. Two thoughts were presented to me during the past week by local people who are concerned about excessive government spending and wholesale distribution of our tax dollars.

One thought was this: "I never appreciated anything I got for nothing. If I had to go out and work for something, maybe save for it or wait until I had the money to get it, it meant something to me. I have seen communities that requested aid from every governmental source imaginable—and received considerable amounts—and have now heached a point where they have lost the desire to do anything for themselves."

The other thought was as follows: "The number of government employees handling government programs is fantastic. If the agencies which are not really needed were disbanded and the personnel in them left without a nest to feather, President Kennedy really would have an unemployment problem. But the citizens paying the bills would have a much lighter load to carry."

Last Thursday was International Credit Union day. These unions are owned and operated by their members who save in it together, borrow from it at a low rate of interest and pay dividends to those who have money invested. There are three credit unions in Thief River Falls.

●

The story is told of an English lady, self-appointed supervisor of village morals, who accused a workman of returning to drink because she had seen, with her own eyes, his wheelbarrow standing outside a tavern. The accused made no defense, but that evening he put his wheelbarrow outside the house of his accuser and left it there all night.

●

Which brings to mind the tale of the Russian worker who each day pushed a wheelbarrow filled with straw through the gates of the factory where he worked. Guards suspected him of stealing something, but were not sure what, and each day ceremoniously searched the straw to no avail. One day the man was injured critically, and as he lay on his death-bed, the guards came to him. "Please", they pleaded, "before you go, tell us what you were stealing." The answer was whispered, "Wheelbarrows."

SAGA OF THE SEA

The tugboat captain slipped and fell
An was lost in the rolling bay.
His widow was left with a tale to tell
To the mourners who came each day.

"He left me a fine estate," said she,
"Of about a hundred grand.
Though my sorrow's blamed to the cruel sea
I can fare quite well on land."

"Him who couldn't write or read!"
One exclaimed in the evening dim.
"Tis true," the widow quite agreed,
Then blurted out, "or swim."

150 Farmers Attend

Livestock Clinic Is Informative Lesson

One-hundred and fifty farmers heard a discussion at a special livestock clinic on the profit prospects in cattle and hog operations for 1962-63. Duane Erickson, extension economist at the University of Minnesota told his audience at the livestock clinic, held Friday, that hogs, U. S. No. 1, will be around $16 a hundred weight in the fall of 1963. The prospects for hogs in the fall, winter and summer quarters are good plus. The prospects for hog profits in the fall of 1963 are fair to good.

Erickson emphasized that these prospects are based on average farm production efficiencies. Some farmers will make less money, and some will make more, depending on their own production efficiency. This same thing is true for other farm products marketed.

"Beef prices for various grades vary" Erickson said. "Next year's prices are expected to be one to two dollars lower on finished cattle than during the same period in the year just past." For instance in September of 1962, price on choice fed cattle was 29 cents. In September of 1963 this grade will sell for 27 to 28 cents per pound. Lower grades of cattle sell for less per cwt. than the choice grade and these grades will also return one to two dollars less than this year at the same periods of time.

Dr. Ray Arthaud emphasized high roughage rations for feeders in the Thief River Falls area. "An area which has a natural advantage in producing lots of good forage could sell much of this forage through beef feeders", said Arthaud. Better quality feeders can be put on higher grain rations. Lower quality feeders can use more hay and silage. But each farmer has to select a program and type of feed to finish feeders for a certain time of the year. This may mean adjustments in amount of grain for finishing a particular grade of feeder.

Five lots of cattle were displayed at the Thief River Livestock Auctionmart. The lots were weighed and farmers were told of the profit prospects with each grade of cattle. Arthaud pointed out that each lot displayed could make profits for the feeder if purchased at quoted prices and handled under average conditions. The best prospects appeared on 310 pound dairy calves which were selling for twenty cents a pound. The break even price on these will be $16.25 per cwt. When these calves are sold next fall, Arthaud stated, when corn is selling at $1.26 per bushel, farmers can feed cattle more cheaply with barley if it sells at 85-90 cents.

When buying feeder cattle it's important to see that the cattle get properly balanced rations which have protein, vitamins and minerals in adequate amounts. Stelbestrol as an implant or with feed in the ration is important in increasing profits from beef feeding. Also farmers need to know what grade of feeders they are buying. Some feeders just never will finish to "choice" grade. The farmer needs to develop a feeding program best suited to get the most money out of the type of cattle purchased and the feed he has on the farm.

se it's not that kind of a sale if you don't make it that way."

Right Kind of Cattle

Martin Carrico, sales manager, commented on the cattle consigned to the sale, noting that average production was well over the 500 pound mark. "These are the right kind of cattle," he said, "the kind of cattle we want to get into our herds to go to work and make some money for us. We have asked for the best animals in the herd and they have been given to us. This is really a show-window sale—not a sale of cattle that someone doesn't want any more."

Clyde Christensen, president of the Top of the Nation Dairy association, sponsor of the sale, presided at the meeting. Slides and commentary on Northwest Dairy Day were provided by Marvin Lundin of the Times news staff. The luncheon meeting was sponsored by the Thief River Falls Chamber of Commerce.

At noon Thursday a dinner for consignors and buyers was served to about 40 persons at the livestock pavilion. The dinner was sponsored by Consolidated Breeders Cooperative of Anoka and American Breeders Service of Thief River Falls.

Princess Kay Is Visitor In TRF Thursday, Friday

home agent.

"Actually, being Princess Kay will help a great deal when I finally finish college and begin my work," she said. "I appreciate the chance to represent my own people after all, my father raises dairy cattle — and to tell people about the size of the dairy industry in the state. I really feel that everyone should know about the nutrition which dairy products have to offer."

Many Experiences

Among her many experiences already noted as Princess Kay, Kathy recalls several which stand out in her mind. One was the trip to Chicago for four days to participate in the national dairy princess contest. Another was meeting western singing star Jimmy Dean at the airport when he arrived for his state fair appearance. A third was meeting with Governor Elmer Andersen and other state officials at a "Minnesota Products Luncheon" held just last week at the state office building in St. Paul.

To say more would not be fair, Kathy believes. "Every appearance is different and each holds its own special thrills," she said. "It is hard to compare them and select any one greatest moment or experience."

Only once has Kathy been able to return to her home near Argyle. "That was just for a little while to do some picture taking," she said. A feature story on Princess Kay and her family, written and photographed by Howard Ryan of MDIC, will appear soon in the Picture Magazine section of the Minneapolis Sunday Tribune.

Looking forward to next Northwest Dairy Day? "Well, I don't know," Kathy smiled. "In a way, yes, because I want to come back to my home area. But it will also mean that I am getting close to the end of my year—and I don't look forward to that."

OUTDOOR living took on giant-size proportions Saturday as a free barbecued turkey was served to about 4,000 persons at the rear of the city arena. Much of the crowd is lost to view in this photo as the long, wide line extends far back into the arena where the Pennington County Automobile Dealers association staged a two-day auto show with more than 30 cars on display. In spite of the preparation for a large crowd, the serving group "ran out of just about everything."

ROUNDTABLE discussion at a rectangular table was interrupted for this photo at the Ninth District American Legion membership rally Thursday evening at the Legion club rooms in Thief River Falls. Left to right are H. T. Colbjornsen, Parkers Prairie, Ninth District commander; Donald Miller, Round Lake State Department commander; Steve LaFond, Little Falls, State Department vice commander; and John Elsbrener, commander of Ecklund-Holmstrom Post of the American Legion in Thief River Falls.

The yearling is out of a dam with a record of 20,569 pounds of milk and 647 pounds of butterfat as a five-year-old.

Bertha Johnson Dies Saturday; Funeral Tuesday

Mrs. Bertha Johnson, a pioneer resident of Marshall county and a resident of Thief River Falls for the past 18 years, passed away at Northwestern Hospital on Saturday morning, October 20, at the age of 82.

Final rites will be conducted Tuesday, October 23, at 2 p. m. at the First Baptist Church, Rev. Joseph Swan will officiate, and burial will be made in the Germantown cemetery.

The body will lie in state at the Green Funeral Home from noon today until noon on Tuesday, and at the church for one hour preceding the time of the services.

Mrs. Johnson, who was born in Hardanger, Norway, January 4, 1880, came to this country at the age of 18, joining her parents, who had come here from Norway two years' earlier, and were homesteaders in Moylan township, Marshall county.

In 1900 she was united in marriage to Peter Johnson at Crookston, and after their marrige they also homesteaded in Moylan township. Mr. Johnson died in March, 1938. His widow continued living on the farm until 1944, when she moved to Thief River Falls.

Mrs. Johnson is survived by three daughters, Mrs. Julia McCoy and Mrs. Gunder (Gladys) Grovum, both of this city; by six sons, Elmer and Albert of Goodridge; Oscar and Benhart, both of this city; Arthur of Aurora, and Johnnie, Duluth. 32 grandchildren and 27 great-grandchildren also survive her.

She was preceded in death by her husband, two sisters, and three brothers.

Mrs. Louis Yell, Former Resident, Dies On Saturday

Mrs. Louis M. Yell, of 3709 Orchard Ave. Robbinsdale, a sister of Mrs. Esther Plough and a former resident of this city, died late Saturday night, October 20, after an illness of several months. She was 76 years of age.

Funeral services are tentatively scheduled at Sacred Heart Church at Robbinsdale on Wednesday, October 24, with Mrs. Yell's nephew, Rev. James Plough of Notre Dame University, Indiana, as celebrant of the requiem high mass.

Born in Canada on May 7, 1886, Mrs. Yell came to Thief River Falls before the turn of the century. She married Louis Yell in St. Bernard's Catholic Church on July 16, 1911. The couple celebrated their golden wedding anniversary last year.

Mr. Yell survives her, as do two sisters, Mrs. Esther Plough of this city, and Mrs. E. W. (Laura) Reed of Glenwood. Also surviving are two nephews, Rev. James Plough of Notre Dame U, and Robert Plough of Seattle, Wash., and one niece, Mrs. Colin McDonald, of St. Paul.

Zion League Host To Reformation Rally on Sunday

Zion Lutheran church senior league will host a Reformation banquet Sunday at 5:30 p. m. in the church parlors. Dr. Merton Strommen, director of Lutheran youth research, will speak on the topic, "What's the Difference".

Invitations have been extended to leaguers from First Lutheran and Trinity Lutheran churches of Thief River Falls and First Lutheran church of Goodridge. All youths from these churches in grades 10, 11 and 12 are invited to attend.

Bryant Ulseth, vocal music instructor at Lincoln high school, is in charge of music for the program. He will sing "Penitent Son" and direct the group in the singing of two other numbers. Group singing will be accompanied by a brass quartet.

Tickets at 75 cents per plate may be received from any Zion senior league member or by calling Myrna Weckwerth at MU 1-1597.

3 Prisoners Escape Polk Co. Jail after Attacking the Jailor

Sylvester O. Nathaniel, Philadelphia, Pa., one of the three fugitives who broke out of the Polk county jail, was captured Friday night when he sought to thumb a ride in a highway patrol car on the Red Lake Indian reservation.

Another fugitive, Charles T. May, living on the reservation, was captured Thursday, but, after being handcuffed, escaped from a police vehicle while the officers were seeking for Nathaniel and the third man, Wm. LaJuanesse. The other two were captured Sunday.

After escaping from jail Wednesday, the trio had stolen a car and robbed a grocery store near Gonvick.

Three prisoners, all with long criminal records, fled the Polk county jail at Crookston Wednesday night after beating the jailer severly with a variety of makeshift weapons.

Sheriff Carl Knutson said the attack came as Tony Janorschke, 58, the jailer, was removing supper trays from the cell block.

The assailants were identified as Charles T. May, 23, and William M. La Juaness, 25 both of Red Lake, Minn., and Sylvester O. Nathaniel, 34, who gave his home city as Philadelphia.

Janorschke came into the ground floor cell-block to pick up waste baskets and May struck him on the head with a heavy cribbage board, the sheriff said. Knutson added that May had left his cell and jumped the jailer from a corridor. Janorschke fell to his knees.

Nathaniel somehow had smuggled a knife into the jail and Knutson said he brandished that at six other prisoners to keep them from going to the jailer's aid while the escapees took Janorschke's keys.

When the jailer continued to resist, he was beaten with a heavy broom handle and a steel spring wrenched from a cell bunk. Although semi-conscious after the attack, Janorschke managed to reach the jail's radio microphone and sound an alert before he collapsed.

None of the other prisoners joined the escape, although Knutson said "all the doors were open." He reported it took 40 stitches to close the wounds in the jailer's head. Janorschke was reported in satisfactory condition.

The escapees were believed to have fled in a pickup truck which had been parked by a shopper at a grocery a block north of the jail.

Knutson said that the fugitives wore normal civilian clothing and should be considered dangerous.

Nathaniel, held on a larceny charge, has a string of convictions dating back to 1941 and ranging from Florida to Canada, Knutson said.

LaJuaness, jailed for armed robbery, first entered police files in 1952 and May, despite his comparative youth, has a extended record back to 1956 and including several assaults, some against federal and state officers.

Knutson said he has filed additional charges of jail breaking and assault against each of the three and, on the theory that they may aready have crossed a state line, into North Dakota, was asking the FBI for federal fugitive warrants for the trio.

In addition to Nathaniel's knife, the sheriff said an old *pair of shears was found among* the prisoners' effects, together with a length of stout wire with which they had been chipping at mortar holding the jail walls together.

Card Of Thanks

We wish to express our sincere thanks to the many relatives, friends and neighbors for their kindness and sympathy extended to us during the illness and death of our father, grandfather and great grandfather.

Especially do we appreciate the comforting words of Pastor Milton R. Wilson, the message in song by Mr. Charles Holmquist and the organ music by Miss Inanda Hanson.

We also wish to thank the personnel of the Oakland Park Rest Home, the Northwestern Hospital, the Falls-Starekow Clinic and the Sinding Funeral Home for all their care and assistance at this time.

To the pallbearers, the Silverton ALCW for serving lunch, to those who sent food to the house, for the flowers, cards and memorials we wish to express our sincere appreciation. Your thoughtfulness will always be remembered.—The family of Ole E. Grinde. 1t84p

Rocksbury 4-H

The Rocksbury 4-H club had a hayride on Saturday, October 6. Each member was allowed to bring a friend. At the meeting following the hayride, president Harlan Braaten called the meeting to order. It was decided not to sell light bulbs this year. The regular meeting day was changed from the fourth Wednesday of the month to the second Saturday of the month. The Halloween party was changed to October 10.

A lunch of barbecues, cocoa, and cupcakes was served by the ladies of the club.

Senators Report Government Feed Grains Available

Say Grain Is Available at Reduced Prices to Eligible Area Farmers

Senators Hubert H. Humphrey and Eugene J. McCarthy announced Friday that the secretary of agriculture will make available government owned feed grains at reduced prices because of the acute shortage of feed in the following counties: Beltrami, Clearwater, Koochiching, Lake of the Woods, Pennington, East Polk, Red Lake, Roseau and parts of Kittson, Marshall and West Polk.

The Minnesota Senator said "eligible farmers will be able to purchase up to a 90 day feed allowance at one time at not less than 75 per cent of the feed grain support price, in order to preserve and maintain foundation herds of cattle." The Minnesota Senators said that foundation herds include dairy cattle, sheep and goats.

"For other eligible livestock, not foundation herds, government feed grains may be purchased at 100 per cent of the support price."

They pointed out that the county ASC committees are charged with the responsibility of determining eligibility of the producers for assistance and that there will have to be a demonstrated need that there is not sufficient feed for individual livestock owners obtainable through normal channels of trade without undue financial hardship.

Crop Insurance Cuts 1962 Losses

David Drotts Now Taking Applications for 1963

Heavy crop losses in Pennington county will be eased by payments to farmers who participated in the Federal Crop Insurance program this year, according to David Drotts, FCIC Agent. These losses in this county on barley, wheat, and flax resulted from excessive moisture and an unusually cool growing season. Indemnities paid to farmers are from the corporation's premium income reserve, and are not taxpayer's dollars, Drotts stated.

The FCIC program is a USDA administered self-help plan whereby farmers join together to spread their risks to avoid financial disaster when serious crop losses occur.

It is not intended that indemnity payments replace a normal harvest, but rather are expected to cover a farmers "working capital" that are invested in producing his crops against losses such as frost, hail, drought, excessive moisture, insects and all other unavoidable conditions caused by nature.

Applications for participating in the 1963 program are now being received by Drotts.

Christensen At Water Refining Company Meeting

Lectures at Session Held at Leech Lake; Studies New Equipment

Arnie Christensen, operator of Falls Building Improvement company in Thief River Falls, recently returned from attending the Water Refining Company's three-day school on sales and service held at Ochler's resort on Leech Lake.

Christensen lectured on taste and odor control and proper application of equipment. Other speakers included Dwight Thatcher, field service instructor from Middletown, Ohio, who conducted classes on service training and proper sizing of domestic and commercial equipment; and Lawrence Higdon, associate marketing manager, Dayton, Ohio, who lectured on proper sales techniques and customer relations.

Earl Drews, water analysis department representative from Kansas City, Kan., demonstrated the Sabro portable laboratory for bacteriological analysis of water. This approved method of testing for the purity of water and the services of the equipment are now available at Falls Building Improvement. Known as the filter membrane method, the system is approved by the U. S. Department of Health for testing for pathogenic bacteria.

All dealers, wives, salesmen and service personnel for Water Refining company products in northern Minnesota and eastern North Dakota were in attendance at the meeting.

Local Banks Aid 4-H Foundation

National Organization Supports New Projects

Northern and Union State Banks in Thief River Falls have joined with other Minnesota banks in nationwide support of 4-H club work through a contribution to the National 4-H Club Foundation in Washington, D. C. The announcement was made by Gene Bolto, executive vice-president of Northern State Bank, and J. J. Womack, president of Union State Bank.

The Foundation provides an opportunity to broaden the bank's traditionally strong support of the local and state 4-H movement. Leadership for the Minnesota participation came from Paul W. Gandrud, vice-president of the Swift County Bank of Benson.

The National 4-H Club Foundation conducts "Service to Youth" programs in citizenship education, leadership development, International Farm Youth Exchange and operates the national 4-H center. Special studies are being conducted currently on science education in 4-H and on potential 4-H service for urban youth. Under a government contract, 4-H Peace Corps groups in Brazil and Venezuela have been launched by the 4-H Foundation.

Leonard L. Harkness, Minnesota state 4-H club leader, is a member of the Foundation's board of trustees.

TRF Prowlers Bow to Bemidji Eleven 27-13

The Prowlers and the Lumberjacks treated a large crowd of fans to a championship brand of high school football on the Bemidji State college field at Bemidji on Friday night, and coach Red Wilson's Bemidji club, by a 27-13 score, defeated coach Joe Mrkonich's blue-and-gold squad. The win gave Bemidji the Northwest football conference title, with the Jacks closing out their conference competition with a four wins and no losses mark. The Prowlers will conclude their conference play on Friday night when, on Crookston's Highland Park field, they meet the Crookston Central Pirates.

The ability to spring their speedy backfielders into the open provided the Lumberjacks with their game-winning points on Friday night. Two of the Bemidji touchdowns came as a result of long gainers, with Roger Johnson breaking out around left end for a 63-yard touchdown jaunt in the first period, and Dennis Aguiar slipping through the center of the line and scampering away for a 59-yard touchdown gallop.

The other two Bemidji touchdowns were marked up by fullback Dave Gruel, who hit the center of the line for a one-yard plunge on a fourth down play in the second period; and Johnson's 18-yard sweep of left end in the third period.

But the Prowlers made the game a battle throughout the forty-eight minutes of the exciting tussle between the two traditional rivals.

The locals, defending the west goal, accepted the game-opening kickoff, with Steve Mittelstadt making a 10-yard return to the Prowlers' 29-yard line. The Prowlers uncorked a drive that racked up five first downs, and was capped by John Aune's sneak of less than a yard over the east goal-line for a touchdown. Paul Klungness, on a run, failed to convert the extra point, and the Prowlers held a 6-0 lead.

But not for long. On the third play following the ensuing kickoff, and from the Bemidji 37-yard line, Johnson, with a strong interference, broke out around left end and was away for a touchdown. Aguiar, on a sweep of right end, added the extra point, and the Jacks had a 7-6 lead.

The Prowlers bounced back to start another drive, and picked up a pair of first downs, carrying the ball to the Bemidji 21-yard line, where a fumble gave the Jacks' possession.

Bemidji capitalized on that fumble as coach Wilson's club, with their best sustained attack of the game, drove for four first downs and a touchdown. Bemidji required four plays from the 3-yard line before Gruel, from a yard out, scored the TD, giving Bemidji a 13-6 half-time lead.

Bemidji moved into a 20-6 lead early in the third period when Johnson scored on an 18-yard run, and Dick Fortier completed a pass to Wally Peterson for the extra point.

The Prowlers, from their 44-yard line, on eight plays and four first downs, drove to the Bemidji 1-yard line as the third period ended. And then opened the fourth period with a touchdown as Mittelstadt hit left tackle for the TD. Mittelstadt added the point on a plunge, and the Prowlers were back in the game, trailing by a 20-13 score.

A disputed fourth-line call, which found Bemidji taking possession on their own 34-yard line, set up the Jacks' final tally. After Gruel had gained four yards at right tackle, and Johnson run for three yards at left end, Aguiar knifed through the line and raced for a touchdown. A Fortier-to-Peterson pass added the point.

But the Prowlers refused to buckle, and the locals, with Klungness carrying the ball on eight of nine plays, moved from their own 20-yard line to the Bemidji 19-yard line. With short time remaining, the Prowlers took to the air, but the strong rush of the Bemidji forwards broke up the aerial attack and the game ended with the Prowlers having possession on the Bemidji 43-yard line and fourth down.

During the game, the Prowlers marked up seventeen first downs, a net yardage of 227 yards by rushing, and 22 yards by passing; while the Jacks had twelve first downs, 296 yards, net, by rushing, and 14 yards by passing.
